Using Destiny: The Online Library Catalog

What is Destiny?

- Destiny is what we use for a library catalog
- A library catalog is a listing of all of the materials available in the library
- You can use Destiny from any computer that is connected to the internet (even at home)!

How to find Destiny

- In the library you can click on the Destiny Icon on the desktop of the computers (it looks like a tree).
- From anywhere you can go to:
[https://www.district205.net/thornridge,](https://www.district205.net/thornridge)
click on Library, and click on Destiny Discover

Searching with Destiny

- The default search is “keyword.” If you enter a search term and press “enter” it will search via keyword.
- Keyword is typically the easiest way to search if you are not sure what you are looking for (i.e. “dogs” or “wrestling”)

Ways to Search

- Keyword is the default search and is best for searching common, simple terms such as “flowers.”
- You can search by Title. You must have the correct title with the correct spelling for this search to be effective.
- You can also search by Author. Again, correct spelling is important.

Ways to Search cont.

- You can search by Subject. This is not recommended because it only searches very specific subjects. This is usually only used by the librarian.
- You can search by Series. You probably will not use this much because if you are familiar with a series you could just search by title or author instead.

Now how do I find my book?

- First make sure the book is checked IN
- Use the CALL NUMBER to locate the book on the shelf
- “FIC” means the Fiction section, Numbers mean the Reference and Non-Fiction section, GN means the Graphic Novels section

What order are the books in?

- “FIC” books and “GN” books are in alphabetical order by the author’s last name
- Non-fiction and reference books are arranged using the Dewey Decimal System----which is by category or subject
