## What did we hear at the Pop Ups?

- General support for the end of 6-12 school model.
- Concerns around class sizes and classroom management.
- Concerns around bringing together different neighborhoods together and loss of generational connection to schools.
- The need to ensure reliable transportation.
- Would like to see data and research used to support base recommendation.
- Concerns with magnets maintaining their unique experiences and culture as neighborhood schools.

*“I would like us to have our own school. Hazelwood has been used to keep schools open, but Hazelwood could be a model for the District if it opened a robotics themed school in line with the development taking place.”*
