

Common Questions for Student Surveys at Appleton Area School District

Where can I find the content of the Appleton SEL survey?

The full set of questions for each of the student surveys being used is available below:

- 3rd-5th Grade Version -- [Competencies](#) and [Supports / Environment](#)
- 6th-12th Grade Version -- [Competencies](#) and [Supports / Environment](#)

Does Panorama content include questions regarding the mental health of my student?

No. Panorama survey content is not designed for nor should it be used to identify students who require mental health or trauma treatment. The Panorama survey aims to help educators understand students' general social-emotional needs and strengths.

Are any questions required for students to complete the survey?

No. All questions are optional for students, and they may skip items as is needed.

Where can I find Panorama's Privacy Policy?

Panorama's full [Privacy Policy](#) can be accessed publicly through Panorama's website.

How does Panorama handle parental consent for students completing surveys?

Panorama requires districts to obtain any necessary parental consent or provide any required disclosures to parents or guardians. We will gather information from students directly only as requested by a district and only for the purposes of providing our services to the district.

Can I choose to not to have my student participate?

Yes. Please reach out to your district should you want your student to refrain from participating in the student surveys this school year.

Does Panorama collect demographic information like 'Parent Name', or 'Place of Birth'?

Each district has full discretion on which student rostering and demographic information is provided to Panorama. Appleton is not providing the above to Panorama.

What does a sample student's results look like?

You can view a sample [student-level report here](#) (note: this is not a real student).

Who has access to student response data for individual questions?

To preserve student confidentiality, individual question responses are not visible in the platform to Appleton, district, or school staff. *Only topic-level summary data is available to only educators who support your student.*

Can I request access to my student's report once data becomes available?

Absolutely, you may reach out to your school to request this information.
