**OFFICIAL BALLOT FOR THE  
BOARD OF EDUCATION OF SALT LAKE CITY SCHOOL DISTRICT, UTAH  
SPECIAL BOND ELECTION**

November 5, 2024

Shall the Board of Education of Salt Lake City School District, Utah, be authorized to issue general obligation bonds in an amount not to exceed \$730,000,000 and to mature in no more than twenty-one (21) years from the date or dates of issuance of such bonds for the purpose of raising money for constructing buildings, acquiring land and furnishings and remodeling and updating existing school property, under the charge of the Board, and, to the extent necessary, for providing moneys for the refunding, at or prior to the maturity thereof, of general obligation bonds of the Board authorized hereunder or heretofore issued and now outstanding?

**PROPERTY TAX COST OF BONDS**

If the bonds are issued as planned (which currently consists of 5 smaller issues of bonds totally approximately \$730,000,000 over the next 5 years, with each issue of bonds maturing approximately 20 years from the date it is issued), without regard to the taxes currently levied to pay outstanding bonds that will decrease over time, an annual property tax to pay debt service on the proposed bonds will be required over a period of 25 years in the estimated amount of \$220.80 per year on a primary residence with the District average value of \$576,000 and in the estimated amount of \$401.46 per year on a business or secondary residence having the same value, which is equal to \$18.40 per month on the primary residence and \$33.45 per month on a business or secondary residence.

The Board currently levies property taxes to pay debt service on other outstanding general obligation bonds that have been issued to finance voter approved projects. The incremental property taxes would decrease upon the repayment of the currently outstanding bonds, but the decrease will not occur if the proposed bonds are issued. Taking into account the repayment of the outstanding bonds, the Board expects that the issuance of the proposed bonds, in the manner currently expected, will result in an estimated tax increase in the amount of approximately \$205.42 per year on a primary residence with the District average value of \$576,000 and of approximately \$373.49 per year on a business or secondary residence having the same value, which is equal to \$17.12 per month on the primary residence and \$31.12 per month on a business or secondary residence.

The foregoing is only an estimate and is not a limit on the amount of taxes that the governing body may be required to levy in order to pay debt service on the bonds. The governing body is obligated to levy taxes to the extent provided by law in order to pay the bonds.
