

# LCFF Budget Overview for Parents

Local Educational Agency (LEA) Name: Ross Valley Charter School

CDS Code: 21770650135350

School Year: 2024-25

LEA contact information:

Page Hersey

School Director

[page.hersey@rossvalleycharter.org](mailto:page.hersey@rossvalleycharter.org)

415-534-6970

School districts receive funding from different sources: state funds under the Local Control Funding Formula (LCFF), other state funds, local funds, and federal funds. LCFF funds include a base level of funding for all LEAs and extra funding - called "supplemental and concentration" grants - to LEAs based on the enrollment of high needs students (foster youth, English learners, and low-income students).

## Budget Overview for the 2024-25 School Year

### Projected Revenue by Fund Source

This chart shows the total general purpose revenue Ross Valley Charter School expects to receive in the coming year from all sources.

The text description for the above chart is as follows: The total revenue projected for Ross Valley Charter School is \$3,121,512, of which \$2,196,539 is Local Control Funding Formula (LCFF), \$398,140 is other state funds, \$453,296 is local funds, and \$73,537 is federal funds. Of the \$2,196,539 in LCFF Funds, \$128,633 is generated based on the enrollment of high needs students (foster youth, English learner, and low-income students).

# LCFF Budget Overview for Parents

The LCFF gives school districts more flexibility in deciding how to use state funds. In exchange, school districts must work with parents, educators, students, and the community to develop a Local Control and Accountability Plan (LCAP) that shows how they will use these funds to serve students.

This chart provides a quick summary of how much Ross Valley Charter School plans to spend for 2024-25. It shows how much of the total is tied to planned actions and services in the LCAP.

The text description of the above chart is as follows: Ross Valley Charter School plans to spend \$3,116,657 for the 2024-25 school year. Of that amount, \$1,566,520 is tied to actions/services in the LCAP and \$1,550,137 is not included in the LCAP. The budgeted expenditures that are not included in the LCAP will be used for the following:

Business office expenses, legal and oversight fees, equipment leases, special education services, food services, rent, maintenance, janitorial.

## Increased or Improved Services for High Needs Students in the LCAP for the 2024-25 School Year

In 2024-25, Ross Valley Charter School is projecting it will receive \$128,633 based on the enrollment of foster youth, English learner, and low-income students. Ross Valley Charter School must describe how it intends to increase or improve services for high needs students in the LCAP. Ross Valley Charter School plans to spend \$370,496 towards meeting this requirement, as described in the LCAP.

# LCFF Budget Overview for Parents

## Update on Increased or Improved Services for High Needs Students in 2023-24

This chart compares what Ross Valley Charter School budgeted last year in the LCAP for actions and services that contribute to increasing or improving services for high needs students with what Ross Valley Charter School estimates it has spent on actions and services that contribute to increasing or improving services for high needs students in the current year.

The text description of the above chart is as follows: In 2023-24, Ross Valley Charter School's LCAP budgeted \$212,590 for planned actions to increase or improve services for high needs students. Ross Valley Charter School actually spent \$177,637 for actions to increase or improve services for high needs students in 2023-24.

The difference between the budgeted and actual expenditures of \$34,953 had the following impact on Ross Valley Charter School's ability to increase or improve services for high needs students:

All services were provided as planned. We planned on spending \$212,590 on Contributing Actions but received only \$121,508 in funding. The \$177,637 we spent was about \$35,000 less than expected but still more than \$50,000 more than the funding we received for those services. Intervention services were paid for with other funds.

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All actions were implemented as planned and our school has benefited from our commitment to teaching in alignment with the California Common Core State Standards. As a staff, we've implemented a new reading program that is focused on the Science of Reading and our teachers engaged in professional development this year to implement that program with fidelity. Our team also devoted collaboration time to brainstorming ideas for how to support students who have been less engaged with the new materials and shared best practices for increasing engagement overall. Our teachers expressed confidence during the year that the curricular materials were strong and that students made more progress than in previous years, and parents agreed that the new materials have led to positive outcomes because they say students are excited to read at home and are reading everything they can get their hands on.

Our EL students have been served well by the new curricular materials, too, because of the consistent routines, hands-on materials, and multi-model learning opportunities the curriculum provides. We've been able to focus on more vocabulary development with our inquiry-based learning, as well.

One challenge with implementing the new literacy curriculum is that teachers are in the earliest stages of learning how to use the resources to meet the needs of all students, and they were initially concerned that the curricular resources wouldn't necessarily match their teaching styles. As they've implemented the curriculum, they have noticed that there are challenges with our multi-age classrooms because it can be logistically challenging to make the resources work for a variety of age levels and reading levels because the curriculum tends to align to one specific grade level. Relatedly, teachers noticed that it can be difficult to manage the on-grade level work while simultaneously challenging

students who read above grade level with extension activities. We recognized the challenges associated with implementing a brand new reading program and ensuring our staff was set up to teach in an engaging, high-quality way, so that's why our school devoted professional collaboration time for teachers to share best practices related to instruction and engagement.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There is a material difference for the 1.1 CCSS Professional Development action because we spent less on external professional development than previously planned.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Our CCSS professional development action and our CCSS materials aligned for EL action were both effective as evidenced by our CAASPP ELA and math results the last three years as well as our metrics regarding professional development and curricular resources. Whereas the overall ELA proficiency rate for all students in the state of California between 2021 and 2023 was approximately 47-49% depending on the year, our school's ELA proficiency rate was approximately 62-71% those same years. California's math proficiency rate for all students hovered between about 33-35% for those same three years and our math proficiency rate ranged between about 56-61%. The California Dashboard tells a similar story about our school's success academically: in 2022 our school received "High" designations for our ELA and math performance and in 2023 our school received a "Green" designation for ELA and math performance.

Our English Learner students tended to slightly outperform California's EL students in the same three year span. Overall, California's students had a proficiency rate of about 11-12% on the ELA exam and 8-10% on the math exam, but our students had a proficiency rate of about 8-25% on the ELA exam and 5-17% on the math exam. On the summative ELPAC, the California Dashboard notes that 45% of our ELs progressed at least one ELPI level and 45% maintained ELPI levels 1, 2L, 2H, 3L, and 3H whereas only 10% of our ELs decreased at least one ELPI level.

For each of the last three years, our materials were reviewed annually to ensure they were aligned with CCSS, 100% of our teachers engaged in professional development in CCSS-aligned best practices for ELA, math, and also to improve academic achievement among English Learners. We ensured all our teachers were credentialed and appropriately assigned, all our students had access to standards-aligned materials, and all those actions contributed to our success. We are excited about our new literacy curriculum that promotes the Science of Reading and expect it to lead to even better outcomes for students in the years to come.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

As a result of this analysis, there are no changes being made to this goal or expected outcomes. We plan to add a metric for CAASPP and CAST performance since those end-of-year summative assessments are powerful indicators of whether our students are learning CCSS.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
2	Parents, including parents representative of all subgroups, will be an integral part of the RVC community and will participate in the governance and operation of the school. Parents will view RVC as receptive to their input and involvement.

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

All actions were implemented as planned. Our goal was to ensure parents participated in the governance and operation of the school and were an integral part of our community and we took steps to ensure that goal was achieved. We successfully encouraged new family members to join the Community Council and our participation rate doubled this year compared to last year because we added a Zoom option that allowed families to participate from home if they needed to. Our Board meetings are also hybrid because there's an in-person option and a Zoom option at all those meetings. The hybrid meetings have helped increase participation, but so has our commitment to maintaining a consistent evening schedule so families can plan ahead better. Further, our families continue to be part of the governance of our school because we had two new parent Board members who joined in December after candidates were nominated and spoke to the Community Council, and that process felt inclusive because families had a voice in who represented them on the Board; there are currently three parents on a five member Board.

We successfully sought feedback from families regularly including with two family surveys administered in January and May. Our teachers rotate to attend Community Council meetings so that they are always represented in the meetings and it has allowed the entire staff opportunities to hear from families and also have their perspectives heard. Our School Director and our Board Chair offer informal check-ins that alternate between morning and evening times so families have opportunities to drop in and share ideas that they may not want to share in larger Community Council meetings. Finally, our Room Parent Coordinator helps our families feel more connected to the school by incorporating information gathered from Community Council meetings, administrators, and teachers. Families appreciate that the flow of information is predictable.

Increasing the diversity of families who attend our Community Council meetings continues to be a challenge although it has improved slightly since new-to-RVC families have participated more. To address this challenge, one of our former Board members hopes to work with EL families, specifically, in hopes of increasing participation from those families in future Community Council meetings.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There is a material difference for the 2.1 Community Council Recruitment, 2.2 Parent Feedback (Surveys), and 2.3 Reducing Involvement Barriers actions because a full-time employee took a reduced role from what was budgeted and worked less than 100% full-time, so that employee's compensation was less than anticipated.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Our actions were effective at making progress toward our goal because we've increased family participation in our Community Council meetings as well as on our Board. We are pleased to hear from a wider, more diverse section of our community because new families, including new-to-RVC families, joined the Community Council this year and we noticed that the participation rate doubled this year compared to last year. We attribute a lot of that extra engagement to our hybrid meetings because they can now be attended in person or virtually through Zoom. We added a new Community Council position - Room Parent Coordinator - who helps teachers communicate classroom events and reminders with families, and she incorporates information from Community Council meetings, the administrative level, and the classroom/teacher level in her messages to families to keep everyone updated and informed.

This year, parents nominated each other for the Board in our Community Council meetings, shared their thoughts, and then the families voted for who should represent them as a voice on the Board. That's how we elected two new Board members this year and at the moment three of the five Board seats are occupied by parents.

Our parent survey results reflect our commitment to increasing parent participation and engagement because a May 2024 survey sent to our families revealed that parents overwhelmingly agreed or strongly agreed with a variety of statements including, "RVC welcomes parents' contributions and actively seeks to involve parents" (95% agree or strongly agree). Our parent survey results have been consistent for years when we ask that question, and the percent of families who agree or disagree has hovered around 95-96% for years.

Not every community member elects to share their thoughts in Community Council meetings or Board meetings, so we have offered informal check-ins this year called "Drop In with the Director and Board Chair" for families who want to share ideas in a more private setting. We alternate those check-ins between morning and evening times so more families have the opportunity to drop in.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

As a result of this analysis, there are no changes being made to this goal, expected outcomes, or metrics.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

	with IEPs are supported in all areas in accordance with their individual plans. Students who are struggling or have additional needs are supported through our Intervention & EL teacher and specialized support.				

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

Due to enrollment, budget, and staffing considerations we limited the intervention services we were able to offer our students, but our teachers used our Science of Reading approach to group students strategically and our intervention teacher pushed in to math classes to support our 2nd and 4th grade math students in a whole group setting. We’re hopeful that the better-scaffolded Science of Reading lessons will lessen the need for intervention services going forward, but if our enrollment increases one of our priorities will be to add back intervention time to support our students in small group settings.

Our TK through 3rd grade program offers assessment materials that are built into the Foundations curriculum, and because our reading assessments are better aligned with our new curriculum, we no longer use Fountas & Pinnell.

Our team has experienced many successes with the new literacy program because our students have expressed more enthusiasm for reading and anecdotally our teachers are noticing student engagement is typically up. Additionally, the Foundations materials have seemed to work well with our English Learners, and when our team noticed that many of our EL students in 3rd through 5th grade were in a “nearly meeting standard” range and seemed to feel more comfortable asking and answering questions in small group settings, the teachers placed many of those students in small groups and that led to better outcomes, too. In larger group settings, many of our EL students witnessed their peers rushing to finish testing, but in the small group settings they tended to take their time. For all those reasons, we feel one major success this year is that our EL students are being supported better than ever. A second success is that teachers are collaborating and sharing best practices regularly, and a third success is that student engagement and enthusiasm seem to be up this year.

As noted earlier, a combination of enrollment, budget, and staffing challenges made it difficult to offer intervention services at the level we hoped we would this year, but current enrollment does not allow us to offer those services more than twice a week. Another challenge we're monitoring is with our Heggerty curricular materials. Although they are strong materials for most of our students, we have noticed they seem to be less effective with our EL students and our current hypothesis is that those students who struggle to listen and speak well may not be able to perform quite as well with those materials even if they are absorbing the instruction.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There is a material difference for the 3.1 Use CCSS to Guide ELA and Math Instruction and 3.5 EL Strategies PD actions because of a combination of a teacher being on leave and decreased health benefit costs. There is a material difference for the 3.1 Use CCSS to Guide ELA and Math Instruction, 3.2 EL Intervention, 3.3 Progress Monitoring, and actions because an employee who provided those services worked significantly less than forecasted. The increased expenditures for 3.4 Intervention services were due to shifting resources from other areas to provide services to the students who need the most support.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

We are excited to continue building on the Science of Reading work we've begun this year and to continue to use our curricular resources in stronger ways in future years. Our focus on teaching with a Common Core-aligned curriculum, providing a broad course of study, and instructing students in a high-quality way have helped our students to achieve at high levels. As stated earlier, our CAASPP results have outpaced state test results for each content area and our California Dashboard color of "Green" for both ELA and math shows that, collectively, our students perform above the standard. Although we do not have CAASPP data to show how those efforts this year impacted student achievement, we expect the increased student engagement and enthusiasm for reading to pay dividends well into the future.

Our EL intervention action was effective as supported by the California Dashboard. A full 90% of our English Learners either maintained their ELPI level or progressed at least one ELPI level in the '22-'23 school year according to the Dashboard. Our EL strategies PD action was effective because the team partnered to share best practices and through those PD sessions our teachers realized they could strategically push to include more EL students in small groups where those students could more comfortably ask and answer questions will lead to more success this year and beyond. Those PD sessions also helped the staff identify that the Foundations curriculum worked well with EL students but the Heggerty materials seemed to be less effective, and they brainstormed ways to support the listening and speaking skills that Heggerty emphasizes by placing EL students in small groups where they could get more personalized attention.

Our progress monitoring action was effective because our team of teachers has been able to monitor student achievement data through formative assessments during the year and our reading assessments are better aligned to the new curriculum, so the teachers' responses to that data has been more purposeful than before. Our comprehensive intervention action has been partly successful because our part-time

instructor supports ELA and math through small groups and push-in services, but it would be nice to provide that support to even more students.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

As a result of this analysis, there are no changes being made to this goal, expected outcomes, or metrics.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
4	Students will be engaged in curriculum that is meaningful to them, in a safe and inclusive environment

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
% of Students identify on a school survey that they engage in curriculum that is meaningful to them.	87% of Students identified on a school survey that they engage in curriculum that is meaningful to them.	2021-22 86% Data Source: Local	87% Data Year: 2022-23 Data Source: Local Data	92% either mostly agree or agree completely with the statement "I learn about topics and subjects that are important to me in my classes."  Data Year: 2023-24 Data Source: Student Survey	At least 90% of Students will identify on a school survey that they engage in curriculum that is meaningful to them.

## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

We followed through with our planned actions, but we added additional pieces in order to bolster student engagement. We continue to offer a mindfulness-based SEL curriculum, but we've added the classroom-based lessons from Everyday Speech in 2nd through 5th grade spaces because the Take 5 program was missing some of the bullying/Upstander pieces that Everyday Speech includes. Families wanted our curriculum to provide more school safety lessons and the Everyday Speech resources do that.

We also added Boss of My Body professional development mid-year to help teachers prepare lessons about consent, boundaries, and physical space and the PD as well as the classroom implementation of those lessons were well received.

Our inquiry-based learning continues to go well and is a highlight of our program. All students participate, but our TK and Kindergarten students, our very youngest, are not developmentally ready to complete the full inquiry arc the same way as their older schoolmates, so they are simply exposed to the inquiry model.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There was a material difference for the 4.1 Inquiry Based Learning action because of additional spending on a Behavior Specialist Lead.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Our focus on teaching using the inquiry-based model as well as regularly incorporating mindfulness-based SEL curriculum has been effective at creating a learning environment our students appreciate and enjoy as measured by our student survey data. In the previous two years, 86% and 87% of students, respectively, mostly agreed or completely agreed that they engage in curriculum that is meaningful to them but that percentage increased to 92% this year. We credit our continued focus on meaningful SEL curriculum as well as our enhanced math and ELA curricular offerings for that improvement.

Our students have also regularly expressed a belief that they have positive relationships with their peers and teachers. We asked them how much they agreed with the statement “I have strong, safe, and healthy relationships with other students at my school” as well as a similar statement about strong, safe, and healthy relationships with teachers and 93% of students mostly or completely agreed they had good relationships with their peers and 95% mostly or completely agreed they had good relationships with their teachers. In previous years, 87% of students said they had strong relationships with peers, so our 93% rate this year was a strong improvement. In previous years, 94%-97% of students said they had strong relationships with their teachers, so our 95% rate this year fell in line with previous data. The positive school culture that is safe and inclusive has also contributed to our low suspension rate (0% of students were suspended for at least one day in the ‘20-’21 and ‘21-’22 school years and only 1.3% of students in the ‘22-’23 school year compared to 3.5% of students in the state last year).

Unfortunately, our actions have only been partially effective at improving student attendance and decreasing chronic absenteeism. Our '23-'24 attendance rate increased to 93.26% (as opposed to 90.9% in '22-'23). We expect to see a similar improvement in our '23-'24 chronic absenteeism rate, but the '22-'23 rate was 29.1% and even higher for certain subgroups (39.1% for English Learners, 40.67% for socioeconomically disadvantaged students, 53.1% for students with disabilities, and 30.7% for white students).

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

Building off the momentum we have from improving our student attendance rate this year, in the coming year we will design proactive and reactive systems to continue to improve our students' attendance rate. The systems will build upon some of the practices we implemented this year. First, we reminded families about the importance of attendance in bi-monthly messages sent from the School Director, the school office, and individual teachers in their classroom newsletters. Second, we called families who did not call to report an absence on any particular day to ask why their child is out of school and to encourage them to bring the child. Third, teachers and our outreach coordinator reached out to families when they noticed a string of tardies and/or absences to ask what is happening, whether the family could benefit from some resources, and whether the family needs to take advantage of an independent study option. Fourth, an attendance subcommittee has collected input from teachers to generate ideas to incentivize attendance. Finally, a team has collected and analyzed data looking for trends and patterns in the data, but they did not notice any striking differences between classrooms. Unfortunately, some chronically absent students disproportionately affect attendance rates.

Our team expects to continue some of these proactive and reactive practices in the coming years. We expect to develop incentives and stronger communication about the importance of attendance proactively, then focusing even more on analyzing data and responding to student absences reactively by reaching out, speaking with families, and offering support. We plan to implement a tiered response based on the number of absences a student has accumulated by yearly checkpoints and will push for more face-to-face meetings when the student's absence rate is too high.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

## Goals and Actions

### Goal

Goal #	Description
5	RVC will prioritize efforts to develop cultural competency across our constituent groups: teachers, staff, parents and students. We will provide resources and opportunities that foster diversity, equity and inclusion within our classrooms and as a school community.

### Measuring and Reporting Results

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Year 3 Outcome	Desired Outcome for 2023–24
Diversity and Inclusion Meetings will occur monthly with at least one teacher representative and School Director; and will report to the governing board on school diversity goal progress annually. ## Goal Analysis

An analysis of how this goal was carried out in the previous year.

A description of any substantive differences in planned actions and actual implementation of these actions.

When the LCAP was written several years ago, families thought it important to have a Diversity and Inclusion Committee as well as Cultural Competency Education, but this year those actions were not implemented as planned. With respect to the Diversity and Inclusion Committee, one major challenge that prevented the committee from being implemented as planned was that families who were previously most engaged on the committee were unable to commit the same amount of time. This year, the group of parents who were most involved saw their role more as a consultative body that was available to answer questions and provide feedback and resources when needed. An example of that is the parents who made up the Diversity and Inclusion Committee were asked to weigh in about the spring play for the afterschool enrichment program and they shared D&I concerns to be aware of. That isn't to say that diversity and inclusion have been ignored because the opposite is true; our teachers incorporate diversity and inclusion concepts in their everyday practice and planning and know the families who provide consultative services are available to talk and share additional information as needed.

With respect to the Cultural Competency Education action, families have shifted a bit with the sort of education they hope the school can provide. Our Community Council continues to be a strong voice of and for families and they have considered a variety of topics for parent education. Cultural competency did not generate much interest this year, but families are interested in more parent education and support, resources, and training about safety, anti-bullying, and neurodivergent learners.

Our inclusive content and curriculum action was implemented as planned and our new literacy curriculum ensures everyone receives the same instruction and that additional support is provided where needed. Dynamic learning groups in 4th and 5th grades ensure students get the support they need, our general education classroom is fully inclusive, and our aides and a resource specialist provide differentiation when needed.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

There were no material differences in spending for any of these actions.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

Our goals were to create cultural competency in our community by providing parent education events and thematic units in the classroom that help foster diversity, equity, and inclusion. Our Diversity and Inclusion Committee action was ineffective because the meetings did not occur in the last year, but families who wanted to be involved and help spearhead discussions and implementation of diversity and inclusion initiatives provided support to teachers. Our parent education events this year focused on Peace Coach training; we led 6 sessions for families.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

As a result of families' lack of interest in our Diversity and Inclusion Committee as well as shifting priorities for Cultural Competency Education, we plan to adjust these actions to better incorporate our families' stated priorities. They want us to continue to prioritize inclusivity, safety, anti-bullying, and education about neurodivergent learners, so we will revise our actions to ensure we prioritize those concepts on campus.

**A report of the Total Estimated Actual Expenditures for last year's actions may be found in the Annual Update Table. A report of the Estimated Actual Percentages of Improved Services for last year's actions may be found in the Contributing Actions Annual Update Table.**

Instructions

For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education’s (CDE’s) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [lcff@cde.ca.gov](mailto:lcff@cde.ca.gov).

Complete the prompts as instructed for each goal included in the 2023–24 LCAP. Duplicate the tables as needed. The 2023–24 LCAP Annual Update must be included with the 2024–25 LCAP.

Goals and Actions

Goal(s)

Description:

Copy and paste verbatim from the 2023–24 LCAP.

Measuring and Reporting Results

Goal Analysis

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective in achieving the goal. Respond to the prompts as instructed.

A description of any substantive differences in planned actions and actual implementation of these actions.

- Describe the overall implementation of the actions to achieve the articulated goal. Include a discussion of relevant challenges and successes experienced with the implementation process. This must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

An explanation of how effective or ineffective the specific actions were in making progress toward the goal during the three-year LCAP cycle.

- Describe the effectiveness or ineffectiveness of the specific actions in making progress toward the goal during the three-year LCAP cycle. “Effectiveness” means the degree to which the actions were successful in producing the desired result and “ineffectiveness” means that the actions did not produce any significant or desired result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, desired outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

California Department of Education  
November 2023

# Local Control and Accountability Plan

The instructions for completing the Local Control and Accountability Plan (LCAP) follow the template.

Local Educational Agency (LEA) Name	Contact Name and Title	Email and Phone
Ross Valley Charter School	Page Hersey School Director	page.hersey@rossvalleycharter.org 415-534-6970

## Plan Summary [2024-25]

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Ross Valley Charter continues the 20-year tradition of the Ross Valley School District’s Multi-Age Program (MAP). Two decades ago, a group of parents and the Ross Valley School District created an Alternative Education Program, organized under Ed Code 58500 called the Multi-Age Program (“MAP”). The Program grew and matured over the subsequent years, providing a progressive education alternative to the students of Ross Valley.

In April 2015, the RVSD school board voted to discontinue MAP’s status as an Alternative Education program. Creating a charter school is the best way to ensure that free, multi-age, progressive education remains available to the many Ross Valley families who desire it for their children. Ross Valley Charter was approved by the State Board of Education in January 2016 and renewed for another five years in 2021.

Our Mission:  
Ross Valley Charter provides a public school option that leverages a progressive education model emphasizing deep inquiry and exploration, hands-on, immersion-based experiences, and active learning-by- doing approaches to prepare students to collaborate effectively in teams, think critically, seek information to solve problems, and be lifelong learners and culturally competent members of our diverse global community.

Our Core Beliefs:  
Students learn best when constructing their own knowledge in a social context that offers rich and challenging content, collaboration with fellow students and parents, and teachers acting as facilitators of this process. Student voice, choice, and engagement are critical to supporting student agency and knowledge construction.

A thriving and joyful learning community has inclusive decision -making structures that foster teacher and parent engagement, collaboration, and shared ownership of the committed work of graduating students who are critical thinkers and creative problem solvers prepared for the 21st Century.

#### Foundational Practices:

**Multi-age Classes**—Two grade levels will be together in one class, allowing teachers and children to enjoy a two-year relationship, and giving students the opportunity to alternate being the younger and older student in their class.

**Trans-disciplinary Curriculum**—Curriculum will rely heavily on project- and problem-based learning, long-term units of study integrating many curricular areas, going in depth and examining a topic from many angles, and increasing students' engagement and interest.

**Deep Learning Through the Gift of Time**—Students will be given long blocks of time in which to work on projects. Teachers will have long weekly meetings in which to collaborate, discuss student progress, and engage in professional development.

**Educating the Whole Child**—The focus will not be just on academic growth, but also physical and social- emotional development.

**Connected Community**—Students, teachers, staff, and parents will all be considered integral parts of the school community. Teachers will focus on developing a strong community within the classroom as well as within the whole program, and will encourage students to see their role as a member of the larger community as well.

**Authentic Assessment**—Students' ongoing classwork and projects will be assessed to show academic growth and progress toward Common Core State Standards, which reflect the importance of 21st Century skills such as problem solving, collaboration, and communication.

**Collaboration and Collective Responsibility**—Students will have many opportunities to work with a partner or small group. Teachers will spend time working together weekly to plan curriculum and events.

**Differentiation**—With two grade levels in one classroom, teachers will focus on individual learning progress, customizing instruction and guidance to accommodate students' needs.

**Cultural Competency**—Students will learn about people from different cultures and backgrounds throughout history and contemporary society. Teachers and students will model appreciation for differences and inclusion of all members of the school community.

**Choice**—Students will have many opportunities to make choices about what they will learn, how they will learn it, what materials they will use, and how they will present their learning.

**Service Learning**—Each class will do at least one service-learning project per year that the students help to identify, plan, and carry out.

#### Our Students:

We strive for RVC graduates to embody the following attributes:

**Independent and Confident**—RVC students will approach situations with confidence and drive. They will be self- motivated and take initiative for their own learning. They will be comfortable taking risks. They will understand themselves as learners. They will learn how to own responsibility for their own learning, develop curiosity about the world, and know how to find information to satisfy their curiosity.

**Collaborative Problem Solvers**—RVC students will have interpersonal skills enabling them to work productively with a partner or group. They will be perceptive listeners and consider others' ideas. They will integrate multiple perspectives. They will apply what they've learned, and seek new information, in order to solve unfamiliar problems.

**Effective Communicators**—RVC students will read, write, speak, and listen with confidence and compassion. They will have strong skills to express themselves accurately and clearly. They will know that different situations call for different behaviors and modes of communication.

**Creative and Adaptive Thinkers**—RVC students will know that there are many ways of approaching a situation. They will explore multiple possibilities and go beyond seeking a single right answer. They will apply what they've learned, look for patterns, exercise their imaginations, and develop innovative solutions. They will have confidence to try something, have it fail, learn from it, then try something different. They will remain curious.

**People who Persevere**—RVC students will embrace challenges. They will be willing to work through difficult situations and problems. They will recognize the benefits that come from persisting, and will experience satisfaction from working hard and achieving their goals. They will understand that learning is a lifelong pursuit. They will be motivated to be lifelong learners.

**Caring Community Members**—RVC students will take responsibility for their own behavior. They will be kind and compassionate to others in the concentric circles of their world: themselves, their families, their friends, their classmates, their school, their community, and the world beyond them. They will have a sense of belonging and recognize our interconnectedness.

**Solid in Foundational Academic Skills**—RVC students will be strong readers and enjoy reading for pleasure and to seek information. They will be able to write well for purposes of conveying information, giving their opinion, and telling a story. They will have excellent math and science skills and will be able to apply them appropriately in novel problem situations

RVC is working to enroll a student population that is somewhat more ethnically and socio-economically diverse than the population in the Ross Valley School District. We believe that students from underserved communities in Ross Valley will particularly benefit from the progressive education approach of RVC. In fact we have more than doubled our target enrollment for English Learners and Free or Reduced Price Meal recipients and serve approximately 33.33% unduplicated pupils. In 2022-23, RVC served 209 diverse TK-5th grade students with 26% identified as Socioeconomically Disadvantaged and 11% as English Learners (ELs). Additionally, 12% of RVC students qualify for special education services. 59% of RVC students identify as White, 27% as Hispanic or Latino, and 9% as Two or More Races. As part of our commitment to Cultural Competency, we believe it is important to educate our students in a diverse student community.

### How We Serve Students

The curriculum in our multi-age classrooms is flexible and open-ended enough to address the wide range of developmental abilities, learning styles, and interests of students while meeting Common Core State Standards. Creativity, adaptability, imagination, and working collaboratively are all be called upon to create songs, skits, poetry, dance, art, games, and other performance-based representations of students' knowledge. Students teach each other on a regular basis, so they need to know their subject matter well. Teachers collaborate on curriculum and instruction practices to ensure consistency throughout the program. RVC teachers interact with children based on the understanding that they are active seekers of information and not passive absorbers of knowledge.

Teachers expect children to work to construct their own meaning and understanding of information and make connections. The teachers create an environment that supports students in making choices and decisions so that they are actively engaged in their learning. This leads them to be invested and to realize the power and joy of learning, contributing to an interest in lifelong learning. RVC teachers function as highly motivated guides, facilitators, and coaches. They act more as a “guide on the side” than a “sage on the stage.” They support student learning by presenting students with a question, problem, or situation to work on together, puzzle it out, research, make mistakes, and continue trying.

Teachers provide support and resources, ask questions, and encourage dialogue. They also facilitate discussions regarding process and collaborative skills. Teachers encourage students to question and wonder about things, seek information, make connections, and support each other. Teachers are on the lookout for students with a special interest in a topic that they might like to pursue individually, and help to make time available for that pursuit.

The teachers’ educational goals include fostering the students’ creativity and curiosity, self-reliance, social responsibility, artistic expression, critical thinking, and collaboration skills. The RVC’s curriculum, philosophy, and instructional methodology encourage the students to behave responsibly and appropriately in the classroom, at home, and in the community.

The teachers often use Project- Based Learning (“PBL”), a teaching method in which students gain knowledge and skills by working for an extended period to investigate and respond to a complex question, problem, or challenge.

The differentiated, child-centered approach used at Ross Valley Charter has been designed to ensure that the learning style of each individual student is incorporated into the learning process. RVC’s integrated instructional approach, which includes inquiry- based learning, targeted instruction, and social/emotional learning, allows teachers to create a differentiated and personalized learning program based on individual student profiles, including those of special needs populations (English Learners, Gifted, At-Risk of Low Achieving, Low Socioeconomic, and Special Education). To this end, teachers implement individualized instruction based on data-driven assessments. The underlying belief that all students are capable of thriving academically, socially, and emotionally guide RVC’s approach to having a solid platform of support for each learner.

RVC teachers use the CA ELD Standards. These standards are not intended to replace the Common Core State Standards for ELA but instead to amplify the language knowledge, skills, and abilities of those Common Core State Standards that are critical for ELs to simultaneously be successful in school while they are developing English. RVC teachers receive professional development focused on the CA ELD Standards to ensure EL students are receiving the support they need in class.

In the 2022-23 school year, our school was identified for Additional Targeted Support and Improvement (ATSI). This means that based on the data from the 2022 California School Dashboard, English Learners and Hispanic/Latino students were in the lowest status level for all but one of the state indicators. Both English Learners and Hispanic student subgroups are not numerically significant in the tested grades (3-8), and therefore CA Dashboard indicators are not generated for ELA and Math achievement for these groups. Both English Learner and Hispanic student subgroups had a Very Low Suspension rate on the CA Dashboard. These groups were both identified for additional assistance based on the Very High Chronic Absence rate as indicated by the 2022 CA Dashboard. This plan will address ways to improve our school and student outcomes for English Learners and Hispanic/Latino students in particular, based on a needs assessment and identification of resource inequities. Each goal includes actions and services that address the needs of all students and significant subgroups,

which include evidence-based strategies that provide opportunities for all children, methods and instructional strategies, and particular focus on students at risk of not meeting the State academic standards.

## Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Based on our review of the 2023 California School Dashboard as well as local data, we have identified the following areas of success as well as continuing challenges:

Our academic performance, as measured by student CAASPP results, has been rated as “Green” overall for both ELA and math. Our students performed 19.8 points above standard on the ELA exam and the White student subgroup, the only subgroup which was large enough to register a performance level, also earned a “Green” designation on the CA Dashboard by scoring 44.5 points above standard. Our students performed 19.9 points above standard on the math exam and the White student subgroup again earned a “Green” performance level by scoring 37.2 points above standard. This year we focused PD on the Science of Reading and implemented a new literacy curriculum, and our in-house formative assessments as well as anecdotal evidence shared by students, families, and teachers leads us to believe our students’ academic performance will improve going forward. One subgroup of students we would like to serve even better is our English Learners. The California Dashboard reveals that 45% of our ELs progressed at least one ELPI level and we would like to improve that. We think the new literacy curriculum and focus on Science of Reading is a good start, and our team has collaborated during PD time to share best practices for teaching English Learners. Our teachers have strategically used data to form small groups to support students who need more personalized instruction and they routinely ask students to explain their answers and reasoning to provide fuller, more complete responses.

Our school climate continues to be a bright spot because our students feel safe and supported, and the California Dashboard also makes that clear. Although our suspension rate increased from 0% the previous year to 1.3% of students last year being suspended at least one day, thereby earning an “Orange” performance level, two out of the three subgroups of students earned a “Blue” performance level: Hispanic students and Socioeconomically Disadvantaged students. We asked our families in a spring survey how likely they were to recommend our school to another family and more than 91% responded with a score of either 4 or 5 (1 = Not At All, 5 = Highly Likely).

That said, our school struggles with chronic absenteeism, and the rate of students who chronically miss school is one of the largest challenges our school faces. Whereas our chronic absenteeism rate was 14.9% in the 2018-19 school year, it has nearly doubled for each of the last two years (29.6% in the 2021-22 school year and 29.1% in the 2022-23 school year). On the California Dashboard, our schoolwide rating is “Red” for chronic absenteeism and three student subgroups earned either a “Red” (White students) or “Orange” (Hispanic and Socioeconomically Disadvantaged students) performance level. In order for our school to achieve the impact we would like and for our inquiry-based model to be effective, we know our students need to spend more time in school learning and engaging with the content and their peers. A new Action has been added to support the development and use of systems to proactively and reactively address student attendance.

## Reflections: Technical Assistance

## Comprehensive Support and Improvement

An LEA with a school or schools eligible for comprehensive support and improvement must respond to the following prompts.

### *Schools Identified*

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

Ross Valley Charter is a single school LEA that is not eligible for comprehensive support and improvement.

### *Support for Identified Schools*

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

N/A

### *Monitoring and Evaluating Effectiveness*

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

# Engaging Educational Partners

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Educational Partner(s)	Process for Engagement
Families	We surveyed families in May 2024.
Students	We surveyed students in May 2024.
Teachers, administrators, and school personnel	We sought input from the staff in staff meetings on April 17, 2024 and May 8, 2024.
Community Council	We sought input from the Community Council on April 16, 2024 and May 14, 2024.

## A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Families still want more diversity and inclusion education at the school, but our community is worried that parents who lead the charge may do so inconsistently based on how busy they are from year to year. We encountered that challenge this year because the parents who were most engaged with leading thoughtful initiatives and discourse around diversity and inclusion were particularly busy this year and sought to offer their expertise and energy in a consultative manner. To continue the school's work with diversity and inclusion, we plan to alter our action so that the lift does not fall exclusively on the shoulders of parents on the Diversity and Inclusion Committee. We plan to ask staff members to lead those educational offerings with input from our engaged families, so rather than have the D&I Committee led by a parent chairperson, a staff member would lead the committee and parents would join the committee as they were able. The D&I Committee would still exist because parents want it, but the bulk of the planning load would be shouldered by the staff member(s).

Our families also encouraged us to make our community events more purposeful and targeted. They'd like to know in advance if the events will focus on community building, parent education, or fundraising. By communicating the purpose of events in advance, it will be more clear that certain events are focused on celebrating, for instance, with no appeal for fundraising whereas another event later in the year might have a fundraising focus and families will know the event won't be focused on parent education.

Our staff appreciated our increased focus on peer collaboration during PD time this year and found those experiences sharing best practices and strategically planning how curricular resources could be used especially meaningful and useful. Our sessions that focused on staff members sharing best practices with SEL lessons were particularly positive. Our team has asked for increased peer professional development going forward.

Our students have asked for more field trips. Prior to the pandemic, we took more field trips than we have in recent years and those fields trips were also purposeful. Next year, the trips will tie in with the curriculum but also focus on getting students into the community and in nature more often.

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
1	All students will be taught in alignment with the California Common Core State Standards to become proficient readers and writers of the English language as well as proficient mathematicians.	Broad Goal

State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)  
 Priority 2: State Standards (Conditions of Learning)  
 Priority 4: Pupil Achievement (Pupil Outcomes)  
 Priority 8: Other Pupil Outcomes (Pupil Outcomes)

An explanation of why the LEA has developed this goal.

This goal covers State Priorities 1, 2, 4, and 8. This goal is critical to ensure that all our students not only have the best materials but also the highest quality instruction so that they all have the opportunity to succeed.

RVC has a well-developed, content-rich curriculum that is consistent with the expectations in the Common Core State Standards for English Language Arts and Literacy. Our literacy approach serves the needs of all readers, from emerging to fluent, in grades TK-5. Our alignment with the expectations of the CCSS ensures that students gain adequate exposure to a range of fiction and nonfiction texts and comprehension tasks. Students advancing through the grades read grade-appropriate and increasingly complex texts, as outlined in the CCSS, and further develop skills and understandings mastered in preceding grades. Their writing also progresses as they go through the grades and they practice several genres of writing each year. Our math resources are also aligned to CCSS standards and expectations, and we pride ourselves on using an inquiry-based approach that is engaging and rigorous for students.

## Actions

Action #	Title	Description	Total Funds	Contributing
1.1	Common Core-Aligned Curriculum and Instruction	Teachers will use CCSS, IEP goals, school-adopted curriculum materials and develop their own materials to teach ELA and math.	\$719,723.00	No
1.2	CCSS Professional Development	All teachers and School Director engage in professional development in CCSS-aligned best practices in both ELA (English Language Arts) and math curriculum and instruction highlighting needs of all subgroups.	\$72,537.00	No

Action #	Title	Description	Total Funds	Contributing
<b>1.3</b>	CCSS Materials Aligned for EL	Provide broad range of high-quality, standards aligned instructional resources that facilitate English Learner's access to core curriculum and expand their knowledge of the world. Provide curriculum and unit development aligned to both CCSS and ELD (English Language Development) standards.	\$0.00	No
<b>1.4</b>	EL Intervention	Provide support to English-language learning students from classroom teachers and specialized intervention	\$73,522.00	No
<b>1.5</b>	EL Strategies PD	All teachers and School Director shall engage in professional development in scaffolding and best practices to improve academic achievement among ELs using specific EL strategies (such as GLAD).	\$57,457.00	No
<b>1.6</b>	Progress Monitoring	Monitor student progress in English language reading, writing, speaking, and math. This will be done using a combination of SBAC Interim Assessments, and internal assessments.	\$57,547.00	Yes
<b>1.7</b>	Comprehensive Intervention	Provide a comprehensive intervention program for students who require support to reach grade level standards in ELA and Math	\$312,949.00	Yes
<b>1.8</b>	Inquiry Based Learning	Teachers will continue using the inquiry arc as the primary thematic inquiry tool and will be provided with professional development to promote best practices.	\$90,271.00	No

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
2	Families, including families representative of all subgroups, will be an integral part of the RVC community and will participate in the governance and operation of the school. Families will view RVC as receptive to their input and involvement.	Broad Goal

State Priorities addressed by this goal.

Priority 3: Parental Involvement (Engagement)  
Priority 6: School Climate (Engagement)

An explanation of why the LEA has developed this goal.

This goal covers State Priorities 3 and 6. This goal is critical to ensure that we prioritize the partnership between our school and our families. We plan to regularly solicit feedback, encourage active participation in school committees, and ensure families have an active role in the governance of our school.

Parent involvement and the parents' role as co-learners are important components of RVC and provide the backbone for the sense of community in our school. Parents are viewed as critical stakeholders and co-learners (along with teachers and administrators) in the education of the students, and parents are given a voice in RVC policy setting and decision-making.

## Measuring and Reporting Results

Metric #	Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
2.1	Family engagement: Families serve on Community Council	7 parents serve Data Year: 2023-24 Data Source: Local Data			7+ parents serve on Community Council

# Goals and Actions

## Goal

Goal #	Description	Type of Goal
3	Students will engage in curriculum that is meaningful to them in a safe and inclusive environment. RVC will prioritize efforts to develop cultural competency across our constituent groups: teachers, staff, parents and students, and provide resources and opportunities that foster diversity, equity and inclusion within our classrooms and as a school community.	Broad Goal

### State Priorities addressed by this goal.

Priority 1: Basic (Conditions of Learning)  
 Priority 5: Pupil Engagement (Engagement)  
 Priority 6: School Climate (Engagement)  
 Priority 7: Course Access (Conditions of Learning)  
 Priority 8: Other Pupil Outcomes (Pupil Outcomes)

### An explanation of why the LEA has developed this goal.

This goal covers State Priorities 1, 5, 6, 7, and 8. This goal is critical to ensure that all community members have a strong sense of belonging and are included in the continued growth of the school. Students who engage in a meaningful curriculum in a safe and inclusive environment are much more likely to meet our academic expectations, so we believe it is important to support the academic and social-emotional growth of our students.

## Measuring and Reporting Results

# Local Control and Accountability Plan Instructions

[Plan Summary](#)

[Engaging Educational Partners](#)

[Goals and Actions](#)

[Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students](#)

*For additional questions or technical assistance related to the completion of the Local Control and Accountability Plan (LCAP) template, please contact the local county office of education (COE), or the California Department of Education's (CDE's) Local Agency Systems Support Office, by phone at 916-319-0809 or by email at [LCFF@cde.ca.gov](mailto:LCFF@cde.ca.gov).*

## Introduction and Instructions

The Local Control Funding Formula (LCFF) requires local educational agencies (LEAs) to engage their local educational partners in an annual planning process to evaluate their progress within eight state priority areas encompassing all statutory metrics (COEs have 10 state priorities). LEAs document the results of this planning process in the LCAP using the template adopted by the State Board of Education.

The LCAP development process serves three distinct, but related functions:

- **Comprehensive Strategic Planning:** The process of developing and annually updating the LCAP supports comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (California *Education Code* [EC] Section 52064[e][1]). Strategic planning that is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students.
- **Meaningful Engagement of Educational Partners:** The LCAP development process should result in an LCAP that reflects decisions made through meaningful engagement (EC Section 52064[e][1]). Local educational partners possess valuable perspectives and insights about an LEA's programs and services. Effective strategic planning will incorporate these perspectives and insights in order to identify potential goals and actions to be included in the LCAP.
- **Accountability and Compliance:** The LCAP serves an important accountability function because the nature of some LCAP template sections require LEAs to show that they have complied with various requirements specified in the LCFF statutes and regulations, most notably:
  - Demonstrating that LEAs are increasing or improving services for foster youth, English learners, including long-term English learners, and low-income students in proportion to the amount of additional funding those students generate under LCFF (EC Section 52064[b][4-6]).
  - Establishing goals, supported by actions and related expenditures, that address the statutory priority areas and statutory metrics (EC sections 52064[b][1] and [2]).
    - **NOTE:** As specified in EC Section 62064(b)(1), the LCAP must provide a description of the annual goals, for all pupils and each subgroup of pupils identified pursuant to EC Section 52052, to be achieved for each of the state priorities. Beginning in 2023–24, EC

Section 52052 identifies long-term English learners as a separate and distinct pupil subgroup with a numerical significance at 15 students.

- Annually reviewing and updating the LCAP to reflect progress toward the goals (*EC* Section 52064[b][7]).
- Ensuring that all increases attributable to supplemental and concentration grant calculations, including concentration grant add-on funding and/or LCFF carryover, are reflected in the LCAP (*EC* sections 52064[b][6], [8], and [11]).

The LCAP template, like each LEA's final adopted LCAP, is a document, not a process. LEAs must use the template to memorialize the outcome of their LCAP development process, which must: (a) reflect comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the California School Dashboard (Dashboard), (b) through meaningful engagement with educational partners that (c) meets legal requirements, as reflected in the final adopted LCAP. The sections included within the LCAP template do not and cannot reflect the full development process, just as the LCAP template itself is not intended as a tool for engaging educational partners.

If a county superintendent of schools has jurisdiction over a single school district, the county board of education and the governing board of the school district may adopt and file for review and approval a single LCAP consistent with the requirements in *EC* sections 52060, 52062, 52066, 52068, and 52070. The LCAP must clearly articulate to which entity's budget (school district or county superintendent of schools) all budgeted and actual expenditures are aligned.

The revised LCAP template for the 2024–25, 2025–26, and 2026–27 school years reflects statutory changes made through Senate Bill 114 (Committee on Budget and Fiscal Review), Chapter 48, Statutes of 2023.

At its most basic, the adopted LCAP should attempt to distill not just what the LEA is doing for students in transitional kindergarten through grade twelve (TK–12), but also allow educational partners to understand why, and whether those strategies are leading to improved opportunities and outcomes for students. LEAs are strongly encouraged to use language and a level of detail in their adopted LCAPs intended to be meaningful and accessible for the LEA's diverse educational partners and the broader public.

In developing and finalizing the LCAP for adoption, LEAs are encouraged to keep the following overarching frame at the forefront of the strategic planning and educational partner engagement functions:

Given present performance across the state priorities and on indicators in the Dashboard, how is the LEA using its budgetary resources to respond to TK–12 student and community needs, and address any performance gaps, including by meeting its obligation to increase or improve services for foster youth, English learners, and low-income students?

LEAs are encouraged to focus on a set of metrics and actions which, based on research, experience, and input gathered from educational partners, the LEA believes will have the biggest impact on behalf of its TK–12 students.

These instructions address the requirements for each section of the LCAP, but may include information about effective practices when developing the LCAP and completing the LCAP document. Additionally, the beginning of each template section includes information emphasizing the purpose that section serves.

# Plan Summary

## Purpose

A well-developed Plan Summary section provides a meaningful context for the LCAP. This section provides information about an LEA's community as well as relevant information about student needs and performance. In order to present a meaningful context for the rest of the LCAP, the content of this section should be clearly and meaningfully related to the content included throughout each subsequent section of the LCAP.

## Requirements and Instructions

### General Information

A description of the LEA, its schools, and its students in grades transitional kindergarten–12, as applicable to the LEA.

Briefly describe the LEA, its schools, and its students in grades TK–12, as applicable to the LEA.

- For example, information about an LEA in terms of geography, enrollment, employment, the number and size of specific schools, recent community challenges, and other such information the LEA may wish to include can enable a reader to more fully understand the LEA's LCAP.
- As part of this response, identify all schools within the LEA receiving Equity Multiplier funding.

### Reflections: Annual Performance

A reflection on annual performance based on a review of the California School Dashboard (Dashboard) and local data.

Reflect on the LEA's annual performance on the Dashboard and local data. This may include both successes and challenges identified by the LEA during the development process.

LEAs are encouraged to highlight how they are addressing the identified needs of student groups, and/or schools within the LCAP as part of this response.

As part of this response, the LEA must identify the following, which will remain unchanged during the three-year LCAP cycle:

- Any school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard;
- Any student group within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard; and/or
- Any student group within a school within the LEA that received the lowest performance level on one or more state indicators on the 2023 Dashboard.

### Reflections: Technical Assistance

As applicable, a summary of the work underway as part of technical assistance.

Annually identify the reason(s) the LEA is eligible for or has requested technical assistance consistent with *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, and provide a summary of the work underway as part of receiving technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance, however this also includes LEAs that have requested technical assistance from their COE.

- If the LEA is not eligible for or receiving technical assistance, the LEA may respond to this prompt as “Not Applicable.”

**Comprehensive Support and Improvement**

An LEA with a school or schools identified for comprehensive support and improvement (CSI) under the Every Student Succeeds Act must respond to the following prompts:

*Schools Identified*

A list of the schools in the LEA that are eligible for comprehensive support and improvement.

- Identify the schools within the LEA that have been identified for CSI.

*Support for Identified Schools*

A description of how the LEA has or will support its eligible schools in developing comprehensive support and improvement plans.

- Describe how the LEA has or will support the identified schools in developing CSI plans that included a school-level needs assessment, evidence-based interventions, and the identification of any resource inequities to be addressed through the implementation of the CSI plan.

*Monitoring and Evaluating Effectiveness*

A description of how the LEA will monitor and evaluate the plan to support student and school improvement.

- Describe how the LEA will monitor and evaluate the implementation and effectiveness of the CSI plan to support student and school improvement.

**Engaging Educational Partners**

**Purpose**

Significant and purposeful engagement of parents, students, educators, and other educational partners, including those representing the student groups identified by LCFF, is critical to the development of the LCAP and the budget process. Consistent with statute, such engagement should support comprehensive strategic planning, particularly to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard, accountability, and improvement across the state priorities and locally identified priorities (*EC* Section 52064[e][1]). Engagement of educational partners is an ongoing, annual process.

This section is designed to reflect how the engagement of educational partners influenced the decisions reflected in the adopted LCAP. The goal is to allow educational partners that participated in the LCAP development process and the broader public to understand how the LEA engaged educational partners and the impact of that engagement. LEAs are encouraged to keep this goal in the forefront when completing this section.

**Requirements**

**School districts and COEs:** *EC* sections [52060\(g\) \(California Legislative Information\)](#) and [52066\(g\) \(California Legislative Information\)](#) specify the educational partners that must be consulted when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Local bargaining units of the LEA,
- Parents, and
- Students

A school district or COE receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

Before adopting the LCAP, school districts and COEs must share it with the applicable committees, as identified below under Requirements and Instructions. The superintendent is required by statute to respond in writing to the comments received from these committees. School districts and COEs must also consult with the special education local plan area administrator(s) when developing the LCAP.

**Charter schools:** *EC* Section [47606.5\(d\) \(California Legislative Information\)](#) requires that the following educational partners be consulted with when developing the LCAP:

- Teachers,
- Principals,
- Administrators,
- Other school personnel,
- Parents, and
- Students

A charter school receiving Equity Multiplier funds must also consult with educational partners at the school generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for the school.

The LCAP should also be shared with, and LEAs should request input from, schoolsite-level advisory groups, as applicable (e.g., schoolsite councils, English Learner Advisory Councils, student advisory groups, etc.), to facilitate alignment between schoolsite and district-level goals. Information and resources that support effective engagement, define student consultation, and provide the requirements for advisory group composition, can be found under Resources on the [CDE's LCAP webpage](#).

Before the governing board/body of an LEA considers the adoption of the LCAP, the LEA must meet the following legal requirements:

- For school districts, see [Education Code Section 52062 \(California Legislative Information\)](#);
  - **Note:** Charter schools using the LCAP as the School Plan for Student Achievement must meet the requirements of *EC* Section 52062(a).

- For COEs, see [Education Code Section 52068 \(California Legislative Information\)](#); and
- For charter schools, see [Education Code Section 47606.5 \(California Legislative Information\)](#).
- **NOTE:** As a reminder, the superintendent of a school district or COE must respond, in writing, to comments received by the applicable committees identified in the *Education Code* sections listed above. This includes the parent advisory committee and may include the English learner parent advisory committee and, as of July 1, 2024, the student advisory committee, as applicable.

## Instructions

### Respond to the prompts as follows:

A summary of the process used to engage educational partners in the development of the LCAP.

School districts and county offices of education must, at a minimum, consult with teachers, principals, administrators, other school personnel, local bargaining units, parents, and students in the development of the LCAP.

Charter schools must, at a minimum, consult with teachers, principals, administrators, other school personnel, parents, and students in the development of the LCAP.

An LEA receiving Equity Multiplier funds must also consult with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

### Complete the table as follows:

#### Educational Partners

Identify the applicable educational partner(s) or group(s) that were engaged in the development of the LCAP.

#### Process for Engagement

Describe the engagement process used by the LEA to involve the identified educational partner(s) in the development of the LCAP. At a minimum, the LEA must describe how it met its obligation to consult with all statutorily required educational partners, as applicable to the type of LEA.

- A sufficient response to this prompt must include general information about the timeline of the process and meetings or other engagement strategies with educational partners. A response may also include information about an LEA's philosophical approach to engaging its educational partners.
- An LEA receiving Equity Multiplier funds must also include a summary of how it consulted with educational partners at schools generating Equity Multiplier funds in the development of the LCAP, specifically, in the development of the required focus goal for each applicable school.

A description of how the adopted LCAP was influenced by the feedback provided by educational partners.

Describe any goals, metrics, actions, or budgeted expenditures in the LCAP that were influenced by or developed in response to the educational partner feedback.

- A sufficient response to this prompt will provide educational partners and the public with clear, specific information about how the engagement process influenced the development of the LCAP. This may include a description of how the LEA prioritized requests of educational partners within the context of the budgetary resources available or otherwise prioritized areas of focus within the LCAP.
- An LEA receiving Equity Multiplier funds must include a description of how the consultation with educational partners at schools generating Equity Multiplier funds influenced the development of the adopted LCAP.
- For the purposes of this prompt, this may also include, but is not necessarily limited to:
  - Inclusion of a goal or decision to pursue a Focus Goal (as described below)
  - Inclusion of metrics other than the statutorily required metrics
  - Determination of the target outcome on one or more metrics
  - Inclusion of performance by one or more student groups in the Measuring and Reporting Results subsection
  - Inclusion of action(s) or a group of actions
  - Elimination of action(s) or group of actions
  - Changes to the level of proposed expenditures for one or more actions
  - Inclusion of action(s) as contributing to increased or improved services for unduplicated students
  - Analysis of effectiveness of the specific actions to achieve the goal
  - Analysis of material differences in expenditures
  - Analysis of changes made to a goal for the ensuing LCAP year based on the annual update process
  - Analysis of challenges or successes in the implementation of actions

## Goals and Actions

### Purpose

Well-developed goals will clearly communicate to educational partners what the LEA plans to accomplish, what the LEA plans to do in order to accomplish the goal, and how the LEA will know when it has accomplished the goal. A goal statement, associated metrics and expected outcomes, and the actions included in the goal must be in alignment. The explanation for why the LEA included a goal is an opportunity for LEAs to clearly communicate to educational partners and the public why, among the various strengths and areas for improvement highlighted by performance data and strategies and actions that could be pursued, the LEA decided to pursue this goal, and the related metrics, expected outcomes, actions, and expenditures.

A well-developed goal can be focused on the performance relative to a metric or metrics for all students, a specific student group(s), narrowing performance gaps, or implementing programs or strategies expected to impact outcomes. LEAs should assess the performance of their student groups when developing goals and the related actions to achieve such goals.

### Requirements and Instructions

LEAs should prioritize the goals, specific actions, and related expenditures included within the LCAP within one or more state priorities. LEAs must consider performance on the state and local indicators, including their locally collected and reported data for the local indicators that are included in the Dashboard, in determining whether and how to prioritize its goals within the LCAP. As previously stated, strategic planning that

is comprehensive connects budgetary decisions to teaching and learning performance data. LEAs should continually evaluate the hard choices they make about the use of limited resources to meet student and community needs to ensure opportunities and outcomes are improved for all students, and to address and reduce disparities in opportunities and outcomes between student groups indicated by the Dashboard.

In order to support prioritization of goals, the LCAP template provides LEAs with the option of developing three different kinds of goals:

- Focus Goal: A Focus Goal is relatively more concentrated in scope and may focus on a fewer number of metrics to measure improvement. A Focus Goal statement will be time bound and make clear how the goal is to be measured.
  - All Equity Multiplier goals must be developed as focus goals. For additional information, see Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding below.
- Broad Goal: A Broad Goal is relatively less concentrated in its scope and may focus on improving performance across a wide range of metrics.
- Maintenance of Progress Goal: A Maintenance of Progress Goal includes actions that may be ongoing without significant changes and allows an LEA to track performance on any metrics not addressed in the other goals of the LCAP.

**Requirement to Address the LCFF State Priorities**

At a minimum, the LCAP must address all LCFF priorities and associated metrics articulated in *EC* sections 52060(d) and 52066(d), as applicable to the LEA. The [LCFF State Priorities Summary](#) provides a summary of *EC* sections 52060(d) and 52066(d) to aid in the development of the LCAP.

Respond to the following prompts, as applicable:

**Focus Goal(s)**

Description

The description provided for a Focus Goal must be specific, measurable, and time bound.

- An LEA develops a Focus Goal to address areas of need that may require or benefit from a more specific and data intensive approach.
- The Focus Goal can explicitly reference the metric(s) by which achievement of the goal will be measured and the time frame according to which the LEA expects to achieve the goal.

Type of Goal

Identify the type of goal being implemented as a Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.

**Required Focus Goal(s) for LEAs Receiving Equity Multiplier Funding**

Description

LEAs receiving Equity Multiplier funding must include one or more focus goals for each school generating Equity Multiplier funding. In addition to addressing the focus goal requirements described above, LEAs must adhere to the following requirements.

Focus goals for Equity Multiplier schoolsites must address the following:

- (A) All student groups that have the lowest performance level on one or more state indicators on the Dashboard, and
- (B) Any underlying issues in the credentialing, subject matter preparation, and retention of the school’s educators, if applicable.
- Focus Goals for each and every Equity Multiplier schoolsite must identify specific metrics for each identified student group, as applicable.
- An LEA may create a single goal for multiple Equity Multiplier schoolsites if those schoolsites have the same student group(s) performing at the lowest performance level on one or more state indicators on the Dashboard or, experience similar issues in the credentialing, subject matter preparation, and retention of the school’s educators.
  - When creating a single goal for multiple Equity Multiplier schoolsites, the goal must identify the student groups and the performance levels on the Dashboard that the Focus Goal is addressing; or,
  - The common issues the schoolsites are experiencing in credentialing, subject matter preparation, and retention of the school’s educators, if applicable.

Type of Goal

Identify the type of goal being implemented as an Equity Multiplier Focus Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA has chosen to prioritize this goal.

- An explanation must be based on Dashboard data or other locally collected data.
- LEAs must describe how the LEA identified this goal for focused attention, including relevant consultation with educational partners.
- LEAs are encouraged to promote transparency and understanding around the decision to pursue a focus goal.
- In addition to this information, the LEA must also identify:
  - The school or schools to which the goal applies

LEAs are encouraged to approach an Equity Multiplier goal from a wholistic standpoint, considering how the goal might maximize student outcomes through the use of LCFF and other funding in addition to Equity Multiplier funds.

- Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the Expanded Learning Opportunities Program (ELO-P), the Literacy Coaches and Reading Specialists (LCRS) Grant Program, and/or the California Community Schools Partnership Program (CCSPP).
- This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.

**Note:** EC Section [42238.024\(b\)\(1\) \(California Legislative Information\)](#) requires that Equity Multiplier funds be used for the provision of evidence-based services and supports for students. Evidence-based services and supports are based on objective evidence that has informed the design of the service or support and/or guides the modification of those services and supports. Evidence-based supports and strategies are most commonly based on educational research and/or metrics of LEA, school, and/or student performance.

## Broad Goal

### Description

Describe what the LEA plans to achieve through the actions included in the goal.

- The description of a broad goal will be clearly aligned with the expected measurable outcomes included for the goal.
- The goal description organizes the actions and expected outcomes in a cohesive and consistent manner.
- A goal description is specific enough to be measurable in either quantitative or qualitative terms. A broad goal is not as specific as a focus goal. While it is specific enough to be measurable, there are many different metrics for measuring progress toward the goal.

### Type of Goal

Identify the type of goal being implemented as a Broad Goal.

### State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain why the LEA developed this goal and how the actions and metrics grouped together will help achieve the goal.

**Maintenance of Progress Goal**

Description

Describe how the LEA intends to maintain the progress made in the LCFF State Priorities not addressed by the other goals in the LCAP.

- Use this type of goal to address the state priorities and applicable metrics not addressed within the other goals in the LCAP.
- The state priorities and metrics to be addressed in this section are those for which the LEA, in consultation with educational partners, has determined to maintain actions and monitor progress while focusing implementation efforts on the actions covered by other goals in the LCAP.

Type of Goal

Identify the type of goal being implemented as a Maintenance of Progress Goal.

State Priorities addressed by this goal.

Identify each of the state priorities that this goal is intended to address.

An explanation of why the LEA has developed this goal.

Explain how the actions will sustain the progress exemplified by the related metrics.

**Measuring and Reporting Results:**

For each LCAP year, identify the metric(s) that the LEA will use to track progress toward the expected outcomes.

- LEAs must identify metrics for specific student groups, as appropriate, including expected outcomes that address and reduce disparities in outcomes between student groups.
- The metrics may be quantitative or qualitative; but at minimum, an LEA’s LCAP must include goals that are measured using all of the applicable metrics for the related state priorities, in each LCAP year, as applicable to the type of LEA.
- To the extent a state priority does not specify one or more metrics (e.g., implementation of state academic content and performance standards), the LEA must identify a metric to use within the LCAP. For these state priorities, LEAs are encouraged to use metrics based on or reported through the relevant local indicator self-reflection tools within the Dashboard.

- **Required metrics for LEA-wide actions:** For each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
  - These required metrics may be identified within the action description or the first prompt in the increased or improved services section, however the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.
- **Required metrics for Equity Multiplier goals:** For each Equity Multiplier goal, the LEA must identify:
  - The specific metrics for each identified student group at each specific schoolsite, as applicable, to measure the progress toward the goal, and/or
  - The specific metrics used to measure progress in meeting the goal related to credentialing, subject matter preparation, or educator retention at each specific schoolsite.

Complete the table as follows:

#### Metric #

- Enter the metric number.

#### Metric

- Identify the standard of measure being used to determine progress towards the goal and/or to measure the effectiveness of one or more actions associated with the goal.

#### Baseline

- Enter the baseline when completing the LCAP for 2024–25.
  - Use the most recent data associated with the metric available at the time of adoption of the LCAP for the first year of the three-year plan. LEAs may use data as reported on the 2023 Dashboard for the baseline of a metric only if that data represents the most recent available data (e.g., high school graduation rate).
  - Using the most recent data available may involve reviewing data the LEA is preparing for submission to the California Longitudinal Pupil Achievement Data System (CALPADS) or data that the LEA has recently submitted to CALPADS.
  - Indicate the school year to which the baseline data applies.
  - The baseline data must remain unchanged throughout the three-year LCAP.
    - This requirement is not intended to prevent LEAs from revising the baseline data if it is necessary to do so. For example, if an LEA identifies that its data collection practices for a particular metric are leading to inaccurate data and revises its practice to obtain

accurate data, it would also be appropriate for the LEA to revise the baseline data to align with the more accurate data process and report its results using the accurate data.

- If an LEA chooses to revise its baseline data, then, at a minimum, it must clearly identify the change as part of its response to the description of changes prompt in the Goal Analysis for the goal. LEAs are also strongly encouraged to involve their educational partners in the decision of whether or not to revise a baseline and to communicate the proposed change to their educational partners.

- Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a new baseline each year, as applicable.

## Year 1 Outcome

- When completing the LCAP for 2025–26, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may provide the Year 1 Outcome when completing the LCAP for both 2025–26 and 2026–27 or may provide the Year 1 Outcome for 2025–26 and provide the Year 2 Outcome for 2026–27.

## Year 2 Outcome

- When completing the LCAP for 2026–27, enter the most recent data available. Indicate the school year to which the data applies.
  - Note for Charter Schools: Charter schools developing a one-year LCAP may identify the Year 2 Outcome as not applicable when completing the LCAP for 2026–27 or may provide the Year 2 Outcome for 2026–27.

## Target for Year 3 Outcome

- When completing the first year of the LCAP, enter the target outcome for the relevant metric the LEA expects to achieve by the end of the three-year LCAP cycle.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP may identify a Target for Year 1 or Target for Year 2, as applicable.

## Current Difference from Baseline

- When completing the LCAP for 2025–26 and 2026–27, enter the current difference between the baseline and the yearly outcome, as applicable.
  - Note for Charter Schools: Charter schools developing a one- or two-year LCAP will identify the current difference between the baseline and the yearly outcome for Year 1 and/or the current difference between the baseline and the yearly outcome for Year 2, as applicable.

Timeline for school districts and COEs for completing the “**Measuring and Reporting Results**” part of the Goal.

Metric	Baseline	Year 1 Outcome	Year 2 Outcome	Target for Year 3 Outcome	Current Difference from Baseline
Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2026–27</b> . Leave blank until then.	Enter information in this box when completing the LCAP for <b>2024–25</b> or when adding a new metric.	Enter information in this box when completing the LCAP for <b>2025–26</b> and <b>2026–27</b> . Leave blank until then.

**Goal Analysis:**

Enter the LCAP Year.

Using actual annual measurable outcome data, including data from the Dashboard, analyze whether the planned actions were effective towards achieving the goal. “Effective” means the degree to which the planned actions were successful in producing the target result. Respond to the prompts as instructed.

**Note:** When completing the 2024–25 LCAP, use the 2023–24 Local Control and Accountability Plan Annual Update template to complete the Goal Analysis and identify the Goal Analysis prompts in the 2024–25 LCAP as “Not Applicable.”

A description of overall implementation, including any substantive differences in planned actions and actual implementation of these actions, and any relevant challenges and successes experienced with implementation.

- Describe the overall implementation of the actions to achieve the articulated goal, including relevant challenges and successes experienced with implementation.
  - Include a discussion of relevant challenges and successes experienced with the implementation process.
  - This discussion must include any instance where the LEA did not implement a planned action or implemented a planned action in a manner that differs substantively from how it was described in the adopted LCAP.

An explanation of material differences between Budgeted Expenditures and Estimated Actual Expenditures and/or Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services.

- Explain material differences between Budgeted Expenditures and Estimated Actual Expenditures and between the Planned Percentages of Improved Services and Estimated Actual Percentages of Improved Services, as applicable. Minor variances in expenditures or percentages do not need to be addressed, and a dollar-for-dollar accounting is not required.

A description of the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal.

- Describe the effectiveness or ineffectiveness of the specific actions to date in making progress toward the goal. “Effectiveness” means the degree to which the actions were successful in producing the target result and “ineffectiveness” means that the actions did not produce any significant or targeted result.
  - In some cases, not all actions in a goal will be intended to improve performance on all of the metrics associated with the goal.
  - When responding to this prompt, LEAs may assess the effectiveness of a single action or group of actions within the goal in the context of performance on a single metric or group of specific metrics within the goal that are applicable to the action(s). Grouping actions with metrics will allow for more robust analysis of whether the strategy the LEA is using to impact a specified set of metrics is working and increase transparency for educational partners. LEAs are encouraged to use such an approach when goals include multiple actions and metrics that are not closely associated.
  - Beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period.

A description of any changes made to the planned goal, metrics, target outcomes, or actions for the coming year that resulted from reflections on prior practice.

- Describe any changes made to this goal, expected outcomes, metrics, or actions to achieve this goal as a result of this analysis and analysis of the data provided in the Dashboard or other local data, as applicable.
  - As noted above, beginning with the development of the 2024–25 LCAP, the LEA must change actions that have not proven effective over a three-year period. For actions that have been identified as ineffective, the LEA must identify the ineffective action and must include a description of the following:
    - The reasons for the ineffectiveness, and
    - How changes to the action will result in a new or strengthened approach.

**Actions:**  
Complete the table as follows. Add additional rows as necessary.

Action #

- Enter the action number.

Title

- Provide a short title for the action. This title will also appear in the action tables.

Description

- Provide a brief description of the action.

- For actions that contribute to meeting the increased or improved services requirement, the LEA may include an explanation of how each action is principally directed towards and effective in meeting the LEA's goals for unduplicated students, as described in the instructions for the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.
- As previously noted, for each action identified as 1) contributing towards the requirement to increase or improve services for foster youth, English learners, including long-term English learners, and low-income students and 2) being provided on an LEA-wide basis, the LEA must identify one or more metrics to monitor the effectiveness of the action and its budgeted expenditures.
- These required metrics may be identified within the action description or the first prompt in the increased or improved services section; however, the description must clearly identify the metric(s) being used to monitor the effectiveness of the action and the action(s) that the metric(s) apply to.

## Total Funds

- Enter the total amount of expenditures associated with this action. Budgeted expenditures from specific fund sources will be provided in the action tables.

## Contributing

- Indicate whether the action contributes to meeting the increased or improved services requirement as described in the Increased or Improved Services section using a “Y” for Yes or an “N” for No.
  - **Note:** for each such contributing action, the LEA will need to provide additional information in the Increased or Improved Services section to address the requirements in *California Code of Regulations*, Title 5 [5 CCR] Section 15496 in the Increased or Improved Services section of the LCAP.

**Actions for Foster Youth:** School districts, COEs, and charter schools that have a numerically significant foster youth student subgroup are encouraged to include specific actions in the LCAP designed to meet needs specific to foster youth students.

## Required Actions

- LEAs with 30 or more English learners and/or 15 or more long-term English learners must include specific actions in the LCAP related to, at a minimum:
  - Language acquisition programs, as defined in *EC* Section 306, provided to students, and
  - Professional development for teachers.
  - If an LEA has both 30 or more English learners and 15 or more long-term English learners, the LEA must include actions for both English learners and long-term English learners.
- LEAs eligible for technical assistance pursuant to *EC* sections 47607.3, 52071, 52071.5, 52072, or 52072.5, must include specific actions within the LCAP related to its implementation of the work underway as part of technical assistance. The most common form of this technical assistance is frequently referred to as Differentiated Assistance.

- LEAs that have Red Dashboard indicators for (1) a school within the LEA, (2) a student group within the LEA, and/or (3) a student group within any school within the LEA must include one or more specific actions within the LCAP:
  - The specific action(s) must be directed towards the identified student group(s) and/or school(s) and must address the identified state indicator(s) for which the student group or school received the lowest performance level on the 2023 Dashboard. Each student group and/or school that receives the lowest performance level on the 2023 Dashboard must be addressed by one or more actions.
  - These required actions will be effective for the three-year LCAP cycle.

## Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students

### Purpose

A well-written Increased or Improved Services section provides educational partners with a comprehensive description, within a single dedicated section, of how an LEA plans to increase or improve services for its unduplicated students as defined in *EC* Section 42238.02 in grades TK–12 as compared to all students in grades TK–12, as applicable, and how LEA-wide or schoolwide actions identified for this purpose meet regulatory requirements. Descriptions provided should include sufficient detail yet be sufficiently succinct to promote a broader understanding of educational partners to facilitate their ability to provide input. An LEA’s description in this section must align with the actions included in the Goals and Actions section as contributing.

Please Note: For the purpose of meeting the Increased or Improved Services requirement and consistent with *EC* Section 42238.02, long-term English learners are included in the English learner student group.

### Statutory Requirements

An LEA is required to demonstrate in its LCAP how it is increasing or improving services for its students who are foster youth, English learners, and/or low-income, collectively referred to as unduplicated students, as compared to the services provided to all students in proportion to the increase in funding it receives based on the number and concentration of unduplicated students in the LEA (*EC* Section 42238.07[a][1], *EC* Section 52064[b][8][B]; 5 *CCR* Section 15496[a]). This proportionality percentage is also known as the “minimum proportionality percentage” or “MPP.” The manner in which an LEA demonstrates it is meeting its MPP is two-fold: (1) through the expenditure of LCFF funds or through the identification of a Planned Percentage of Improved Services as documented in the Contributing Actions Table, and (2) through the explanations provided in the Increased or Improved Services for Foster Youth, English Learners, and Low-Income Students section.

To improve services means to grow services in quality and to increase services means to grow services in quantity. Services are increased or improved by those actions in the LCAP that are identified in the Goals and Actions section as contributing to the increased or improved services requirement, whether they are provided across the entire LEA (LEA-wide action), provided to an entire school (Schoolwide action), or solely provided to one or more unduplicated student group(s) (Limited action).

Therefore, for *any* action contributing to meet the increased or improved services requirement, the LEA must include an explanation of:

- How the action is increasing or improving services for the unduplicated student group(s) (Identified Needs and Action Design), and
- How the action meets the LEA's goals for its unduplicated pupils in the state and any local priority areas (Measurement of Effectiveness).

**LEA-wide and Schoolwide Actions**

In addition to the above required explanations, LEAs must provide a justification for why an LEA-wide or Schoolwide action is being provided to all students and how the action is intended to improve outcomes for unduplicated student group(s) as compared to all students.

- Conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.
- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

**For School Districts Only**

Actions provided on an **LEA-wide** basis at **school districts with an unduplicated pupil percentage of less than 55 percent** must also include a description of how the actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

Actions provided on a **Schoolwide** basis for **schools with less than 40 percent enrollment of unduplicated pupils** must also include a description of how these actions are the most effective use of the funds to meet the district's goals for its unduplicated pupils in the state and any local priority areas. The description must provide the basis for this determination, including any alternatives considered, supporting research, experience, or educational theory.

**Requirements and Instructions**

Complete the tables as follows:

Total Projected LCFF Supplemental and/or Concentration Grants

- Specify the amount of LCFF supplemental and concentration grant funds the LEA estimates it will receive in the coming year based on the number and concentration of foster youth, English learner, and low-income students. This amount includes the Additional 15 percent LCFF Concentration Grant.

Projected Additional 15 percent LCFF Concentration Grant

- Specify the amount of additional LCFF concentration grant add-on funding, as described in *EC* Section 42238.02, that the LEA estimates it will receive in the coming year.

Projected Percentage to Increase or Improve Services for the Coming School Year

- Specify the estimated percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year as calculated pursuant to 5 *CCR* Section 15496(a)(7).

LCFF Carryover — Percentage

- Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).

#### LCFF Carryover — Dollar

- Specify the LCFF Carryover — Dollar amount identified in the LCFF Carryover Table. If a carryover amount is not identified in the LCFF Carryover Table, specify an amount of zero (\$0).

#### Total Percentage to Increase or Improve Services for the Coming School Year

- Add the Projected Percentage to Increase or Improve Services for the Coming School Year and the Proportional LCFF Required Carryover Percentage and specify the percentage. This is the LEA's percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the LCAP year, as calculated pursuant to 5 CCR Section 15496(a)(7).

## Required Descriptions:

### LEA-wide and Schoolwide Actions

For each action being provided to an entire LEA or school, provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) for whom the action is principally directed, (2) how the action is designed to address the identified need(s) and why it is being provided on an LEA or schoolwide basis, and (3) the metric(s) used to measure the effectiveness of the action in improving outcomes for the unduplicated student group(s).

If the LEA has provided this required description in the Action Descriptions, state as such within the table.

Complete the table as follows:

#### Identified Need(s)

Provide an explanation of the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed.

An LEA demonstrates how an action is principally directed towards an unduplicated student group(s) when the LEA explains the need(s), condition(s), or circumstance(s) of the unduplicated student group(s) identified through a needs assessment and how the action addresses them. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

#### How the Action(s) are Designed to Address Need(s) and Why it is Provided on an LEA-wide or Schoolwide Basis

Provide an explanation of how the action as designed will address the unique identified need(s) of the LEA's unduplicated student group(s) for whom the action is principally directed and the rationale for why the action is being provided on an LEA-wide or schoolwide basis.

- As stated above, conclusory statements that a service will help achieve an expected outcome for the goal, without an explicit connection or further explanation as to how, are not sufficient.

- Further, simply stating that an LEA has a high enrollment percentage of a specific student group or groups does not meet the increased or improved services standard because enrolling students is not the same as serving students.

### **Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

**Note for COEs and Charter Schools:** In the case of COEs and charter schools, schoolwide and LEA-wide are considered to be synonymous.

### **Limited Actions**

For each action being solely provided to one or more unduplicated student group(s), provide an explanation of (1) the unique identified need(s) of the unduplicated student group(s) being served, (2) how the action is designed to address the identified need(s), and (3) how the effectiveness of the action in improving outcomes for the unduplicated student group(s) will be measured.

If the LEA has provided the required descriptions in the Action Descriptions, state as such.

Complete the table as follows:

### **Identified Need(s)**

Provide an explanation of the unique need(s) of the unduplicated student group(s) being served identified through the LEA's needs assessment. A meaningful needs assessment includes, at a minimum, analysis of applicable student achievement data and educational partner feedback.

### **How the Action(s) are Designed to Address Need(s)**

Provide an explanation of how the action is designed to address the unique identified need(s) of the unduplicated student group(s) being served.

### **Metric(s) to Monitor Effectiveness**

Identify the metric(s) being used to measure the progress and effectiveness of the action(s).

For any limited action contributing to meeting the increased or improved services requirement that is associated with a Planned Percentage of Improved Services in the Contributing Summary Table rather than an expenditure of LCFF funds, describe the methodology that was used to determine the contribution of the action towards the proportional percentage, as applicable.

- For each action with an identified Planned Percentage of Improved Services, identify the goal and action number and describe the methodology that was used.
- When identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

- For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA's current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Total Planned Expenditures Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

### **Additional Concentration Grant Funding**

A description of the plan for how the additional concentration grant add-on funding identified above will be used to increase the number of staff providing direct services to students at schools that have a high concentration (above 55 percent) of foster youth, English learners, and low-income students, as applicable.

An LEA that receives the additional concentration grant add-on described in *EC* Section 42238.02 is required to demonstrate how it is using these funds to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent as compared to the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is equal to or less than 55 percent. The staff who provide direct services to students must be certificated staff and/or classified staff employed by the LEA; classified staff includes custodial staff.

Provide the following descriptions, as applicable to the LEA:

- An LEA that does not receive a concentration grant or the concentration grant add-on must indicate that a response to this prompt is not applicable.
- Identify the goal and action numbers of the actions in the LCAP that the LEA is implementing to meet the requirement to increase the number of staff who provide direct services to students at schools with an enrollment of unduplicated students that is greater than 55 percent.
- An LEA that does not have comparison schools from which to describe how it is using the concentration grant add-on funds, such as a single-school LEA or an LEA that only has schools with an enrollment of unduplicated students that is greater than 55 percent, must describe how it is using the funds to increase the number of credentialed staff, classified staff, or both, including custodial staff, who provide direct services to students at selected schools and the criteria used to determine which schools require additional staffing support.
- In the event that an additional concentration grant add-on is not sufficient to increase staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent, the LEA must describe how it is using the funds to retain staff providing direct services to students at a school with an enrollment of unduplicated students that is greater than 55 percent.

Complete the table as follows:

- Provide the staff-to-student ratio of classified staff providing direct services to students with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of classified staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.

- The staff-to-student ratio must be based on the number of full-time equivalent (FTE) staff and the number of enrolled students as counted on the first Wednesday in October of each year.
- Provide the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is 55 percent or less and the staff-to-student ratio of certificated staff providing direct services to students at schools with a concentration of unduplicated students that is greater than 55 percent, as applicable to the LEA.
  - The LEA may group its schools by grade span (Elementary, Middle/Junior High, and High Schools), as applicable to the LEA.
  - The staff-to-student ratio must be based on the number of FTE staff and the number of enrolled students as counted on the first Wednesday in October of each year.

## Action Tables

Complete the Total Planned Expenditures Table for each action in the LCAP. The information entered into this table will automatically populate the other Action Tables. Information is only entered into the Total Planned Expenditures Table, the Annual Update Table, the Contributing Actions Annual Update Table, and the LCFF Carryover Table. The word “input” has been added to column headers to aid in identifying the column(s) where information will be entered. Information is not entered on the remaining Action tables.

The following tables are required to be included as part of the LCAP adopted by the local governing board or governing body:

- Table 1: Total Planned Expenditures Table (for the coming LCAP Year)
- Table 2: Contributing Actions Table (for the coming LCAP Year)
- Table 3: Annual Update Table (for the current LCAP Year)
- Table 4: Contributing Actions Annual Update Table (for the current LCAP Year)
- Table 5: LCFF Carryover Table (for the current LCAP Year)

Note: The coming LCAP Year is the year that is being planned for, while the current LCAP year is the current year of implementation. For example, when developing the 2024–25 LCAP, 2024–25 will be the coming LCAP Year and 2023–24 will be the current LCAP Year.

## Total Planned Expenditures Table

In the Total Planned Expenditures Table, input the following information for each action in the LCAP for that applicable LCAP year:

- **LCAP Year:** Identify the applicable LCAP Year.
- **1. Projected LCFF Base Grant:** Provide the total amount estimated LCFF entitlement for the coming school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8).

Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs.

See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.

- **2. Projected LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated on the basis of the number and concentration of unduplicated students for the coming school year.
- **3. Projected Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected LCFF Base Grant and the Projected LCFF Supplemental and/or Concentration Grants, pursuant to 5 CCR Section 15496(a)(8). This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the coming LCAP year.
- **LCFF Carryover — Percentage:** Specify the LCFF Carryover — Percentage identified in the LCFF Carryover Table from the prior LCAP year. If a carryover percentage is not identified in the LCFF Carryover Table, specify a percentage of zero (0.00%).
- **Total Percentage to Increase or Improve Services for the Coming School Year:** This percentage will not be entered; it is calculated based on the Projected Percentage to Increase or Improve Services for the Coming School Year and the LCFF Carryover — Percentage. ***This is the percentage by which the LEA must increase or improve services for unduplicated pupils as compared to the services provided to all students in the coming LCAP year.***
- **Goal #:** Enter the LCAP Goal number for the action.
- **Action #:** Enter the action's number as indicated in the LCAP Goal.
- **Action Title:** Provide a title of the action.
- **Student Group(s):** Indicate the student group or groups who will be the primary beneficiary of the action by entering "All," or by entering a specific student group or groups.
- **Contributing to Increased or Improved Services?:** Type "Yes" if the action **is** included as contributing to meeting the increased or improved services requirement; OR, type "No" if the action is **not** included as contributing to meeting the increased or improved services requirement.
- If "Yes" is entered into the Contributing column, then complete the following columns:
  - **Scope:** The scope of an action may be LEA-wide (i.e., districtwide, countywide, or charterwide), schoolwide, or limited. An action that is LEA-wide in scope upgrades the entire educational program of the LEA. An action that is schoolwide in scope upgrades the entire educational program of a single school. An action that is limited in its scope is an action that serves only one or more unduplicated student groups.

- **Unduplicated Student Group(s):** Regardless of scope, contributing actions serve one or more unduplicated student groups. Indicate one or more unduplicated student groups for whom services are being increased or improved as compared to what all students receive.
- **Location:** Identify the location where the action will be provided. If the action is provided to all schools within the LEA, the LEA must indicate “All Schools.” If the action is provided to specific schools within the LEA or specific grade spans only, the LEA must enter “Specific Schools” or “Specific Grade Spans.” Identify the individual school or a subset of schools or grade spans (e.g., all high schools or grades transitional kindergarten through grade five), as appropriate.
- **Time Span:** Enter “ongoing” if the action will be implemented for an indeterminate period of time. Otherwise, indicate the span of time for which the action will be implemented. For example, an LEA might enter “1 Year,” or “2 Years,” or “6 Months.”
- **Total Personnel:** Enter the total amount of personnel expenditures utilized to implement this action.
- **Total Non-Personnel:** This amount will be automatically calculated based on information provided in the Total Personnel column and the Total Funds column.
- **LCFF Funds:** Enter the total amount of LCFF funds utilized to implement this action, if any. LCFF funds include all funds that make up an LEA’s total LCFF target (i.e., base grant, grade span adjustment, supplemental grant, concentration grant, Targeted Instructional Improvement Block Grant, and Home-To-School Transportation).
  - **Note:** For an action to contribute towards meeting the increased or improved services requirement, it must include some measure of LCFF funding. The action may also include funding from other sources, however the extent to which an action contributes to meeting the increased or improved services requirement is based on the LCFF funding being used to implement the action.
- **Other State Funds:** Enter the total amount of Other State Funds utilized to implement this action, if any.
  - **Note:** Equity Multiplier funds must be included in the “Other State Funds” category, not in the “LCFF Funds” category. As a reminder, Equity Multiplier funds must be used to supplement, not supplant, funding provided to Equity Multiplier schoolsites for purposes of the LCFF, the ELO-P, the LCRS, and/or the CCSPP. This means that Equity Multiplier funds must not be used to replace funding that an Equity Multiplier schoolsite would otherwise receive to implement LEA-wide actions identified in the LEA’s LCAP or that an Equity Multiplier schoolsite would otherwise receive to implement provisions of the ELO-P, the LCRS, and/or the CCSPP.
- **Local Funds:** Enter the total amount of Local Funds utilized to implement this action, if any.
- **Federal Funds:** Enter the total amount of Federal Funds utilized to implement this action, if any.
- **Total Funds:** This amount is automatically calculated based on amounts entered in the previous four columns.
- **Planned Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis to unduplicated students, and that does not have funding associated with the action, enter the planned quality improvement anticipated for the action as

a percentage rounded to the nearest hundredth (0.00%). A limited action is an action that only serves foster youth, English learners, and/or low-income students.

- As noted in the instructions for the Increased or Improved Services section, when identifying a Planned Percentage of Improved Services, the LEA must describe the methodology that it used to determine the contribution of the action towards the proportional percentage. The percentage of improved services for an action corresponds to the amount of LCFF funding that the LEA estimates it would expend to implement the action if it were funded.

For example, an LEA determines that there is a need to analyze data to ensure that instructional aides and expanded learning providers know what targeted supports to provide to students who are foster youth. The LEA could implement this action by hiring additional staff to collect and analyze data and to coordinate supports for students, which, based on the LEA’s current pay scale, the LEA estimates would cost \$165,000. Instead, the LEA chooses to utilize a portion of existing staff time to analyze data relating to students who are foster youth. This analysis will then be shared with site principals who will use the data to coordinate services provided by instructional assistants and expanded learning providers to target support to students. In this example, the LEA would divide the estimated cost of \$165,000 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Planned Percentage of Improved Services for the action.

## Contributing Actions Table

As noted above, information will not be entered in the Contributing Actions Table; however, the ‘Contributing to Increased or Improved Services?’ column will need to be checked to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses.

## Annual Update Table

In the Annual Update Table, provide the following information for each action in the LCAP for the relevant LCAP year:

- **Estimated Actual Expenditures:** Enter the total estimated actual expenditures to implement this action, if any.

## Contributing Actions Annual Update Table

In the Contributing Actions Annual Update Table, check the ‘Contributing to Increased or Improved Services?’ column to ensure that only actions with a “Yes” are displaying. If actions with a “No” are displayed or if actions that are contributing are not displaying in the column, use the drop-down menu in the column header to filter only the “Yes” responses. Provide the following information for each contributing action in the LCAP for the relevant LCAP year:

- **6. Estimated Actual LCFF Supplemental and/or Concentration Grants:** Provide the total amount of LCFF supplemental and concentration grants estimated based on the number and concentration of unduplicated students in the current school year.
- **Estimated Actual Expenditures for Contributing Actions:** Enter the total estimated actual expenditure of LCFF funds used to implement this action, if any.

- **Estimated Actual Percentage of Improved Services:** For any action identified as contributing, being provided on a Limited basis only to unduplicated students, and that does not have funding associated with the action, enter the total estimated actual quality improvement anticipated for the action as a percentage rounded to the nearest hundredth (0.00%).
  - Building on the example provided above for calculating the Planned Percentage of Improved Services, the LEA in the example implements the action. As part of the annual update process, the LEA reviews implementation and student outcome data and determines that the action was implemented with fidelity and that outcomes for foster youth students improved. The LEA reviews the original estimated cost for the action and determines that had it hired additional staff to collect and analyze data and to coordinate supports for students that estimated actual cost would have been \$169,500 due to a cost of living adjustment. The LEA would divide the estimated actual cost of \$169,500 by the amount of LCFF Funding identified in the Data Entry Table and then convert the quotient to a percentage. This percentage is the Estimated Actual Percentage of Improved Services for the action.

## LCFF Carryover Table

- **9. Estimated Actual LCFF Base Grant:** Provide the total amount of estimated LCFF Target Entitlement for the current school year, excluding the supplemental and concentration grants and the add-ons for the Targeted Instructional Improvement Block Grant program, the former Home-to-School Transportation program, and the Small School District Transportation program, pursuant to 5 CCR Section 15496(a)(8). Note that the LCFF Base Grant for purposes of the LCAP also includes the Necessary Small Schools and Economic Recovery Target allowances for school districts, and County Operations Grant for COEs. See *EC* sections 2574 (for COEs) and 42238.02 (for school districts and charter schools), as applicable, for LCFF entitlement calculations.
- **10. Total Percentage to Increase or Improve Services for the Current School Year:** This percentage will not be entered. The percentage is calculated based on the amounts of the Estimated Actual LCFF Base Grant (9) and the Estimated Actual LCFF Supplemental and/or Concentration Grants (6), pursuant to 5 CCR Section 15496(a)(8), plus the LCFF Carryover – Percentage from the prior year. This is the percentage by which services for unduplicated pupils must be increased or improved as compared to the services provided to all students in the current LCAP year.

## Calculations in the Action Tables

To reduce the duplication of effort of LEAs, the Action Tables include functionality such as pre-population of fields and cells based on the information provided in the Data Entry Table, the Annual Update Summary Table, and the Contributing Actions Table. For transparency, the functionality and calculations used are provided below.

### Contributing Actions Table

- **4. Total Planned Contributing Expenditures (LCFF Funds)**
  - This amount is the total of the Planned Expenditures for Contributing Actions (LCFF Funds) column.
- **5. Total Planned Percentage of Improved Services**
  - This percentage is the total of the Planned Percentage of Improved Services column.
- **Planned Percentage to Increase or Improve Services for the coming school year (4 divided by 1, plus 5)**

- This percentage is calculated by dividing the Total Planned Contributing Expenditures (4) by the Projected LCFF Base Grant (1), converting the quotient to a percentage, and adding it to the Total Planned Percentage of Improved Services (5).

### **Contributing Actions Annual Update Table**

Pursuant to *EC* Section 42238.07(c)(2), if the Total Planned Contributing Expenditures (4) is less than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the LEA is required to calculate the difference between the Total Planned Percentage of Improved Services (5) and the Total Estimated Actual Percentage of Improved Services (7). If the Total Planned Contributing Expenditures (4) is equal to or greater than the Estimated Actual LCFF Supplemental and Concentration Grants (6), the Difference Between Planned and Estimated Actual Percentage of Improved Services will display “Not Required.”

- **6. Estimated Actual LCFF Supplemental and Concentration Grants**

- This is the total amount of LCFF supplemental and concentration grants the LEA estimates it will actually receive based on of the number and concentration of unduplicated students in the current school year.

- **4. Total Planned Contributing Expenditures (LCFF Funds)**

- This amount is the total of the Last Year's Planned Expenditures for Contributing Actions (LCFF Funds).

- **7. Total Estimated Actual Expenditures for Contributing Actions**

- This amount is the total of the Estimated Actual Expenditures for Contributing Actions (LCFF Funds).

- **Difference Between Planned and Estimated Actual Expenditures for Contributing Actions (Subtract 7 from 4)**

- This amount is the Total Estimated Actual Expenditures for Contributing Actions (7) subtracted from the Total Planned Contributing Expenditures (4).

- **5. Total Planned Percentage of Improved Services (%)**

- This amount is the total of the Planned Percentage of Improved Services column.

- **8. Total Estimated Actual Percentage of Improved Services (%)**

- This amount is the total of the Estimated Actual Percentage of Improved Services column.

- **Difference Between Planned and Estimated Actual Percentage of Improved Services (Subtract 5 from 8)**

- This amount is the Total Planned Percentage of Improved Services (5) subtracted from the Total Estimated Actual Percentage of Improved Services (8).

### **LCFF Carryover Table**

- **10. Total Percentage to Increase or Improve Services for the Current School Year (6 divided by 9 plus Carryover %)**

- This percentage is the Estimated Actual LCFF Supplemental and/or Concentration Grants (6) divided by the Estimated Actual LCFF Base Grant (9) plus the LCFF Carryover – Percentage from the prior year.
- **11. Estimated Actual Percentage of Increased or Improved Services (7 divided by 9, plus 8)**
  - This percentage is the Total Estimated Actual Expenditures for Contributing Actions (7) divided by the LCFF Funding (9), then converting the quotient to a percentage and adding the Total Estimated Actual Percentage of Improved Services (8).
- **12. LCFF Carryover — Dollar Amount LCFF Carryover (Subtract 11 from 10 and multiply by 9)**
  - If the Estimated Actual Percentage of Increased or Improved Services (11) is less than the Estimated Actual Percentage to Increase or Improve Services (10), the LEA is required to carry over LCFF funds.  
  
The amount of LCFF funds is calculated by subtracting the Estimated Actual Percentage to Increase or Improve Services (11) from the Estimated Actual Percentage of Increased or Improved Services (10) and then multiplying by the Estimated Actual LCFF Base Grant (9). This amount is the amount of LCFF funds that is required to be carried over to the coming year.
- **13. LCFF Carryover — Percentage (12 divided by 9)**
  - This percentage is the unmet portion of the Percentage to Increase or Improve Services that the LEA must carry over into the coming LCAP year. The percentage is calculated by dividing the LCFF Carryover (12) by the LCFF Funding (9).
