HONORS COURSES

JBHS offers Honors English 9, Honors English 10, Honors English 11, Honors Biology, and Honors Chemistry. The Honors English 11 and Honors Chemistry classes are weighted.

CTE DUAL ENROLLMENT COURSES

Career Technical Education (CTE) classes provide students with hands-on opportunities to investigate their interests and learn about career choices. JBHS offers CTE Dual Enrollment classes with local community colleges (Glendale Community College and Los Angeles Valley College). Several of our practical arts classes are articulated. Students can earn both high school and college credits. JBHS offers one community course during the regular school day, Anthropology 101 through LA Valley College

ATHLETICS

Baseball	Softball
Basketball	Swim
Cross Country	Tennis
Football	Track
Golf	Volleyball
Soccer	Waterpolo

ACADEMIC ACADEMIES

JBHS offers an Engineering and a Medical Academy through the National Academy Foundation (NAF). NAF educational design is made up of four elements of practice: academy development & structure, curriculum & instruction, advisory board, and work-based learning. The Academies' first cohorts graduated in 2019. NAF course titles on JBHS transcripts indicate cohorts of NAF academy students; the course curriculum is aligned with non-NAF course titles.

KEY SCHOOL STAFF

- Principal: Kenneth Knoop
- AP Instruction: Victoria Cuseo
- AP Guidance: Alex Potapenko
- AP Athletics & Activities: Jessica Palaski
- AP Student Services: Bryan Henriquez
- Registrar: Myra Leyva

Counselors:

- Mariela Campos
- Jodi Levy
- Olivia Martinez
- Jessie Steinberg
- Hung Truong (ELD)

MEDICAL

The JBHS Medical Academy is a four-year program designed for students to get a taste of what's going on in the medical field and how they can be a part of helping heal people. Students learn about medical issues that impact the world. Students also get hands-on experience with understanding the human body, what causes harm and how to treat and heal.

ENGINEERING

The JBHS Engineering Academy is a four-year program designed for students to gain an understanding of how things work, how to solve complex problems, and how to design and make new things. Students get hands-on experience with modeling and building, robotics, zSpace computers, 3D printers, and much more.
