Dear Terra Nova,

I am delighted to report that homecoming 2023 was a resounding success. It was a week filled with school spirit, fun activities and a strong sense of community. From lunchtime quad games, hallway decorations, homecoming heroes, freshmen elections, the rally and then finally to the dance, all of these events were primarily student organized and led. I would like to celebrate our student leadership (ASB) for their resiliency and hard work in making these

come to fruition. I also want to thank and acknowledge a few staff members who worked alongside them such as Alyssa Jenkins, Courtney Fil, Ophny Escalante and so many others. TN has a very strong and positive campus life - the over 400 students who came to the dance are evidence of that and our school spirit can't be denied!

During this exciting time, I also want to take a moment and point out that the first progress report grades were finalized last week. The district no longer sends paper copies home so please be sure to check ParentVUE to view your student's grades. It's also a great time to point out that the district is continuing to provide PAPER to all students, free of cost.

PAPER is an online tutoring program, available 24/7 to our students. Students login to this web based program and instantly connect with tutors who can support them in all subject areas - completing assignments and studying for tests. The program even allows students to upload written work and essays for tutors to review and provide constructive feedback on style and grammar.

As we celebrate the success of homecoming week, let's also remember the hard work and cooperation it takes to nurture an environment where our students can thrive academically and personally.

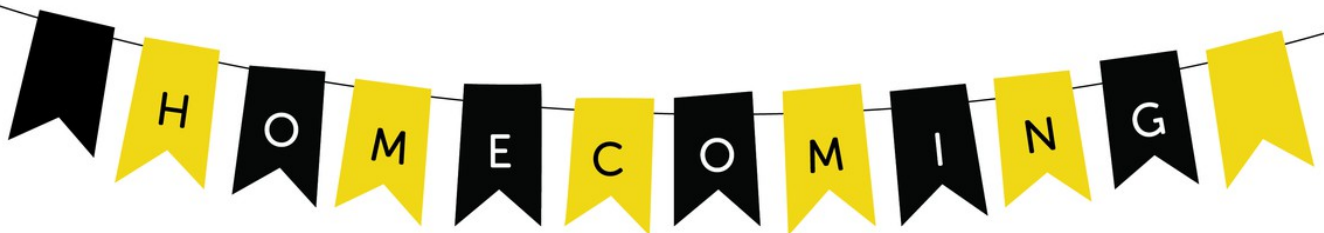

Thank you for your continued partnership and support,

Megan Carey  
Principal

## WELLNESS MATTERS

### Gender-expansive Youth and Access to Care

Licensed Psychologist and Gender Specialist Dr. Sarah Burdge and colleagues will present a summary of recent research about the impact of providing gender-affirming mental health and medical

interventions to gender-expansive youth and young adults, and provide tips on how to analyze information that you are exposed to in the news or elsewhere. Common areas of concern include:

- Is my child old enough to have the self-awareness needed to make such important decisions?
- Will my child regret medical interventions later?
- How is overall mental health positively or negatively affected by medical interventions such as hormone therapy, "top surgery," etc.?
- What can I do to best support a child in their gender exploration?
- Are children really trans or non-binary, or are they being influenced by peers and/or social media?

**Monday, October 16 | 6 – 8 pm**
