

DON'T LET THE FLU SLOW YOU DOWN!

A yearly flu vaccine is the first and most important step in protecting against flu viruses. The CDC recommends that everyone 6 months or older should get an annual flu shot. The Appling County Health Department will be offering flu shots to students over the next few weeks. All students must have a consent form signed by a parent or legal guardian to receive an immunization.

Date	Schools
October 23	Appling County High School
