G. Stadium Update

Stadium Discussion – Clint wants feedback from the board. Clint shared the engineering report and the rot. The cost for rot repair is about \$300k for an unknown amount of time. Clint's recommendation is to develop a plan for removal of the stadium and bring in temporary seating. It will be a significant amount of money for replacing. Clint will come up with some different options and plans. We can get quotes on the bleachers, but getting the full picture will be to get formal plans and bids. Nothing has gone publicly. Clint has a statement to send to the public. Board comments were to make sure that we get something out to the public. J. Dumdi's question was how long before it will be built. Jami asked Tami to look for grants. Start to campaign for help from the community. Quote was about \$40,000 for bleachers that we could use on-going. A committee will be looked at for a replacement proposal. It was built in 1963 with reclaimed wood. Send Clint any questions or concerns. Clint will be moving forward with the demolition. He will send the board the communications to the community. Clint will send a link to provide feedback in written form.

There were trips to Scappoose to look at their model. It has been highly successful for them. Highlights included credit recovery and skill sets during the J/M terms. YCIS will determine proficiency at the conferences. Final logistics are still being worked out. It will only be 6-8 at YCIS. Transportation will be provided for students experiencing homelessness to and from the student's school of origin¹ as required by the Every Student Succeeds Act (ESSA). Services shall be provided throughout the regularly scheduled year and during the regular school day as determined by the Board.

Elementary students in grades K-8 who live more than one mile from school will be transported. Secondary students in grades 9-12 who live more than one and one-half miles from school will be transported. OR

Students living within specified attendance boundaries shall receive transportation services to their respective schools. In addition, students, including those receiving special education, may be eligible for transportation for health or safety reasons.

Special transportation arrangements may be made for students with disabilities.

Students with disabilities who utilize specialized transportation will have arrival and dismissal times at the same time as non-disabled peers at their designated school unless a shortened school day is determined as necessary to meet the individualized needs of a particular student with a disability, and such decisions are made by a group of persons knowledgeable about the student, the student's disability, evaluation data, and the student's placement options.

Miles from school will be determined by the transportation supervisor in accordance with Oregon Administrative Rule (OAR) 581-023-0040(1)(e).

The district may use Type 10 School Activity Vehicles to transport students from home to school, school to home and from district-sponsored activities.

When the student has completed the final grade served by the school of origin, the term "school of origin" shall include the designated receiving school at the next grade level for all feeder schools.

The district may also provide transportation using federal funds² or through cooperative agreements with local victims assistance units for a student to attend a safe district school³ out of the student's attendance area for any student who is a victim of a violent criminal offense occurring in or on the grounds of the school the student attends or the student attends a school identified as persistently dangerous. If there are no other schools within the district a student may transfer to, the district may establish a cooperative agreement with other districts in the area for a transfer. Transportation for students who transfer for such purposes will be provided in accordance with the agreement.

Students attending any private, parochial or public charter school under the compulsory school attendance laws will, where the private, parochial or public charter school is along or near the bus route, be provided equally the riding privileges given to public school students.

Transportation will be provided for students whose parent or guardian voluntarily placed the child outside the child's home with a public or private agency and who is living in a licensed, certified or approved substitute care program, and whose residency is established pursuant to Oregon Revised Statute (ORS) 339.134.

Preschool students with disabilities who have transportation as a related service and children from birth to age three who are enrolled in an eligible program shall be provided home to school transportation.

A seat that fully supports each person and meets the minimum standards and specifications of law will be provided at all times. A person who weighs 40 pounds or less must be properly secured with a child safety system that meets the minimum standards and specifications established by the Oregon Department of Transportation under Oregon Revised Statute (ORS) 815.055. A person over 40 pounds or who has reached the upper weight limit for the forward-facing car seat must use a booster seat until they are four feet nine inches tall or age eight and the adult belt properly fits.⁴ A person who is taller than four feet nine inches or eight years of age or older must be properly secured with a safety belt or harness that meets the requirements under ORS 815.055. In accordance with ORS 811.210 and 811.215 vehicles in excess of 10,000 pounds used for student transportation are exempt from statutory requirements unless they have been equipped with lap belts. Vehicles in excess of 10,000 pounds that have been equipped with lap belts must meet child car seat requirements as set forth in law.

School buses carrying students will be considered extensions of the school experience. All students using school transportation will abide by the code of conduct posted in each school bus or school activity vehicle. Violations of such code, as well as other conduct which is improper or which jeopardizes the safety of self or others, will be reported by the school bus or vehicle driver to the supervisor. The transportation supervisor will, as soon as possible, inform the appropriate principal of such occurrence. Violators may be denied use of transportation for a period of time as deemed proper by the principal and/or transportation supervisor.

² "Federal funds" means funds available through Title IV, Part A, and Title V, Part A.

Drug and Alcohol Testing and Record Query - Transportation Personnel *

The district is committed to the establishment of a drug use and alcohol misuse prevention program that meets all applicable requirements of the Omnibus Transportation Employee Testing Act of 1991 (OTETA). The district or its transportation provider shall have an in-house drug and alcohol testing program or be a member of a consortium that provides testing that meets the federal regulations, and shall annually certify this information to the Oregon Department of Education (ODE). The district or its transportation provider shall comply with the reporting and pre-employment and annual query requirements of the Federal Motor Carrier Safety Administration (FMCSA).

Accordingly, all employees subject to commercial driver license (CDL) requirements shall be prohibited from:

1. The use of drugs, unless a written prescription from a licensed doctor or osteopath is provided, including a statement advising that the substance does not adversely affect the driver's ability to safely operate a commercial motor vehicle;
2. The use of alcohol including:
 - a. While on duty;
 - b. Eight hours before driving, in accordance with Oregon Administrative Rules;
 - c. Eight hours following an accident;
 - d. Consumption resulting in prohibited levels of alcohol in the system.

“Drugs” as used in this policy refer to controlled substances covered by the OTETA, including marijuana, cocaine, opiates, amphetamines and phencyclidine (PCP).

All covered individuals offered employment with the district and district employees transferring to positions subject to the OTETA shall be required to submit to pre-employment drug testing and a pre-employment query with FMCSA. Additionally, covered employees will be subject to reasonable suspicion, random and post-accident alcohol and drug testing. Return-to-duty and follow-up testing may also be required. The district will also require pre-employment alcohol testing in accordance with the following provisions:

1. All candidates for employment or transfer with the district and subject to the OTETA requirements will be tested;
2. All tests will be conducted using the alcohol testing procedures of 49 C.F.R. Part 40;
3. Such tests must be conducted prior to the new or transferred employee's performance of safety-sensitive functions.

Pre-employment alcohol and drug testing costs will be paid for by the district transportation services. All drug and alcohol testing of employees, including reasonable suspicion, random, post-accident, return-to-duty and follow-up testing costs, as applicable, will be paid for by the district transportation services. A fee associated with a pre-employment query requested by the district from FMCSA will be paid by the district transportation service. The district will comply with collective bargaining agreement provisions.

All offers of employment or transfer to covered positions with the district will be made contingent upon testing results and information obtained from a query with FMCSA. An individual who tests positive for drugs or tests with a breath alcohol content level of 0.02 or higher will not be hired or transferred. The offer of employment or transfer will be immediately withdrawn.¹

An offer of employment or transfer will also be immediately withdrawn from any individual who refuses alcohol and drug testing and/or refuses to give consent for a query with FMCSA.

Covered employees who, under the district's reasonable suspicion, random, post-accident, return-to-duty or follow-up testing program, test positive for drugs or test with a breath alcohol content level of 0.02 or higher, will be subject to immediate disciplinary action up to and including dismissal in accordance with Board policy. Employees who refuse to comply with testing requirements will also be regarded as testing positive for drugs or testing with a breath alcohol content level of 0.02 or higher. Notification of available resources for evaluation and treatment will be made as required by law. Additionally, employees may be subject to CDL prohibitions and penalties under the OTETA and applicable FMCSA regulations. Covered employees who refuse consent for a query with FMCSA when required will be removed from safety-sensitive functions.

The district may, in its continuing effort to enhance safety, request a waiver of the OTETA prohibitions against standing down an employee before the medical review officer (MRO) has completed the verification process as provided by 49 C.F.R. § 40.21(c). "Stand-down" means the practice of temporarily removing an employee from safety-sensitive functions based solely on a report from a laboratory to the MRO of a confirmed positive test for drugs, an adulterated test or a substituted test before the MRO has completed verification of the test results. The written waiver request will be directed to the appropriate Federal Motor Carrier Safety Administrator.

In accordance with the provisions of 49 C.F.R. § 40.21(c)(2), and in its ongoing effort to protect the interests of employees in fairness and confidentiality, the district will ensure:

1. The district's policy and administrative regulation are distributed to all covered employees;
2. No information about the confirmed positive, adulterated or substituted test results, or the reason for the employee's temporary removal from performing safety-sensitive functions, becomes available, directly or indirectly to others in the district or subsequently to another employer, other than the employee, the MRO and the designated district official;

¹ The district may elect to allow an individual who tests positive for drugs or tests with a breath alcohol content level of 0.02 or higher to reapply for district employment or transfer to a covered position at a later date. At that time, the individual will again be tested for the presence of drugs [and alcohol], if required by the district. A district employee considered for transfer to an OTETA-covered position who tests positive for drugs or tests with a breath alcohol content level of 0.02 or higher will be subject to all district policies and regulations including the district's Drug-Free Workplace policy.

3. All covered employees in a particular district job category are treated the same way with respect to “stand-down”;
4. A covered employee will be subject to “stand-down” only with respect to the actual performance of safety-sensitive duties;
5. No adverse action affecting the employee’s pay and benefits will be taken pending the completion of the MRO’s verification process. This includes continuing to pay the employee during the period of the stand-down in the same way the district would have paid them had they not been stood down;
6. The verification process will commence no later than the time an employee is temporarily removed from the performance of safety-sensitive functions and that the period of “stand down” for any employee will not exceed five days, unless the district is informed in writing by the MRO that a longer period is needed to complete the verification process; and
7. In the event that the MRO verifies the test negative or cancels it:
 - a. The district will return the employee immediately to the performance of safety-sensitive duties;
 - b. The employee suffers no adverse personnel or financial consequences as a result; and
 - c. No individually identifiable record that the employee had a confirmed laboratory positive, adulterated or substituted test result is maintained. (The district will maintain a record of the test only as a negative or cancelled test.)

The district will not “stand down” employees in the absence of a waiver, or inconsistent with the terms of the waiver.

The district will establish a voluntary self-identification program consistent with the OTETA requirements. Accordingly, an employee who admits to alcohol misuse or drug use will not be subject to certain referral, evaluation and treatment requirements, provided:

1. The admission is in accordance with the provisions of this policy;
2. The driver does not self-identify in order to avoid testing as required by the OTETA;
3. The driver makes the admission prior to performing a safety-sensitive function (i.e., prior to reporting for duty);
4. The driver does not perform a safety-sensitive function until the district is satisfied that the employee has been evaluated and has successfully completed education or treatment in accordance with the district’s self-identification program guidelines.

Adverse action on the part of the district against any employee making a voluntary admission of alcohol misuse or drug use consistent with the provisions of this policy is prohibited. The district is committed to providing sufficient opportunity for the employee to seek evaluation, education or treatment to establish control over their drug or alcohol problem.

Following successful completion of an educational or treatment program, as determined by a drug and alcohol abuse evaluation expert (i.e., employee assistance professional, substance abuse professional or qualified drug and alcohol counselor) the employee will be permitted to return to duty. The district will ensure that prior to the employee participating in a safety-sensitive function, the employee shall be required to undergo a return-to-duty testing with a result indicating a breath alcohol content level of less than 0.02 and/or a verified negative test result for drug use, as appropriate. The district may incorporate employee monitoring and include non-OTETA follow-up testing as part of its return-to-duty procedures under the district's self-identification program.
