

SCIENCE INSTRUCTIONAL MATERIALS COMMITTEE

Wakulla County Schools will be going through the Florida Instructional Materials Adoption for Science K-12. The District Review committee will include content area teachers, one or more parents of children at content grade level and district personnel.

Committee Members:

The responsibilities of the Instructional Materials Review Committee are

- Review materials and complete rubrics
- Facilitate school-based review of materials
- Collaborate and participate in discussions
- Make recommendations to school based departments

Committee Member Review Date

The Science Instructional Materials Committee will meet for initial review of materials in January in the Board Room at the Wakulla County Schools District Office. Once specific dates and times have been selected, they will be posted here.
