

PARTNERSHIP *Progress*

COMMUNITY *Schools*

Community schools help build stronger communities by engaging parents and families to address barriers to learning. In PPS, 9 community schools are working to meet the unique needs of students and families across the District.

OUT OF SCHOOL *Time*

The District partners with over 100 community-based nonprofits and youth organizations to support students' academic and social-emotional needs.

PARENT ADVISORY *Council*

Parent representatives on the Parent Advisory Council serve as liaisons between parents in their schools and the District, ensuring families in their schools are informed about PPS matters.
