

LIVERMORE HIGH SCHOOL

Principal- Roxana Mohammed

Vice Principals: Lisa Keck, David Martinez, Daniel Musselman, Alyson Noble

OUR MISSION:

To provide a well rounded, rigorous curriculum in a safe and supportive learning environment that promotes intellectual, physical, social, and emotional growth of all students.

SPECIALIZED PROGRAMS

GREEN ENGINEERING ACADEMY (GEA)

The Green Engineering Academy (GEA) is a California Partnership Academy which incorporates integrated academic and career technical education, business partnerships, mentoring, and internships. Students learn to use engineering and architecture software, and tools to prepare for careers in engineering, clean technology, and renewable energy.

FUTURE FARMERS OF AMERICA (FFA)

The agriculture program at Livermore High School offers a variety of courses that develop an awareness and appreciation of the many career opportunities in agriculture. Students enrolled in agriculture are members of the FFA, a national organization with the purpose of developing leadership, cooperation, and citizenship. 16 students were awarded the FFA State Degree, the highest honor awarded to FFA members in 2022.

MODEL WELLNESS CENTER

The Wellness Center at Livermore High was developed as a safe, physical space to establish mental health supports and the social culture needed for all students to thrive. Students can come to the center to receive 1:1 counseling; relaxation, meditation, and de-escalation tools; crisis support; peer mediation and conflict resolution; and more. Students known as Culture Keepers work in the Wellness Center and help create an intentional culture on campus and inclusive school environment.

AWARD WINNING PROGRAMS & STUDENT ACHIEVEMENTS

- National Merit Scholarship recognitions
- Students accepted into Major and Ivy League Universities
- Award Winning Color Guard
- Award Winning Vocal and Instrumental Music
- GravitechX Robotics Team
