

ADMISSIONS FACTS & FAQS

Rolling Process

While many of our available spaces are filled by March, prospective families are welcome to campus for tours at any time throughout the year. We require that the Parent Online Application and fee be submitted prior to the day of the student visit.

Variable Tuition Application and Process

Families interested in applying for Variable Tuition must complete an application online at <https://app.clarityapp.com/sign-up>. Please note that, with your permission, Clarity will pull all mandatory federal income tax returns information into its system for you. In the case of divorce or separation, both biological and/or adoptive parent/guardian households are required to submit information in order to qualify for Variable Tuition. Note that Variable Tuition awards are issued concurrent with admission decisions.

Frequently Asked Questions

Does Wooster School have a deadline for Admissions?

No, Wooster accepts and enrolls families throughout the year and until class spaces are filled. However, if a prospective family is looking for Variable Tuition, we recommend completing your application as soon as possible. By February 1st we have allocated the vast majority of our Variable Tuition for the upcoming school year.

When do I find out if I received a Variable Tuition allotment?

Admission decisions and Variable Tuition awards are issued concurrently. If Wooster School does not have Variable Tuition available, families will be placed on a Variable Tuition waitlist.

When does Wooster School need a decision from a family?

To hold a seat in next year's class and be fair to all applying families, we ask families to complete a contract within two-weeks of an acceptance.
