The School

Founded in 1955, Rochambeau is a private coeducational day school serving the Washington DC metropolitan area. Rochambeau provides a multilingual education that culminates with students earning the French Baccalauréat or the International Baccalaureate Diploma with most students also earning an additional credential in their Maryland High School Diploma, at the end of 11th grade. The student body represents countries from around the world, and the school prides itself on offering a personalized approach to learning in an academically rigorous but diverse and inclusive environment. As a result Rochambeau challenges its students to grow academically, athletically, artistically, socially, and morally.

Academic Programs

French Baccalauréat - French BAC

Baccalauréat Français (BAC), Baccalauréat Français International (BFI)

All French High Schools (lycées) follow the academic curriculum established by the French Ministry of Education. At Rochambeau, high school begins in the 8th grade and culminates in 11th grade with the awarding of the high school diploma. 12th grade (Terminale) is the final year of study in preparation for and in pursuit of the Baccalauréat Français (Classic) or International Baccalaureate Diploma (BFI). At Rochambeau, the Baccalauréat is a multilingual program of study. Most Rochambeau students graduate writing and speaking English and French with fluency. An academically rigorous curriculum, students spend up to 40 hours per-week in classroom instruction. The curriculum fosters self-discipline, organization, and autonomy, while developing critical thinking and analytical skills.

Baccalauréat students have a common core of classes then choose 3 specialties to pursue starting in 11th grade. They continue 2 of the 3 specialities in 12th grade. Exceptionally high achieving students can elect to pursue the Baccalauréat Français International (BFI) option which provides **5 additional classroom instruction hours** considered to be at the collegiate level. All students in the French Baccalauréat will graduate having taken integrated Mathematics courses that include Algebra, Geometry, Algebra II, Trigonometry, Statistics, Probability, Precalculus and Calculus. This is not optional. All students complete these math competencies.
