INDEPENDENT AUDITORS' REPORT

Board of Directors Shelburne Town School District Shelburne, Vermont

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund and the aggregate remaining fund information of Shelburne Town School District as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the

reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund and the aggregate remaining fund information of Shelburne Town School District as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information and pension information on pages 4 through 11 and 53 through 55 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Shelburne Town School District's basic financial statements. The combining financial statements are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The Schedule of Departmental Operations – General Fund, combining financial statements and capital asset schedules are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the

underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Schedule of Departmental Operations – General Fund, combining financial statements and capital asset schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 18, 2016 on our consideration of Shelburne Town School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Shelburne Town School District's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2016

(UNAUDITED)

The following management's discussion and analysis of the Shelburne Town School District's financial performance provides an overview of the School District's financial activities for the fiscal year ended June 30, 2016. Please read it in conjunction with the School District's financial statements.

Financial Statement Overview

The School District's basic financial statements include the following components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also includes required supplementary information which consists of the general fund budgetary comparison schedule, and other supplementary information which includes combining and other schedules.

Basic Financial Statements

The basic financial statements include financial information in two differing views: the government-wide financial statements and the fund financial statements. These basic financial statements also include the notes to financial statements that explain in more detail certain information in the financial statements and also provide the user with the accounting policies used in the preparation of the financial statements.

Government-Wide Financial Statements

The government-wide financial statements provide a broad view of the School District's operations in a manner that is similar to private businesses. These statements provide both short-term as well as long-term information in regards to the School District's financial position. These financial statements are prepared using the accrual basis of accounting. This measurement focus takes into account all revenues and expenses associated with the fiscal year regardless of when cash is received or paid. The government—wide financial statements include the following two statements:

The Statement of Net Position – this statement presents *all* of the government's assets, deferred outflows of resources, liabilities and deferred inflows of resources with the difference being reported as net position.

The Statement of Activities – this statement presents information that shows how the government's net position changed during the period. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows.

Both of the above mentioned financial statements have one column for the type of School District activities. The type of activity presented for the School District is:

 Governmental activities – The activities in this section are mostly supported by intergovernmental revenues (federal and state grants). Most of the School District's basic services are reported in regular instruction, special education, support services, administrative support services, buildings and grounds, transportation services, food services, and unclassified services.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The School District, like other local governments uses fund accounting to ensure and demonstrate compliance with financial related legal requirements. All of the funds of the School District can be classified into two categories: governmental funds and fiduciary funds.

Governmental funds: All of the basic services provided by the School District are financed through governmental funds. Governmental funds are used to account for essentially the same functions reported in governmental activities in the government—wide financial statements. However, unlike the government-wide financial statements, the governmental fund financial statements focus on near-term inflows and outflows of spendable resources. They also focus on the balance of spendable resources available at the end of the fiscal year. Such information will be useful in evaluating the government's near-term financing requirements. This approach is known as the current financial resources measurement focus and the modified accrual basis of accounting. Under this approach revenues are recorded when cash is received or when susceptible to accrual. Expenditures are recorded when liabilities are incurred and due. These statements provide a detailed short-term view of the School District's finances to assist in determining whether there will be adequate financial resources available to meet the current needs of the School District.

Because the focus of governmental funds is narrower than that of government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities. These reconciliations are presented on the page immediately following each governmental fund financial statement.

The School District presents four columns in the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances. The School District's four major funds are the general fund, the food service fund, the capital projects funds and the debt service fund. There are no nonmajor funds.

The general fund is the only fund for which the School District legally adopted a budget. The Budgetary Comparison Schedule – Budgetary Basis – Budget and Actual – General Fund provides a comparison of the original and final budget and the actual expenditures for the current year.

Fiduciary Funds: These funds are used to account for resources held for the benefit of parties outside the Shelburne Town School District. These funds are not reflected in the government-wide financial statements because the resources of these funds are not available to support the School District's own programs. The accounting used for fiduciary funds are much like that of proprietary funds. They use the accrual basis of accounting.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the Government-Wide and the Fund Financial Statements. The Notes to Financial Statements can be found following the Statement of Changes in Fiduciary Net Position.

Required Supplementary Information

The basic financial statements are followed by a section of required supplementary information, which includes a Budgetary Comparison Schedule – Budgetary Basis – Budget and Actual – General Fund, a Schedule of Proportionate Share of the Net Pension Liability and a Schedule of Contributions.

Other Supplementary Information

Other supplementary information follows the required supplementary information. These combining schedules provide information in regards to other detailed budgetary information for the general fund.

Government-Wide Financial Analysis

Our analysis below focuses on the net position, and changes in net position of the School District's governmental activities. The School District's total net position for governmental activities decreased by \$241,678 from \$5,328,301 to \$5,086,488.

Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling

legislation, or other legal requirements - decreased for governmental activities to a deficit balance of \$197,702 at the end of this year.

Revenues and Expenses

Revenues for the Shelburne Town School District's governmental activities increased by 6.60%, while total expenses increased by 5.68%. Most of the School District's revenues were consistent with the previous year with minor increases or decreases. The largest increase in revenues was in state aid. The biggest increases in expenses were in regular instruction and special education.

Financial Analysis of the School District's Fund Statements

Governmental funds: The financial reporting focus of the School District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information may be useful in assessing the School District's financial requirements. In particular, unassigned fund balance may

serve as a useful measure of a government's financial position at the end of the year, and the net resources available for spending.

Table 3

The general fund total fund balance decreased by \$165,000 from the prior fiscal year. The food service fund total fund balance decreased by \$13,575 from the prior fiscal year. The capital projects fund total fund balance decreased by \$437,096 from the prior fiscal year. The debt service fund total fund balance increased by \$135 from the prior fiscal year.

Budgetary Highlights

There was no significant difference between the original and final budget for the general fund.

The general fund actual revenues were under budgeted revenues by \$105,845 primarily due to other intergovernmental revenues that were under received.

The general fund actual expenditures were under the budget by \$105,845. Regular instruction and related services, special education and related services, support services – student based and buildings and grounds finished within budget while the remaining expenditure categories exceeded the budget.

Capital Asset and Long-Term Debt Activity

Capital Assets

As of June 30, 2016, the School District's capital assets increased by \$291,699. This increase was due to current year capital additions of \$792,662 less depreciation of \$500,963.

Table 4 Shelburne Town School District Capital Assets (Net of Depreciation) June 30,

		2016		2015
Construction in progress	\$	659,475	\$	44,435
Buildings and improvements	•	4,406,198	•	4,687,933
Furniture, equipment and vehicles		518,174		559,780
Total	\$	5,583,847	\$	5,292,148

Debt

At June 30, 2016, the School District had \$304,074 in notes payable versus bonds and notes payable of \$421,449 in the prior fiscal year. Other long-term obligations include accrued compensated absences, accrued severance payable and net pension liability. Refer to Note 6 of the Notes to Financial Statements for detailed information.

Currently Known Facts, Decisions, or Conditions

Economic Factors and Next Year's Budgets and Rates

The 2016-2017 budget was prepared using information on enrollment, the state of the economy and the overall impact that budget increases would have on local tax rates.

Contacting the School District's Financial Management

This financial report is designed to provide our citizens, taxpayers, customers, and creditors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the School District at 5420 Shelburne Road, Suite 300, Shelburne, Vermont 05482.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Reporting Entity

The School District is organized, according to State law, under the governance of the Board of School Directors to provide public education to the Town of Shelburne. The School District is governed by a five member elected board.

The School District's financial statements are prepared in accordance with generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The School District's combined financial statements include all accounts and all operations of the School District. We have determined that the School District has no component units as described in GASB Statement No. 14 and amended by GASB Statements No. 39 and No. 61.

Implementation of New Accounting Standards

During the year ended June 30, 2016, the following statements of financial accounting standards issued by the Governmental Accounting Standards Board became effective:

Statement No. 72, "Fair Value Measurement and Application". The objective of the Statement is to expand comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This Statement also will improve fair value application guidance and related disclosures in order to provide information to financial statement users about the impact of fair value measurements on a government's financial position. Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 73, "Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68". The objective of the Statement is to improve financial reporting by instituting a single framework for the presentation of information about pensions, thereby expanding the comparability of pension-related information reported by state and local governments. Management has determined that this Statement is not applicable.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Statement No. 76, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments". The objective of this Statement is to identify-in the context of the current governmental financial reporting environment-the hierarchy of generally accepted accounting principles (GAAP). The "GAAP hierarchy" consists of the sources of accounting principles used to prepare financial statements of state and local governmental entities in conformity with GAAP and the framework for selecting those principles. This Statement reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within a source of authoritative GAAP. Management has determined the impact of this Statement is not material to the financial statements.

Statement No. 79, "Certain External Investment Pools and Pool Participants". This Statement establishes specific criteria used to determine whether a qualifying external investment pool may elect to use an amortized cost exception to fair value measurement. Those criteria will provide qualifying external investment pools and participants in those pools with consistent application of an amortized cost-based measurement for financial reporting purposes. That measurement approximates fair value and mirrors the operations of external investment pools that transact with participants at a stable net asset value per share.

This Statement also establishes additional note disclosure requirements for qualifying external investment pools that measure all of their investments at amortized cost for financial reporting purposes and for governments that participate in those pools. Those disclosures for both the qualifying external investment pools and their participants include information about any limitations or restrictions on participant withdrawals. Management has determined the impact of this Statement is not material to the financial statements.

Government-Wide and Fund Financial Statements

The School District's basic financial statements include both government-wide (reporting the School District as a whole) and fund financial statements (reporting the School District's major funds).

Both the government-wide and fund financial statements categorize primary activities as governmental. All of the School District's activities are categorized as governmental.

In the government-wide Statement of Net Position, both the governmental and business-type activities columns are (a) presented on a consolidated basis by column, and (b) are reported on a full accrual, economic resources basis, which recognizes all

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

long-term assets and receivables as well as long-term debt and obligations. The School District's net position is reported in three parts – net investment in capital assets; restricted net position; and unrestricted net position. The School District first utilizes restricted resources to finance qualifying activities.

The government-wide Statement of Activities reports both the gross and net cost of each of the School District's functions (instruction, administration, etc.). The functions are also supported by general government revenues (state aid, certain other intergovernmental revenues, charges for services, miscellaneous revenues, etc.). The Statement of Activities reduces gross expenses by related program revenues, operating and capital grants. Operating grants include operating-specific and discretionary (either operating or capital) grants while the capital grants column reflects capital-specific grants. For the most part, the interfund activity has been eliminated from these government-wide financial statements.

The net costs (by function) are normally covered by general revenue (assessments, certain intergovernmental revenues and interest income, etc.).

The School District does not allocate indirect costs. All costs are charged directly to the corresponding departments.

The government-wide focus is more on the sustainability of the School District as an entity and the change in the School District's net position resulting from the current year's activities.

Measurement Focus - Basic Financial Statements & Fund Financial Statements

The financial transactions of the School District are reported in the individual funds in the fund financial statements. Each fund is accounted for by providing a separate set of self-balancing accounts that comprise its assets, liabilities, fund balances, revenues and expenditures/expenses. The various funds are reported by generic classification within the financial statements.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The following fund types are used by the School District:

Governmental Funds:

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position (sources, uses, and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the School District:

Major Funds

- a. The General Fund is the general operating fund of the School District. It is used to account for all financial resources except those required to be accounted for in another fund.
- b. The Food Service Fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for the food service program.
- c. The Capital Projects Fund is used to account for the acquisition or construction of major capital facilities.
- d. The Debt Service Fund is used to account for debt proceeds related to capital asset purchases.

2. Fiduciary Funds:

Fiduciary funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support the School District's programs. The reporting focus is on net position and changes in net position and is reported using accounting principles similar to proprietary funds. Component units that are fiduciary in nature have been excluded from these financial statements.

The School District's fiduciary funds are presented in the fiduciary fund financial statements by type (agency and private-purpose). Since by definition these assets are being held for the benefit of a third party (other local governments, private parties, etc.) and cannot be used to address activities or obligations of the government, these funds are not incorporated into the government-wide financial statements.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The emphasis in fund financial statements is on the major funds in the governmental activity category. Non-major funds by category are summarized into a single column. GASB Statement No. 34 sets forth minimum criteria (percentage of the assets, liabilities, revenues, or expenses of either the fund category or the governmental and enterprise combined) for the determination of major funds. The nonmajor funds are combined in a column in the fund financial statements.

Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

1. Accrual

Governmental activities in the government-wide financial statements and fiduciary fund financial statements are presented on the accrual basis of accounting. Revenues are recognized when earned and expenses are recognized when incurred.

2. Modified Accrual

The governmental fund financial statements are presented on the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., both measurable and available. "Available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are generally recognized under the modified accrual basis of accounting when the related liability is incurred.

The exception to this general rule is that principal and interest on general obligation long-term debt, if any, is recognized when due.

Budget

The School District's policy is to adopt an annual budget for operations. The budget is presented on the modified accrual basis of accounting which is consistent with generally accepted accounting principles.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In accordance with Governmental Accounting Standards Board Statement No. 24, Accounting and Reporting for Certain Grants and Other Financial Assistance, payments made by the State of Vermont to the Vermont State Retirement System for teachers and certain other school employees are reported as offsetting revenues and expenditures of the general fund.

Revenues per budgetary basis	\$ 12,729,102
Add: On-behalf payments	540,023
Total GAAP basis	\$ 13,269,125
Expenditures per budgetary basis	\$ 12,894,102
Add: On-behalf basis	540,023
Total GAAP basis	\$ 13,434,125

The following procedures are followed in establishing budgetary data reflected in the financial statements:

- 1. The School Board approves a preliminary budget by early January for the following fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. The budget is approved at the annual district meeting by the School District voters.
- 3. The School District is not legally required to adopt a budget for the Food Service Fund.

Deposits and Investments

The School District's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

It is the School District's policy to value investments at fair value. None of the School District's investments are reported at amortized cost. For purposes of the statement of cash flows, all highly liquid investments with a maturity of three months or less when purchased are considered to be a cash equivalent. The School District Treasurer is authorized by State Statutes to invest all excess funds in the following:

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

- Obligations of the U.S. Government, its agencies and instrumentalities.
- Certificates of deposits and other evidences of deposits at banks, savings and loan associations, and credit School Districts.
- Repurchase agreements
- Money market mutual funds

The Shelburne Town School District has no formal investment policy but instead follows the State of Vermont Statutes.

Inventories

Inventories consist of expendable supplies held for consumption and are valued at cost which approximates market, using the first-in/first-out (FIFO) method. The costs of inventories are recorded as expenditures when used (consumption method). Inventory of the Food Service Fund consists of supplies and food.

Interfund Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Any residual balances outstanding between governmental activities and business-type activities are reported in the governmental-wide financial statements as "internal balances".

Transactions Between Funds

Legally authorized transfers are treated as interfund transfers and are included in the results of operations of both Governmental and Proprietary Funds.

Allowance for Uncollectible Accounts

The allowance for uncollectible accounts is estimated to be \$0 as of June 30, 2016.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets

Capital assets purchased or acquired with an original cost of \$5,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Depreciation on all assets is provided on the straight-line basis over the estimated useful lives.

The assets are valued at historical cost when available and estimated historical cost where actual invoices or budgetary data was unavailable. Donated fixed assets are valued at their estimated fair market value on the date received. All retirements have been recorded by eliminating the net carrying values.

Estimated useful lives are as follows:

Buildings 20 - 50 years Machinery and equipment 3 - 50 years Vehicles 3 - 25 years

Long-term Obligations

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources is reported as liabilities in government-wide statements. The long-term debt consists primarily of notes payable, accrued compensated absences, accrued severance payable and net pension liability.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest reported as expenditures. The accounting for proprietary fund is the same in the fund statements as it is in the government-wide statements.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Vermont State Teachers' Retirement System (VSTRS) and the Vermont Municipal Employees' Retirement System (VMERS) Plans and additions to/deductions from the VSTRS and VMERS Plans' fiduciary net position have been determined on the same basis as they are reported by the VSTRS and VMERS Plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on its use either through enabling legislations adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. Unrestricted net position is the net amount of the assets, deferred outflows of resources, liabilities, and deferred inflows of resources that are not included in the determination of net investment in capital assets or restricted net position.

Fund Balance

In the fund financial statements, fund balance for governmental funds is reported in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purpose for which amounts in the funds can be spent. Fund balance is reported in five components – nonspendable, restricted, committed, assigned and unassigned.

Nonspendable – This includes amounts that cannot be spent either because they are not in spendable form or because they are legally or contractually required to be maintained intact.

Restricted – This includes amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Committed – This includes amounts that can be used only for specific purposes determined by a formal action of the inhabitants of the School District. The inhabitants of the School District through School Board meetings are the highest level of decision-making authority of the School District. Commitments may be established, modified, or rescinded only through a School District meeting vote.

Assigned – This includes amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The authority for assigning fund balance is expressed by the School Board.

Unassigned – This includes all other spendable amounts. The general fund is the only fund that reports a positive unassigned fund balance amount. Other governmental funds besides the general fund can only report a negative unassigned fund balance amount.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, the School District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the School District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the School Board meeting vote has provided otherwise in its commitment or assignment actions.

The School District has adopted a set of financial policies to guide the financial operation of the School District. Included in the policies will be guidelines for accumulating and maintaining an operating position in certain budgeted governmental funds such that annual expenditures shall not exceed annual resources, including fund balances. Other funds shall be fully self-supporting to the extent that the fund balance or retained earnings of each fund shall be zero or greater.

<u>Deferred Outflows and Inflows of Resources</u>

In addition to assets, the statement of financial position and/or balance sheet will at times report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The School District currently has one type of item, deferred outflows related to pensions. This item is reported in the statement of net position.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

In addition to liabilities, the statement of financial position and or balance sheet will at times report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. Deferred revenue qualifies for reporting in this category. This item is reported in both the statements of net position and governmental funds balance sheet. Deferred inflows related to pensions qualify for reporting in this category as well. This item is reported only in the statement of net position. All items in this category are deferred and recognized as inflows of resources in the period that the amounts become available.

Program Revenues

Program revenues include all directly related income items applicable to a particular program (charges to customers or applicants for goods, services, or privileges provided, operating or capital grants and contributions, including special assessments).

Encumbrance Accounting

Encumbrances are not liabilities and, therefore, are not recorded as expenditures until receipt of material or service. For budgetary purposes, appropriations lapse at fiscal year-end. The School District uses encumbrance accounting for its general fund.

Use of Estimates

During the preparation of the School District's financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets, liabilities, and disclosure of contingent items as of the date of the financial statements and the reported amounts of revenues and expenses/expenditures during the reporting period. Actual results may differ from these estimates.

NOTE 2 - DEPOSITS AND INVESTMENTS

Deposits:

The School District's investment policies, which follow state statutes, authorize the School District to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Vermont, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. These investment policies apply to all School District funds.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 2 - DEPOSITS AND INVESTMENTS (CONTINUED)

Custodial credit risk for deposits is the risk that, in the event of a failure of a depository financial institution, the School District will not be able to recover its deposits or will not be able to recover collateral securities that are in possession of an outside party. The School District does not have a policy covering custodial credit risk.

At June 30, 2016, the School District's cash balance of \$576,829 was comprised of bank deposits of \$745,928. Of these bank deposits, \$258,052 was fully insured by federal depository insurance and consequently was not exposed to custodial credit risk and \$487,876 was collateralized with securities held by the financial institution in the School District's name.

Account Type	Bank Balance		
Checking accounts Money market accounts	\$	737,876 8,052	
	\$	745,928	

Investments:

Custodial credit risk for investments is that, in the event of failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in possession of an outside party. Currently, the School District does not have a policy for custodial credit risk for investments.

At June 30, 2016, the School District had no investments.

Credit risk – Statutes for the State of Vermont authorize the School District to invest in obligations of the U.S. Treasury, agencies and instrumentalities, other states and Canada, provided such securities are rated within the three highest grades by an approved rating service of the State of Vermont, corporate stocks and bonds within statutory limits, financial institutions, mutual funds and repurchase agreements. The School District does not have an investment policy on credit risk. Generally, the School District invests excess funds in savings accounts and various insured certificates of deposit.

Interest rate risk – is the risk that changes in interest rates will adversely affect the fair value of an investment. The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from fluctuations in interest rates.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 3 - INTERFUND RECEIVABLES AND PAYABLES

Interfund balances at June 30, 2016 consisted of the following individual fund receivables and payables:

	Receivables (Due from)		Payables (Due to)	
General Fund Food Service Fund Capital Projects Fund Debt Service Fund	\$ 339,097 4,549 - 135	\$	4,684 - 339,097 -	
	\$ 343,781	\$	343,781	

NOTE 4 - CAPITAL ASSETS

The following is a summary of changes in capital assets for the year ended June 30, 2016:

	Balance,			Balance,		
	7/1/15	Additions	Additions Disposals

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 5 - SHORT-TERM DEBT

On July 1, 2015, the School District issued a tax anticipation note through People's United Bank in anticipation of tax revenues to meet its operating obligations during the fiscal year. The note, a line of credit, allowed principal draws up to \$2,960,000 at an interest rate of 1.14% with a maturity date of June 30, 2016.

Short-term debt activity for the year ended June 30, 2016, was as follows:

	Balance 7/1/15	,	Additions	Reductions	Balance, 6/30/16
Tax anticipation note Totals	\$		\$ 2,960,000 \$ 2,960,000	\$ (2,960,000) \$ (2,960,000)	\$ - \$ -

On June 30, 2016 the note was paid in full. Interest expense for the note during the fiscal year totaled \$33,650.

NOTE 6 - LONG TERM DEBT

A summary of long-term debt for the year ended June 30, 2016 is as follows:

	E	Balance, 7/1/15	A	dditions		Deletions	Balance, 6/30/16	Current Portion
Bonds payable Notes payable	\$	120,000 301,449	\$	101,000	\$	(120,000) (98,375)	\$ 304,074	\$ 101,375

NOTE 6 - LONG TERM DEBT (CONTINUED)

The following is a description of the outstanding notes payable:

Notes payable:

Construction note payable to Green Mountain Power Corporation,	
monthly principal payments of \$833, no interest is charged, maturity is in September of 2018.	
Bus note payable to Peoples United Bank, interest is charged at a rate of 2.25%, annual principal payments of \$10,018 and interest due July 2, 2017.	
Bus note payable to Peoples United Bank, interest is charged at a rate of 2.95%, annual principal payments of \$20,108 and interest due July 1, 2016.	
Bus note payable to Peoples United Bank, interest is charged at a rate of 2.25%, annual principal payments of \$21,265 and interest due July 15, 2018.	
Bus note payable to Peoples United Bank, interest is charged at a rate of 1.95%, annual principal payments of \$19,783 and interest due July 15, 2019.	
Bus note payable to Peoples Community National Bank, interest is charged at a rate of 1.50%. Four annual principal and interest payments of \$20,200 with the remaining balance due July 15, 2020.	
Total notes payable	\$ 304,074

The following is a summary of outstanding note principal and interest requirements for the next five fiscal years ending June 30:

Year	Principal		 nterest	De	Total bt Service
2017 2018 2019 2020 2021	\$	101,375 81,267 61,249 39,983 20,200	\$ 5,617 3,807 2,590 1,598 606	\$	106,992 85,074 63,838 41,581 20,806
202.	\$	304,074	\$ 14,217	\$	318,291

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 6 - LONG TERM DEBT (CONTINUED)

No interest costs were capitalized during the period. The amount of interest costs incurred and charged to expense for the year ending June 30, 2016 was \$6,571.

NOTE 7 - NONSPENDABLE FUND BALANCES

At June 30, 2016, the School District had the following nonspendable fund balances:

Food service fund:

Inventory

\$ 5,833

NOTE 8 - RESTRICTED FUND BALANCES

At June 30, 2016, the School District had the following restricted fund balances:

Food service fund

\$ 4,417

NOTE 9 - COMMITTED FUND BALANCES

At June 30, 2016, the School District had the following committed fund balances:

General fund:

Compensated absences and healthcare liability

\$ 6,000 \$ 6,000

NOTE 10 - ASSIGNED FUND BALANCES

At June 30, 2016, the School District had the following assigned fund balances:

General fund:

Revenue for FY 2017 budget
Revenue for budgets after FY2017

\$ 165,000 170,160 \$ 335,160

NOTE 11 – DEFICIT FUND BALANCE

At June 30, 2016, the School District had the following deficit fund balance:

Capital projects fund

\$ 330,569

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 12 - OVERSPENT APPROPRIATIONS

At June 30, 2016, the School District had the following overspent appropriations:

Administrative support services	\$ 19,767
Transportation	6,534
Debt service	9,770
Transfers to other funds	 51,870
	\$ 87,941

NOTE 13 - DEFINED BENEFIT PENSION PLANS

VERMONT STATE TEACHERS' RETIREMENT SYSTEM

Plan Description

All of the teachers employed by the District participate in the Vermont State Teachers' Retirement System ("VSTRS"), a cost-sharing multiple-employer defined benefit pension plan with a special funding situation, covering nearly all public day school and nonsectarian private District teachers and administrators as well as teachers in schools and teacher training institutions within and supported by the State of Vermont that are controlled by the State Board of Education. Membership in the system for those covered classes is a condition of employment. During the year ended June 30, 2016, the retirement system consisted of 288 participating employers.

The plan was established effective July 1, 1947, and is governed by *Title 16, V.S.A. Chapter 55*. Subsequent Vermont state legislation, *Act 74*, which became effective on July 1, 2010, contained numerous changes to the plan benefits available to current and future members, as well as a change in access to health care coverage after retirement, resulting from a multi-party agreement to provide sustainability of quality pension and retiree health benefits for Vermont teachers.

The general administration and responsibility for formulating administrative policy and procedures of the retirement System for its members and their beneficiaries is vested in the Board of Trustees consisting of six members. They are the Secretary of Education (ex-officio); the State Treasurer (ex-officio), the Commissioner of Financial Regulation (ex-officio); two members and one alternate elected by active members of the System under rules adopted by the Board; and one retired member and one alternate elected by the board of directors of Association of Retired Teachers of Vermont. The Chair is elected by the Board and acts as executive officer of the Board.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final compensation (AFC) and years of creditable service. The Vermont State Agency of Administration issues a publicly available Comprehensive Annual Financial Report (CAFR) that includes financial statements and required supplementary information for the VSTRS. That report may be viewed on the State's Department of Finance & Management website at: http://finance.vermont.gov/reports and publications/cafr.

Benefits Provided

The VSTRS provides retirement, and disability benefits, annual cost-of-living adjustments, health care and death benefits to plan members and beneficiaries. There are two levels of contributions and benefits in the System: Group A-for public school teachers employed within the State of Vermont prior to July 1, 1981 and elected to remain in Group A; and Group C- for public school teachers employed within the State of Vermont on or after July 1, 1990. Group C also includes those teachers hired prior to July 1, 1990 and were in Group B on July 1, 1990. When *Act 74* became effective on June 30, 2010, Group C was further bifurcated into Groups #1 and #2. Group #1 contains members who were at least 57 years of age or had at least 25 years of service, and Group #2 contains members who were less than 57 years of age and had less than 25 years of service.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

Benefits available to each group are based on average final compensation (AFC) and years of creditable service, and are summarized below:

VSTRS	Group A	Group C – Group # 1	Group C – Group # 2
Normal service retirement eligibility (no reduction)	Age 60 or 30 years of service	Age 62 or with 30 years of service	Age 65 or when the sum of age and service equals 90
Average Final Compensation (AFC)	Highest 3 consecutive years, including unused annual leave, sick leave, and bonus/incentives	Highest 3 consecutive years, excluding all payments for anything other than service actually performed	Highest 3 consecutive years, excluding all payments for anything other than service actually performed
Benefit formula – normal service retirement	1.67% x creditable service x AFC	1.25% x service prior to 6/30/90 x AFC + 1.67% x service after 7/1/90 x AFC	1.25% x service prior to 6/30/90 x AFC + 1.67% x service after 7/1/90 x AFC, 2.0% after attaining 20 years
Maximum Benefit Payable	100% of AFC	53.34% of AFC	60% of AFC
Post-Retirement COLA	Full CPI, up to a maximum of 5% after 12 months of retirement; minimum of 1%	50% CPI, up to a maximum of 5% after 12 months of retirement or with 30 years; minimum of 1%	50% CPI, up to a maximum of 5%, minimum of 1% after 12 months of normal retirement or age 65
Earl Retirement Eligibility	Age 55 with 5 years of service	Age 55 with 5 years of service	Age 55 with 5 years of service
Early Retirement Reduction	Actuarial reduction	6% per year from age 62	Actuarial reduction

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

Other post-employment benefits are available to all plan members include the following:

VSTRS	Group A	Group C – Group # 1	Group C – Group # 2
Medical Benefits	Health subsidy based on member's service credit	Health subsidy based on member's service credit	
Dental	Members pays full premium	Members pays full premium	Members pays full premium

Contributions

VSTRS is a cost-sharing public employee retirement system with one exception: all risks and costs are not shared by the District but are the liability of the State of Vermont. VSTRS is funded through State and employee contributions and trust fund investment earnings; and the District has no legal obligation for paying benefits. Required contributions to the System are made by the State of Vermont based upon a valuation report prepared by the System's actuary, which varies by plan group. The Vermont State Teachers Retirement System estimates the contributions on behalf of the District's employees included in the teacher's retirement plan which approximates \$540,023 or 12.84% of total payroll for employees covered under the plan.

Employee contribution rates by plan group follow:

VSTRS	Group A	Group C – Group # 1	Group C – Group # 2
Employee Contributions		5.0% of gross salary with 5 or more years of service as of 7/1/14; 6.0% of gross salary if less than 5 years of service as of 7/1/14	5.0% of gross salary with 5 or more years of service as of 7/1/14; 6.0% of gross salary if less than 5 years of service as of 7/1/14

Employee contributions totaled \$219,251 during the year and were paid by the District to the State of Vermont. The District has no other liability under the plan. The District's total payroll for all employees covered under this plan was \$4,205,789 for the year ended June 30, 2016.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

VERMONT MUNICIPAL EMPLOYEES' RETIREMENT SYSTEM

Plan Description

The Vermont Municipal Employees' Retirement System (VMERS) is a cost-sharing, multiple-employer defined benefit pension plan that is administered by the State Treasurer and its Board of Trustees. The plan was established effective July 1, 1975, and is governed by *Title 24, V.S.A. Chapter 125*. It is designed for school districts and other municipal employees that work on a regular basis and also includes employees of museums and libraries if at least half of that institution's operating expenses are met by municipal funds. An employee of any employer that becomes affiliated with the system may join at that time or at any time thereafter. Any employee hired subsequent to the effective participation date of their employer who meets the minimum hourly requirements is required to join the system. Employees of the School other than Teachers are eligible to participate in the VMERS providing they work on a regular basis for not less than 30 hours a week and for not less than 1,040 hours for the school year.

The general administration and responsibility for formulating administrative policy and procedures of the Retirement System for its members and their beneficiaries is vested in the Board of Trustees consisting of five members. They are the State Treasurer, two employee representatives elected by the membership of the system, and two employer representatives-one elected by the governing bodies of participating employers of the system, and one selected by the Governor from a list of four nominees. The list of four nominees is jointly submitted by the Vermont League of Cities and Schools and the Vermont School Boards Association.

All assets are held in a single trust and are available to pay retirement benefits to all members. Benefits available to each group are based on average final compensation (AFC) and years of creditable service. VMERS does not issue stand-alone financial reports, but instead are included as part of the State of Vermont's Comprehensive Annual Financial Report (CAFR). The CAFR may be viewed on the State's Department of Finance & Management website at:

http://finance.vermont.gov/reports and publications/cafr.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

Benefits Provided

The pension plan is divided into four membership groups:

- Group A general employees whose legislative bodies have not elected to become a member of Group B or Group C
- Groups B & C general employees whose legislative bodies have elected to become members of Group B or Group C
- Group D sworn police officers, firefighters and emergency medical personnel

The School District participates in Groups A and C. Benefits available to each group are based on average final compensation (AFC) and years of creditable service, and are summarized below:

VMERS	Group A	Group B	Group C	Group D
Normal service retirement eligibility	Age 65 with 5 years of service, or age 55 with 35 years of service	Age 62 with 5 years of service, or age 55 with 30 years of service	Age 55 with 5 years of service	Age 55 with 5 years of service
Average Final Compensation (AFC)	Highest 5 consecutive years	Highest 3 consecutive years	Highest 3 consecutive years	Highest 2 consecutive years
Benefit formula – normal service Retirement (no reduction)	1.4% x creditable service x AFC	1.7% x creditable service x AFC + previous service; 1.4% x Group A service x AFC	2.5% x creditable service x AFC + previous service; 1.4% x Group A service x AFC; 1.7% x Group B x AFC	2.5% x creditable service x AFC + previous service; 1.4% x Group A service x AFC; 1.7% x Group B x AFC; 2.5% x Group C service x AFC
Maximum Benefit Payable	60% of AFC	60% of AFC	50% of AFC	50% of AFC
Post-Retirement COLA	50% of CPI, up to 2% per year	50% of CPI, up to 3% per year	50% of CPI, up to 3% per year	50% of CPI, up to 3% per year
Early Retirement Eligibility	Age 55 with 5 years of service	Age 55 with 5 years of service	N/A	Age 55 with 20 years of service

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

VMERS	Group A	Group B	Group C	Group D
Early Retirement Eligibility	6% per year from age 65 **	6% per year from age 62 **	N/A	No reduction

^{** -} A special early retirement factor of 3% per year only for municipal police officers who have attained age 60

Members of all groups may qualify for vested deferred allowance, disability allowances and death benefit allowance subject to meeting various eligibility requirements. Benefits are based on AFC and service.

Contributions

Title 24 VSA Chapter 125 of Vermont Statutes grants the authority to the Retirement Board to annually review the amount of municipalities' contributions as recommended by the actuary of the retirement system in order to achieve and preserve the financial integrity of the fund, and to certify the rates of contributions payable by employers. The Board of Trustees also certifies the rates of contribution payable by employees. Contribution rates for each group are as follows:

VMERS	Group A	Group B	Group C	Group D
Employee Contributions	2.5% of gross salary	4.75% of gross salary to 6/30/15; 4.875% of gross salary after 7/1/15	9.625% of gross salary to 12/31/14; 9.75% of gross salary to 6/30/15; 9.875% of gross salary after 7/1/15	11.125% of gross salary to 6/30/15; 11.35% of gross salary after 7/1/15
Employer Contributions	4% of gross salary	5.375% of gross salary to 6/30/15; 5.50% of gross salary after 7/1/15	6.875% of gross salary to 12/31/14; 7% of gross salary to 6/30/15; 7.125% of gross salary after 7/1/15	9.75% of gross salary to 6/30/15; 9.85% of gross salary after 7/1/15

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

Employee contributions are withheld pre income tax by the School District and are remitted to the State of Vermont. Such withholdings for the years ended June 30, 2016, 2015 and 2014 totaled \$44,842, \$51,879 and \$51,515, respectively. The School District contributed \$50,508, \$64,533 and \$65,150 for the years ended June 30, 2015, and 2014, respectively. The School District's total payroll for the year ended June 30, 2016 for all employees covered under this plan was \$1,068,692.

Pension Liabilities

VSTRS Plan

The State is a nonemployer contributor and is required by statute to make all actuarially determined employer contributions on behalf of member employers. Therefore these employers are considered to be in a special funding situation as defined in GASB No. 68 and the State is treated as a nonemployer to VSTRS. Since the School District does not contribute directly to VSTRS, no net pension liability was recorded at June 30, 2016. The State's portion of the collective net pension liability that was associated with the School District was as follows:

School District's proportionate share of the net pension liability	\$ -
State's proportionate share of the net pension liability associated with the School District	8,211,562
Total	\$ 8,211,562

The State of Vermont's proportionate share of the net pension liability associated with the School District is equal to the collective net pension liability, actuarially measured as of June 30, 2015, multiplied by the School District's proportionate share percentage. The School District's proportionate share percentage was based on its reported salaries to the total reported salaries for all participating employers. At June 30, 2015, the School District's proportion was 0.6921% which was a decrease of 0.1517% from its proportion measured as of June 30, 2014.

VMERS Plan

At June 30, 2016, the School District reported a liability of \$355,923 for its proportionate share of the net pension liabilities for each plan. The net pension liabilities were measured as of June 30, 2015, and the total pension liabilities used to calculate the net pension liabilities was determined by an actuarial valuation as of that date. The School District's proportion of the net pension liabilities were based on a projection

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

of the School District's long-term share of contributions to each pension plan relative to the projected contributions of all participating towns, actuarially determined.

At June 30, 2015, the School District's proportion was 0.4617% for VMERS, which was an increase of 0.1717% from its proportion measured as of June 30, 2014 for VMERS.

Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For the year ended June 30, 2016, the School District recognized total pension expense \$527,327 and revenue of \$527,327 for support provided by the State of Vermont for the VSTRS plan. In the same period, the School District recognized pension expense of \$91,53. At June 30, 2016, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

VOTDO

	VSTRS				VMERS				
	Deferred of Res		Deferred of Res			red Outflows Resources		red Inflows esources	
Differences between expected and actual									
Differences between expected and actual experience	\$	-	\$		\$	11,251	\$	-	
Changes of assumptions		-		-		70,882		-	
Net difference between projected and actual earnings on pension plan investments		-				68,762			
Changes in proportion and differences between employer contributions and proportionate									
share of contributions		-		-		-		21,096	
Contributions subsequent to the measurement date						50,508			
Total	\$	-	\$		\$	201,403	\$	21,096	

\$50,508 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2017. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

Significant Actuarial Assumptions and Methods

The total pension liability for the June 30, 2015 measurement date was determined by an actuarial valuation as of June 30, 2014 rolled forward to June 30, 2015 using the actuarial assumptions outlined below. These assumptions were selected on the basis of the experience study that was performed for the five year period ending June 30, 2010:

VΜ	ER	S
----	----	---

Inflation Salary increases

Investment rate of return

3.00% to 3.25% per year

5.00%, per year, including inflation

7.95% per annum. Through July 1, 2014, a select-and-ultimate interest rate set was used, as specified below. The interest rate set was restarted every year:

Year 1: 6.25% Year 10: 8.50% Year 2: 6.75% Year 11: 8.50% Year 3: 7.00% Year 12: 8.50% Year 4: 7.50% Year 13: 8.50% Year 5: 7.75% Year 14: 8.50% Year 6: 8.25% Year 15: 8.50% Year 7: 8.25% Year 16: 8.75%

Year 8: 8.25% Year 17 and later: 9.00%

Year 9: 8.50%

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

Salary Increases: Representative values of the assumed annual rates of future salary increases for the VSTRS plan are as follows:

Age	Annual Rate of Salary Increase
25	8.40%
30	7.05%
35	6.15%
40	5.45%
45	4.95%
50	4.60%
55	4.35%
60	4.25%
64	4.25%

Salary increases for the VMERS plan are 5.00% per year, including inflation.

Deaths After Retirement: For the VSTRS plan, the 1995 Buck Mortality Tables are used, with a three-year set-back for males and one-year for females, for retirees, terminated vested members and beneficiaries; the RP-2000 Disabled Life Table with projection to 2016 using Scale AA for disabled retirees. The tables used contain a margin to reflect anticipated mortality improvement after the valuation date.

Mortality rates for active participants in the VMERS plan were based on 50% of the probabilities in the 1995 Buck Mortality Tables for males and females, non-disabled retirees and terminated vested participants were based on the 1995 Buck Mortality Tables with no set-back for males and a one-year set-back for females, disabled retirees were based on the RP-2000 Disabled Life Tables, and the 1995 Buck Mortality Tables for males and females was applied to beneficiaries.

Spouse's age assumptions used in the June 30, 2015 valuation set a husband's age at three years greater than their wives.

Cost-of-Living Adjustments: For the VSTRS plan, adjustments are assumed to occur on January 1 following one year of retirement at the rate of 3% per annum for Group A members and 1.5% per annum for Group C members (beginning at age 62 for Group C members who elect reduced early retirement).

Cost-of-Living adjustments to benefits of terminated vested and retired participants were assumed to occur at the rate of 1.5% per annum for Group A members and 1.8% per annum for members of Groups B, C and D of the VMERS plan.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

A smoothing asset valuation method was used for funding purposes, under which the value of assets for actuarial purposes equals market value less a five-year phase-in of the differences between actual and assumed investment return. Then value of assets for actuarial purposes may not differ from the market value of assets by more than 20%.

The *long-term* expected rate of return on the VMERS plan investments was determined using best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) developed for each major asset class using an econometric model that forecasts a variety of economic environments and then calculates asset class returns based on functional relationships between the economic variable and the asset classes. These best estimate ranges were combined to produce forecasts of the short, intermediate, and longer term horizons by weighting the expected future nominal rates of return by the target asset allocation percentage. The various time horizons in the forecast are intended to capture more recent economic and capital market conditions as well as other plausible environments that could develop in the future over economic cycles. To reflect this in the rate-of-return assumption, a Select and Ultimate assumption setting approach, which is cited in Section 3.8.4 of Actuarial Standard of Practice No. 27 as an alternative to a single assumed rate of return, is employed.

Best estimates of arithmetic rates of return for each major asset class included in the target asset allocation as of June 30, 2015 are summarized in the following table:

	Long-term
	Expected
	Real Rate of
Asset Class	Return
Equity	8.61%
Fixed income	1.91%
Alternative	6.93%
Multi-strategy	4.88%

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

Nominal long-term expected rates of return for these asset classes are equal to the sum of the above expected long-term real rates and the expected long-term inflation rate of 3.0%

Discount Rate

The discount rate used to measure the total pension liability was 7.95% for the VSTRS plan and 7.95% for the VMERS plan. The projection of cash flows used to determine the discount rate assumed that contributions will continue to be made in accordance with the current funding policy. Based on these assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments to current VMERS System members. The assumed discount rate has been determined in accordance with the method prescribed by GASB 68.

Sensitivity of the School District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following presents the School District's proportionate share of the net pension liability calculated using the discount rate of 7.95% for both the VSTRS and VMERS plans, as well as what the School District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.95%) or 1 percentage point higher (8.95%) than the current rate:

١/	S	т	D	C	
٧	J	1	ı١	J	

vorne.		1% Decrease	Discount Rate		1% Increase	
Discount rate		6.95%	7.95%		8.95%	
School District's proportionate share of the net pension liability	\$	-	\$ -	\$	-	
VMERS:	1% Decrease		Discount Rate	1% Increase		
Discount rate	6.95%		7.95%	8.95%		
School District's proportionate share of the net pension liability	\$	710,932	\$ 355,923	\$	58,323	

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 13 - DEFINED BENEFIT PENSION PLANS (CONTINUED)

Pension Plan Fiduciary Net Position

The schedule of employer allocations and schedule of pension amounts by employer are prepared on the accrual basis of accounting in accordance with U.S. generally accepted accounting principles. The schedules present amounts that are elements of the financial statements of the Vermont State Teacher's Retirement System (VSTRS) and the Vermont Municipal Employees' Retirement System (VMERS) or its participating employers. VSTRS and VMERS does not issue stand-alone financial reports, but instead are included as part of the State of Vermont's Comprehensive Annual Financial Report (CAFR). The CAFR can be viewed on the State's Department of Finance & Management website at:

http://finance.vermont.gov/reports_and_publications/cafr

NOTE 14 - RISK MANAGEMENT

The School District is exposed to various risks of loss related to torts, thefts of, damage to, and destruction of assets; errors and omissions; and injuries to employees. The School District maintains commercial insurance coverage covering each of those risks of loss. Management believes such coverage is sufficient to preclude any significant uninsured losses to the School District. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

In addition, the School District is a member of Vermont School Boards' Association Insurance Trust, Inc. (VSBIT) Medical Benefits Program. VSBIT is a nonprofit corporation formed in 1978 to provide insurance and risk management programs for Vermont Supervisory Unions and is owned by the participating districts.

To provide health insurance coverage, VSBIT has established a self-funded fully insured program in conjunction with Blue Cross and Blue Shield. A portion of member contributions is used to purchase reinsurance and to fund a reserve required by the reinsurance. The pooling agreement does not permit the pool to make additional assessments to its members.

NOTE 15 - CONTINGENCIES

With regard to pending legal claims or any unasserted claims, it is not feasible at this time to predict or determine their outcome. Management believes, however, that settlement amounts, if any, will not have a material adverse effect on the School District's financial position.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2016

NOTE 15 – CONTINGENCIES (CONTINUED)

The School District participates in various intergovernmental grant programs which may be subject to future program compliance audits by the grantors or their representatives. Accordingly, the School District's compliance with applicable grant requirement may be established at some future date. The amount, if any, of any liabilities arising from the disallowance of expenditures or ineligibility of grant revenues cannot be determined at this time.

NOTE 16 - RELATED ORGANIZATION

The School District has an ongoing financial responsibility to Chittenden South Supervisory Union as defined in GASB 14, paragraph 71. Through Chittenden South Supervisory Union's assessment process, the School District's assessment can be increased to cover a share of any prior year deficits and decreased to share in any prior year surpluses. Separate financial statements on Chittenden South Supervisory Union are available from Chittenden South Supervisory Union.

Proven Expertise and Integrity

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of School Directors Shelburne Town School District Shelburne, Vermont

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Shelburne Town School District, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise Shelburne Town School District's basic financial statements, and have issued our report thereon dated October 18, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Shelburne Town School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Shelburne Town School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these

limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Shelburne Town School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing and not to provide an opinion on the effectiveness of the organization's internal control or compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the organization's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
