

Elementary School STEM Design Teacher

A KIS education centers on inquiry and applied learning principles. We seek teachers who are excited to join a faculty who collaborate to create relevant and rigorous learning opportunities. As an international school, cultural competency is essential to our community. And just as our teachers support student growth, KIS encourages faculty members to engage in professional development that grows their vocation. KIS works to continually improve the educational experience and benefits from the knowledge and ideas all faculty members contribute.

Qualifications

Required:

- Bachelor's degree in Education or relevant subject and required relevant certifications (Elementary Education)
- Minimum of two years of successful experience working as a full-time support teacher in an accredited school setting
- Relevant experience in classroom instruction and assessment
- Ability to obtain a work visa in Korea (successful completion of a drug screening process per Korean law)
- Experience teaching and using the Next Generation Science Standards (NGSS)
- Experience in engaging the broader community in STEM learning

Preferred:

- Master's degree in relevant field (Elementary Education or STEM-related field)
- Two years of overseas teaching experience
- Experience teaching and using the ISTE
- Experience with Design Thinking
- Actively contributes to the school community beyond the classroom
- Experience with the Universal Design for Learning (UDL) Framework

Attributes and Competencies

- Demonstrated understanding of the Design Thinking Process
- Experience with Maker-Centered learning and design tools
- Familiarity with designing and building units of study using the multidisciplinary approach
- Deep knowledge of personalized learning
- Willingness and ability to be a self-directed, independent worker as the sole STEM teacher on the campus
- Contributes to a positive school climate within and beyond the classroom

- Experience in co-planning and co-teaching with homeroom teachers to integrate and support STEM initiatives in the classroom.
- Deliver engaging and effective lessons that promote critical thinking, problem-solving, and a deep understanding of concepts
- Thorough knowledge of relevant curricular standards that appropriately match the subject(s) taught (e.g. ISTE Standards, Common Core, NGSS, C3, Design Thinking)
- Provide timely, relevant feedback for student growth
- Apply and utilize standards-based approaches to instruction and assessment in a primary classroom setting
- Demonstrates initiative, flexibility, and a positive attitude
- Will foster and maintain a caring, inclusive learning environment for all students and work on progressive discipline models aligned with KIS core values
- Develop positive relationships with students and families that communicated learning goals and expectations as well as instruct on areas of strength and need
- Commitment to diversity and inclusion

Dedicated teachers play a pivotal role in nurturing the comprehensive development of our students by delivering high-quality instruction, constructive feedback, and assessments. Teachers actively participate in student life, including club sponsorship, advisory roles, and co-curricular activities. Collaboration within the department and grade-level teams and maintaining strong connections with parents and school counselors ensures that every student receives the necessary academic and social-emotional support. Joining our community is a fulfilling experience for those eager to contribute to its growth.

Contract Terms

- Begins August 1, 2025
- The initial contract will be for two (2) years

How to Apply

Only Schrole and APLi (Search) applications will be accepted and considered. If you have both platforms, we ask applicants to apply through Schrole.
