#1 Video Game Review

By: Harry Caswell + Thomas Gebhart

How the Game Works

You play by passing and trying to get a touchdown. Common teams to play as are Texas, Michigan, Alabama and Georgia. Penalties are holding, pass interference and false start. Those are the main penalties you can get. You play on a ps5 or xbox.

How It Could Be Better

It is fun because it is a better version of a game that has been out for a long time. The game could be improved if it did not lag or glitch so much.

How Football is Played

- You try to win the game by having more points than the other team

- You can score 7,3,2 or 1 point(s) at a time
- You can run or pass to score 7 points
- You can kick to get 1 or 3 points
- You can tackle people in the endzone to get 2 points
