**Treasury report** - The HSA end of the year balance (end of June prior to the \$40,000) was \$65,621. We are excited to announce that we had \$22,233 left in the account to carry over into this school year.

As of Sept 2024, \$22,765 is our current balance. Roy Rogers brought in \$719 and the Spirit wear sale from grandparents day brought in \$812.

At this month's meeting, we were pleased to welcome Sr. Maggie to talk to our parents about the second step program that she teaches at MSS. The Second Step program teaches social and emotional learning for kids in grade K-8. Social and emotional learning is designed to help people understand and manage their emotions, show empathy to others, establish and maintain positive relationships and make responsible decisions.

Sr. Maggie showed everyone a video about why social and emotional learning matters. The key points were that social and emotional learning helps teach skills of self management, self awareness, responsible decision making, relationship skills, and social awareness. These all make up social emotional learning.

There are 20 lessons per grade. Lessons are ranging from 15-30 minutes. The lessons are taught through song, videos, handouts, discussions, brain builder activities, and daily practice activities.

Tuesdays and Wednesdays she is available to see kids individually to work one on one with them about specific challenges that they are facing
