

CA Administrator Science Support Network

An interactive virtual series designed to support administrators at all levels with decision making and planning around science education in their system.

Who We Are

The CAL-MSCS Science Steering Team in partnership with the Lawrence Hall of Science is offering a series designed to provide critical information and support for CA administrators at the site, district, and county level on implementing and sustaining high quality science teaching and learning.

Additional connection and support opportunities will be offered throughout the year to participants. Please complete the [interest form](#) to receive information and registration links. There is no cost to participate in this network.

Timely Information and Connection

This virtual series will be interactive and provide time for networking, discussion, and feedback as well as timely information and connection to resources and opportunities.

Flexible Participation

Participants may attend one or multiple sessions.

Administrative Teams Welcome

Teams are encouraged, and individual participants are also welcome.

Network Sessions

Teacher Support and Learning

- **September 27th, 10:30am-12pm**
- *What is NGSS, and how can I support implementation, teaching, and learning in my system?*

Science Assessment

- **November 18th, 10:30am-12pm**
- *What do I do with my CAST scores? How can I support meaningful assessment in science classrooms?*

Systemic Inclusion in Science

- **January 28th, 10:30am-12pm**
- *Who has access to high quality science instruction? How can I help create learning opportunities to support all students?*

Integration Opportunities

- **March 12th, 10:30am-12pm**
- *How can science be integrated with other content areas and systems initiatives?*

Building a Leadership Team

- **April 30th, 10:30am-12pm**
- *How can we leverage emerging leaders, champions, and advocates to support the work?*
