Except as provided in N.J.A.C. 6A:26-3.14, no school facilities project will be considered or approved unless the district's LRFP has been submitted to and approved by the Commissioner of Education.

Long-range facilities planning by the school district shall be in accordance with the provisions of N.J.A.C. 6A:26-2 et seq.

N.J.S.A. 18A:7G-1 et seq.; 18A:33-1 et seq.

7101 EDUCATIONAL ADEQUACY OF CAPITAL PROJECTS

Capital projects that affect any of the criteria for educational adequacy shall be reviewed and approved by the Division of Administration and Finance (Division) in accordance with N.J.A.C. 6A:26-5 et seq. The criteria are the number, configuration, size, location, or use of educational spaces within a school facility. The review for educational adequacy shall take into consideration the suitability of the number, configuration, size, location, and use of educational spaces; built-in furniture and equipment; and provisions for the disabled.

Projects requiring approval for educational adequacy, as defined in N.J.A.C. 6A:26-5.1 are: new school facilities including pre-fabricated facilities; additions to existing school facilities; alterations to the total number, dimension in volume and/or area, configuration or location of educational spaces or the number of any one kind of educational space; and installation of temporary facilities.

New Jersey Schools Development Authority (Development Authority), Regular Operating District (ROD), along with other capital projects, are subject to educational adequacy reviews pursuant to N.J.A.C. 6A:26-5.1(b). The Executive County Superintendent shall approve any change of use of instructional space that is not a capital project.

Educational specifications for educational adequacy reviews shall be prepared and submitted in accordance with N.J.A.C. 6A:26-5.2. Educational specifications shall detail the educational program activities and requirements for each space proposed in the capital project, and shall refer to the New Jersey Student Learning Standards wherever appropriate. The educational specifications shall include an itemized list of furniture, equipment, and support spaces required to conduct the educational program specified for each space, together with their net areas in square feet, as well as the net of the total room area required for each space. The educational specifications shall also include specific technical and environmental criteria, adjacencies and other requirements for the educational program and a building-space program that indicates the number and net area in square feet of each instructional, specialized instructional, administrative, and support space in each existing or proposed building included in the capital project and/or temporary facility.

Schematic plans and other related project documents will be prepared and submitted in accordance with N.J.A.C. 6A:26-5.3.

A project cost estimate on a form provided by the Commissioner of Education, a project schedule, a copy of the dated transmittal letter to the Executive County Superintendent indicating project document submission to the Division, and a copy of the transmittal letter indicating the date of plan submission to the local planning board shall be submitted in accordance with N.J.A.C. 6A:26-5.3(b)4.

In the case of a Development Authority school facilities project, upon completion of detailed plans and specifications, the Development Authority on behalf of the district shall apply, upon completion of detailed plans and specifications, for final approval of the project's educational adequacy of the project in accordance with N.J.A.C. 6A:26-5.4(a). In the case of a ROD school facilities project or another capital project, the school district shall apply upon the completion of final plans and specifications for final approval of the educational adequacy of the project in accordance with N.J.A.C. 6A:26-5.4(b). In the case of a temporary facility, the school district or the Development Authority on behalf of the school district for Development Authority school facilities projects, shall apply upon the completion of detailed plans and educational specifications for approval of the temporary facility's adequacy in accordance with N.J.A.C. 6A:26-5.4(c).

The Division shall collect fees for its reviews according to N.J.A.C. 6A:26-5.5.

For a Development Authority school facilities project not subject to educational adequacy review, the Division shall issue a preliminary project report and shall forward the report to the Department of Community Affairs in accordance with N.J.A.C. 6A:26-5.6(a). The review shall require the documentation required by the Uniform Construction Code (UCC) in accordance with N.J.A.C. 5:23-2.15.

For a ROD school facilities project or other capital project, not subject to educational-adequacy review, the Division shall make a determination of the project's final eligible costs and shall forward their determination to the Department of Community Affairs in accordance with N.J.A.C. 6A:26-5.6(b). The review shall include the documentation required by the UCC in accordance with N.J.A.C. 5:23-2.15.

If the school district later intends to change the use of the land and use as a school site, the school district shall be required to submit all of the information required under N.J.A.C. 6A:26-7.1 and the exceptions outlined above shall no longer apply.

In accordance with the provisions of N.J.A.C. 6A:26-7.1(d), school site sizes shall be directly related to the acreage required for the structures and activities to be situated thereon. Except where specifically noted for multiple or shared use, the acreage shall be considered for single use.

7130 SCHOOL CLOSING

The Board of Education recognizes its responsibility to provide a thorough and efficient program of free public education and appropriate facilities to house that program. The Board further recognizes that declining enrollments, diminished resources, district reorganization, and/or other good cause may require the use of one or more district facilities for educational purposes be abandoned.

To receive approval for the closing of a school the Board shall provide the Division of Administration and Finance (Division) and the Executive County Superintendent with the following assurances:

1. The proposed closing is consistent with the district's approved LRFP because:
 - a. The school district has demonstrated that sufficient school building capacity exists to house students for the five years following the closing;
or
 - b. The school district has demonstrated through a feasibility study that the benefits of undertaking new construction outweigh those of rehabilitating the school proposed for closure.
2. The use of temporary facilities does not result or increase from an overall facilities shortage caused by the school closing; and
3. The re-assignment of students to other facilities does not produce, sustain nor contribute to unlawful segregation, separation, or isolation of student populations on the basis of race or national origin.

A request for approval from the Division for the school closing shall include the recommendation of the Executive County Superintendent. A letter of approval from the Division based on the information in N.J.A.C. 6A:26-7.5(a) and as listed above shall be required before the school's closing.

The Division shall notify the school district in writing of its determination with respect to the requested school closing, with a copy provided to the Executive County Superintendent.

The Board may accept by resolution duly passed at a public meeting any gift or grant of land, with or without improvement, and of money or other personal property, except that the Superintendent may accept on behalf of the Board any such gift less than \$1,000 in value. Grants of land are subject to the appropriate legal limitations and approvals.

The Board reserves the right to refuse to accept any gift that does not contribute toward the achievement of the goals of this district or any gift the ownership of which would tend to deplete the resources of the district. The Board shall not provide public moneys for the purchase of any school property on a matching fund basis.

Any gift accepted by the Board shall become the property of the Board, may not be returned without the approval of the Board, and shall be subject to the same controls and regulations as are other properties of the Board. The Board shall be responsible for the maintenance of any gift it accepts, subject to any joint agreement with another governmental body.

The Board will respect the intent of the donor in its use of a gift, but reserves the right to utilize any gift it accepts in the best interests of the students and the educational program of the district. In no case shall acceptance of a gift be considered to be an endorsement by the Board of a commercial product or business enterprise or institution of learning.

The Superintendent shall:

1. Counsel potential donors on the appropriateness of contemplated gifts and encourage such donors to choose as gifts supplies or equipment not likely to be purchased with public funds;
2. Encourage individuals and organizations considering a contribution to the school to consult with the Principal or Superintendent before appropriating funds to that end;

7243 SUPERVISION OF CONSTRUCTION

The Board of Education directs that the School Business Administrator be responsible for the supervision of all building construction in this school district. Supervision shall include field inspection of the construction contractor's operations, administrative review of the activities of the architect relating to the construction, and any other construction matters relating to the interests of the school district.

The School Business Administrator shall report periodically to the Board on the progress of the work of the construction contractor(s).

The Board shall not employ for pay or contract for the paid services of any person serving in a position which involves regular contact with students unless the Board has first determined, consistent with the requirements and standards of N.J.S.A. 18A:6-7.1 et seq., that no criminal history record information exists on file in the Federal Bureau of Investigation, Identification Division, or the State Bureau of Identification which would disqualify the individual from being employed or utilized in such capacity or position.

The Superintendent shall direct the School Business Administrator/Board Secretary or designee to act as liaison to all construction contractors for school facility and construction projects to obtain a list of the individuals who will have regular contact with students and will be employed by or working for the contractor on a school district project that will be undergoing a criminal history record check pursuant to the requirements of N.J.S.A. 18A:6-7.1 et seq. 7250 SCHOOL AND FACILITY NAMES

The right to name schools, rooms, facilities, offices, athletic fields, special purpose areas and/or other district property rests with the Board of Education. Buildings, rooms, facilities and/or other district property may or may not be named at the Board's sole discretion.

Names proposed shall be free from biases, prejudices and political and religious connotations. In selecting a name, the Board shall not discriminate because of gender, race, sexual orientation, creed or national origin.

If named for a person, that person should have been a former school district educator or administrator, local resident, Board member, county resident, or an employee of the school district who has had significant beneficial effect on the school system and its students. However, names of inspiring national or international persons are also allowable.

Names may be submitted by individuals, organizations, committees or the Board itself. For the purposes of this Policy, these individuals or groups shall be referred to as the "sponsor." In order to be considered, the sponsor must identify the importance and relevancy of the name submitted for consideration.

Sponsors shall present their proposal to the Superintendent, who in turn will present it to the Board of Education for consideration. The Board will consider all names submitted. By majority vote of the full Board of Education at a regularly scheduled meeting, the Board may accept or reject the proposed name.

Once the Board has approved a name submitted for a school, room, facility, office, athletic field, special purpose areas and/or other district property, the Board will determine the advisability of conducting an appropriate public ceremony and/or if a plaque, monument, painting, sign, or engraving of the name selected should be placed on the facility.

The expenses incurred for any plaque, monument, painting, sign, or engraving of the name selected and/or its installation may be borne by the Board of Education or the sponsor, at the sole discretion of the Board.

7300 DISPOSITION OF PROPERTY

The Board of Education believes the efficient administration of the district requires the disposition of property and goods no longer necessary for school purposes. The Board directs the periodic review of all district property and authorizes the disposition by sale, donation, or discard of any property no longer required for the maintenance of the educational program or the efficient management of the school district. The disposition of any school property will be in accordance with this Policy and applicable laws.

Real estate property will be disposed of by sale or otherwise, in accordance with N.J.S.A. 18A:20-5 through 18A:20-7 and N.J.A.C. 6A:26-7.4. If an approved site, or interest therein, is to be altered or disposed of through sale, transfer or exchange of all or part of the total acreage, including facilities, if applicable, a written request for approval of the disposal will be made to the Division of Administration and Finance (Division) in accordance with the requirements of N.J.A.C. 6A:26-7.4. The Division will notify the district of its approval or disapproval.

The Board may, by resolution and by sealed bid or public auction, authorize the sale of its personal property not needed for school purposes, and disposal of any property declared scrap or waste. If the estimated fair value of the property to be sold exceeds fifteen percent of the bid threshold in any one sale and it is neither livestock nor perishable goods, it shall be sold at public sale, together with a description of the items to be sold and the conditions of sale, shall be published once in an official newspaper. By resolution of the Board, the purchasing agent may include the sale of personal property no longer needed for school purposes as part of specifications to offset the price of a new purchase. In the event no bids are received for personal property or the personal property is not sold at private sale pursuant to, N.J.S.A. 18A:18A-45, the Board may declare the personal property as scrap or waste and dispose of it locally.

Personal property may be sold to the United States, the State of New Jersey, or to any body politic in the State of New Jersey, or any foreign nation which has diplomatic relations with these United States by private sale without advertising for bids.

Notwithstanding anything to the contrary in this Policy, property acquired with Federal funds for use in a Federally funded program will be disposed of in accordance with applicable law and guidelines.

7410 MAINTENANCE AND REPAIR

The Board of Education recognizes that the fixed assets of this district represent a significant investment of this community; their maintenance is, therefore, of prime concern to the Board.

The Board will develop, approve, and implement a comprehensive maintenance plan in accordance with the requirements of N.J.A.C. 6A:26A-3.1 and 6A:26A-3.2. A “comprehensive maintenance plan” means a multi-year maintenance plan developed by a school district covering required maintenance activities for the school facility pursuant to N.J.A.C. 6A:26A-1.1 et seq.

Required maintenance activities, in accordance with N.J.A.C. 6A:26A-2.1, are those specific activities necessary for the purpose of keeping a school facility open and safe for the use or in its original condition, and for keeping its constituent building systems fully and efficiently functional and for keeping their warranties valid. The activities address interior and exterior conditions; include preventative and corrective measures; and prevent premature breakdown or failure of the school facility and its building systems.

Expenditures for required maintenance activities set forth in N.J.A.C. 6A:26A-2.1 shall be accounted for in accordance with the requirements of N.J.A.C. 6A:26A-2.2.

The required annual maintenance budget amount in the comprehensive maintenance plan shall be included in the district’s annual budget certified for taxes in accordance with the provisions of N.J.A.C. 6A:26A-4.1(a). The required annual maintenance budget amount shall be calculated and adjusted in accordance with the provisions of N.J.A.C. 6A:26A-4.1(b). The Executive County Superintendent, in accordance with the provisions of N.J.A.C. 6A:26A-4.1(c), may not approve the school district’s budget if the required annual maintenance budget is not included in the budget certified for taxes.

Maintenance and repair requests and repairs shall be processed in accordance with the procedures as outlined in Regulation 7410.

7420 HYGIENIC MANAGEMENT

The Board of Education recognizes that the health and physical well-being of the students and staff of this district depend in large measure upon the cleanliness and sanitary management of the school.

The Board directs that a program of hygienic management be instituted in the school and explained annually to all staff members. The school shall be inspected for cleanliness and sanitation by the Principal and Certified Facilities Manager not less than once each year.

The Board will cooperate with the local board of health in the sanitary inspection of the school's toilets, washrooms, food vending machines, water supply, and sewage disposal systems.

The Superintendent shall prepare, in consultation with the school medical inspector, regulations, first aid and emergency medical procedures that utilize universal precautions in the handling and disposal of blood and body fluids, whether or not students or staff members with HIV infection are present. School staff members and volunteers shall be provided the supplies for implementing the procedures. In particular, school nurses, custodians, and teachers shall be trained in proper handling procedures. These regulations and procedures will comply with the regulations of the State Department of Health and State Department of Labor (OSHA Standards for Occupational Exposure to Bloodborne Pathogens) and recommendations of the Centers for Disease Control and Prevention.

Bloodborne Pathogens

The Board recognizes that school employees may in the performance of their duties reasonably anticipate contact with human blood or other potentially infectious body fluids that may expose them to bloodborne pathogens such as Hepatitis B Virus (HBV) and Human Immunodeficiency Virus (HIV). In accordance with federal OSHA regulations, the Board will establish a written Exposure Control Plan designed to eliminate or minimize employee exposure to such infection. The plan shall list all job classifications and tasks in which exposure occurs; describe and require the implementation of workplace controls to eliminate or minimize exposure; require the provision of hepatitis B vaccination to employees who have occupational exposure; and require the provision of a training program for employees who have occupational exposure. The plan shall be updated annually and as required to include new or revised employee positions with occupational exposure. A copy of the plan shall be made accessible to employees.

Disposal of Medical Waste

The Superintendent shall prepare, in consultation with the school medical inspector, a medical waste disposal program to ensure all medical waste, including needles and sharps, are disposed of in accordance with the rules and regulations of the New Jersey Department of Health.

Chemical Hygiene

The Board also recognizes that certain school employees who work in laboratories may be exposed to hazardous chemicals in the course of their duties. In accordance with federal OSHA regulations, the Board will establish practices that are capable of protecting employees from health hazards presented by hazardous chemicals used in the workplace. The plan shall contain the locations of hazardous chemicals and shall enunciate a plan capable of protecting employees from associated health hazards and keeping exposure of employees below specified limits. The Chemical Hygiene Plan shall be readily available to employees and shall contain at least the following elements:

1. Standard operating procedures for using hazardous chemicals in laboratory work;
2. Criteria that the Board will use to determine and implement control measures to reduce employee exposure;
3. The requirement that fume hoods and other protective equipment are functioning properly and that measures are taken to ensure adequate performance of such equipment;
4. Provision for employee information and training;
5. The circumstances under which a particular laboratory operation, procedure or activity shall require prior approval from the Principal before implementation;
6. Provisions for medical consultation;
7. Designation of personnel responsible for implementation of the chemical hygiene plan; and
8. Provisions for additional employee protection for work with particularly hazardous substances.

The Board directs that the program of chemical hygiene be implemented by the Chemical Hygiene Officer. The Certified Facilities Manager will serve as Chemical Hygiene Officer for the school and shall be responsible for the examination of all school facilities to determine where hazardous chemicals are used and to ensure compliance of all school facilities with the Chemical Hygiene Plan.

The Superintendent shall develop and supervise a program for the cleanliness and sanitary management of the school building, school grounds, and school equipment pursuant to statute, rules of the State Board of Education, and regulations of the State Board of Health.

The day to day monitoring of the cleanliness of the school building shall be the responsibility of the Building Principal.

7421 INDOOR AIR QUALITY STANDARDS

The Board of Education will provide air quality for school employees in the school building that meet the standards established by the New Jersey Department of Labor pursuant to N.J.A.C. 12:100-13.

The Board will designate the Certified Facilities Manager as the individual, who is responsible to assure compliance with New Jersey Department of Labor standards. The designated person shall check to make sure HVAC systems are working properly when the building temperatures are outside of the range of 68 to 79 degrees Fahrenheit and make sure buildings without mechanical ventilation have operable windows, doors, vents, stacks and other portals designated or used for natural ventilation are operational. The designated person will also promptly investigate all employee complaints of signs or symptoms that may be associated with building-related illnesses.

The Board will make sure air quality will be maintained at acceptable standards during renovation and remodeling that results in the diffusion of dust, stone and other small particles, toxic gases or other harmful substances in quantities hazardous to health. The designated person will notify employees at least twenty-four hours in advance, or promptly in emergency situations of work to be performed on the building that may induce air contaminants into their work area.

The designated person will respond to a complaint received by the Department of Labor within fifteen working days of receipt of the complaint.

These procedures shall be applicable to all school property in the Weymouth Township School District.

The Principal and Certified Facilities Manager shall be designated as the district's Integrated Pest Management Coordinators (IPMC) and is responsible for the implementation of the school integrated pest management policy.

Integrated Pest Management Procedures in the School

Implementation of Integrated Pest Management (IPM) procedures will determine when to control pests and whether to use mechanical, physical, cultural, biological, or chemical methods. Applying IPM principles prevents unacceptable levels of pest damage by the most economical means and with the least possible hazard to people, property, and the environment.

The Integrated Pest Management Coordinators (IPMC) shall consider the full range of management options, including no action at all. Non-pesticide pest management methods are to be used whenever possible. The choice of using a pesticide shall be based on a review of all other available options and a determination that these options are not effective or not reasonable. When it is determined that a pesticide must be used, low impact pesticides and methods are preferred and shall be considered for use first.

Development of IPM plans

The Superintendent, in collaboration with the school Building Principal(s) and the IPMC, shall be responsible for the development of the IPM Plan for the school district. The school district's Integrated Pest Management (IPM) Plan is a blueprint of how the school district will manage pests through IPM methods. The school district's IPM Plan will state the school district's goals regarding the management of pests and the use of pesticides for all school district property. The Plan will reflect the school district's site-specific needs and a description of how each component of the school district's Integrated Pest Management Policy and Regulation will be implemented for all school property.

Education/Training

The school community will be educated about potential pest problems and IPM methods used to achieve the pest management objectives.

The IPMC, other school staff, and pesticide applicators involved with implementation of the district's IPM policy will be trained in appropriate components of IPM as it pertains to the school environment.

Students and parents/legal guardians will be provided information on this policy and instructed on how they can contribute to the success of the IPM program.

Recordkeeping

Records of pesticide use shall be maintained on site to meet the requirements of the State regulatory agency and the Board.

Records shall also include, but are not limited to, pest surveillance data sheets and other non-pesticide pest management methods and practices utilized.

Notification/Posting

The Building Principal, working with the IPMC, is responsible for timely notification to students, parents or legal guardians and the school staff of pesticide treatments pursuant to the School Integrated Pest Management Act.

Re-entry

Re-entry to a pesticide treated area shall conform to the requirements of the School Integrated Pest Management Act.

Pesticide Applicators

The IPMC shall ensure that applicators follow State regulations, including licensing requirements and label precautions, and must comply with all components of the School Integrated Pest Management Policy.

Evaluation

The Superintendent will report annually to the Board on the effectiveness of the IPM Plan and make recommendations for improvement as needed.

7425 LEAD TESTING OF WATER IN SCHOOLS

The health, safety, and welfare of the children in the school district are of utmost importance to the Board of Education. The potential exposure to lead-contaminated drinking water poses serious health problems, particularly for children, as well as for teachers and school personnel, since the risk of lead contamination can come from pipe and plumbing fixtures in school facilities or on school grounds. The Board shall assure the availability of potable drinking water through sanitary means in school facilities or on school grounds. The Board of Education shall provide, in accordance with N.J.A.C. 6A:26-12.4, testing for lead in all district sources of drinking water.

The Board shall conduct lead sampling and analysis in all drinking water outlets to which a student or staff member has, or may have, access in each school facility, other facility, or temporary facility, as soon as practicable, but no later than July 13, 2017, unless the district qualifies for an exemption in accordance with N.J.A.C. 6A:26-12.4. This lead sampling and analysis shall be conducted with a lead sampling plan in accordance with N.J.A.C. 6A:26-12.4(d)1, 2, and 3, and shall be in accordance with the Safe Drinking Water Act, N.J.S.A. 58:12A-1.

The Superintendent of Schools or designee shall complete a review of the final laboratory results within seventy-two hours of receipt. Within twenty-four hours after the Superintendent or designee has completed a review of final laboratory results in accordance with the provisions of N.J.A.C. 6A:26-12.4(e), the test results shall be made publicly available at the school facility and on the Board of Education's website. If any results exceed the permissible lead action level, the Board shall provide written notification to the parents of all students attending the facility, facility staff, and the New Jersey Department of Education. This written notification shall include: a description of the measures taken by the Superintendent or designee to immediately end the use of each drinking water outlet where the water quality exceeded the permissible lead action level; any additional remedial action taken or planned by the Board of Education; the measures taken to ensure that alternate drinking water has been made available to all students and staff members; where the water outlet(s) is located; and information regarding the health effects of lead in accordance with N.J.A.C. 6A:26-12.4(e)1 and 2.

7432 EYE PROTECTION

The Board of Education directs the rigorous implementation and enforcement of eye safety practices for students, staff members, and visitors exposed to conditions potentially hazardous to the eyes in the instructional program of this district.

The Superintendent shall be responsible for the continual monitoring of the school program, including, but not limited to, all vocational education, industrial arts education, science education, technology education and arts education, for conditions under which students, staff members, or visitors are exposed to a process or activity that might have a tendency to cause damage to the eyes.

Each student, staff member, and visitor exposed to a condition identified as hazardous to the eyes must wear an eye protective device appropriate to the activity and certified to meet the standards established by the State Board of Education, the American National Standard Practice for Occupational and Educational Eye and Face Protection, ANSI Z87.1-1979, and American National Standard Practice for the Safe Use of Lasers, ANSI Z136.1-1986 and the New Jersey Administrative Code. The eye protective device shall be supplied by the Board, except that the student, staff member, or visitor may wear personal eye wear that is appropriate to the activity and certified, in writing, by a licensed optician or other qualified licensed eye professional to meet or exceed those standards. District owned eye protective devices shall be inspected regularly by the appropriate staff member, and defective or poorly fitting devices shall be returned to the Principal for repair or discard. Any shared eye protective devices shall be disinfected between uses by the method prescribed by the school medical inspector.

Each classroom, shop, laboratory, and other area of the school in which students or staff members are exposed to caustic materials that can cause damage to the eyes shall be equipped with an emergency eye wash fountain in accordance with standards established by the Department of Education.

The Building Principal shall ensure that each area in the school identified as housing an activity hazardous to the eyes shall be posted with conspicuous signs that warn participants that an appropriate eye protective device must be worn during the activity. Staff members of such activities are responsible for instructing students in appropriate eye safety practices and for serving as exemplary models in the implementation of such practices.

The Board authorizes each staff member responsible for an activity or process hazardous to the eyes to compile and maintain, for the duration of the course of study, a list of students in the course who wear contact lenses.

A student who refuses or persistently neglects to wear an eye protective device when required to do so or fails to observe established eye safety practices shall be dismissed from the day's class by his/her teacher. Any such dismissal from class will be considered to be an absence, in accordance with Board policy on student attendance, and an accumulation of such absences may result in loss of course credit.

A staff member who refuses or persistently neglects to wear an eye protective device when required to do so or fails to observe established eye safety practices may be disciplined for insubordination for failing to obey the rules established by this Board. The proper implementation of eye protection practices shall be a criterion in the evaluation of every staff member required to observe such practices.

A visitor to the school who refuses or persistently neglects to wear an eye protective device when required to do so or fails to observe established eye safety practices may be requested to leave the school premises.

The Superintendent shall promulgate regulations to implement this policy that conform to rules of the State Board of Education and shall provide in-service training to staff members whose instructional duties include activities hazardous to the eyes. The Superintendent shall report annually to the Board on the implementation of the eye protection program and the eye injuries, if any, occurring in the course of the instructional program.

7441 ELECTRONIC SURVEILLANCE IN SCHOOL BUILDINGS
AND ON SCHOOL GROUNDS

The Board of Education authorizes the use of electronic surveillance systems in school buildings and on school grounds to enhance the safety and security for school district staff, students, community members, and other building occupants and to protect the school district's buildings and grounds.

The content produced by the surveillance system under certain circumstances may be considered a student record and if so it will be subject to the Board of Education policy and regulation regarding confidential student records. If the content of the surveillance system becomes the subject of a disciplinary proceeding, it shall be treated like other evidence in the proceeding.

In accordance with the provisions of N.J.S.A. 18A:41-9, if at least one school building of the school district is equipped with video surveillance equipment that is capable of streaming live video wirelessly to a remote location, the Board of Education shall enter into a Memorandum of Understanding (MOU) with local law enforcement authorities providing the authorities with the capacity to activate the equipment and view live streaming video. The MOU shall include the provisions of N.J.S.A. 18A:41-9 and any additional information required by law enforcement officials. In the event the parties to the MOU are unable to reach an agreement regarding any provision required to be included in the MOU as per N.J.S.A. 18A:41-9a, the County Prosecutor shall make the final determination regarding that provision. Nothing in N.J.S.A. 18A:41-9 shall be construed as to require the installation of video surveillance equipment capable of streaming live video wirelessly to a remote site from a school building that does not have the ability to have live streaming video.

The Board of Education shall post signage in a prominent, public place in buildings and on school grounds where electronic surveillance equipment may be used.

In addition to posting, the district shall notify school staff members, parent(s), and students that electronic surveillance may be used in school buildings and on school grounds through publication in student and staff handbooks, school calendars, notice sent home with students, or any other effective means to publish the district's use of electronic surveillance equipment in school buildings and on school grounds.

The use of a firearm by a Class Three Officer is authorized pursuant to the provisions of N.J.S.A. 40A:14-146.14. A Class Three Officer shall not carry a firearm except when engaged in the actual performance of the Officer's official duties as a School Resource Officer and when specifically authorized by the Chief of Police or in the absence of the Chief, a designee. The Board of Education and the municipality shall enter into a partnership agreement that sets forth the respective obligations of the municipality, local law enforcement, and the school district. The agreement shall include, but is not limited to, the following terms: the number of police officers assigned to the school district; the school(s) to be covered; the days of police coverage in the school district; the process for the Police Department to assign and the process for the Board of Education to approve a School Resource Officer(s); the duties of the assigned School Resource Officer(s); the reporting requirements for the School Resource Officer; and the financial obligations of the parties. 7450 PROPERTY INVENTORY

The Board of Education recognizes that efficient management and the replacement of lost, damaged, or stolen property depends upon an accurate inventory and properly maintained records.

The district shall maintain a complete inventory by physical count of all district-owned equipment.

For the purpose of this Policy, “equipment” shall mean any instrument, machine, apparatus, or set of articles which meets all of the following criteria and the cost is above \$2,000:

1. It retains its original shape, appearance, and character with use;
2. It does not lose its identity through fabrication or incorporation into a different more complex unit or substance;
3. It is nonexpendable; that is, if the item is damaged or some of its parts are lost or worn out, it is more feasible to repair the item than to replace it with an entirely new unit; and
4. Under normal conditions of use, including reasonable care and maintenance, it can be expected to serve its principal purpose for at least one year.

Unless otherwise bound by Federal, State, or local law, the school district will use the criteria above for their equipment classification decisions.

The School Business Administrator/Board Secretary or designee shall ensure that inventories are systematically and accurately recorded and that property records of equipment are adjusted annually. Major items of equipment shall be subject to annual spot check inventory. A major loss shall be reported to the Board.

7481 UNMANNED AIRCRAFT SYSTEMS (UAS also known as DRONES)

The Board of Education is concerned for the safety of all staff members, students, parents, community members, and visitors while on school grounds. The Board of Education recognizes the operation of an unmanned aircraft system (UAS) on school grounds or flying an unmanned aircraft on or over school grounds presents a public safety issue as school grounds are populated many hours of the day by students, staff members, parents, and community members.

An unmanned aircraft system is the unmanned aircraft and all the associated support equipment, control station, data links, telemetry, communications and navigation equipment, etc. necessary to operate the unmanned aircraft. The unmanned aircraft is the flying portion of the system by a pilot via a ground control system, or autonomously through the use of an on-board computer, communication links and any additional equipment that is necessary for the unmanned aircraft to operate safely. A model aircraft is considered an unmanned aircraft.

The Board of Education prohibits the operation of an unmanned aircraft system on school grounds, the launching or landing of an unmanned aircraft on school grounds, or the flying of an unmanned aircraft over school grounds at all times.

However, the Board of Education may authorize the use of an unmanned aircraft system on school grounds for an approved school district purpose.

The use of an unmanned aircraft system on school grounds for school district purposes that is owned and operated by a contractor must be approved by the Board of Education. Such request must include documentation (to include: the pilot's certificate, medical certification, aircraft registration, etc.) supporting the contractor's compliance with all applicable Federal Aviation Administration regulations and any State and local laws for the operation of an unmanned aircraft system and proof of insurance coverage for the specific use as required by the Board of Education. The minimum insurance coverage shall be determined by the Board after consultation with the Board's insurance company and Board Attorney.

The use of an unmanned aircraft system on school grounds for school district purposes that is owned and operated by the Board of Education or owned and operated by a student and used in an approved school district program must be operated under the supervision of a school district staff member(s). The unmanned aircraft system shall only be operated on school grounds and the unmanned aircraft shall only be launched or landed on school grounds or flown over school grounds. The Superintendent or designee shall approve the specific activity(ies) or event(s) in which an unmanned aircraft system may be used. The Superintendent or designee shall ensure the use of a school district-owned or student-owned unmanned aircraft system is in compliance

with all applicable Federal Aviation Administration regulations and State and local laws for the operation of an unmanned aircraft system. In addition, the Superintendent or designee shall ensure the Board of Education has insurance coverage for the use or operation of an unmanned aircraft system. The insurance coverage shall be determined by the Board after consultation with the Board's insurance company and Board Attorney.

The Board of Education may post signage on school grounds indicating the operation of an unmanned aircraft system or flying an unmanned aircraft over school grounds without Board of Education approval is prohibited at all times.

The Board of Education will take appropriate action in accordance with Federal Aviation Administration regulations and/or any State and local laws against any violations of the provisions of this Policy.

7490 ANIMALS ON SCHOOL PROPERTY

The Board of Education will make every reasonable effort to maintain school grounds in a condition appropriate for the activities of school students.

Pet animals are not permitted on school district grounds, except by the express permission of the Building Principal. Without such permission, a pet owner who brings or permits his/her animal on school grounds has committed an act of trespass. If an animal is found running at large on school grounds, its owner will be deemed to have permitted the animal to enter school property.

The Board directs the Building Principal to give notice regarding the prohibition of pets by posting appropriate signs on school property. The Principal shall report to the appropriate municipal authorities any pet that runs at large on school property and any pet owner whose animal is present on school property is in violation of this policy.

7523 SCHOOL DISTRICT PROVIDED TECHNOLOGY DEVICES TO STUDENTS

The Board of Education may provide technology devices to students in the district for school district authorized use only. The purpose of this Policy is to establish general guidelines for the issuance and utilization of any school district technology device provided to students of this district. For the purposes of this Policy, "technology device" or "device" shall include, but not be limited to, portable devices such as computers, laptops, tablets, cellular telephones, or any other computing or electronic devices the school district provides to students to be used as part of their educational program.

A technology device made available to students will not be considered a textbook or supply, as defined in N.J.S.A. 18A:34-1, mandatory to a successful completion of the classroom curriculum. Therefore, because a technology device defined in this Policy is not mandatory to a successful completion of a student's classroom curriculum, a student will not be required to obtain a technology device provided by the school district as defined in this Policy. In the event the school district provides a technology device that is deemed mandatory to a successful completion of the classroom curriculum, the district will provide students with such a technology device consistent with its textbook or supply policies. Nothing in this Policy prohibits a student from using their personal technology device in accordance with school rules and regulations.

A technology device provided by the school district may include pre-loaded software. A student is prevented from downloading additional software onto the technology device or tampering with software installed on the technology device. Only school district authorized staff members may load or download software onto a school district provided technology device.

To receive a school district provided technology device, the parent and student must sign a School District Provided Technology Device Form requiring the parent and the student to comply with certain provisions. These provisions may include, but are not limited to:

1. A school district provided technology device must be used only by the student for school district authorized use;
2. A student shall comply with the school district's acceptable use of technology policies, which shall be attached to the School District Provided Technology Device Form, in their use of any school district provided technology device;
3. Any school district provided technology device loaned to a student must be returned to the school district in the condition it was initially provided to the student considering reasonable use and care by the student;

School District Provided Technology Devices to Students

4. The parent or student shall be responsible to reimburse the school district the cost of any technology device that is lost, damaged beyond reasonable use or beyond its value, abandoned, missing, stolen, or cannot be returned to the district in accordance with the terms of the School District Provided Technology Device Form;
5. The district may require, or offer as an option, depending on the type of technology device provided to the student, an insurance policy to be purchased by the parent or student that would cover certain losses or damage to a technology device during the time period the student has possession of the device. The parent or the student shall pay any insurance policy required deductibles in the event of a loss;
6. In the event the school district does not require the purchase of an insurance policy for a technology device or the parent or student elects not to purchase optional insurance, the parent and/or student shall be responsible for any loss or damage to the technology device in accordance with the terms of the School District Provided Technology Device Form;
7. A student will be required to report any hardware or software problems in the operation of the device to the school district staff member, designated on the School District Provided Technology Device Form, within two school days of the commencement of the problem;
8. A student must report to the school district staff member designated on the School District Provided Technology Device Form within two school days in the event the technology device has been damaged or is missing;
9. A parent or student is required to immediately file a police report in the event it is believed the technology device has been stolen. Within one school day after filing a police report, a parent or student shall complete the School District Provided Technology Device Loss Form and submit the completed Loss Form and a copy of the police report to the Principal or designee;
10. A student shall be required to provide routine cleaning and care of the device in accordance with school district cleaning and care guidelines;
11. The student shall have the technology device in their possession in school as required; and

12. Any other provisions the Superintendent determines should be included on the School District Provided Technology Device Form.

The school district will provide the student and parent with written or electronic notification that the technology device provided by the school district may record or collect information on the student's activity or the student's use of the technology device if the device is equipped with a camera, global positioning system, or other feature capable of recording or collecting information on the student's activity or use of the device. This notification shall also include a statement that the school district shall not use any of the capabilities in a manner that would violate the privacy rights of the student or any individual residing with the student. The parent shall be required to acknowledge receipt of this notification and the parent acknowledgement shall be retained by the Principal or designee for as long as the student retains the use of the school district provided technology device. The parent acknowledgement and a signed School District Provided Technology Device Form shall be required before the issuance of a technology device to a student. In accordance with the provisions of P.L. 2013, Chapter 44, a school district failing to provide this notification shall be subject to a fine of \$250 per student, per incident. The fine shall be remitted to the New Jersey Department of Education, and shall be deposited in a fund that shall be used to provide laptop or other portable computer equipment to at-risk students as defined in N.J.S.A. 18A:7F-45.

Students shall comply with all school district policies for the use of a school district provided technology device. A student shall be subject to consequences in the event the student violates any school district policy, including the district's acceptable use policies; student code of conduct; any provision of this Policy; or any provision of the School District Provided Technology Device Form.
