#### 1. Narrative description of the Prop 28 arts education program(s) funded. (2500 character limit).

In 2023, Pleasant Valley School District convened a team of passionate arts advocates and educators to work collaboratively to create a district Arts Master Plan. This included local philanthropic groups, parent organizations, professional arts organizations, university representatives, working artists and school personnel. We did this with the knowledge that Proposition 28 had passed and that school sites would be working within their communities to create plans for services for students with a goal of articulated plans that met the PVSD vision of Excellence for All. The team created the PVSD Arts Plan vision of Orchestrating Opportunities for Creativity with a mission to provide exposure and practice in the arts with sequential skills leading to lifelong engagement, including building educator capacity in the arts. Following the overarching plan, school sites surveyed students and families about foci that their communities would choose to implement using Arts and Music in Schools funding. Where possible, schools implemented arts programming immediately using existing staff and opportunities such as adding a drama elective in a teacher's open period. Diligent work went into school site art plans which then allowed the district to assist with coordinated recruitment and hiring staff for added programming. Where immediately possible, materials and supplies funds were used to launch new arts programming and offer contracted services when available. School year 2023-2024 laid the foundation for what is sure to be robust arts programming for all PVSD students in school year 2024-2025.
