Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, each major fund, and fiduciary fund of the North Merrick Union Free School District (the "District") as of and for the fiscal year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the fiduciary fund of the District, as of June 30, 2024, and the respective changes in financial position for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of District's proportionate share of the net pension asset/(liability) schedule of District's contributions, and schedule of changes in the District's total other post-employment benefits liability and related ratios, on pages 4 through 17 and 56 through 60, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The other supplementary information as listed in the table of contents and the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for*

Federal Awards, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the other supplementary financial information, including the schedule of expenditures of federal awards, is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated October 15, 2024, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

The North Merrick Union Free School District's (District) discussion and analysis of the financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2024 in comparison with the year ended June 30, 2023, with emphasis on the current year. This should be read in conjunction with the financial statements, notes to financial statements, and required supplementary information, which immediately follow this section.

1. FINANCIAL HIGHLIGHTS

Key financial highlights for fiscal year 2024 are as follows:

- The District's total net position was a deficit of \$31,109,494 in the district-wide financial statements at June 30, 2024, compared to a deficit of \$27,237,879 at June 30, 2023. The deficit increased by \$3,871,615 over the prior year due to an excess of expenses over revenues using the economic resources measurement focus and the accrual basis of accounting.
- The District's expenses for the year, as reflected in the district-wide financial statements, totaled \$44,828,471. Of this amount, \$2,968,486 was offset by program charges for services, operating grants, and capital grants. General revenues of \$37,988,370 amount to 92.75% of total revenues and were not adequate to cover the balance of program expenses.
- The District's general fund fund balance, as reflected in the fund financial statements was \$6,493,581 at June 30, 2024. This balance represents a \$415,702 (6.84%) increase over the prior year due to an excess of revenues and other financing sources over expenditures and other financing uses, using the current financial resources measurement focus and the modified accrual basis of accounting, as follows:
 - Nonspendable fund balance increased by \$7,395, which represents the change in prepaid.
 - Restricted fund balances increased by \$324,198 due to the funding of and interest allocated to the reserves, offset by the use of reserves.
 - Assigned fund balance decreased \$8,332, as the District decreased the fund balance appropriated to fund the 2024 budget, offset by an increase in open encumbrances at the end of the year.
 - Unassigned fund balance increased by \$92,441 to \$1,647,660.
- The District's 2024 property tax levy including STAR of \$25,465,878 was a 2.44% increase over the 2023 tax levy, which was equal to the property tax cap.
- On May 21, 2024, the voters of the District approved the use of the capital reserve in the amount off \$105,000 to fund the installation of a new roof at the Camp Avenue School. The District transferred the funds during 2023-2024 to the capital projects fund.

2. OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – management's discussion and analysis (MD&A), the financial statements, required supplementary information, and other information. The financial statements consist of district-wide financial statements, fund financial statements, and notes to financial statements. A graphic display of the relationship of these statements follows:

NORTH MERRICK UNION FREE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

A. District-Wide Financial Statements

The district-wide financial statements present the governmental activities of the District and are organized to provide an understanding of the fiscal performance of the District, as a whole, in a manner similar to a private sector business. There are two district-wide financial statements - the Statement of Net Position and the Statement of Activities. These statements provide both an aggregate and long-term view of the District's finances.

These statements utilize the economic resources measurement focus and the accrual basis of accounting. This basis of accounting recognizes the financial effects of events when they occur, without regard to the timing of cash flows related to the events.

The Statement of Net Position

The Statement of Net Position presents information on all of the District's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference reported as net position. Increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating. To assess the overall health of the District, one needs to consider additional nonfinancial factors such as changes in the District's property tax base and the condition of the District's school buildings and other capital assets.

The Statement of Activities

The Statement of Activities presents information showing the change in net position during the fiscal year. All changes in net position are recorded at the time the underlying financial event occurs. Revenues are recognized in the period when they are earned and expenses are recognized in the period when the liability is incurred. Therefore, revenues and expenses are reported in the statement for some items that will result in cash flows in future fiscal periods.

B. Fund Financial Statements

The fund financial statements provide more detailed information about the District's funds, not the District as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District also uses fund accounting to ensure compliance with finance-related legal requirements. The funds of the District are reported in the governmental funds and the fiduciary fund.

Governmental Funds

These statements utilize the current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting recognizes revenues in the period when they become measurable and available. It recognizes expenditures in the period when the District incurs the liability, except for certain expenditures such as debt service on general long-term indebtedness, lease liabilities, compensated absences, pension costs, and other postemployment benefits (OPEB), which are recognized as expenditures to the extent the related liabilities mature each period.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the district-wide financial statements. However, the governmental fund financial statements focus on shorter-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year for spending in future years. Consequently, the governmental fund statements provide a detailed short-term view of the District's operations and the services it provides.

NORTH MERRICK UNION FREE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

Because the focus of governmental funds is narrower than that of district-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the district-wide financial statements. By doing so, the reader may better understand the long-term impact of the District's near-term financing decisions. Both the governmental funds Balance Sheet and the governmental funds Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains five individual governmental funds: general fund, special aid fund, school food service fund, debt service fund, and capital projects fund, each of which is considered to be a major fund and is presented separately in the fund financial statements.

Fiduciary Fund

The District reports its fiduciary activities in the fiduciary fund – custodial fund. This fund reports real property taxes and payments in lieu of taxes (PILOT) collected on behalf of other governments and disbursed to those governments, and utilizes the economic resources measurement focus and the accrual basis of accounting. All of the District's fiduciary activities are reported in separate statements. The fiduciary activities have been excluded from the district-wide financial statements because the District cannot use these assets to finance its operations.

3. FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

A. Net Position

The District's total net position decreased by \$3,871,615 between fiscal year 2024 and 2023. The decrease is due to expenses in excess of revenues using the economic resources measurement focus and the accrual basis of accounting. A summary of the District's Statements of Net Position follows:

NORTH MERRICK UNION FREE SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
(Continued)

The increase in current and other assets is primarily related to increases in cash, offset by decreases in amounts due from state and federal and due from other governments.

The decrease in capital assets, net is due to depreciation/amortization expense in excess of capital assets additions. The accompanying Notes to Financial Statements, Note 9 "Capital Assets," provides additional information.

Deferred outflows of resources represents contributions to the pension plans subsequent to the measurement dates and actuarial adjustments of the pension and OPEB plans that will be amortized in future years.

The increase in current and other liabilities is primarily due to increases in accounts payable, due to employees' retirement system, and compensated absences payable, offset by decreases in accrued liabilities and due to teachers' retirement system.

The decrease in long-term liabilities is the result of the repayment of the current maturity of the bond indebtedness, and a decrease in lease liabilities, offset by an increase in compensated absences payable.

Net pension liabilities – proportionate share represents the District's share of the New York State Teachers' Retirement System's (TRS) and the New York State and Local Employees' Retirement System's (ERS) collective net pension liability, at the measurement date of the respective year. The decrease in net pension liabilities is primarily due to the net change in the market value of both the TRS' and ERS' pension plan assets being in excess of the net change in each plan's total pension liabilities at their current year measurement dates. The accompanying Notes to Financial Statements, Note 14 "Pension Plans – New York State," provides additional information.

The OPEB liability increase, based on the actuarial valuation of the Plan. The accompanying Notes to Financial Statements, Note 16 "Postemployment Healthcare Benefits, provides additional information.

Deferred inflows of resources represents actuarial adjustments of the pension and OPEB plans that will be amortized in future years.

The net investment in capital assets is the investment in capital assets at cost, net of accumulated depreciation/amortization, and related outstanding debt. The accompanying Other Information, Schedule of Net Investment in Capital Assets provides additional information.

The restricted amount relates to the District's reserves, which increased over the prior year, mainly due to transfers into and interest earned on the reserves.

The unrestricted deficit amount relates to the balance of the District's net position. This balance does not include the District's reserves, which are classified as restricted. Additionally, certain unfunded liabilities will have the effect of reducing the District's unrestricted net position. One such unfunded liability is the total OPEB liability. In accordance with state guidelines, the District is only permitted to fund OPEB on a "pay as you go" basis, and is not permitted to accumulate funds for the OPEB liability.

B. Changes in Net Position

The results of operations, as a whole, are reported in the Statement of Activities in a programmatic format. In the accompanying financial statements school tax relief (STAR) revenue is included in the other tax items line. However, in this MD&A, STAR revenue has been combined with property taxes. A summary of this statement for the years ended June 30, 2024 and 2023 is as follows:

The District's net position decreased by \$3,871,615 and \$3,113,031 for the years ended June 30, 2024 and 2023, respectively.

The District's revenues increased when compared to the prior year, primarily due to the following major changes:

- The increase in state sources is chiefly due to the District receiving more in commercial gaming aid, general aid, and BOCES aid.
- Real property taxes and STAR were increased to fund additional appropriations in the voter-approved 2023-2024 budget, negated by a decrease in STAR credit.
- Operating grants revenue decreased as the District received less funding from the American Rescue Plan (ARP) programs than they received in previous years. Current ARP programs are set to conclude in September of 2024.

The District's expenses increased when compared to the prior year, primarily due to the following major changes:

- Instruction expenses increased based on the impact of allocations of the net change in actuarially determined pension expenses for TRS, ERS, and OPEB costs, as well as routine salary and step increases.
- General support decreased as a result of the capitalization of completed capital projects funded by general fund appropriations.

As indicated on the graphs that follow, real property taxes and STAR is the largest component of revenues recognized (i.e., 62.2% and 64.6% of the total for the years 2024 and 2023, respectively). Instruction expenses is the largest category of expenses incurred (i.e., 80.3% and 76.0% of the total for the years 2024 and 2023, respectively).

4. FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

At June 30, 2024, the District's governmental funds reported a combined fund balance of \$6,295,423, which is an increase of \$359,024 over the prior year. This increase is due to an excess of revenues and other financing sources over expenditures and other financing uses using the current financial resources measurement focus and the modified accrual basis of accounting. A. General Fund

The general fund – fund balance is a net increase of \$415,702 or 6.84% compared to a decrease of \$7,545 in 2023. This resulted from revenues and other financing sources in excess of expenditures and other financing uses.

The following is a summary of the major changes that resulted in revenues and other financing sources increasing over the prior year:

- State sources increased due to more general aid, commercial gaming aid, and BOCES aid.
- Property taxes were increased to fund additional appropriations in accordance with the 2023-2024 voter-approved budget, negated by a decrease in STAR credit.
- Other financing sources consisted of a transfer from the capital projects fund for closed project residuals originally funded by general fund appropriations. In the prior year, this balance consisted of transfers from the special aid fund, and represented grant money received from the emergency connectivity grant that was used to reimburse the general fund for prior year pandemic related expenditures.

The following is a summary of the major changes that resulted in expenditures and other financing uses increasing over the prior year:

- Instruction increased due to routine salary and step rises along with the growth in BOCES services.
- Employee benefits increased due to the higher cost of hospital, medical, and dental insurance. In addition, the pension contributions increased to the ERS, offset by a decrease in contributions to the TRS.
- Other financing uses increased in accordance with the voter-approved transfer from the capital reserve to the capital projects fund for capital improvements.

The following is a summary of the District's general fund restricted fund balance activity:

Additional detail regarding capital reserves can be found in Note 21 "Restricted for Capital Reserve."

B. School Food Service Fund

The school food service fund fund balance net increase can be attributed to the District receiving more favorable contract terms with its food service management company.

C. Debt Service Fund

There was no change in debt service fund-fund balance this year, as no transfers were made to offset current year debt payments. The District's plan is to use the remaining fund balance from the debt service fund to offset the debt service costs in the 2023-2024 school year.

D. Capital Projects Fund

The capital projects fund fund balance net decrease is the result of capital expenditures and other financing uses exceeding state grant revenues and other financing sources.

5. GENERAL FUND BUDGETARY HIGHLIGHTS

A. 2023-2024 Budget

The District's general fund adopted budget for the year ended June 30, 2024 was \$38,885,897. This amount was increased by encumbrances carried forward from the prior year in the amount of \$27,032. The District also appropriated an additional \$205,575 during the year for unanticipated retirement payments funded by the employee benefit accrued liability reserve and an additional \$105,000 for a voter approved use of capital reserve for roof work at Camp Avenue School for a total final budget of \$39,223,504.

The final budget was funded through a combination of estimated revenues and appropriated fund balance. The majority of this funding source was \$25,465,878 in estimated property taxes and STAR.

B. Change in General Fund's Unassigned Fund Balance (Budget to Actual)

The general fund's unassigned fund balance is the component of total fund balance that is the residual of current and prior years' excess revenues and other financing sources over expenditures and other financing uses, net of transfers to reserves, appropriations to fund the subsequent year's budget, encumbrances, and amounts classified as nonspendable. The change in this balance, demonstrated through a comparison of the actual revenues and other financing sources and expenditures and other financing uses for the year compared to budget, follows:

Opening, Unassigned Fund Balance	\$ 1,555,219
Revenues and Other Financing Sources Over Budget	406,774
Expenditures, Other Financing Uses, and Encumbrances Under Budget	1,121,835
Net Change in Nonspendable Fund Balance	(7,395)
Allocation to Reserves	(1,348,773)
Appropriated to Fund the June 30, 2025 Budget	<u>(80,000)</u>
Closing, Unassigned Fund Balance	<u>\$ 1,647,660</u>

Opening, Unassigned Fund Balance

The \$1,555,219 shown in the table is the portion of the District's June 30, 2023 fund balance that was retained as unassigned.

Revenues and Other Financing Sources Over Budget

The 2023-2024 final budget for revenues and other financing sources was \$38,075,807. Actual revenue and other financing sources recognized for the year were \$38,482,581. The excess of actual revenues and other financing sources over estimated or budgeted revenues and other financing sources was \$406,774, which contributes directly to the change to the general fund unassigned fund balance from June 30, 2023 to June 30, 2024. The accompanying Required Supplementary Information, Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund, provides additional information.

Expenditures, Other Financing Uses, and Encumbrances Under Budget

The 2023-2024 final budget for expenditures and other financing uses was \$39,223,504. Actual expenditures and other financing uses as of June 30, 2024 were \$38,066,879 and outstanding encumbrances were \$34,790. Combined, the expenditures and other financing uses plus encumbrances for 2023-2024 were \$38,101,669. The final budget variance was \$1,121,835, which contributes directly to the change to the general fund unassigned fund balance from June 30, 2023 to June 30, 2024. The accompanying Required Supplementary Information, Schedule of Revenues, Expenditures, and Changes in Fund Balance – Budget and Actual – General Fund, provides additional information.

Net Change in Nonspendable Fund Balance

Nonspendable fund balance consists of various prepaid insurance premiums. The resulting balance sheet asset cannot be spent because it is not in spendable form, meaning it will not be converted to cash. Accordingly, an equal amount of fund balance is classified as nonspendable. The increase in nonspendable fund balance reduces unassigned fund balance.

Allocation to Reserves

Monies transferred into authorized reserves do not affect the total fund balance unless, and until these monies are actually expended. The transfers do, however, reduce the District's discretion regarding the use of these transferred monies, and thus, reduce the unassigned fund balance by the amount of the transfers. The table in §4.A. "General Fund" (summary of restricted fund balance activity) of this MD&A details the allocation of interest earnings and funding transfers to the reserves.

Appropriated Fund Balance

The District has chosen to use \$80,000 of the available June 30, 2024 unassigned fund balance to partially fund the 2024-2025 approved operating budget. As such, the June 30, 2024 unassigned fund balance must be reduced by this amount.

Closing, Unassigned Fund Balance

Based upon the summary changes shown in the above table, the unassigned fund balance at June 30, 2024, was \$1,647,660. This amount equals 4.00% of the 2024-2025 budget, which complies with statutory limits established by §1318 of Real Property Law.

6. CAPITAL ASSETS, DEBT ADMINISTRATION, AND OTHER LONG-TERM LIABILITIES

A. Capital Assets

At June 30, 2024, the District had invested in a broad range of capital assets, as indicated in the table below. The net decrease in capital assets is due to depreciation/amortization expenses of \$1,216,325 in excess of capital additions of \$978,799 recorded for the year ended June 30, 2024. A summary of the District's capital assets, net of accumulated depreciation at June 30, 2024 and 2023 is as follows:

C. Other Long-Term Liabilities

Included in the District's long-term liabilities are the estimated amounts due for compensated absences, which are based on employment contracts, and total OPEB liability and total net pension liabilities – proportionate share, which are based on actuarial valuations. A summary of the outstanding other long-term liabilities at June 30, 2024 and 2023 is as follows:

	2024	2023	Increase (Decrease)
Compensated absences payable	\$ 3,481,361	\$ 3,423,690	\$ 57,671

7. ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

A. Subsequent Year's Budget

The general fund budget, the only fund with a legally adopted budget, as approved by the voters on May 21, 2024, for the year ending June 30, 2025, is \$41,191,614. This is an increase of \$2,305,717 or 5.93% over the previous year's budget.

The District budgeted revenues other than property taxes and STAR at a \$1,522,660 increase over the prior year's estimate. The assigned, appropriated fund balance applied to the budget in the amount of \$80,000 is a decrease of \$16,090 from the previous year. Additionally, the District has elected to appropriate \$834,000 of reserves towards the next year's budget, which is an increase of \$120,000 over the previous year. A property tax increase of \$679,147 (2.67%), levy-to-levy, was needed to meet the funding shortfall and cover the increase in appropriations.

B. Future Budgets

Factors to consider that could influence future budgets:

- Uncertainty with state aid complicates long-range planning.
- Rise in employee cost centers of employee salaries and health benefits, as well as contributions to pension programs.
- Changing circumstances of unforeseen events and risks including natural disasters and global pandemics.
- Impact of external factors such as market trends, economic conditions, and regulatory changes.
- The combination of high inflation and high-interest rates can impact all lines of the budget.
- Social and demographic changes with population, age distribution, and personal income can have significant and lasting effects.
- Legal and intergovernmental factors constraining tax increases, forbidding particular revenue sources, and mandating some services.
- Legal and intergovernmental factors constraining tax increases, forbidding particular revenue sources, and mandating some services.

C. Tax Cap

New York State law limits the increase in the property tax levy of school districts to the lesser of 2% or the rate of inflation. There are additional statutory adjustments in the law. School districts may override the tax levy limit by presenting to the voters a budget that requires a tax levy that exceeds the statutory limit. However, that budget must be approved by 60% of the votes cast. Based on the law, the District's tax levy cap for 2024-2025 is 2.67%. The District's 2024-2025 property tax increase of 2.67% was equal to the tax cap and did not require an override vote.

Changes in Fund Balances to the Statement of Activities
For the Year Ended June 30, 2024

Net Change in Fund Balances		\$ 359,024
-----------------------------	--	------------

Amounts reported for governmental activities in the Statement of Activities are different because:

Long-Term Revenue and Expense Differences

In the Statement of Activities, certain operating revenues are measured by the amounts earned during the year. In the governmental funds, however, revenues for these items are measured by the amount of financial resources provided (essentially, the amounts actually received).

\$ 75,423

Certain operating expenses do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds, but are expensed in the Statement of Activities.

Increase in compensated absences payable

(57,671)

Capital Related Differences

17,752

Capital outlays to purchase, build, of the right-to-use capital assets are reported in governmental funds as expenditures. However, for governmental activities those costs are capitalized and shown in the Statement of Net Position and allocated over their useful lives as annual depreciation/amortization expense in the Statement of Activities. This is the amount by which depreciation/amortization expense exceeded capital outlays and other additions in the period.

Long-Term Debt Transaction Differences

Proceeds from the issuance of leases are other financing sources in the governmental funds, but increase long-term liabilities in the Statement of Net Position and do not affect the Statement of Activities.

(191,964)

The amortization of deferred premium on bond issuance, decreases interest expense in the Statement of Activities.

Repayment of long-term debt principal is an expenditure in the governmental funds, but it reduces long-term liabilities in the Statement of Net Position and does not affect the Statement of Activities.

209,677

Interest on long-term debt in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. This is the amount by which accrued interest decreased from June 30, 2023 to June 30, 2024.

Pension and Other Postemployment Benefits Differences

The change in the proportionate share of the collective pension expense of the state retirement plans and the change in other postemployment benefits expense reported in the Statement of Activities did not affect current financial resources and, therefore, are not reported in the governmental funds.

NORTH MERRICK UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the North Merrick Union Free School District (District) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) for governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles. Significant accounting principles and policies used by the District are as follows:

A. Reporting Entity

The District is governed by the laws of New York State. The District is an independent entity governed by an elected Board of Education (Board) consisting of seven members. The President of the Board serves as the chief fiscal officer and the Superintendent is the chief executive officer. The Board is responsible for, and controls all activities related to public school education within the District. Board members have authority to make decisions, power to appoint management, and primary accountability for all fiscal matters.

The financial reporting entity is based on criteria set forth by GASB. The financial reporting entity consists of the primary government, organizations for which the primary government is financially accountable, and other organizations for which the nature and significance of their relationship with the primary government are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The accompanying financial statements present the activities of the District. The District is not a component unit of another reporting entity. The decision to include a potential component unit in the District's reporting entity is based on several criteria including legal standing, fiscal dependency, and financial accountability. Based on the application of these criteria, there are no other entities that would be included in the District's reporting entity.

B. Joint Venture

The District is a component district in the Board of Cooperative Educational Services of Nassau (BOCES). A BOCES is a voluntary, cooperative association of school districts in a geographic area that share planning, services, and programs which provide educational and support activities. BOCES are organized under §1950 of the Education Law. A BOCES Board is considered a corporate body. Members of a BOCES Board are nominated and elected by their component member boards in accordance with provisions of §1950 of the Education Law. All BOCES property is held by the BOCES Board as a corporation under §1950(6). In addition, BOCES Boards also are considered municipal corporations to permit them to contract with other municipalities on a cooperative basis under §119-n(a) of the General Municipal Law (GML). A BOCES budget is comprised of separate budgets for administrative, program, and capital costs. Each component district's share of administrative and capital cost is determined by resident public school district enrollment as defined in Education Law, §1950(4)(b)(7). There is no authority or process by which a school district can terminate its status as a BOCES component. In addition, component school districts pay tuition or a service fee for programs in which its students participate.

C. Basis of Presentation

District-Wide Financial Statements

The Statement of Net Position and the Statement of Activities present information about the overall governmental financial activities of the District, except for fiduciary activities. Eliminations have been made to minimize the double counting of interfund transactions. Governmental activities generally are

NORTH MERRICK UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

financed through taxes, state aid, intergovernmental revenues, and other exchange and nonexchange transactions. Operating grants include operating-specific and discretionary (either operating or capital) grants, while capital grants reflect capital-specific grants, if applicable.

The Statement of Net Position presents the financial position of the District at fiscal year end. The Statement of Activities presents a comparison between program expenses and revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with and are clearly identifiable to a particular function. Employee benefits are allocated to functional areas in proportion to the payroll expended for those areas. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including real property taxes and state aid, are presented as general revenues.

Fund Financial Statements

The fund financial statements provide information about the District's funds, including the fiduciary fund. Separate statements for each fund type, governmental and fiduciary, are presented. The District's financial statements present the following fund types:

Governmental Funds - are those through which most governmental functions are financed. The acquisition, use, and balances of expendable financial resources, and the related liabilities are accounted for through governmental funds. The emphasis of governmental fund financial statements is on major funds as defined by GASB, each displayed in a separate column. The following are the District's major governmental funds:

General Fund - is the general operating fund and is used to account for all financial transactions except those required to be accounted for in another fund.

Special Aid Fund - is used to account for the proceeds of specific revenue sources such as federal and state grants that are legally restricted to expenditures for specified purposes. These legal restrictions may be imposed by either governments that provide the funds or outside parties.

School Food Service Fund - is used to account for the activities of the food service program.

Debt Service Fund - accounts for the accumulation of resources for, and the payment of, principal and interest on long-term general obligation debt of governmental activities.

Capital Projects Fund - is used to account for the financial resources used for the acquisition, construction, renovation, major repair, or leasing of capital facilities and other capital assets.

Fiduciary Funds - are used to account for activities in which the District acts as trustee or custodian for resources that belong to others. These activities are not included in the district-wide financial statements, because their resources do not belong to the District, and are not available to be used to finance District operations. The following is the District's fiduciary fund:

Custodial Fund - is used to account for real property taxes and PILOT collected on behalf of other governments and disbursed to those governments.

D. Measurement Focus and Basis of Accounting

Measurement focus describes what type of information is reported, and is either the economic resources measurement focus or the current financial resources measurement focus. The economic resources measurement focus reports all assets, liabilities, and deferred resources related to a given activity, as well as transactions of the period that affect net position. For example, all assets, whether financial (e.g., cash and receivables) or capital (e.g., property and equipment) and liabilities (including long-term debt and obligations) are reported. The current financial resources measurement focus reports more narrowly on assets, liabilities, and deferred resources that are relevant to near-term liquidity, along with net changes resulting from transactions of the period. Consequently, capital assets and the unmatured portion of long-term debt and certain other liabilities the District would not expect to liquidate currently with expendable available financial resources (e.g., compensated absences for employees still in active service) would not be reported.

Basis of accounting describes when changes are recognized, and is either the accrual basis of accounting or the modified accrual basis of accounting. The accrual basis of accounting recognizes changes in net position when the underlying event occurs, regardless of the timing of related cash flows. The modified accrual basis of accounting recognizes changes only at the point they affect near-term liquidity.

The district-wide and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash transaction takes place. Nonexchange transactions, in which the District gives or receives value without directly receiving or giving equal value in exchange, include real property taxes, state aid, grants, and donations. On an accrual basis, revenue from real property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from state aid is recognized in the fiscal year it is apportioned by the state. Revenue from grants and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

The governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within 180 days after the end of the fiscal year, except for real property taxes, which are considered to be available if they are collected within 60 days after the end of the fiscal year. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, lease liabilities, compensated absences, pension costs, and OPEB, which are recognized as expenditures to the extent they have matured. Capital assets acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt are reported as other financing sources.

E. Real Property Taxes and Other Tax Items

Calendar

Real property taxes are levied annually by the Board no later than August 15th and become a lien on October 1st and April 1st. Taxes are collected by the Town of Hempstead and remitted to the District from October through June.

The District also levies the real property taxes for the Bellmore-Merrick Central High School District and North Merrick Library (Library), which are collected by the town and included in the amount remitted to the District. The District remits the Library's share of the tax levy to the Library and High School District as received from the Town. These pass-through amounts are not included in the District's real property tax revenues, but are accounted for in the custodial fund.

NORTH MERRICK UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

Enforcement

Uncollected real property taxes are subsequently enforced by Nassau County in June.

School Tax Relief (STAR) Aid

New York State implemented the STAR program with the enactment of Chapter 389 of the Laws of 1997 to reduce the school property tax burden on residential homeowners. A school district's annual property tax levy as adopted is reduced by the total amount of the STAR exemptions granted to homeowners. School districts are reimbursed for this loss in property tax revenues by the state with STAR aid, which is reported as other tax items revenue.

F. Payments in Lieu of Taxes (PILOT)

The District reports PILOT revenues in the general fund as part of other tax items revenues. These PILOT revenues are often the result of tax abatements granted by industrial development agencies of the Town and/or the County to help promote local economic development. Property owners make PILOT payments to the government agencies, which in turn remit the collected payments to the District.

PILOT payments collected on behalf of the Bellmore-Merrick Central High School District (CHSD) are remitted to the CHSD. These pass-through amounts are not included in the District's other tax items revenue; however, the amounts are recorded within the custodial fund.

The District's PILOT revenues also include payments from the Long Island Power Authority (LIPA) remitted by Nassau County. Beginning in the 2015-16 fiscal year, the Nassau County Legislature removed properties owned by LIPA from the assessment and tax rolls and, instead, allowed LIPA to make payments in lieu of taxes in response to the New York State Public Authorities Law §1020-q (the "LIPA Reform Act") enacted by the state in 2013. These LIPA PILOT payments are not the result of tax abatement agreements as defined by GASB Statement No. 77, *Tax Abatement Disclosures*, under which an entity receiving a reduction in tax revenues promises to take specific action that contributes to economic development or otherwise benefits the governments or residents of the governments.

G. Restricted Resources

When an expense is incurred for purposes for which both restricted and unrestricted net resources are available, the District's policy concerning which to apply first varies with the intended use, and with associated legal requirements, many of which are described elsewhere in these Notes to Financial Statements.

H. Interfund Transactions

The operations of the District include transactions between funds. These transactions may be temporary in nature, such as with interfund borrowings. The District typically loans resources between funds for the purpose of providing cash flow. These interfund receivables and payables are expected to be repaid within one year. Permanent transfers of funds include transfers to provide financing or other services. This includes the transfer of unrestricted general fund revenues to finance various programs that the District must account for in other funds in accordance with budgetary authorizations.

NORTH MERRICK UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

In the district-wide statements, eliminations have been made for all interfund receivables and payables among the funds.

The governmental funds report all interfund transactions as originally recorded. Interfund receivables and payables are netted on the accompanying governmental funds balance sheet when it is the District's practice to settle these amounts at a net balance based upon the right of legal offset.

A detailed disclosure by individual fund for interfund receivables, payables, transfers in, and transfers out activity is provided subsequently in these Notes to Financial Statements.

I. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of assets, deferred outflow of resources, liabilities, deferred inflows of resources, and disclosure of contingencies at the date of the financial statements and the reported revenues and expenses/expenditures during the reporting period. Accordingly, actual results could differ from those estimates. Estimates and assumptions are made in a variety of areas, including revenue availability, lease liabilities, OPEB, pension costs, potential contingent liabilities, and useful lives of capital assets.

J. Cash

Cash consists of cash on hand, bank deposits, and investments with an original maturity date of three months or less from date of acquisition.

Certain cash balances are restricted by various legal and contractual obligations, such as legal reserves and debt agreements.

K. Receivables

Receivables are shown net of an allowance for uncollectibles, if any. However, no allowance for uncollectibles has been provided since it is believed that such allowance would not be material.

L. Inventory and Prepaid Items

Inventory of food in the school food service fund is recorded at cost on a first-in, first-out basis, or in the case of surplus food donated by the U.S. Department of Agriculture, at the Government's assigned value, which approximates market. Inventory is accounted for on the consumption method.

Purchases of inventoriable items in other funds are recorded as expenditures at the time of purchase, and are considered immaterial in amount.

Prepaid items represent payments made by the District for which benefits extend beyond year end. These payments to vendors reflect costs applicable to future accounting periods and are recorded as assets on the Statement of Net Position and Balance Sheet using the consumption method.

Under the consumption method, a current asset for the inventory is recorded at the time of receipt and/or purchase and an expense/expenditure is reported in the year the goods or services are consumed.

NORTH MERRICK UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

A portion of fund balance has been classified as nonspendable to indicate that inventory and prepaids do not constitute available spendable resources.

M. Capital Assets

The district-wide financial statements report both capital and intangible assets, such as right-to-use leased assets. Capital assets are reported at actual cost, when the information is available, or at estimated historical cost based on professional third-party information. Donated assets are reported at acquisition value at the date of donation. Intangible assets are reported based on the estimated lease liability calculated in accordance with GASB standards.

All capital and intangible assets, except land and construction in progress, are depreciated/amortized on a straight-line basis over their estimated useful lives as follows:

	<u>Capitalization Threshold</u>	<u>Estimated Useful Life</u>
Buildings & building improvements	\$ 15,000	50 years
Site improvements	15,000	20 years
Furniture & equipment	1,000	5-20 years
Vehicles	1,000	8 years
Leased equipment and fixtures	1,000	4 years

N. Deferred Outflows of Resources

Deferred outflows of resources, reported in the Statement of Net Position, represents a consumptions of net assets that applies to a future reporting period and so will not be recognized as an outflow of resources (expense) until that time. The District has two items that qualify for reporting in this category. The first item is related to pensions and consists of the District's proportionate share of changes in the collective net pension assets or liabilities not included in collective pension expense and the District's contributions to the pension systems (TRS and ERS) subsequent to the measurement date. The second item is related to OPEB and represents the change in the total OPEB liability not included in OPEB expense.

O. Short-Term Debt

The District may issue revenue anticipation notes (RAN) and tax anticipation notes (TAN), in anticipation of the receipt of revenues. These notes are recorded as a liability of the fund that will actually receive the proceeds from the issuance of the notes. The RANs and TANs represent a liability that will be extinguished by the use of expendable, available resources of the fund.

The District may issue bond anticipation notes (BAN), in anticipation of proceeds from the subsequent sale of bonds. These notes are recorded as current liabilities of the funds that will actually receive the proceeds from the issuance of bonds. State law requires that BANs issued for capital purposes be converted to long-term financing within five years after the original issue date, seven years if originally issued during calendar year 2015 through, and including, 2021. The notes, or renewal thereof, may not extend more than two years beyond the original date of issue, unless a portion is redeemed within two years and within each twelve month period thereafter.

NORTH MERRICK UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

P. Collections in Advance

Collections in advance arise when resources are received by the District before it has a legal claim to them, as when grant monies are received prior to the incurrence of qualifying expenditures or when charges for services monies are received in advance from payers prior to the services being rendered by the District, such as prepaid lunch amounts in the school food service fund. These amounts are recorded as liabilities in the financial statements. The liabilities are removed and revenues are recognized in subsequent periods when the District has legal claim to the resources.

Q. Employee Benefits – Compensated Absences

Compensated absences consist of unpaid accumulated sick leave and vacation leave.

Sick leave eligibility and accumulation is specified in collective bargaining agreements and in individual employment contracts. Upon retirement, resignation, or death, employees may contractually receive a payment based on unused accumulated sick leave.

Vacation eligibility and accumulation is specified in collective bargaining agreements and in individual employment contracts. Some earned benefits may be forfeited if not taken within varying time periods. Employees are compensated for unused accumulated vacation leave through paid time off or cash payment upon retirement, termination, or death.

Certain collectively bargained agreements require these termination payments to be paid in the form of non-elective contributions into the employee's §403(b) plan.

The liability for compensated absences has been calculated using the vesting method and an accrual for that liability is included in the district-wide financial statements. The compensated absences liability is calculated based on the pay rates in effect at year end.

In the fund financial statements, a liability is reported only for payments due for unused compensated absences for those employees that have obligated themselves to separate from service with the District by June 30th.

R. Other Benefits

Eligible District employees participate in the TRS or the ERS.

District employees may choose to participate in the District's elective deferred compensation plan established under Internal Revenue Code §403(b).

The District provides individual or family health insurance coverage for active employees pursuant to collective bargaining agreements and individual employment contracts.

In addition to providing these benefits, the District provides individual, family, or surviving spouse postemployment health insurance coverage for retired employees. Collective bargaining agreements and individual employment contracts determine if District employees are eligible for these benefits if they reach normal retirement age while working for the District. Healthcare benefits are provided through plans whose premiums are based on the benefits paid during the year. The cost of providing post-retirement benefits is shared between the District and the retired employee. The District recognizes the cost of providing health insurance by recording its share of insurance premiums as an expenditure in the

NORTH MERRICK UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

governmental funds as the liabilities for premiums mature (come due for payment). In the district-wide statements, the cost of postemployment health insurance coverage is recognized on the economic resources measurement focus and the accrual basis of accounting in accordance with GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*.

S. Long-Term Debt

The District borrows money in order to acquire land or equipment, construct buildings, or make improvements, or obtain the right-to-use intangible assets. This enables the cost of these capital and intangible assets to be borne by the present and future taxpayers receiving the benefit of the capital and intangible assets. These long-term liabilities are full faith and credit debt of the local government. The repayment of principal and interest will be in the general fund.

In the fund financial statements, governmental funds recognize bond premiums during the current period, with the face amount of debt issued reported as other financing sources. Premiums received on long-term debt issuances are reported as other financing sources. Further, the unmatured principal of general long-term debt does not require current appropriation and expenditure of governmental fund financial resources.

In the district-wide financial statements, premiums received on long-term debt issuances are netted with bonds payable and amortized over the life of the bonds.

T. Lessee

At commencement of a lease, the District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

U. Deferred Inflows of Resources

Deferred inflows of resources represents an acquisition of net assets that applies to a future reporting period and so will not be recognized as an inflow of resources (revenue/expense credit) until that time. The District has three items that qualify for reporting in this category. First is unavailable revenues reported in the governmental funds when potential revenues do not meet the availability criterion for recognition in the current period. This consists of receivables of certain state aid allocations and capital grants. In subsequent periods, when the availability criterion is met, unavailable revenues are reclassified as revenues. In the District-wide financial statements, unavailable revenues are treated as revenues. The second item, reported in the Statement of Net Position, is related to pensions and consists of the District's proportionate share of changes in the collective net pension assets or liabilities not included in collective pension expense. The third item is related to OPEB reported in the district-wide Statement of Net Position and represents the change in the total OPEB liability not included in OPEB expense.

V. Equity Classifications

District-Wide Statements

In the district-wide statements there are three classes of net position:

NORTH MERRICK UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

Net investment in capital assets – Consists of net capital and intangible assets (cost less accumulated depreciation/amortization) reduced by outstanding balances of related debt obligations from the acquisition, construction, improvements of, and the right-to-use those assets.

Restricted – Reports net position when constraints placed on the assets or deferred outflows of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments, or imposed by law through constitutional provisions or enabling legislation.

Unrestricted – Reports the balance of net position that does not meet the definition of the above two classifications.

Fund Statements

The fund statements report fund balance classifications according to the relative strength of spending constraints placed on the purpose for which resources can be used, as follows:

Nonspendable – Consists of amounts that are inherently nonspendable in the current period either because of their form or because they must be maintained intact. Nonspendable fund balance consists of inventory, which is recorded in the school food service fund, and prepaids, which are recorded in the general fund.

Restricted – Consists of amounts that are subject to externally enforceable legal purpose restrictions imposed by creditors, grantors, contributors, or laws and regulations of other governments; or through constitutional provisions or enabling legislation. The District has established the following restricted fund balances:

Unemployment Insurance Reserve

Unemployment Insurance Reserve (GML §6-m) is used to pay the cost of reimbursement to the State Unemployment Insurance Fund for payments made to claimants where the employer has elected to use the benefit reimbursement method. The reserve may be established by Board action and is funded by budgetary appropriations and such other funds as may be legally appropriated. Within sixty days after the end of any fiscal year, excess amounts may either be transferred to another reserve or the excess applied to the appropriations of the next succeeding fiscal year's budget. If the District elects to convert to tax (contribution) basis, excess resources in the fund over the sum sufficient to pay pending claims may be transferred to any other reserve fund. The reserve is accounted for in the general fund.

Retirement Contribution Reserve

Retirement Contribution Reserve (GML §6-r) is used for the purpose of financing retirement contributions payable to the ERS and TRS. The Board, by resolution, may establish the reserve and authorize expenditures from the reserve. The reserve is funded by budgetary appropriations or taxes raised for the reserve, revenues that are not required by law to be paid into any other fund or account, transfers from reserves and other funds that may legally be appropriated. Contributions to the TRS sub-fund are limited to 2% of the total covered salaries paid during the preceding fiscal year, with the total amount funded not to exceed 10% of the total covered salaries during the preceding fiscal year. The TRS sub-fund is separately administered, but must comply with all the existing provisions of GML §6-r. These reserves are accounted for in the general fund.

Insurance Reserve

Insurance Reserve (GML §6-n) is used to pay liability, casualty, and other types of losses, except losses incurred for which the following types of insurance may be purchased: life, accident, health, annuities, fidelity and surety, credit, title residual value, and mortgage guarantee. In addition, this reserve may not be used for any purpose for which a special reserve may be established pursuant to law (for example, for unemployment compensation insurance). The reserve may be established by Board action, and funded by budgetary appropriations, or such other funds as may be legally appropriated. There is no limit on the amount that may be accumulated in the Insurance Reserve; however, the annual contribution to this reserve may not exceed the greater of \$33,000 or 5% of the budget. Settled or compromised claims up to \$25,000 may be paid from the reserve without judicial approval. The reserve is accounted for in the general fund.

Employee Benefit Accrued Liability Reserve

Employee Benefit Accrued Liability Reserve (GML §6-p) is used to reserve funds for the payment of accrued employee benefits primarily based on unused and unpaid sick leave, personal leave, holiday leave, or vacation leave due an employee upon termination of the employee's service. This reserve may be established by a majority vote of the Board, and is funded by budgetary appropriations and such other reserves and funds that may be legally appropriated. The reserve is accounted for in the general fund.

Capital Reserve

Capital Reserve (Education Law §3651) is used to pay the cost of any object or purpose for which bonds may be issued. The creation of a capital reserve fund requires authorization by a majority of the voters establishing the purpose of the reserve; the ultimate amount, its probable term, and the source of the funds. Expenditure may be made from the reserve only for a specific purpose further authorized by the voters. The form for the required legal notice for the vote on establishing and funding the reserve and the form of the proposition to be placed on the ballot are set forth in §3651 of the Education Law. These reserves are accounted for in the general fund and the capital projects fund.

Restricted for Debt

Unexpended balances of proceeds of borrowings for capital projects, interest and earnings from investing proceeds of obligations, and premiums and accrued interest on long-term borrowings are recorded in the debt service fund and held until appropriated for debt payments. These restricted amounts are recorded for in the debt service fund.

Assigned – Consists of amounts that are subject to a purpose constraint that represents an intended use established by the District's Board. The purpose of the assignment must be narrower than the purpose of the general fund, and in funds other than the general fund, assigned fund balance represents the residual, positive amount of fund balance. Assigned fund balance also includes an amount appropriated to partially fund the subsequent year's budget, as well as encumbrances not classified as restricted at the end of the fiscal year.

Unassigned – Represents the residual classification for the District's general fund and could report a surplus or deficit. In funds other than the general fund, the unassigned classification is used to report a deficit fund balance resulting from the overspending of available resources. NYS Real Property Tax Law §1318, restricts the unassigned fund balance of the general fund to an amount not greater than 4% of the subsequent year's budget.

Fund Balance Classification

Any portion of fund balance may be applied or transferred for a specific purpose by law, voter approval if required by law or by formal action of the Board if voter approval is not required. Amendments or modification to the applied or transferred fund balance must also be approved by formal action of the Board.

The Board shall delegate the authority to assign fund balance, for encumbrance purposes, to the person(s) to whom it has delegated the authority to sign purchase orders.

In circumstances where an expenditure is incurred for a purpose for which amounts are available in multiple fund balance classifications (that is restricted, assigned, or unassigned) the expenditure is to be spent first from the restricted fund balance to the extent appropriated by the budget or any Board approved budget revision, then from the assigned fund balance to the extent appropriated by the Board, and then from the unassigned fund balance.

2. FUTURE ACCOUNTING STANDARDS

The GASB Statements are issued to set GAAP for state and local governments. The following is not an all-inclusive list of GASB statements issued, but statements that the District feels may have a future impact on these financial statements. The District will evaluate the impact of these pronouncements and implement them, as applicable, if material.

Effective for the Year Ending	Statement
June 30, 2025	GASB No. 101 – <i>Compensated Absences</i>
June 30, 2025	GASB No. 102 – <i>Certain Risk Disclosures</i>
June 30, 2026	GASB No. 103 – <i>Financial Reporting Model Improvements</i>

GASB Statement No. 101 was issued to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and amending previously required disclosures.

GASB Statement No. 102 was issued to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints.

GASB Statement No. 103 was issued to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues.

3. EXPLANATION OF CERTAIN DIFFERENCES BETWEEN THE DISTRICT-WIDE STATEMENTS AND THE GOVERNMENTAL FUND STATEMENTS

Due to the differences in the measurement focus and basis of accounting used in the district-wide statements and the governmental fund statements, certain financial transactions are treated differently. The financial statements contain a full reconciliation of these items.

NORTH MERRICK UNION FREE SCHOOL DISTRICT
NOTES TO FINANCIAL STATEMENTS
(Continued)

A. Total Fund Balances of Governmental Funds vs. Net Position of Governmental Activities

Total fund balances of the District's governmental funds differ from net position of governmental activities reported in the Statement of Net Position. This difference primarily results from the long-term economic focus of the Statement of Net Position versus the current financial resources focus of the governmental funds Balance Sheet, as applied to the reporting of capital assets and deferred outflows of resources, and long-term assets and liabilities, and deferred inflows of resources.

B. Statement of Revenues, Expenditures, and Changes in Fund Balances vs. Statement of Activities

Differences between the Statement of Revenues, Expenditures, and Changes in Fund Balances and the Statement of Activities fall into any of four broad categories.

Long-Term Revenue and Expense Differences

Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the Statement of Activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a current financial resources measurement focus and the modified accrual basis, whereas the economic resource measurement focus and the accrual basis of accounting is used on the Statement of Activities, thereby affecting expenses such as compensated absences.

Capital Related Differences

Capital related differences include the difference between proceeds from the sale of capital assets reported on fund statements and the gain or loss on the sale of assets as reported on the Statement of Activities, and the difference between recording an expenditure for the acquisition or financing of capital items in the fund statements and depreciation/amortization expense on those items as recorded in the Statement of Activities.

Long-Term Debt Transaction Differences

Long-term debt transaction differences occur because the issuance of long-term debt provides current financial resources to governmental funds, but is recorded as a liability in the Statement of Net Position. In addition, both interest and principal payments are recorded as expenditures in the fund statements when due and payable, whereas interest expense is recorded in the Statement of Activities as it accrues, and principal payments are recorded as a reduction of liabilities in the Statement of Net Position.

Pension and Other Postemployment Benefits Differences

Pension differences occur as a result of recognizing pension costs using the current financial resources measurement focus and the modified accrual basis of accounting, whereby an expenditure is recognized based on the contractually required contribution as calculated by the plan, versus the economic resources measurement focus and the accrual basis of accounting, whereby an expense is recognized related to the District's proportionate share of the collective pension expense of the plan.

OPEB differences occur as a result of recognizing OPEB costs using the current financial resources measurement focus and the modified accrual basis of accounting, whereby an expenditure is recognized for health insurance premiums and OPEB costs as they mature (come due for payment), versus the economic resources measurement focus and the accrual basis of accounting, whereby an expense is recognized related to the future cost of benefits in retirement over the term of employment.

4. STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgets

The District's administration prepares a proposed budget for approval by the Board for the general fund, the only fund with a legally adopted budget.

The voters of the District approved the proposed appropriation budget for the general fund.

Appropriations are established by the adoption of the budget, are recorded at the program line item level, and constitute a limitation on expenditures (and encumbrances) that may be incurred. Appropriations authorized for the year may be increased by the amount of encumbrances carried forward from the prior year. Appropriations lapse at the end of the fiscal year unless expended or encumbered. Encumbrances will lapse if not expended in the subsequent year. Appropriations authorized for the current year can be funded by the planned use of specific reserves, and can be increased by budget amendments approved by the Board as a result of selected new revenue sources not included in the original budget (when permitted by law) and appropriation of fund balances. These supplemental appropriations may occur subject to legal restrictions, if the Board approves them because of a need that exists which was not determined at the time the budget was adopted. The District appropriated an additional \$205,575 during the year for unanticipated retirement payments funded by the employee benefit accrued liability reserve. Additionally, the District appropriated \$105,000 to fund a transfer to the capital projects fund that was funded by a voter-approved expenditure from the capital reserve.

Budgets are adopted annually on a basis consistent with GAAP.

Budgets are established and used for individual capital projects based on authorized funding. The maximum project amount authorized is based upon the estimated cost of the project. These budgets do not lapse and are carried over to subsequent fiscal years until the completion of the projects.

B. Encumbrances

Encumbrance accounting is used for budget control and monitoring purposes and is reported as a part of the governmental funds. Under this method, purchase orders, contracts, and other commitments for the expenditure of monies are recorded to reserve applicable appropriations. Outstanding encumbrances as of year end are presented as part of assigned fund balance, unless classified as restricted, and do not represent expenditures or liabilities. These commitments will be honored in the subsequent period. Related expenditures are recognized at that time, as the liability is incurred or the commitment is paid.

C. Capital Projects Fund Deficit

The capital projects fund has an unassigned fund balance deficit of \$381,541. This will be funded when the District receives grant revenue from the state through the Smart Schools Bond Act and the Dormitory Authority of the State of New York.

5. DEPOSITS WITH FINANCIAL INSTITUTIONS AND INVESTMENTS

The District's investment policies are governed by state statutes and District policy. Resources must be deposited in Federal Deposit Insurance Corporation (FDIC) insured commercial banks or trust companies located within the state. Permissible investments include obligations of the U.S. Treasury and U.S. Agencies, repurchase agreements, and obligations of New York State or its localities. Collateral is required for demand

NORTH MERRICK UNION FREE SCHOOL DISTRICT

NOTES TO FINANCIAL STATEMENTS

(Continued)

and time deposits, and certificates of deposit not covered by FDIC insurance. Obligations that may be pledged as collateral are obligations of the United States and its Agencies and obligations of New York State and its municipalities. Investments are stated at fair value.

Custodial credit risk is the risk that in the event of a bank failure, the District may be unable to recover deposits or collateral securities that are in possession of an outside agency. GASB directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are as follows:

- A. Uncollateralized,
- B. Collateralized by securities held by the pledging financial institution, or
- C. Collateralized by securities held by the pledging financial institution's trust department or agent but not in the District's name.

The District's aggregate bank balances were covered by FDIC insurance or fully collateralized by letters of credit pledged on the District's behalf at year end.

6. PARTICIPATION IN BOCES

During the year ended June 30, 2024, the District was billed \$2,065,742 for BOCES administrative and program costs. The District's share of BOCES aid amounted to \$872,582. Financial statements for the BOCES are available from the BOCES administrative offices at 71 Clinton Road, P.O. Box 9195, Garden City, New York 11530-9195.

7. DUE FROM STATE AND FEDERAL

Instruction	1,173,148
Food service program	<u>2,070</u>
Total depreciation/amortization expense	<u>\$ 1,216,325</u>

B. Lease Assets

The District has entered into various lease arrangements that are subject to GASB Statement No. 87, *Leases*. The terms of these leases vary between 4 and 5 years with discount rates ranging from 0.08% to 6.50%. These leases are included in leased equipment and fixtures in the previous table. The District has not provided any residual value guarantees related to these leased capital assets.

C. Impairment Losses

The District evaluates prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. The District's policy is to record an impairment loss in the period when the District determines that the carrying amount of the asset will not be recoverable. At June 30, 2024, the District has not recorded any such impairment losses.

10. INTERFUND TRANSACTIONS

Interfund balances and activities at June 30, 2024, were as follows:

	Interfund			
	Receivable	Payable	Transfers In	Transfers Out
General Fund	\$ 2,536,840	\$ 556,807	\$ 22,302	\$ 397,860
Special Aid Fund	33,609	1,327,242	57,860	
School Food Service Fund	9,908			
Debt Service Fund	1,170			
Capital Projects Fund		<u>697,478</u>	<u>340,000</u>	<u>22,302</u>
	<u>\$ 2,581,527</u>	<u>\$ 2,581,527</u>	<u>\$ 420,162</u>	<u>\$ 420,162</u>

The District typically transfers from the general fund to the special aid fund for the District's share of the costs of the summer program for students with disabilities. The transfer to the capital projects fund was for voter-approved transfers to provide funding for capital improvement projects. The transfer from the capital projects fund to the general fund represents the return of unexpended amounts on capital projects originally funded by general fund appropriations.

11. SHORT-TERM DEBT

Short-term debt activity for the year is summarized below:

	<u>Maturity</u>	<u>Stated Interest Rate</u>	<u>Balance June 30, 2023</u>	<u>Issued</u>	<u>Redeemed</u>	<u>Balance June 30, 2024</u>
TAN	5/29/2024	4.50%	<u>\$ -</u>	<u>\$ 2,000,000</u>	<u>\$ (2,000,000)</u>	<u>\$ -</u>

The TAN was issued to provide cash flow for the District until the District receives the real property taxes from the Town. Interest on short-term debt for the year was \$63,750. The District received a premium of \$4,380, which is included in miscellaneous revenue in the general fund. The effective interest rate was 4.1908%.

12. LONG-TERM LIABILITIES

A. Changes

Long-term liability balances and activity, excluding pension liabilities, for the year are summarized below:

	<u>Balance June 30, 2023</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance June 30, 2024</u>	<u>Amounts Due Within One Year</u>
Long-term debt:					
Bonds payable	\$ 10,725,000	\$	\$ (860,000)	\$ 9,865,000	\$ 890,000

13. REMEDIES UPON DEFAULT IN BOND PAYMENTS

The bonds are general obligation contracts between the District and the owners for which the faith and credit of the District are pledged and remedies for enforcement of payment are not expressly included in the District's contract with such owners. Upon default in the payment of principal of or interest on the bonds at the suit of the owner, a court has the power, in proper and appropriate proceedings, to render judgment against the District. A court also has the power, in proper and appropriate proceedings, to order payment of a judgment

on such bonds from funds lawfully available therefor or, in the absence thereof, to order the District to take all lawful action to obtain the same, including the raising of the required amount in the next annual tax levy.

Section 99-b of the State Finance Law provides for a covenant between New York State and the purchasers and the holders and owners from time to time of the bonds issued by school districts in New York State. In the event a holder or owner of any bond issued by a school district for school purposes shall file with the Office of the New York State Comptroller (OSC), a verified statement describing such bond and alleging default in the payment thereof or the interest thereon or both. The OSC shall thereafter deduct and withhold from the next succeeding allotment, apportionment or payment of such state aid or assistance due to such school district such amount thereof as may be required to pay the principal of and interest on such bonds of such school district then in default. In the event such state aid or assistance initially so withheld shall be insufficient to pay said amounts in full, the OSC shall similarly deduct and withhold from each succeeding allotment, apportionment or payment of such state aid or assistance due such school district such amount or amounts thereof as may be required to cure such default.

14. PENSION PLANS – NEW YORK STATE

A. General Information

The District participates in the New York State Teachers' Retirement System (TRS) and the New York State and Local Employees' Retirement System (ERS). These are cost-sharing multiple employer, defined benefit, public employee retirement systems. The systems provide retirement, disability, withdrawal, and death benefits to plan members and beneficiaries related to years of service and final average salary.

B. Provisions and Administration

Teachers' Retirement System

The TRS is administered by the New York State Teachers' Retirement Board. The TRS provides benefits to plan members and beneficiaries as authorized by the Education Law and the New York State Retirement and Social Security Law (NYSRSSL). Membership is mandatory and automatic for all full-time teachers, teaching assistants, guidance counselors, and administrators employed in New York Public Schools and BOCES who elected to participate in the TRS. Once a public employer elects to participate in the TRS, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. Additional information regarding the TRS may be found on the TRS website at www.nystrs.org or obtained by writing to the New York State Teachers' Retirement System, 10 Corporate Woods Drive, Albany, NY 12211-2395.

Employees' Retirement System

Obligations of employers and employees to contribute and benefits to employees are governed by the NYSRSSL. The net position of the ERS is held in the New York State Common Retirement Fund (the Fund), which was established to hold all net assets and record changes in plan net position allocated to the ERS. As set forth in the NYSRSSL, the Comptroller of the State of New York (Comptroller) serves as the trustee of the Fund and is the administrative head of the ERS. Once a public employer elects to participate in the ERS, the election is irrevocable. The New York State Constitution provides that pension membership is a contractual relationship and plan benefits cannot be diminished or impaired. Benefits can be changed for future members only by enactment of a State statute. The District also participates in the Public Employees' Group Life Insurance Plan (GLIP), which provides death benefits in the form of life insurance. The ERS is included in the State's financial report as a pension trust fund. That report, including information with

C. Funding Policies

Plan members who joined the systems before July 27, 1976, are not required to make contributions. Those joining on or after July 27, 1976, and before January 1, 2010, with less than ten years of credited services are required to contribute 3% of their salary. Those joining on or after January 1, 2010 and before April 1, 2012, are required to contribute 3% of their salary to ERS or 3.5% of their salary to TRS throughout active membership. Those joining on or after April 1, 2012, are required to contribute between 3% and 6% dependent on their salary throughout active membership. Employers are required to contribute at an actuarially determined rate based on covered salaries paid. For the TRS, the employers' contribution rate is established annually by the New York State Teachers' Retirement Board for the TRS' fiscal year ended June 30th, and employer and employee contributions are deducted from state aid in the subsequent months of September, October, and November, with the balance to be paid by the District, if necessary. For the ERS, the Comptroller annually certifies the actuarially determined rates expressly used in computing the employers' contributions for the ERS' fiscal year ended March 31st, and employer contributions are either paid by the prior December 15th less a 1% discount or by the prior February 1st. The District paid 100% of the required contributions as billed by the TRS and ERS for the current year. The District's contribution rate was 10.29% of covered payroll for the TRS' fiscal year ended June 30, 2023. The District's average contribution rate was 12.12% of covered payroll for the ERS' fiscal year ended March 31, 2024.

The District's share of the required contributions, based on covered payroll for the District's year ended June 30, 2024, was \$1,581,639 for TRS at the contribution rate of 9.76% and \$512,754 for ERS at an average contribution rate of 10.79%.

D. Pension Asset/(Liability), Pension Expense, Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2024, the District reported the following asset/(liability) for its proportionate share of the net pension asset/(liability) for each of the systems. The net pension asset/(liability) was measured as of June 30, 2023, for TRS and March 31, 2024 for ERS. The total pension liability used to calculate the net pension asset/(liability) was determined by an actuarial valuation. The District's proportion of the net pension asset/(liability) was based on a projection of the District's long-term share of contributions to the systems relative to the projected contributions of all participating members, actuarially determined. This information was provided by the TRS and the ERS systems in reports provided to the District.

District contributions, subsequent to the measurement date, will be recognized as a reduction of the net pension liability in the year ending June 30, 2025. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ending June 30,	TRS	ERS
2025	\$ 412,610	\$ (206,871)
2026	(469,127)	351,104

Actuarial Assumptions

The total pension liability as of the measurement date was determined by using an actuarial valuation as noted in the table below, with update procedures used to roll forward the total pension liability to the measurement date. The actuarial valuations used the following actuarial assumptions:

	TRS	ERS
Measurement date	June 30, 2023	March 31, 2024
Actuarial valuation date	June 30, 2022	April 1, 2023
Inflation	2.40%	2.90%
Salary increases	1.95-5.18%	4.40%
Investment rate of return (net of investment expense, including inflation)	6.95%	5.90%
Cost of living adjustments	1.30%	1.50%

For TRS, annuitant and active mortality rates are based on plan member experience, with adjustments for mortality improvements based on Society of Actuaries Scale MP-2021 for June 30, 2023 and June 30, 2022, applied on a generational basis. For ERS, annuitant mortality rates are based on April 1, 2015 – March 31, 2020 system experience with adjustments for mortality improvements based on Society of Actuaries Scale MP-2021. The previous actuarial valuation as of April 1, 2020 used the same assumptions for the measurement of total pension liability.

For TRS, assumptions were computed by the TRS' Office of the Actuary and adopted by the TRS' Retirement Board in October 2021. The assumptions are based upon recent TRS member experience. Detailed assumption information may be found in the TRS' annual Actuarial Valuation Report. For ERS, the actuarial assumptions were based on the results of an actuarial experience study for the period April 1, 2015 – March 31, 2020.

For TRS, the long-term expected rate of return on pension plan investments was determined in accordance with Actuarial Standard of Practice (ASOP) No. 27, *Selection of Economic Assumptions for Measuring Pension Obligations* and generally accepted accounting principles. ASOP No. 27 provides guidance on the selection of an appropriate assumed investment rate of return. Consideration was given to expected future real rates of return (expected returns, net of pension plan investment expense and inflation) for each major asset class, as well as historical investment data and plan performance.

For ERS, the long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected return, net of investment expenses and inflation) are developed for each major asset class. These ranges are combined to produce long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Discount Rate

The discount rate used to measure the total pension liability was 6.95% for TRS and 5.90% for ERS. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based upon the assumptions, the systems' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Asset/(Liability) to the Discount Rate Assumption

The following presents the District's proportionate share of the net pension asset/(liability) calculated using the discount rate of 6.95% for TRS and 5.90% for ERS, as well as what the District's proportionate share of the net pension asset/(liability) would be if it were calculated using a discount rate that is 1 percentage point lower (5.95% for TRS and 4.90% for ERS) or 1 percentage point higher (7.95% for TRS and 6.90% for ERS) than the current rate:

Payables to the Pension Plan

For TRS, employer and employee contributions for the fiscal year ended June 30, 2024, are paid to the system in September, October, and November 2024 through a state aid intercept. Accrued retirement contributions as of June 30, 2024, represent employer and employee contributions for the fiscal year ended June 30, 2024, based on paid TRS covered wages multiplied by the employer's contribution rate and employee contributions for the fiscal year as reported to the TRS. Accrued retirement contributions as of June 30, 2024 amounted to \$1,581,639 of employer contributions and \$108,742 of employee contributions, which were included in due to teachers' retirement system, net of a credit of \$2,788.

For ERS, employer contributions are paid annually based on the system's fiscal year, which ends on March 31st. Accrued retirement contributions as of June 30, 2024, represent the projected employer contribution for the period of April 1, 2024 through June 30, 2024 based on paid ERS covered wages multiplied by the employer's contribution rate, by tier. Accrued retirement contributions as of June 30, 2024 amounted to \$146,737 of employer contributions. Employee contributions are remitted monthly.

15. PENSION PLANS – OTHER

The District has adopted a 403(b) plan covering all eligible employees. Employees may defer up to 100% of their compensation subject to Internal Revenue Code elective deferral limitations. The District may also make non-elective contributions of certain compensated absence payments based on collectively bargained agreements. Contributions made by the District and the employees for the year ended June 30, 2024, totaled \$182,641 and \$981,187, respectively.

16. POSTEMPLOYMENT HEALTHCARE BENEFITS

A. General Information about the OPEB Plan

Plan Description – The District provides OPEB for eligible retired employees of the District. The benefits provided to employees upon retirement are based on provisions in the various contracts that the District has in place with different classifications of employees. The plan is a single-employer defined benefit OPEB plan administered through the New York State Health Insurance Program – Empire Plan. No assets are accumulated in a trust that meets the criteria in paragraph 4 of GASB Statement No. 75.

Benefits Provided – The District provides healthcare benefits and Medicare Part B coverage for eligible retirees. The benefit terms are dependent on which contract each employee falls under. The specifics of each contract are on file at the District offices and are available upon request.

Employees Covered by Benefit Terms – At July 1, 2022, the following employees were covered by the benefit terms:

Inactive employees, spouses, or beneficiaries currently receiving benefits	143
Inactive employees entitled to but not yet receiving benefits	-
Active employees	<u>227</u>
	<u>370</u>

B. Total OPEB Liability

The District's total OPEB liability of \$47,386,273 was measured as of June 30, 2024, and was determined by an actuarial valuation as of July 1, 2022. Update procedures were used to roll forward the total OPEB liability to the measurement date.

Actuarial Assumptions and Other Inputs – The total OPEB liability, as of the measurement date, was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

NORTH MERRICK UNION FREE SCHOOL DISTRICT

Inflation	2.40%	
Discount rate	3.93%	
Healthcare cost trend rates	6.80%	decreasing to an ultimate rate of 3.80% over 51 years
Retirees' share of benefit-related costs	10% - 65%	of projected health insurance premiums for retirees

The discount rate was based on the Bond Buyer General Obligation 20-Bond Municipal Index.

Mortality rates were based on PubT-2010 Headcount-Weighted Mortality Table for Teaching Positions and PubG-2010 Headcount-Weighted Mortality Table for Non-Teaching Positions, both generationally projected using the MP-2021 Ultimate Scale, with employee rates before commencement and healthy annuitant rates after benefit commencement. The assumption includes a margin for future improvements in longevity.

The plan has not had a formal actuarial study performed.

17. DEFERRED INFLOWS OF RESOURCES

In the governmental fund financial statement as deferred inflows of resources, at June 30, 2024, is the amount due from New York State for improvements to educational technology and infrastructure to improve learning and opportunities for students throughout the state (Smart Schools Bond Act) and security improvements, window replacements, and OMR ceiling improvements funded through the Dormitory Authority of the State of New York (DASNY). Unavailable revenues, in the capital projects fund at June 30, 2024, total \$422,856.

18. RISK MANAGEMENT

A. General Information

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; errors and omissions; and natural disasters. These risks are covered by a commercial insurance purchased from independent third parties. There have been no significant reductions in insurance coverage as compared to the prior year, and settled claims from these risks have not exceeded commercial insurance coverage for the past three years.

B. Public Entity Risk Pool

The District participates in the New York Schools Insurance Reciprocal (NYSIR), a non-risk retained public entity risk pool, for its property and liability insurance coverage. The pool is operated for the benefit of individual governmental units located within the pool's geographic area, and is considered a self-sustaining risk pool that will provide coverage for its members. The pool obtains independent coverage for insured events in excess of certain defined limits, and the District has essentially transferred all related risk to the pool.

The District participates in the Nassau County Schools Cooperative Workers Compensation Self-Insured Plan (the Workers' Compensation Plan), a risk-sharing pool, to insure workers' compensation claims. This is a public entity risk pool created under Article 5 of the Workers' Compensation Law to administer claims, finance liability, and manage risks related to workers' compensation claims. The District pays an annual assessment determined by the Plan's Board of Trustees. In the event that the Plan has insufficient funds to meet its obligations, the Plan's Board of Trustees may issue supplemental assessments to the Plan's members. Plan members who withdraw or are terminated from the Plan's membership will assume responsibilities for all open and unpaid claims associated with them. As of June 30, 2024, the discounted Workers' Compensation Plan's total liability for unbilled and open claims was \$21,208,123 at a 2% discount rate. The Workers' Compensation Plan has assets of \$29,737,411 to pay these liabilities. At June 30, 2024, the District's open claims, discounted at 2% are \$538,686.

19. RESTRICTED FUND BALANCE – APPROPRIATED RESERVES

The District expects to appropriate the following amounts from reserves, which are reported in the June 30, 2024 restricted fund balances, to fund the budget and reduce taxes for the year ending June 30, 2025:

Unemployment Insurance	\$ 2,000
Retirement Contributions	
Teachers' retirement system	200,000

A. Encumbrances

All encumbrances are classified as either restricted or assigned fund balance. At June 30, 2024, the District encumbered the following significant amounts:

Assigned: Unappropriated Fund Balance:

General Fund	
General Support	\$ 33,455
Instruction	<u>1,335</u>
	<u>\$ 34,790</u>

B. Grants

The District has received grants, which are subject to audit by agencies of the state and federal governments. Such audits may result in disallowances and a request for a return of funds. Based on prior audits, the District's administration believes disallowances, if any, would be immaterial.

C. Litigation

The District is involved in lawsuits arising from the normal conduct of its affairs. The District believes that the outcome of any matters will not have a material effect on these financial statements.

23. SUBSEQUENT EVENTS

The District has evaluated subsequent events through the date of the auditor's report, which is the date the financial statements were available to be issued. No significant events were identified that would require adjustment of or disclosure in the financial statements, except for the following:

Issuance of TANs

On September 19, 2024, the District issued tax anticipation notes in the amount of \$2,000,000, which are due May 28, 2025, and bear interest at a stated interest rate of 3.750%. The District received premiums of \$3,780 with the borrowing to yield an effective interest rate of 3.4767%.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT
AUDITING STANDARDS*

To the Board of Education
North Merrick Union Free School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the fiduciary fund of the North Merrick Union Free School District (the "District"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 15, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL
PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE

To the Board of Education
North Merrick Union Free School District

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the North Merrick Union Free School District's (the "District") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2024. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the District's federal programs.

WHITE PLAINS: 50 MAIN STREET, SUITE 1000 • WHITE PLAINS, NY 10606
PHONE: (631) 234-4444 • FAX: (631) 234-4234

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over

a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE FISCAL YEAR ENDED JUNE 30, 2024**

1. BASIS OF PRESENTATION:

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of North Merrick Union Free School District under programs of the federal government for the fiscal year ended June 30, 2024. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of North Merrick Union Free School District, it is not intended to and does not present the financial position, changes in net position or cash flows of North Merrick Union Free School District.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Federal awards that are included in the Schedule may be received directly from federal agencies, as well as federal awards that are passed through from other government agencies. Pass-through entity identifying numbers are presented where available.

Expenditures reported on the Schedule for the COVID-19 – Disaster Grants – Public Assistance (Presidentially Declared Disasters) include \$59,228 incurred in the prior fiscal year and approved as allowable in the fiscal year ended June 30, 2024.

Indirect costs may be included in the reported expenditures, to the extent that they are included in the federal financial reports used as the source for the data presented. Matching costs (North Merrick Union Free School District's share of certain program costs) are not included in the reported expenditures.

3. INDIRECT COST RATE:

North Merrick Union Free School District has elected not to use the 10-percent de minimis indirect cost rate allowed under the Uniform Guidance.

4. SUBRECIPIENTS:

No amounts were provided to subrecipients.

5. OTHER DISCLOSURES:

No insurance is carried specifically to cover equipment purchased with federal funds. Any equipment purchased with federal funds is covered by North Merrick Union Free School District's casualty insurance policies.

There were no loans or loan guarantees outstanding at year end.
