

Friday, November 15th (Tentative) FROM 5:00 - 10:00 PM

CKB Agile Strategy Lab, NJIT Campus

Join us for an exciting night of hands-on engineering fun with NJIT students! This event is designed for K-12 students, offering an opportunity to discover the world of STEM through interactive activities such as:

- Building paper bridges and testing their strength
- · Creating borax snowflakes with pipe cleaners
- Exploring robotics and coding through engaging challenges
- · Participating in science experiments that ignite curiosity

Come and experience science, technology, engineering, and math in a lively and

interactive environment. We can't wait to see you there!

Please use QR code to RSVP by October 31st!
