

# Using Amazon to Purchase HSA and FSA Eligible Products

An easy way to spend the money from your health savings account (HSA) or flexible spending account (FSA) is to use [Amazon's new FSA | HSA Store](#).

## Using the store

Amazon set up their store so you can shop by category, price, best sellers, and more. It's a great way to find what you're looking for as well as discover items that you may not have been aware are actually eligible for purchase from your spending account. There is also a page for Frequently Asked Questions (FAQs) that could answer questions you may have.

All of the items shown in the FSA | HSA Store are eligible for your account, so you can shop without worrying about whether you're making an eligible purchase.

## Using your debit card

You can link your Blue Cross and Blue Shield of Vermont debit card to your Amazon account so you can always use it to purchase eligible items. This way, the funds will come straight from your HSA or FSA, meaning you won't have to go through the reimbursement process that you'd use if you used a normal checking account debit card or credit card. Just follow Amazon's instructions for adding your card.

However, you do not have to use your Blue Cross and Blue Shield of Vermont debit card to make your purchase. You can use another debit card or credit card and use [our reimbursement process](#) to use your HSA or FSA.
