### **SCHOOLWIDE TITLE INFO and Family Commitment form**

KMS is recognized as a “Schoolwide Title” school. The Title program provides federal funds that support schools with high populations of low-income families. One important philosophy of support programs like Title is diligent communication and involvement between all those who play a key role in a student’s learning at school. The Title Family Commitment form is one method that KMS has chosen to use to promote these important components of student learning. Reading and discussing this with your student is a good way to act upon your commitment to your student’s education at KMS. If you have a student enrolled in a Reading Enrichment class with Mrs. Clark or Mr. Sanders, please read and fill out the form digitally by clicking on the link below.

If you need more information regarding helping meet the reading needs of your KMS student, please contact Jerome Sanders or Rose Ann Clark.
