

SecurlyHome

Monitor your student's
web browsing habits to
reinforce positive digital
citizenship behavior

By the end of this training, you will be able to:

- Download the app and log into SecurlyHome
- Understand the features of the app (Activity Feed, Flagged by School, Rules, and Offline Schedules)
- Learn to manage and filter your student's online activity, including pausing activity and setting offline times

How do I get the SecurlyHome app?

- Download the app from your app store. Tap the Login button and choose the “Get instant access” option after entering the email registered with your school.
- Check your email for an email titled “Your Securly login link”. Click on it to open the app.
- You’re now logged in and ready to go!
