

Family Math Engagement Grab & Go: Naming Numbers

This activity would be
best used by:

Schools Families

Materials:

- objects to count, examples include legos, pennies, marbles, small toys, etc.

Steps:

1. Name a number between 1 and 10.
2. Ask the child to select that number of objects.

Lagniappe:

- Once students can create groups of all numbers between 1 and 10, extend to numbers up to 20.
- Allow students to arrange groups in any manner. As they become more successful, you can group the objects and begin counting by 2, 3, 4, or 5 objects.
