

Family Math Engagement Grab & Go: Understanding Fractions of a Ruler

This activity would be
best used by:

Schools Families

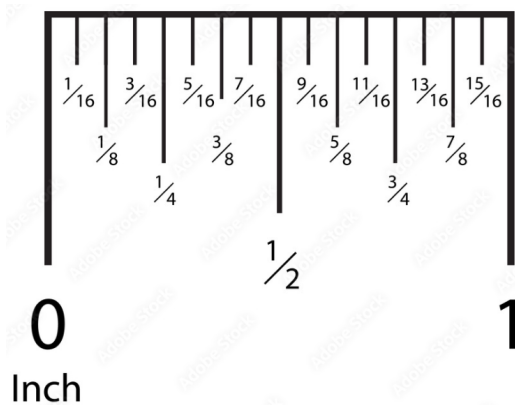

Materials:

- Paper and pencil
- Ruler

Steps:

1. Using paper and a pencil, draw a number line.
2. Draw and label fractions on a number line using the ruler.
3. Start with 1 inch, and progress larger.

Example:

4. Discuss the meaning of the fractions.

Lagniappe:

- Practice seeing fractions as part of a whole of a number line using a ruler
- Use after your child has mastered “Upper Elementary Grab & Go: Understanding Fractions of a Group.”
- Can be used as an application of “Upper Elementary Grab & Go: Measurement.”
