Good afternoon,

An emergency situation recently took place at Catasauqua High School. At approximately 12:15 PM, a gas odor was detected at CHS. Students and staff evacuated the building and the District called 911 and the gas company. The source of the gas leak was soon found and remedied. Students re-entered the building at approximately 1:15 PM. I apologize that this emergency situation occurred at a very inconvenient time, in the middle of student lunches. Consequently, some students ate their lunches later than regularly scheduled. Thank you for your cooperation and understanding during this emergency situation.

Sincerely,

Dr. Christina Lutz-Doemling
Superintendent

Dr. Christina K. Lutz-Doemling
Superintendent of Schools
Catasauqua Area School District
