

GET TO KNOW ZEARN

Zearn Math is a nonprofit math learning platform that your child will use to complete online math lessons. With Zearn, students have more ways to engage with grade-level math, always with the personalized support they need.

Throughout their math learning on Zearn, your child will:

Explore the important math ideas of their grade

Make sense of math with pictures and interactive models

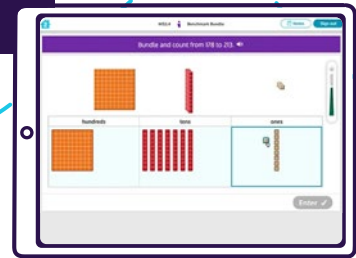

Solve math problems in lots of different activities

Students learn grade-level math concepts with their teacher or tutor.

They log in to Zearn and explore those same concepts with on-screen teachers and interactive problem-solving.

If students get stuck, they receive built-in math help, just in time.

Research shows that students who complete Zearn Math digital lessons each week significantly increase their math scores.

ZEARN IS THE NONPROFIT EDUCATIONAL ORGANIZATION BEHIND ZEARN MATH.

Everything we do is driven by the belief that every kid is a math kid.

WHAT IS ZEARN?

WHAT ARE ZEARN DIGITAL LESSONS?

Your child will use Zearn Math's digital platform to complete online math lessons that are engaging and supportive. In each digital lesson, students will:

Warm up

Opening activities give students a chance to flex their math skills and get ready to learn.

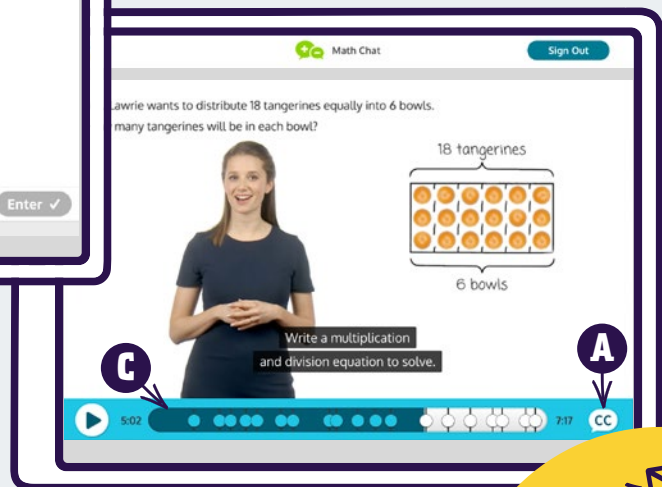

Learn something new

Students explore math concepts with real teachers, solve math problems online and in their notes, and receive real-time feedback.

Show what you know

Finally, students demonstrate what they've learned in the Tower of Power. If students get stuck, Zearn breaks down the problem step-by-step and gives them a chance to try again.

SUPPORTING ALL LEARNERS

Zearn Math digital lessons have built-in features and supports to ensure all students can engage and succeed in math learning. These features include:

A

Closed captioning
in every lesson

B

Audio supports
like text-to-speech
for every problem

C

Ability to rewind
to rewatch any part
of a digital lesson

D

Zoomability to
view text and
images closer up

E

**On-screen
keypad**

learners.

TIPS TO SUPPORT YOUR CHILD'S MATH LEARNING

Our school is using Zearn Math to help your child make the most of their math learning this year. Here are some ideas for how you can play a part in motivating and celebrating your child in math!

MISTAKES ARE WELCOME HERE

Making mistakes is how we learn

Encourage your child to persevere in math by reminding them that we learn by trying things we can't do yet! [Check out this collection of downloadable reminders](#) all around the theme that mistakes are magic.

Mistakes are magic

Celebrate progress

Kids earn "badges" for each lesson they complete on Zearn. Ask your child how many badges they've completed this week!

All kids are math kids

There are only two things you need to be a math person: 1) Be a person. 2) Do math. Remind your child that math is for everyone with this [collection of inspiring role models and mathematicians](#).

We learn by **TRYING** to do things we can't do **yet.**

"Mathematics is a language like music. To learn it systematically, it is necessary to master small pieces and gradually add another piece and then another."
— SUN-YUNG ALICE CHANG

Because Zearn is a nonprofit, access to Zearn Math digital lessons and teaching materials is **completely free.**

Sign up any time at zearn.org to try a lesson!

Zearn is the 501(c)(3) nonprofit educational organization behind Zearn Math, the top-rated math learning platform used by 1 in 4 elementary-school students and by more than 1 million middle-school students nationwide. Everything we do is driven by the belief that every kid is a math kid.
