Preventive Screenings

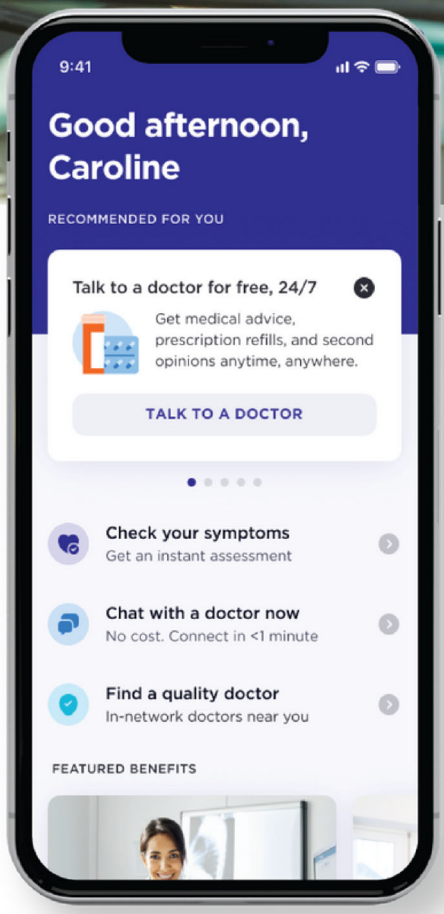

With preventive care, you and your family could catch signs of health issues before they develop or become serious. Don't Delay!

What qualifies as a preventive care screening?

As long as it is within your provider network you do not have to pay your copayment, coinsurance, or even meet your deductible!*

- **Well woman/man exams**
- **Well baby/child visits**
- **Physical exam with preventive labs each year**
- **Vaccinations (flu, covid, shingles, etc.)**
- **Cancer screenings such as mammography (women 40+) & colonoscopy (adults 45+)**

For a complete list of preventive services visit the Blue Shield website.

Find an in-network provider or chat with a health guide when you activate your account or log in at www.transcarent.com

***What's NOT considered a preventive care visit?**

If you discuss new medical concerns or a current illness, the entire visit may be considered a medical treatment visit and would not be covered as preventive care. You will be responsible to pay the plan's physician office copayment or coinsurance.
