Superintendent's Message to the Graduating Class of 2008

Among the unalienable rights identified in the Declaration of Independence - "the pursuit of happiness" - is the most open-ended and elusive. Government cannot guarantee it and contemporary society creates limitless desires that obstruct its attainment. High School diplomas and advanced degrees cannot confer it. Without it, even the greatest accomplishments will never bring you fulfillment. Therefore, no education at any level is complete until you have committed yourself to its legitimate pursuit. As the great Roman Emperor and Philosopher Marcus Aurelius wrote, "Very little is needed to make a happy life. It is all within yourself...in your own way of thinking..." Still, despite the Aurelian revelation, too many otherwise worthy individuals never achieve "real" happiness.

Do not confuse happiness with the acquisition of material possessions or creature comforts. The popular witticism, "The person who has the most toys when he/she dies wins," is a falsehood. You will be confronted with temptations and objects that seem big and irresistible. One minute they are vital and the next they are surpassed by something else. The absurdity of materialism and self-indulgence is obvious but remarkably compelling and addictive. True happiness in life is more dependent upon having interests rather than upon having possessions and comforts. The happiest people don't always have the best of everything; instead they make the best of everything. You do not achieve happiness at the end of the road, but rather along the way. At the end of every day, take a few quiet moments to reflect and recall a high point. Dare to dream; keep your hopes alive; and incorporate humor and laughter. Don't let little matters keep you down. The human mind can endure a heavy load of reality, but very little gloom and doom. Don't starve your spirit by concentrating solely on the wants of your body. Strike a healthy balance. The reward will be substantial. Author Robert Louis Stevenson wrote, "The habit of being happy enables one to be freed, or largely freed from the domination of outward conditions."

As you graduate, please accept my congratulations for your achievement and my best wishes for a life of true happiness. Remember, the world always looks brighter from behind a smile.

Roy Belson, Superintendent

Dr. Krueger

The 2007-2008 school year has been an exceptional year for Medford High School. This is in part attributable to the dedication of a talented faculty, the hard work of parents, and the commitment of a community that cares about children. However, to have a great school year and a great school, one needs to have an outstanding student body, and that can't happen unless the student body is led by an outstanding senior class. Although there are many ways to describe this year's graduating class, I think it is appropriate to depict them as a group of young people who have personified the mission of this school in a variety of ways.

For instance, in the words of the Medford High School mission statement, members of this year's graduating class have worked hard to reach their potential as learners. The Class of 2008 holds the record for the best MCAS scores ever, with more students earning scores in the highest proficiency levels than any other class in MHS history. In addition, the Class of 2008 has matched the record-breaking Advanced Placement performance of the Class of 2006. And the Class of 2008 has earned a range of college acceptances as wide as any other Medford High graduating class in the school's history.

Of course, members of this year's graduating class have embodied other elements in our mission statement, elements like being actively involved in the life of the school. As an illustration, the participation of our seniors has been, in part, responsible for the growth of the drama program and for the new athletic teams like girls' hockey and crew. Also, throughout the year, the athletic prowess of our seniors led their teams to round after round of tournament play in a variety of sports.

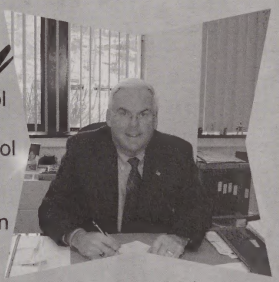

Not only have these students been actively involved in the life of the school, but they have showed responsibility and good citizenship, characteristics that are also inextricably linked to our schools mission. One dramatic example of this involvement is the leadership of our seniors in the establishment of Ambassadors to Change and in the development of so many exciting student government activities. Furthermore, this year's graduates have been the best fans that I've observed in my ten years at MHS, with the loudest and most positive cheering sections of any school with whom we've competed. And this year's graduates have shown impeccable conduct in the classrooms and corridors of MHS and have been excellent role models for our underclassmen throughout the building.

Of all the qualities that comprise the mission of our school, perhaps one of the most important is promoting respect for diversity, and no class has ever done more to achieve that goal than the Class of 2008. Members of this year's senior class have not only exhibited exceptional character in personally following the school rules that are aimed at fostering tolerance and respect, but, even more importantly, have also showed courage and leadership in making sure that others around them hold to the same high standards.

For all of these reasons and many more, I extend my most heartfelt congratulations and thanks to the Class of 2008!

Paul H. Krueger, Ed. D.
Headmaster

Mr. Mahoney

It is with enthusiasm and pride that I offer my congratulations to the Medford High School Class of 2008. May your four years of hard work and dedication open the doors to your lifetime of pursuits. The educational and social experiences realized during your high school years will help each of you to interpret society and all its complexities.

Society offers each of you an opportunity to enter on a path rich with meaning and purpose. The goal is yours to set; the striving is yours to endure; the reward will be yours in achievement.

Each of you may experience many detours before realizing a lasting path to happiness and success. Always keep in mind that life, in general, is comprised of boundless experiences, which may not always be to your liking. It is, therefore, incumbent upon each of you to use your attained wealth of knowledge to help you to find the path that will bring you fulfillment.

This class has witnessed the wars in the Middle East, the dismantling of the Israeli settlements, the attacks upon the United States on September 11, 2001, terrorism in London, and the devastation in the Gulf Coast region of our country caused by hurricane Katrina. My charge to each of you is to never become discouraged in the face of adversity, but to maintain your composure and draw on your reservoir of experiences in reaching acceptable outcomes. In doing so, you will have to call upon your creative abilities to help you filter through ambiguous situations.

As each of you pursues a lifestyle consistent with your abilities and your desires, I wish all of you boundless health and success throughout all your personal endeavors.

I would like to leave the Class of 2008 with a thought from the legendary coach Vince Lombardi..."The difference between a successful person and others is not a lack of strength, not a lack of knowledge, but rather in a lack of will..."

The very best to each and every one of you.

William C. Mahoney Ph.D., Principal/Director - Medford Vocational Technical High School

DEDICATIONS

To You, We Owe Everything...

Mrs. Bowler

My how time flies! I remember meeting all of you for the first time... trying to remember your names and faces. You seemed so young and nervous starting high school. Now four years later, I'm still trying to remember your names and faces...but you're not as nervous! You've found your niche and seem so much more comfortable with yourselves. It's called growing up... and you have. It has been my pleasure getting to know you. I consider myself lucky to have been a part of your years at Medford High, and to have been able to watch you grow as individuals, each finding your own uniqueness.

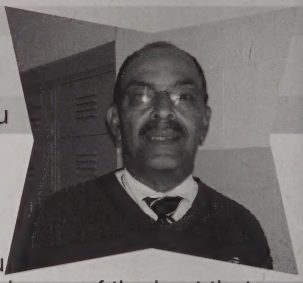

When you graduate... remember all the memories of high school...the good and the bad. It ws a learning experience. Take what you need. Treasure the time that you spent here. As you get older, you'll hopefully realize that it was one of the best times of your life.

My wish for all of you is to be happy with yourselves and all that you do. Think before you act and that will help you make good decisions. Be the best that you can be and accept who you are. Take time to reflect and realize what's important to you and above all...enjoy each and every day!

Congratulations and the best of luck to you...the Class of 2008.

Love, Lisa Bowler

Mr. Mascoll

It is with a great sense of pride that I am able to offer the Class of 2008 congratulations upon graduation from Medford High School. You have been recipients of many life long experiences while you were here. You have accepted my challenge to you that I gave to you four years ago: to be a success, to respect and to graduate Medford High School.

When you first entered Medford High School, I said to you that you must have respect for each other and to aim for perfection. This class is one of the best that has ever entered Medford High School. Your growth has been outstanding.

When you look back on your time in high school, you will have many great memories: memories to cherish forever. Dances and proms are high on your list. You will treasure the time you spent in school, but also the time that you spent outside the classroom. You have made sound decisions that made you mature and brought you to the point that you are at today... graduates.

As said by George Bernard Shaw, "Some men see things as they are and ask why; but I dream things that never were, and ask why not!" It has been my pleasure to be at your side to help prepare you for the next phase of your life. I am proud of the young men and women that you have become. Congratulations on your many accomplishments from the past four years, best wishes as you continue on your lifelong journey, and always remember to "aim for perfection!"

Stephen A. Mascoll, Submaster for the Class of 2008 Medford High School

Take The Key

To Medford High School...Unlocked

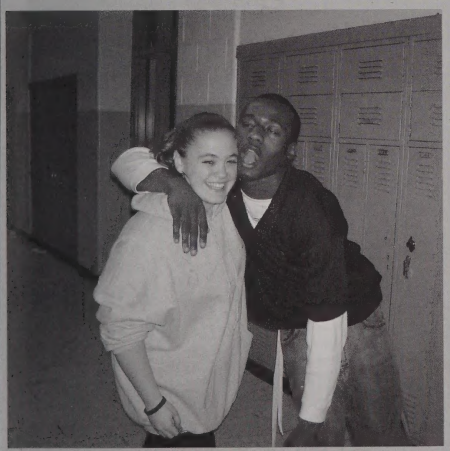

This year's yearbook theme portrays a whole other side of student life that many have never seen before. We are going behind the scenes to show what students are doing when they are not in class. Whether they are hanging out in the hallways before and after school or they are getting food with friends, we want to show it all. We know that everyone that attends Medford High School has an outside life, and to our surprise, even the teachers do too! Throughout this book, you will revisit all of the high school "hang outs" and what events students participated in over the different seasons. For the class of 2008, this will be a book of memories not only for what you have done while in school, but what you did with all of your friends and fellow classmates throughout these past four years at Medford High.

After a nomination, essay, interview, and 18-hour plane ride, senior Amy Mei went on a student exchange trip to Japan sponsered by the Medford Rotary Club. From cheap karaoke bars and cheap sushi to numerous interviews with reporters and newscasters, she was in five different newspapers and even went on tv the 2nd day there! "I got so much attention there. I felt like a celebrity."

Living with a number of families in the countryside, Amy adjusted to a different lifestyle. High school boys were still wild about Disney and bugs were biting 24/7.

Saying goodbye was tough for Amy since her flight date kept moving back and forth due to a typhoon. Next year, she will host a student in return for Japan's hospitality. "I loved the trip and I hope to go back during college to visit my host families."

Aspiring Stage Performers

Juniors Stephen Costa and Abby Seidel spent 3 hrs a day, 5 days a week for 5 weeks working on the Young Co.'s play, *Thoroughly Modern Millie* in Stoneham. With an awesome cast, they put on a successful show. Stephen: "It was very challenging and took a lot of hard work but it helped with my confidence on stage & taught me that there are no small roles."

Working Hard... at the MEDFORD BOAT CLUB

While other teenagers took up jobs at ice cream shops or supermarkets, seniors Paige Mcglynn, Christine Boudreau, Ashley Martignetti, and Jenn O'Brien were cooks and took on lifeguarding at the Mystic Lakes at the Medford Boat Club while enjoying the company of each other, other MHS student workers, and other peers and club members who visited on a regular basis. "The best part about working at the MBC is becoming so close with everyone. We're like a legit family," says Paige. "And the saddest part is at the end of the summer - when we all go to our separate schools and the seniors leave for college."

MEDFORD H.S. LIBRARY

Vacation 2007

With another school year accomplished, Medford High School students headed out to take in another awesome summer vacation.

Artist Travels to Mexico

While most Medford High students spent their summer downing burritos at Q'doba in Wellington Circle, Junior Ann Parker enjoyed a more authentic and *artistic* Mexican meal - in Mexico. She expanded her horizons as an artist by participating in an art program down south.

"Annie is the best artist I have had in my 20 years of teaching," said Ms. Michelle Boll of the Art Department.

The Medford Mustangs are seen here at the beginning of the season, awaiting a year of hard work and determination. Although the season ended with a tough loss to rival Malden High School, the Mustang program made some terrific strides in 2007. These young men will never forget those times when they were blinded by the lights they played under on those chilling Friday nights. Considering themselves brothers, they will proudly and boldy call themselves the **Mustang family of 2007.**

"For those of you guys that haven't been around the games a lot this year, you probably wouldn't have realized how much improved this program is. We have dominated in our two victories...We've been in control of games and let games slip away when we were the better team on the field...While frustrating, it also builds you up for tomorrow. Most of that is due to our outstanding senior leadership. We've got some guys, 19 of them sitting here today, that have dedicated enormous amounts of time and done everything possible to make you guys proud. I want them to know...we are very proud."-*Coach Wilson at the Pep Rally*

"You just can't tame the Mustangs"

Flashing headlights and beeping horns greet the Medford High Varsity cheerleading squad after taking the titles of GBL, North Regional and first-time State Champions, all while completing an undefeated season. With the theme of "Respect Me," the girls were able to dazzle the crowds with advanced skills in stunting, jumping, and tumbling. The talent of the 2008 season was undeniable with the leadership and experience of eight seniors. Yet success did not come easy, as the team struggled with obstacles and injuries. Through hard work and team bonding, the girls were able to connect on many levels. As the squad worked diligently, they also had fun too: experiencing games, singing and dancing on the bus, even creating their own language. The 2007-2008 MHS Varsity Cheerleading squad is not a team composed of eighteen individuals, but instead, one family.

The Mustang Boys soccer team had yet another phenomenal season, with another winning record. Throughout the duration of the season, they were burdened by injuries, but they grew stronger against all their opposition and mananged to win a bid to the state tournament. The Mustangs tore through their first team in the tournmament, Chelmsford, who they blanked 3-0. After the game, which was played at Bello Field at Tufts University, they went into their game against the second-ranked team in the state, Framingham, full of confidence. However, they fell to the Flyers of Framingham, 1-0, on a goal scored late within the second half. The Flyers went on to destroy every team they went up against, losing in the state finals. The fierce and tenacious Mustangs remained the only team that gave them a challenge, outlining their success throughout the year.

During preseason, the girls' varsity soccer team did not have an official coach. They didn't know what to think or how to handle the situation, but knew they had to stay together as a family. It was a transitional year for these girls, with the coming of a new coach, George Scarpelli. They worked hard through adversity, and earned a respected spot in the GBL Tournament. Hard times helped them to become strong and prevail. One by one they put in their share, and together, they defined the word "team."

MUSTANG CROSS COUNTRY

Both the boys' and girls' cross country teams have done exceptionally well this season. With the enormous amount of girls, as well as a very strong group of boys, the Mustangs placed second in the G.B.L., winning a total of four medals in the Greater Boston League meet on October 27th. Leading the pack for the Varsity Boys' race were Phil Galebach and John Beckshaw, placing first and third overall. Katherine Picarde lead the Girls' Varisty race for the Mustangs, finishing in fifth place.

The Cross Country team faces one of its' biggest opponents at this meet in Arlington.

One of the most exciting parts of the cross country season, besides those wonderful meets of course, is the pasta parties! Although the girls' pizza was stolen by several anonymous members of the boys' cross country team, they spent endless hours on the tennis courts of Playstead Park. Several members of the girls' team also hosted pasta parties, as well as the annual Halloween party at the end of the regular season.

To those who have helped us over the past four years - the ones who showed us the fine points of Shakespeare, the proper way to hold a scapel, what the Battle of Hastings was about, the integral of sec(x) bounded by x=1 and x=4, why you don't heat a stoppered test tube, and everything anyone would ever need to know about President Wilson's Fourteen Point Plan. We would like to thank our teachers.

They who have stayed after with us for as long as we needed them, who have explained the problem countless times until we understood, who were the keys to the lock of our knowledge. We now write cheesy statements and dedicate these next pages to all of you. Thank you.

MR. AMBROSE

David,

Mom and I are very proud of you. Who would have thought that this little boy, dressed in this funny outfit pictured here, would become the fine young adult you are today?

We are both so pleased that you chose a career in teaching, the noblest profession of them all, and that you so enjoy your work as an educator. Mom and I would like to take all the credit for your successes, but we would be the first to tell you that it "took a village to raise you." Several of those villagers that helped mold you into the person you are today were your teachers and professors.

So as you stand in front of your class every day, remember that you have the unique opportunity to help shape and mold the future fine young adults of Medford. We know you'll do a great job!

Love,
Mom & Dad

When you were born all we wanted was for you two to be happy and healthy. Jackie and Keith you have given us so much more. You are intelligent, funny, gifted and most importantly...great kids, thank you for 17 awesome years and congratulations on your graduation.

Annie Petrone: Sooner or later
We'll be lookin' back on everything
And we'll laugh about it like we knew what all was happening
And someday you might listen to what people have to say
Now you learn the hard way
- "Sooner or Later," Michael Tolcher

Louis Rocco: I'm here to set the record straight: Vin Diesel PWNS Chuck Norris.

Bianca Landrau: The number one rule is to stay gorgeous and be glamorous at all times! Because that's what a real diva does!

John Wilder: Four years at MHS - what a ride!

Collette Sheppard: Front Cup!!!

Aiman Kilaouy: All you have to do is believe.

Terrence Gartland: This is AMERICA!!!!!!!

★☆★

Amy Mei: I can't believe it's already been four years. I'm going to really miss this school, the teachers, and my friends - but I can't wait for college!

Evan Hayes: Only 350 HP, that's weak.

Stephen Evans: Go play in traffic.

Cassandra Sessa: Be who you are and say what you feel because those who matter don't mind and those who mind don't matter.

Erik J. Rivera: "Motivation is the art of getting people to do what you want them to do because they want to do it." Dwight D. Eisenhower

Megan Gillespie: I once had a dream school would eat me alive. Now when I dream I dream of me in a victory dance for overcoming school. I'll never forget my class, my friends, or the bad times. From now on, when life gives me lemons I'll beat the heck out of it and demand oranges.

Megan Bennett: "Sometimes we need to stop analyzing the past,

Stop planning the future,
Stop trying to figure out precisely how we feel,
Stop deciding with our mind what we want our heart to feel,
And sometimes we just have to go with 'whatever happens, happens.'"
-*Sex and the City*

Ben Waldrip: It's been real, it's been fun, but it's not been real fun. I'll miss all of my classmates, and especially all my teammates from all four years!

Danica Bybell: "I'm selfish, impatient, and a little insecure. I make mistakes, I'm out of control, and at times hard to handle. But if you can't handle me at my worst, then you sure don't deserve me at my best."
-Marilyn Monroe

Andrea Chiarenza: "We're adults. When did that happen? And how do we make it stop?"
-Meredith Grey, *Grey's Anatomy*

Michael Maloney: It's impossible to write a scholarly statement under fifty words that will leave you with worldly knowledge, so I'll just leave you with this classic cliché, be good to each other because we're all we've got.

Andrew Casey: Shazaam!!!

Felisha Pierre-Louis: "Life is too short to wake up in the morning with regrets, so love the people who treat you right. Forget about the ones who don't, and believe that everything happens for a reason. If you get a chance, take it. If it changes your life, let it. Nobody said that it'd be easy, they just promised it would be worth it."
-Bob Marley

Amanpreet Singh: ...

Noah Smith: Make the present good, and the past will take care of itself.
-Knute Rockne

Chris Banks: What's my name again?

Liz McNamara: "One day can make your life, one day can ruin your life; all life is is four or five big days that change everything."

Greg Hussey: You are only as good as you make yourself out to be.

Tyricky Holmes: Get breezy's and stack up!

Jenn O'Brien: Facebook. (Peace sign and kissy face) "Looks like I got my championship ring." From Mass State Champs

Someone from Fifth Period Anatomy: Wait, so if the baby grows in your stomach and it's up here (top left) then why does right here (whole stomach) get big?

Meagan Dinocco: You have brains in your head.
You have feet in your shoes.
You can steer yourself in any direction you choose.
You're on your own.
And you know what you know.
You are the guy who'll decide where to go.
-*Oh, the Places You'll Go*, Dr. Seuss

Angela Diaco: "Well-behaved women rarely make history."
-Marilyn Monroe

Shamone Allien: High school is where I met my sisters for life... dork squad 'til the end!

Heather Cioffi: I'm not a bird, you can't just throw a blanket over me and expect me to sleep.

Amanda Du: -So where's my Cinnabon?
-First one to get hypothermia loses.
-So I was trying to get on the school bus, and out of nowhere David picks me up and runs away... and all the bus driver did was drive away.

Owen Ziegler: Imagine if all of this were snow.

John Le: It's because I'm azn (asian).

Antonia Pugliese: -mmmmm, Hamlet
-Whales are just so big... you'd be scared of, say, whale sized cotton candy.

Megan McCormick: Live everyday like it was your last! Coo-coo bananas!

Andy DiNunzio: NAR*NAR

Loba Alam: I love Michael Maloney and Bio Class!

Justin Albano: Where are my pants?

Nick Lanzilli: -No good deed goes unpunished.
- It's been a good life-altering four years. These past few years have put me on a path that only I can run and for others to follow. I plan to live like Sinatra always said, "My Way."

John Feeley: I wanna pet the rabbit!

Brian Honeycutt: -All of us have grown up together, we have gone from children to adults building many friendships and bonds that will last a lifetime.
-There are big ships and small ships. But the best ship of all is friendship.

Ann Le Blanc: No, the best ship is DracoxGinny.

Ngawang Choney: Even though we screamed and moaned about all of the school work we had to do, the friends and memories we've all made were well worth it, the class of '08 will never been forgotten.

Jamie Forrest: I hope you still feel small when you stand beside the ocean
Whenever one door closes, I hope one more opens
Promise me that you'll give faith a fighting chance
And when you get the choice to sit it out or dance...
I hope you dance.
-"I Hope You Dance," Lee Ann Womack

Nick Avery: - Carmela, nice bum.
