

PROJECT OUTREACH

Savannah Early Ed

Project Outreach is a unique organization in many ways. We believe in spreading awareness, acceptance, and understanding of those with disabilities throughout the community. Project Outreach is committed to building relationships between those with disabilities and their non-disabled peers that change both parties for the better. We hope to inspire a domino effect by doing whatever it takes to open the eyes of our community and the world to seeing that people with disabilities are more like you than different.
