

Transportation Bid Questions, Bidders Meeting

1. What are your plans for acquiring property or do you already have property in proximity?
2. We are wanting bus aides to have the same abilities as aides in the classrooms – that is, paraprofessionals can perform basic medical procedures such as monitoring for seizures, VNS. What are your thoughts about requiring your staff to undergo training and apply services (with appropriate support)? What are your policies on transporting medication?
3. What are your current staffing levels for bus drivers and paraprofessionals? How prepared are you to program for transportation in our area?
4. How do you communicate with parents?
5. What technology do you use to allow for tracking students – apps for parents, districts to monitor transportation?
6. How long do you hold on to videos before erasing? What is your ability to retain videos?
7. What are your procedures for notifying districts and parents about accidents or other safety issues?
8. If you have a parent not home or behaviors on the bus, what is your procedure? If we were to say that you were not able to transport back to sites, what would your procedure be?
9. What plans do you have in place in case you have a shortage of drivers – COVID, etc. What would be your approach to hiring drivers here in the SELPA?
10. Do you have any questions for us?
