INDEPENDENT AUDITOR'S REPORT

Board of Trustees of Eanes Independent School District Austin, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Eanes Independent School District (the "District"), as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the District, as of June 30, 2024, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter - Accounting Change

As described in the notes to the financial statements, in fiscal year 2024 the District adopted new accounting guidance, Governmental Accounting Standards Board (GASB) Statement No. 100, Accounting Changes and Error Corrections – an amendment of GASB Statement No. 62. Our opinion is not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS and Government Auditing Standards, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error and design and perform audit procedures responsive to those risks. Such procedures
 include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
 statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and pension and OPEB information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The combining statements, required TEA schedules, and the Schedule of Expenditures of Federal Awards, as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements, required TEA schedules, and the Schedule of Expenditures of Federal Awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

Patillo, Brown & Hill, L.L.P.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 22, 2024 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Waco, Texas October 22, 2024

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Eanes Independent School District's (the "District") annual financial report presents our discussion and analysis of the District's financial performance during the year ended June 30, 2024. Please read it in conjunction with the District's basic financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The assets and deferred outflows of resources of the District exceeded its liabilities and deferred inflows of resources at the close of the 2024 school year by \$94,811,040. Of this amount, unrestricted net position was a deficit of \$17,234,586.
- The District's net position increased by \$3,964,567 as a result of this year's operations.
- The General Fund ended the year with a total fund balance of \$29,331,264, a decrease of \$967,174 over the prior year primarily due to a decrease to the District's Maintenance and Operation tax rate.
- At the end of the current fiscal year, the General Fund ended with an unassigned fund balance of \$27,941,395, which is the amount available to fund the District's ongoing operations. This amount represents 15% or 1.9 months of total General Fund expenditures. Excluding recapture, this amount represents 30% or 3.6 months of total General Fund expenditures.

USING THIS ANNUAL REPORT

This annual report consists of a series of financial statements. The government-wide financial statements include the Statement of Net Position and the Statement of Activities. These provide information about the activities of the District as a whole and present a longer-term view of the District's property and debt obligations and other financial matters. They reflect the flow of total economic resources in a manner similar to the financial reports of a business enterprise.

Fund financial statements report the District's operations in more detail than the government-wide statements by providing information about the District's most significant funds. For governmental activities, these statements tell how services were financed in the short term as well as what resources remain for future spending. They reflect the flow of current financial resources, and supply the basis for tax levies and the appropriations budget. The remaining statements, fiduciary statements, provide financial information about activities for which the District acts solely as a trustee or agent for the benefit of those outside of the District.

The notes to the financial statements provide narrative explanations or additional data needed for full disclosure in the government-wide statements or the fund financial statements.

The sections labeled TEA (Texas Education Agency) Required Schedules and Compliance Section contain data used by monitoring or regulatory agencies for assurance that the District is using funds supplied in compliance with the terms of grants.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The primary purpose of the Statement of Net Position and Statement of Activities is to show whether the District is better off or worse off as a result of this year's activities. The Statement of Net Position includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid. The District's revenues are divided into those provided by outside parties, who share the costs of some programs, such as grants provided by the U.S. Department of Education to assist children with disabilities from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by TEA in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. All liabilities are considered regardless of whether they must be paid in the current or future years.

These two statements report the District's net position and changes in them. The District's net position (the difference between assets and liabilities) provide one measure of the District's financial health, or financial position. Over time, increases or decreases in the District's net position is one indicator of whether its financial health is improving or deteriorating. To fully assess the overall financial health of the District, however, nonfinancial factors as well should be considered, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

In the Statement of Net Position and the Statement of Activities, we classify the District's activities as Governmental and Business-type activities:

Governmental activities—Most of the District's basic services are reported here, including the instruction, counseling, co-curricular activities, transportation, maintenance, community services, and general administration. Property taxes, tuition, fees, and state and federal grants finance most of these activities.

Business-type activities—The District's enterprise activities are reported here. These activities are intended to recover all or a significant portion of their costs through user fees and charges.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds—not the District as a whole. Laws and contracts require the District to establish some funds, such as grants received under the Elementary and Secondary Education Act (ESEA) from the U.S. Department of Education. The District's administration establishes many other funds to help it control and manage money for particular purposes (like campus activities). The District's two kinds of funds— governmental and proprietary—use different accounting approaches.

Governmental funds—Most of the District's basic services are reported in governmental funds. These funds use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.

Proprietary funds—Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. There are two proprietary fund types. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The District uses five enterprise funds to account for its food service, community education, child development center, after school care, and facility rentals.

The second type of proprietary fund is the internal service fund. Internal service funds are an accounting device used to accumulate and allocate costs internally among the various functions. The District uses one internal service fund to report activities for its self-insurance related to computer equipment. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities within the government-wide financial statements.

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by student activities and scholarship programs. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is only responsible for ensuring that the assets reported in these funds are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

Our analysis focuses on the net position (Table I below) and changes in net position (Table II below) of the District's governmental and business-type activities.

Net position of the District's governmental activities increased from \$87,314,805 to \$92,316,930. Unrestricted net position - the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements - was a deficit of \$19,149,209 at June 30, 2024. The increase in governmental net position was a result of increased property tax revenue. More information is presented in the paragraph following Table II on the next page.

THE DISTRICT'S FUNDS

As the District completed this annual period, its General Fund reported a fund balance of \$29,331,264, which is \$967,174 more than last years' total of \$30,298,438. The decrease in fund balance is mainly attributable to decreasing student enrollment, and therefore, decreased average daily attendance revenues.

The District's Debt Service Fund reported a fund balance of \$22,530,698 which is \$2,538,380 more than last year's total of \$19,992,318. The Debt Service fund balance was higher at June 30, 2024, as compared to the prior year end, due to a defeasance of approximately \$6 million of general obligation bonds using existing fund balance. The purpose of the Debt Service fund is to provide for the payment of bond principal and interest payments as it becomes due.

The District's Series 2023 Bonds Fund reported a fund balance of \$55,066,687 which is primarily constituted of unspent proceeds from the issuance of the Series 2023 Unlimited Tax School Building Bonds in the amount of \$69,630,000. The District spent \$23,700,448 of these proceeds on capital projects and improvements throughout the year.

The District's other governmental funds reported combined ending fund balances of \$9,464,988. This combined balance is \$7,976,292 less than the previous year. The primary reason for this change in the combined fund balance was due to increased spending in the nonmajor capital projects funds.

Over the course of the year, the Board of Trustees generally revises the District's budget based on financial updates provided by management of the District. These amendments involve moving funds from programs that did not need all the resources originally appropriated to them to programs with resource needs, or to react to originally unforeseen circumstances, such as unanticipated new revenues or unavoidable new costs. None of the budget amendments made during the year were considered significant.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

At the end of June 2024, the District had \$205,221,129 (net of accumulated depreciation) invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance.

Significant changes in capital assets for the year are primarily related to the purchase of a building for central administration staff, furniture upgrades in classrooms, and technology updates.

Additional information on capital assets may be found in Note II to the financial statements.

Debt

At year-end, the District had \$175,427,311 in bonds and other long-term debt outstanding versus \$119,474,189 last year. The increase is primarily a result of the District issuing the Series 2023 Unlimited Tax School building bonds in the amount of \$69,630,000.

A summary of the ending balances of long-term debt by type for both 2024 and 2023 is as follows:

TABLE IV EANES INDEPENDENT SCHOOL DISTRICT

LONG-TERM DEBT

		Governmen	-			
	2024		2023		Change	
General obligation bonds Premium on bonds SBITA liability	\$	156,655,000 18,451,227 321,084	\$	105,285,000 13,993,679 195,510	\$	51,370,000 4,457,548 125,574
Total	\$	175,427,311	\$	119,474,189	\$	55,953,122

Additional information on long-term debt may be found in Note II to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District is located in one of the fastest growing regions of the state. Although continued growth is expected for years to come as the area is adjacent to Austin and major national employers and educational institutions, the district anticipates a slight decrease in enrollment and average daily attendance for 2025 because it is landlocked. Assessed property values are expected to grow in the future as the area is diverse in its economic offerings.

The District's elected and appointed officials considered many factors when setting the fiscal year 2025 budget and tax rates. Those factors include property values, changes in enrollment, the economy, projections of future budget years, and legislative mandates. The District has adopted a General Fund budget for the 2025 fiscal year of \$190.6 million which includes \$94.7 million for recapture. Excluding the budgeted increase in recapture of \$3.6 million, this reflects an approximate increase of \$1.0 million in budgeted expenditures from fiscal year 2024 to fiscal year 2025.

The 86th Legislative Session brought significant changes to the Texas school finance system including some increased funding and significant property tax rate compression. As a result of the session, the District adopted an operating tax rate of \$0.7655 and a debt service tax rate of \$0.1200 for the 2025 fiscal year. This results in a reduction in the tax rate of 0.25 cents per \$100 valuation.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors, and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the District's Business Office, at Eanes Independent School District, 601 Camp Craft Rd, Austin, Texas 78746, or by calling (512) 732-9030.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION

JUNE 30, 2024

Total fund balances - governmental funds	\$ 116,386,112
Amounts reported for for governmental activities in the statement of net position are different because:	
1 Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds.	204,641,642
2 Some receivables are reported as deferred inflows of resources in the governmental funds balance sheet, but are recognized as a revenue in the statement of activities.	
Property taxes	1,914,353
3 Net position of the internal service fund is shown as part of the proprietary funds, but is reported as part of governmental activities on the statement of net position.	E40.660
Het position.	540,669
4 Long-term liabilities, including bonds, SBITA's, and compensated absences are not due and payable in the current period and therefore are not reported in the funds. Also, the losses on refunding of bonds and the premium on issuance of bonds payable are not reported on the balance sheet in the funds.	
General and certificates of obligation Unamortized premium Deferred loss on refunding SBITA payable	(156,655,000) (18,451,227) 1,062,439 (321,084)
Compensated absences Arbitrage	(807,139) (1,395,386)
5 Interest payable is not due and payable in the current period and, therefore, is not reported as a liability in the governmental funds.	(4,375,238)
6 Included in the items related to debt is the recognition of the District's proportionate share of the net pension liability required by GASB 68. The net position related to pensions included a deferred resource outflow in the amount of \$13,085,1892, a deferred resource inflow in the amount of \$2,101,341, and a net pension liability in the amount of \$31,200,079. This	
resulted in a decrease in net position.	(20,216,231)
7 Included in the items related to debt is the recognition of the District's proportionate share of the net other post-employment benefit (OPEB) liability required by GASB 75. The net position related to the OPEB included a deferred resource outflow in the amount of \$6,239,735, a deferred resource	
inflow in the amount of \$22,296,982, and a net OPEB liability in the amount of \$13,949,733. This resulted in a decrease in net position.	(30,006,980)

Net position of governmental activities

RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES

FOR THE YEAR ENDED JUNE 30, 2024

Net change in fund b	balances - total	governmental	funds
----------------------	------------------	--------------	-------

\$ 48,870,251

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Additions to capital assets	30,100,434
Depreciation on capital assets	(15,783,669)

Some receivables are not considered available revenues and are reported as deferred inflows in the governmental funds.

Property taxes (120,320)

The District uses an internal service fund to charge the cost of technology insurance to the appropriate functions in other funds. The net income of the internal service fund is reported as a part of governmental activities which increases net position.

52,811

The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.

Principal repayment	18,429,601
Issuance of bonds and related premium on issuance	(75,622,245)
Issuance of SBITA	(396,334)
Net change to compensated absences	(66,137)

Ine District owes arbitrage rebates to the Internal Revenue Service, which are not due and payable within a year after the fiscal year-end, so they are deferred to future periods as a long-term liability.

(1,395,386)

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.

Amortization of premium and deferred loss on refunding of bonds payable 1,239,179
Accrued interest payable (381,541)

GASB 68 Required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$2,165,035. Contributions made before the measurement date and during the previous fiscal year were expended and recorded as a reduction in net pension liability. This caused a decrease in net position totaling \$1,949,816. Finally, the proportionate share of pension expense on the plans as a whole had to be recorded. The net pension expense increased the change in net position by \$3,215,005. The net result is a decrease in the change in net position.

(2,999,786)

GASB 75 Required that certain plan expenditures be de-expended and recorded as deferred resource outflows. These contributions made after the measurement date of the plan caused the change in ending net position to increase by \$469,768. Contributions made before the measurement date and during the previous fiscal year were expended and recorded as a reduction in net OPEB liability. This caused a decrease in net position totaling \$455,783. Finally, the proportionate share of OPEB expense on the plans as a whole had to be recorded. The net OPEB expense increased the change in net position by \$3,061,282. The net result is an decrease in the change in net position.

NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED JUNE 30, 2024

I. Summary of Significant Accounting Policies

A. Reporting Entity

The basic financial statements of Eanes Independent School District (the "District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") applicable to governmental units in conjunction with the Texas Education Agency's Financial Accountability System Resource Guide ("Resource Guide"). The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles.

The Board of School Trustees ("Board"), a seven-member group, has governance responsibilities over all activities related to public elementary and secondary education within the jurisdiction of the District. The Board is elected by the public and has the exclusive power and duty to govern and oversee the management of the public schools of the District. All powers and duties not specifically delegated by statute to the Texas Education Agency ("TEA") or to the State Board of Education are reserved for the Board, and the TEA may not substitute its judgment for the lawful exercise of those powers and duties by the Board. The District receives funding from local, state and federal government sources and must comply with the requirements of those funding entities. However, the District is not included in any other governmental reporting entity and there are no component units included within the District's reporting entity.

B. Government-wide and Fund Financial Statements

Government-wide Financial Statements: The statement of net position and the statement of activities include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These statements distinguish between the governmental and business-type activities of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. The District does not allocate indirect expenses in the statement of activities. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, with separate statements presented for each fund category. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The District reports the following major governmental funds:

The **General Fund**: This is the District's primary operating fund. It accounts for all financial resources of the District except those required to be accounted for in another fund.

The **Debt Service Fund**: This fund includes debt service property taxes and other revenue collected to retire bond principal and interest as it becomes due. It is a budgeted fund.

The **Series 2023 Bonds Fund**: This fund accounts for capital projects spent with the funding from the Unlimited Tax School Building Bonds, Series 2023, which were issued in July 2023.

Other governmental funds include:

Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than private-purpose trust funds or capital projects) such as federal, state, or locally financed programs. Funds are legally restricted to expenditures for specified purposes.

Capital Project Funds account for proceeds from long-term debt financing and revenue and expenditures related to authorized construction and other capital asset acquisitions.

In addition, the District reports the following proprietary funds:

Internal Service Funds. The District's only internal service fund accounts for self-insurance related to computer equipment. Operating revenues are charged to other funds and operating expenses include insurance claims and contracted services.

Enterprise Funds. The District uses five enterprise funds to account for its food service, community education, child development center, after school care, and facility rentals.

The District reports the following fiduciary funds:

Private-Purpose Trust Funds are used to report trust arrangements for scholarships under which principal and income benefit individuals or private organizations.

Custodial Funds account for activities of student groups. This accounting reflects the District's custodial relationship with student activity organizations.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide, Proprietary, and Fiduciary Fund Financial Statements: These financial statements are reported using the economic resources measurement focus and the accrual basis of accounting.

Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Revenues from local sources consist primarily of property taxes. Property tax revenues and revenues received from the State are recognized under the susceptible-to-accrual concept. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment earnings are recorded as earned, since they are both measurable and available. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When the District incurs an expenditure or expense for which both restricted and unrestricted resources may be used, it is the District's policy to use restricted resources first, then unrestricted resources.

D. Assets, Liabilities, Deferred Outflows/Inflows of Resources, and Net Position or Fund Balance

Cash and Cash Equivalents

For purposes of the statement of cash flows, highly liquid investments are considered to be cash equivalents if they have a maturity of three months or less when purchased.

Property Taxes

Property taxes are levied by October 1 on the assessed value listed as of the prior January 1 for all real and business personal property in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes, penalties, and interest ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period.

Allowances for uncollectible tax receivables within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Inventories and Prepaid Items

Inventories of supplies on the balance sheet are stated at weighted average cost and are recorded as expenditures when they are consumed. The District's inventory balances primarily include plant maintenance and operation supplies as well as instructional supplies.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items.

Capital Assets

Purchased or constructed capital assets are reported at cost or estimated historical cost. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. A capitalization threshold of \$5,000 is used. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire an asset with equivalent service potential at the acquisition date.

Capital assets are being depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings and improvements	10-50
Furniture and equipment	3-15
SBITA asset	2-5

Deferred Outflows and Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has three items that qualify for reporting in this category. They are a deferred charge on refunding and deferred outflow related to TRS reported in the government-wide statement of net position. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The item related to TRS represents the District's share of the unrecognized plan deferred outflow of resources which TRS uses in calculating the ending net pension and other postemployment benefit (OPEB) liabilities.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has three items that qualify for reporting in this category. A deferred inflow related to TRS is reported in the government-wide statement of net position. The District also has a type of inflow, which will arise only under a modified accrual basis of accounting that qualifies for reporting in this category. The governmental funds report unavailable revenues from property taxes. This amount is deferred and recognized as an inflow of resources in the period that the amounts become available. The District also recognizes their share of the unrecognized TRS plan deferred inflows of resources which TRS uses in calculating the ending net pension and OPEB liabilities. These items are reported in the government-wide statement of net position. The District also has a deferred inflow related to future payments on along-term lease receivable.

Interfund Activity

Interfund activity results from loans, services provided, reimbursements or transfers between funds. Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures or expenses. Reimbursements occur when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers In and Transfers Out are netted and presented as a single "Transfers" line on the government-wide statement of activities. Similarly, interfund receivables and payables are netted and presented as a single "Internal Balances" line of the government-wide statement of net position.

Unearned Revenue

Unearned revenues represent revenues received by the District but not yet earned and are not available for use by the District to liquidate current year liabilities.

Compensated Absences

The State of Texas (the "State") has created a minimum sick leave program consisting of five days of sick leave per year with no limit on accumulation and transferability among districts for every person regularly employed in Texas public schools. Each district's local Board is required to establish a sick leave plan. Local school districts may provide additional sick leave beyond the state minimum. The District's policy is to reimburse teachers, upon resignation, who have been employed in the District for ten or more years for the number of unused local sick days equal to the number of remaining State days credited to the teacher since entering the District. Reimbursement is made at the daily rate of pay for a full-time substitute. The District's liability for accrued compensated absences as of June 30, 2024 was \$807,139 and is included in the government-wide financial statements. A liability is reported in governmental funds only if they matured, for example, as a result of employee resignations and retirements. Compensated absences are generally liquidated by the General Fund.

Long-term Obligations

General obligation bonds which have been issued to fund the District's capital projects are to be repaid from tax revenues of the District. In the government-wide financial statements long-term debt and other long-term obligations are reported as liabilities in the governmental activities Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Subscription-Based Information Technology Arrangements

The District is a lessee for subscription-based IT arrangements (SBITAs). The District recognizes liability and an intangible right-to-use asset in the government-wide financial statements.

At the commencement of a SBITA, the District initially measures the liability at the present value of payments expected to be made during the agreement term. Subsequently, the liability is reduced by the principal portion of payments made. The asset is initially measured as the initial amount of the liability, adjusted for payments made at or before the commencement date, plus certain initial direct costs. Subsequently, the asset is amortized on a straight-line basis over its useful life.

Key estimates and judgments related to SBITAs include how the District determines (1) the discount rate it uses to discount the expected payments to present value, (2) agreement term, and (3) agreed upon payments.

- The District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the District generally uses its estimated incremental borrowing rate as the discount rate.
- The agreement term includes the noncancellable period of the SBITA.
- The agreed upon payments included in the measurement of the liability are composed of fixed payments and purchase option price that the District is reasonably certain to exercise.

The District monitors changes in circumstances that would require a remeasurement of its SBITA and will remeasure the asset and liability if certain changes occur that are expected to significantly affect the amount of the liability. These right to use assets are reported with other capital assets and liabilities are reported with long-term debt on the statement of net position.

Pensions

The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value. The District's proportionate share of the TRS net pension liability, deferred outflows of resources and deferred inflows of resources are reported in the statement of net position.

Other Post-Employment Benefits

The fiduciary net position of the Teacher Retirement System of Texas (TRS) TRS Care Plan has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other post-employment benefits, OPEB expense, and information about assets, liabilities and additions to/deductions from TRS Care's fiduciary net position. Benefit payments are recognized when due and payable in accordance with the benefit terms. There are no investments as this is a pay-as-you-go plan and all cash is held in a cash account.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Data Control Codes

Data Control Codes appear in the rows and above the columns of certain financial statements. The TEA requires the display of these codes in the financial statements filed with TEA in order to ensure accuracy in building a statewide database for policy development and funding plans.

Fund Balances - Governmental Funds

Fund balances of the governmental funds are classified as follows:

Nonspendable – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

Restricted – includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Committed – includes amounts that can be used only for specific purposes pursuant to constraints imposed by ordinance of the School Board, the District's highest level of decision-making authority. These amounts cannot be used for any other purpose unless the School Board removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

Assigned – includes amounts that are constrained by the District's intent to be used for a specific purpose but are neither restricted nor committed. This intent can be expressed by the District's Superintendent and Director of Finance, as mentioned in the District's fund balance policy.

Unassigned – All amounts not included in other spendable classifications.

Net Position Flow Assumption

Sometimes the District will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

Fund Balance Flow Assumptions

Sometimes the District will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Change in Accounting Principle

GASB Statement No. 100, Accounting Changes and Error Corrections, - an amendment of GASB Statement No. 62 – was adopted for the fiscal year ended June 30, 2024. The primary objective of this Statement is to enhance accounting and financial reporting requirements for accounting changes and error corrections to provide more understandable, reliable, relevant, consistent, and comparable information for making decisions or assessing accountability. As a result of this new accounting standard, the District was required to report changes within the financial reporting entity in more detail; see note disclosure L on page 48 for additional information.

II. DETAILED NOTES ON ALL FUNDS

A. Deposits and Investments

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas: (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit. Statutes authorize the District to invest in (1) obligations of the U. S. Treasury, certain U. S. agencies, and the State of Texas; (2) certificates of deposit, (3) certain municipal securities, (4) money market savings accounts, (5) repurchase agreements, (6) bankers acceptances, (7) Mutual Funds, (8) investment pools, (9) guaranteed investment contracts, and (10) common trust funds. The Act also requires the District to have independent auditors perform test procedures related to investment practices as provided by the Act. The District is in substantial compliance with the requirements of the Act and with local policies.

The District's investment pool has a redemption notice period of one day and may redeem daily. The investment pool's authority may only impose restrictions on redemptions in the event of a general suspension of trading on major securities markets, general banking moratorium or national state of emergency that affects the pool's liquidity.

Interest Rate Risk

As a means of limiting its exposure to interest rate risk, the District diversifies its investments by security type and institution, and limits holdings in any one type of investment with any one issuer. The District coordinates its investment maturities to closely match cash flow needs and restricts the maximum investment term to less than one year from the purchase date. As of June 30, 2024, the District managed its interest rate risk as follows:

		Weighted Average Maturity	Reported
Investment Type	Rating	(Days)	 Value
Lone Star Investment Pool	AAAm	42	\$ 222,069,724
TexPool	AAAm	36	317,223
TexasDaily	AAAmmf	41	2,121,213
Total investments			\$ 224,508,160
Portfolio weighted average	42		

Investments in local government investment pools are reported at net asset value per share, which approximates fair value. Money Market Deposits are reported at amortized cost.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized rating agencies are designed to give an indication of credit risk. At year end, the District was not significantly exposed to credit risk.

At June 30, 2024, the District's investments, other than those which are obligations of or guaranteed by the U. S. Government, are rated as to credit quality as above.

Custodial Credit Risk

Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name.

Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the government, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name.

At year end, the District was not exposed to custodial credit risk.

Concentration of Credit Risk

This risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. At year end, the District was not exposed to concentration of credit risk.

Interest Rate Risk

This is the risk that changes in interest rates will adversely affect the fair value of an investment. At year end, the District was not exposed to interest rate risk.

Foreign Currency Risk

This is the risk that exchange rates will adversely affect the fair value of an investment. At year end, the District was not exposed to foreign currency risk.

Investment Accounting Policy

The District's general policy is to report money market investments and short-term participating interest-earning investment contracts at amortized cost and to report nonparticipating interest-earning investment contracts using a cost-based measure. However, if the fair value of an investment is significantly affected by the impairment of the credit standing of the issuer or by other factors, it is reported at fair value. All other investments are reported at fair value unless a legal contract exists which guarantees a higher value. The term "short-term" refers to investments which have a remaining term of one year or less at time of purchase. The term "nonparticipating" means that the investment's value does not vary with market interest rate changes. Nonnegotiable certificates of deposit are examples of nonparticipating interest-earning investment contracts.

Public Funds Investment Pools

Public funds investment pools in Texas ("Pools") are established under the authority of the Interlocal Cooperation Act, Chapter 79 of the Texas Government Code, and are subject to the provisions of the Public Funds Investment Act (the "Act"), Chapter 2256 of the Texas Government Code. In addition to other provisions of the Act designed to promote liquidity and safety of principal, the Act requires Pools to: 1) have an advisory board composed of participants in the pool and other persons who do not have a business relationship with the pool and are qualified to advise the pool; 2) maintain a continuous rating of no lower than AAA or AAA-m or an equivalent rating by at least one nationally recognized rating service; and 3) maintain the market value of its underlying investment portfolio within 0.5% of the value of its shares.

B. Property Taxes

The Texas Legislature in 1979 adopted a comprehensive Property Tax Code (the "Code") which established a county-wide appraisal district and an appraisal review board in each county in the State. The Travis Central Appraisal District (the "Appraisal District") is responsible for the recording and appraisal of all property in the District. Under the Code. the Board sets the tax rates on property and the Travis County Tax Office provides tax collection services. The Appraisal District is required under the Code to assess property at 100% of its appraised value. Further, real property must be reappraised at least every three years. Under certain circumstances, taxpayers and taxing units, including the District, may challenge orders of the Appraisal Review Board through various appeals and, if necessary legal action. Property taxes are levied as of October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes and penalties and interest that are ultimately imposed. The assessed value as of January 1, 2023, upon which the October 2023 levy was based, was \$21,148,442,332. The District levied taxes based on a combined tax rate of \$0.88800 per \$100 of assessed valuation for local maintenance (general governmental services) and debt service.

The 86th session of the Texas Legislature convened in January 2019, with school finance reform as a critical priority. House Bill 3 (HB 3), passed by the 86th Texas Legislature, was of one of the most transformative Texas education bills in recent history infusing more than \$11 billion into the public school system. HB 3 provided more money for Texas classrooms through an increase in the basic allotment for each student from \$5,140 to \$6,160, increased teacher compensation, funded free fullday Pre-K for eligible 4-year-olds, reduced the amount of money wealthy districts must spend to subsidize poor districts through the state's recapture program, and cut local property taxes for Texas taxpayers. In summary, HB 3 focused on four major policy areas: teacher support, improving student outcomes, increasing funding, and reduction and reform of property taxes and recapture. HB 3 amended the Education Code to transfer certain sections from Chapter 41 to Chapter 49 and revised formulas used to determine excess local revenue under the Foundation School Program (FSB). The formula for recapture is now local revenue in excess of entitlement instead of wealth per weighted average daily attendance (WADA) basis. Under HB 3, recapture and non-recapture school districts are treated more equitably, and districts only pay tier one recapture on the amount above their formula entitlement. HB 3 modified local revenue subject to recapture to be local revenue in excess of entitlement and is calculated by subtracting a district's tier one entitlement (and credit for appraisal costs) from its available school fund (ASF) distribution and local fund assignment.

During the year ended June 30, 2024, the District's recapture liability was \$90,357,356. This amount was incorporated into the District's budget and was included in the due to other governments total on the balance sheet as of June 30, 2024. Under HB 3, districts have the option of making one lump-sum payment in August after the fiscal year ends. The payment option to submit seven equal payments from February through August remains unchanged. The District opted to make one lump-sum payment in August.

C. Due from Other Governments

The District participates in a variety of federal and state programs from which it receives grants to partially or fully finance certain activities. In addition, the District receives entitlements from the state through the School Foundation and Per Capita Programs. Amounts due from federal and state governments as of June 30, 2024, are summarized below.

			Nonmajor							
		General		General Debt Service				vernmental		
		Fund		Fund		Funds		Total		
Per Capita entitlement	\$	1,684,362	\$	306,498	\$	-	\$	1,990,860		
Federal and state programs		-				1,164,817		1,164,817		
	\$	1,684,362	\$	306,498	\$	1,164,817	\$	3,155,677		

D. Interfund Receivables, Payables, and Transfers

Balances due to and due from other funds at June 30, 2024, consisted of the following:

Receivable Fund	Payable Fund		Amount	Purpose
General Fund	Debt Service Fund	\$	3,840	Temporary advances
General Fund	Series 2023 Bonds Fund		62,762	Temporary advances
General Fund	Nonmajor governmental funds		916,109	Temporary advances
General Fund	Nonmajor enterprise funds		65,375	Temporary advances
Nonmajor governmental funds	General Fund		21,547	Temporary advances
		\$	1,069,633	

All amounts due are scheduled to be repaid within one year.

The following is a summary of the District's transfers for the year ended June 30, 2024.

Transfers Out	Transfers In	Amount	Purpose
General fund	Nonmajor enterprise funds	\$ 275,000	To supplement fund resources
Series 2023 Bonds fund	General fund	46,331	Temporary advances
Nonmajor enterprise funds	General fund	2,170,442	Temporary advances
Total		\$ 2,491,773	

E. Capital Assets

Capital asset activity for the year ended June 30, 2024, was as follows:

Total long-term liabilities	\$ 158,034,262	\$	85,111,959	\$ 20,265,414	\$	(101,159)	\$ 222,779,648	\$ 13,431,334

For the general obligation bonds, the District has pledged as collateral the proceeds of a continuing, direct annual tax levied against taxable property within the District without limitation as to rate. The Texas Education Code generally limits issuance of additional ad valorem tax bonds if the tax rate needed to pay aggregate principal and interest amounts of the District's tax bond indebtedness exceeds \$0.50 per \$100 of assesses valuation of taxable property within the District. The District currently has a debt service tax rate of \$0.12. The following tables display total principal debt outstanding by issuance as of year-end.

Date of		Interest	Original	Final Maturity	Debt		Current
Issue	Description	Rates	 Issue	Date	Principal		Portion
6/27/2013	2013 Refunding	2.00 - 3.00%	\$ 8,590,000	2025	\$ 5,040,000	\$	5,040,000
7/28/2015	2015A School Building	2.00 - 5.00%	48,080,000	2032	14,280,000		1,530,000
9/21/2016	2016 Refunding	2.00 - 4.00%	8,390,000	2031	5,835,000		740,000
12/21/2017	2017 Refunding	2.00 - 4.00%	8,725,000	2031	7,365,000		600,000

2030-2034	44,560,000	16,696,564		61,256,564
2035-2039	27,020,000	8,858,182		35,878,182
2040-2041	22,460,000	 2,295,705		24,755,705
	\$ 156,655,000	\$ 56,444,957	\$	213,099,957

During fiscal year 2024, the District issued Unlimited Tax School Building Bonds, Series 2023 for \$69,630,000 with interest rates ranging from 4.0% to 5.0% maturing in series from 2025 to 2043. The net proceeds of \$75,000,000 (including costs of issuance and a premium of \$5,992,245) were placed in the Series 2023 Bond Fund for the (a) the construction, acquisition, rehabilitation, renovation, expansion, improvement and equipment of school buildings in the district, including (i) safety and cybersecurity improvements, (ii) student programs and support, (iii) instructional and cocurricular spaces, (iv) promotion of energy efficiency and conservation, (v) facility systems and site improvements throughout the district (including plumbing, roofing, heating, ventilation, air conditioning, flooring and other systems), (vi) the purchase of new school buses, (b) the equipment and improvement of the Eanes ISD stadium including safety, accessibility, lighting, and other integral components, (c) the acquisition, installation and update of instructional technology equipment for students and staff in the district and (d) paying the costs of issuing the Bonds.

Defeased Debt

During the current fiscal year, the District used available debt service fund cash to defease \$5,885,000 of outstanding Series 2019B Unlimited Tax School Buildings Bonds, which had an interest rate of 1.75% and were to mature in fiscal year 2025. The District deposited \$5,881,170 in an irrevocable trust with an escrow agent to provide funds for the future debt service payment on the defeased bonds. As a result, a portion of the Series 2019B Unlimited Tax School Buildings Bonds are considered defeased and the liability for those bonds has been removed from the statement of net position. The \$5,885,000 in defeased bonds are callable for redemption on August 1, 2024, and will remain in escrow until they are redeemed by the escrow agent at that time.

The District's outstanding bonds payable contain a provision that, in an event of default, outstanding amounts will be paid from the corpus of the Texas Permanent School Fund.

Arbitrage Rebate

The Tax Reform Act of 1986 requires that governmental entities issuing tax-exempt debt subsequent to August 1986 calculate and rebate arbitrage earnings to the federal government. Specifically, the excess of the aggregated amount earned on investments purchased with bond proceeds over the amount that would have been earned if the proceeds were invested at a rate equal to the bond yield, is to be rebated to the federal government. As of June 30, 2024, the District has recognized a current arbitrage liability of \$457,242 in the Debt Service Fund that was rebated to the federal government after year-end. A long-term liability for rebate and yield restrictions, currently estimated at \$1,395,386, has been recognized on the Statement of Net Position for amounts due more than a year after June 30, 2024.

SBITA Payable

During the fiscal year, the District entered into multiple subscriptions for the use of various software. As of June 30, 2024, the value of the subscription liability is \$321,084. The District is required to make annual fixed payments ranging from \$3,850 to \$34,848. The subscriptions have interest rates ranging from 1.5803% to 2.1120%. The value of the right to use asset as of June 30, 2024 is \$1,617,170 with accumulated amortization of \$526,362. Debt service requirements on SBITA payables at June 30, 2024, are as follows:

	SBITA I	_	
Year Ending			Total
June 30,	Principal	Interest	Requirements
2025	\$ 159,906	\$ 10,299	\$ 170,205
2026	125,815	5,325	131,140
2027	17,415	-	17,415
2028	17,948		17,948
Totals	\$ 321,084	\$ 15,624	\$ 336,708

Risk Management

The District is exposed to various risks of loss related to torts, theft, damage or destruction of assets, errors and omissions, injuries to employees, and natural disasters. During fiscal year 2024, the District purchased commercial insurance to cover general liabilities. There were no significant reductions in coverage in the past fiscal year and there were no settlements exceeding insurance coverage for each of the past three fiscal years.

G. Defined Benefit Pension Plan

Plan Description. The District participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). It is a defined benefit pension plan established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms. All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard workload and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detail information about the Teacher Retirement System's fiduciary net position is available in a separately issued Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the internet at https://trs.texas.gov/Pages/about_publications.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There is no automatic post-employment benefit changes, including automatic COLAs. Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Texas Government Code section 821.006 prohibits benefit improvements, if, as a result of the particular action, the time required to amortize TRS' unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action. Actuarial implications of the funding provided in the manner are determined by the System's actuary.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member's annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year.

Employee contribution rates are set in state statute, Texas Government Code 825.402. The TRS Pension Reform Bill (Senate Bill 12) of the 86th Texas Legislature amended Texas Government Code 825.402 for member contributions and increased employee and employer contribution rates for fiscal years 2019 thru 2025.

	Contribution Rates		
	2023		2024
Member	8.00%		8.25%
Non-Employer Contributing Entity (State)	8.00%		8.25%
Employers	8.00%		8.25%
Current fiscal year employer contributions		\$	2,547,734
Current fiscal year member contributions			5,759,122
2023 measurement year NECE on-behalf contribu	ıtions		3,788,197

Contributors to the plan include members, employers and the State of Texas as the only non-employer contributing entity. The State is the employer for senior colleges, medical schools and state agencies including TRS. In each respective role, the State contributes to the plan in accordance with state statutes and the General Appropriations Act (GAA).

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Employers (public school, junior college, other entities, or the State of Texas as the employer for senior universities and medical schools) are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.

- When any part or all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- All public schools, charter schools, and regional educational service centers must contribute
 1.8 percent of the member's salary beginning in fiscal year 2023, gradually increasing to 2 percent in fiscal year 2025.
- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions. The total pension liability in the August 31, 2022 actuarial evaluation was rolled forward to August 31, 2023, and was determined using the following actuarial assumptions:

Valuation Date August 31, 2022 rolled forward to August

31, 2023

Actuarial Cost Method Individual Entry Age Normal

Asset Valuation Method Fair Value
Single Discount Rate 7%
Long-term expected Investment Rate of Return 7%

Municipal Bond Rate as of August 2023 4.13% - Source for the rate is the Fixed

Income Market Data/ Yield Curve/ Data Municpal bonds with 20 years to maturity that include only federally tax exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal GO AA Index".

Index's "20-Year Municipal G

Last year ending August 31 in Projection Period (100 2122 vears)
Inflation 2.3%

Salary Increases Including Inflation 2.95% to 8.95%

Ad Hoc Post-Employment Benefit Changes None

The actuarial methods and assumptions used in the determination of the total pension liability are the same assumptions used in the actuarial valuation as of August 31, 2022. For a full description of these assumptions please see the actuarial valuation report dated November 22, 2022.

Discount Rate

A single discount rate of 7.00 percent was used to measure the total pension liability. The single discount rate was based on the expected rate of return on plan investments of 7 percent. The projection of cash flows used to determine this single discount rate assumed that contributions from active members, employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2019 session. It is assumed that future employer and state contributions will be 9.50 percent of payroll in fiscal year 2024 gradually increasing to 9.56 percent in fiscal year 2025 and thereafter. This includes all employer and state contributions for active and rehired retirees.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The long-term rate of return on pension plan investments is 7%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in the Systems target asset allocation as of August 31, 2023 are summarized below:

		Long-Term Expected	Expected Contribution to
	Target	Geometric Real	Long-Term
Asset Class	Allocation ²	Rate of Return ³	Portfolio Returns
Global Equity			
U.S.A.	18.00%	4.00%	1.00%
Non-U.S. Developed	13.00%	4.50%	0.90%
Emerging Markets	9.00%	4.80%	0.70%

¹Absolute Returns Includes Credit Sensitive Investments.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the net pension liability if the discount rate used was 1% less than and 1% greater than the discount rate that was used (7.00%) in measuring the net pension liability.

	1% Decrease in					1% Increase in		
	D	iscount Rate	D	iscount Rate	D	iscount Rate		
		(6.00%)	(7.00%)		(8.00%)			
District's proportionate share of								
the net pension liability:	\$	46,645,846	\$	31,200,079	\$	18,356,916		

² Target allocations are based on the FY2023 policy model.

³ Capital Market Assumptions come from Aon Hewitt (as of 6/30/2023).

⁴ The volatility drag results from the coversion between arithmetic and geometric mean returns.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2024, the District reported a liability of \$31,200,079 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the District were as follows:

District's Proportionate share of the collective net pension liability	\$ 31,200,079
State's proportionate share that is associated with the District	50,622,667
Total	\$ 81,822,746

The net pension liability was measured as of August 31, 2022 and rolled forward to August 31, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2022 thru August 31, 2023.

At August 31, 2023 the employer's proportion of the collective net pension liability was 0.0454213421%. which was an increase of 0.0051851408% from its proportion measured as of August 31, 2022.

Changes of Assumptions Since the Prior Measurement Date. The actuarial assumptions and are the same as used in determination of the prior year's Net Pension Liability.

Changes in Benefit Provisions Since Prior Measurement Date. The Texas 2023 Legislature passed legislation that provides a one-time stipend to certain retired teachers. The stipend was paid to retirees beginning in September of 2023. The Legislature appropriated funds to pay for this one-time stipend so there will be no impact on the Net Pension Liability of TRS. In addition, the Legislature also provided for a cost of living adjustment (COLA) to retirees which was approved during the November 2023 election which will be paid January 2024. Therefore, this contingent liability was not reflected as of August 31, 2023.

For the year ended June 30, 2024, the District recognized pension expense of \$12,808,406 and revenue of \$7,643,585 for support provided by the State.

At June 30, 2024, the District reported its proportionate share of the TRS deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred Dutflows of Resources	Deferred Inflows of Resources
		Resources	 Resources
Differences between expected and actual economic experience	\$	1,111,669	\$ 377,799
Changes in actuarial assumptions		2,950,916	722,157
Differences between projected and actual investment earnings		4,540,369	-
Changes in proportion and differences between the employer's			
contributions and the proportionate share of contributions		2,317,200	1,001,385
Contributions paid to TRS subsequent to the measurement date		2,165,035	
Total as of year-end	<u>\$</u>	13,085,189	\$ 2,101,341

\$2,165,035 reported as deferred outflows of resources related to pension resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending June 30, 2025. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expenses as follows:

For the Year		Pension		
Ended June 30:	Expense			
2025	\$	1,690,440		
2026		1,062,865		
2027		4,104,199		
2028		1,566,103		
2029		395,207		
Thereafter		(1)		

H. Defined Other Post-Employment Benefit Plans

Plan Description. The District participates in the Texas Public School Retired Employees Group Insurance Program (TRS-Care). It is a multiple-employer, cost-sharing defined other post-employment benefit (OPEB) plan that has a special funding situation. The TRS-Care program was established in 1986 by the Texas Legislature.

The TRS Board of Trustees administers the TRS-Care program and the related fund in accordance with Texas Insurance Code Chapter 1575. The Board of Trustees is granted the authority to establish basic and optional group insurance coverage for participants as well as to amend benefit terms as needed under Chapter 1575.052. The Board may adopt rules, plans, procedures, and orders reasonably necessary to administer the program, including minimum benefits and financing standards.

OPEB Plan Fiduciary Net Position. Detail information about the TRS-Care's fiduciary net position is available in the separately issued TRS Annual Comprehensive Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at http://www.trs.texas.gov/Pages/about_publications.aspx; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512) 542-6592.

Benefits Provided. TRS-Care provides health insurance coverage to retirees from public and charter schools, regional education service centers and other educational districts who are members of the TRS pension plan. Optional dependent coverage is available for an additional fee.

Eligible non-Medicare retirees and their dependents may enroll in TRS-Care Standard, a high-deductible health plan. Eligible Medicare retirees and their dependents may enroll in the TRS-Care Medicare Advantage medical plan and the TRS-Care Medicare Rx prescription drug plan. To qualify for TRS-Care coverage, a retiree must have at least 10 years of service credit in the TRS pension system. There are no automatic post-employment benefit changes; including automatic COLAs.

The premium rates for retirees are reflected in the following table.

	TRS-Care Monthly Premium Rates				
	Medicare			Non-Medicare	
Retiree or Surviving Spouse	\$	135	\$	200	
Retiree and Spouse		529		689	
Retiree or Surviving Spouse		468		408	
Retiree and Family		1,020		999	

Contributions. Contribution rates for the TRS-Care plan are established in state statute by the Texas Legislature, and there is no continuing obligation to provide benefits beyond each fiscal year. The TRS-Care plan is currently funded on a pay-as-you-go basis and is subject to change based on available funding. Funding for TRS-Care is provided by retiree premium contributions and contributions from the state, active employees, and school districts based upon public school district payroll. The TRS Board of trustees does not have the authority to set or amend contribution rates.

Texas Insurance Code, section 1575.202 establishes the state's contribution rate which is 1.25% of the employee's salary. Section 1575.203 establishes the active employee's rate which is .65% of pay. Section 1575.204 establishes an employer contribution rate of not less than 0.25% or not more than 0.75% of the salary of each active employee of the public. The actual employer contribution rate is prescribed by the Legislature in the General Appropriations Act. The following table shows contributions to the TRS-Care plan by type of contributor.

	Contributions Rates		
	2023		2024
Active employee	0.65%		0.65%
Non-Employer Contributing Entity (State)	1.25%		1.25%
Employers	0.75%		0.75%
Federal/Private Funding Remitted by Employers	1.25%		1.25%
Current fiscal year employer contributions		\$	562,104
Current fiscal year member contributions			456,007
2023 measurement year NECE on-behalf contributions			659,570

In addition to the employer contributions listed above, there is an additional surcharge all TRS employers are subject to. When hiring a TRS retiree, employers are required to pay to TRS Care, a monthly surcharge of \$535 per retiree.

TRS-Care received supplemental appropriations from the State of Texas as the Non-Employer Contributing Entity in the amount of \$21.3 million in fiscal year 2023 provided by Rider 14 of the Senate Bill GAA of the 87th Legislature. These amounts were re-appropriated from amounts received by the pension and TRS-Care funds in excel of the state's actual obligation and then transferred to TRS Care.

Actuarial Assumptions. The total OPEB liability in the August 31, 2022 was rolled forward to August 31, 2023. The actuarial valuation was determined using the following actuarial assumptions:

The actuarial valuation of the OPEB plan offered through TRS-Care is similar to the actuarial valuation performed for the pension plan, except that the OPEB valuation is more complex. All the demographic assumptions, including rates of retirement, termination, and disability, and most of the economic assumptions, including general inflation and salary increases, used in the OPEB valuation were identical to those used in the respective TRS pension valuation. The demographic assumptions were developed in the experience study performed for TRS for the period ending August 31, 2021.

The following assumptions and other inputs used for members of TRS-Care are identical to the assumptions used in the August 31, 2022 TRS pension actuarial valuation that was rolled forward to August 31, 2023:

Rates of Mortality Rates of Retirement Rates of Termination Rates of Disability Incidence General Inflation Wage Inflation Expected Payroll Growth The active mortality rates were based on PUB(2010), Amount-Weighted, Below-Median Income, Teacher male and female tables (with a two-year set forward for males). The post-retirement mortality rates for healthy lives were based on the 2021 TRS of Texas Healthy Pensioner Mortality Tables. The rates were projected on a fully generational basis using the ultimate improvement rates from mortality projection scale MP-2021.

Additional Actuarial Methods and Assumptions

Valuation Date August 31, 2022, rolled forward to August 31, 2023

Actuarial Cost Method Individual Entry Age Normal

Inflation 2.3%

Discount Rate 4.13% as of August 31, 2023
Aging Factors Based on plan specific experience

Expenses Third-party administrative expenses related to the delivery of health

care benefits are included in the age-adjusted claims costs.

Projected Salary Increases 2.95% to 8.95%, including inflation

Healthcare Trend Rates The initial medical trend rates were 7.75 percent for Medicare retirees

and 7.00 percent for non-Medicare retirees. The initial prescription drug trend rate was 7.75 percent for all retirees. The initial trend rates decrease to an ultimate trend rate of 4.25 percent over a period of 12

years.

Election Rates Normal Retirement: 62% participation prior to age 65 and 25% after age

65. 30% of pre-65 retirees are assumed to discontinue coverage at age

hh.

Ad hoc post-employment benefit change: None

Discount Rate. A single discount rate of 4.13% was used to measure the total OPEB liability. There was an increase of 0.22 percent in the discount rate since the previous year.

Because the investments are held in cash and there is no intentional objective to advance fund the benefits, the single discount rate is equal to the prevailing municipal bond rate.

The source of the municipal bond rate is the Fidelity "20-year Municipal GO AA Index" as of August 31, 2023 using the fixed-income, market data/yield curve/data municipal bonds with 20 years to maturity that include only federally tax-exempt municipal bonds.

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the net OPEB liability if the discount rate used was 1% less than the discount rate that was used (4.13%) in measuring the net OPEB liability.

	1% Decrease in	1% Increase in		
	Discount Rate	Discount Rate	Discount Rate	
	(3.13%)	(4.13%)	(5.13%)	
Proportionate share of the net				
OPEB liability	\$ 16,429,881	\$ 13,949,733	\$ 11,925,874	

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEBs. At June 30, 2024, the District reported a liability of \$13,949,733 for its proportionate share of the TRS's net OPEB liability. This liability reflects a reduction for State OPEB support provided to the District. The amount recognized by the District as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collective net OPEB liability	\$ 13,949,733
State's proportionate share that is associated with the District	 16,832,497
Total	\$ 30,782,230

The net OPEB liability was measured as of August 31, 2022 and rolled forward to August 31, 2023 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to OPEB relative to the contributions of all employers to the plan for the period September 1, 2022 thru August 31, 2023.

At August 31, 2023 the employer's proportion of the collective Net OPEB Liability was 0.0630117480% which was a decrease of 0.0048265239% from its proportion measured as of August 31, 2022.

Healthcare Cost Trend Rates Sensitivity Analysis. The following schedule shows the impact of the net OPEB liability if a healthcare trend rate that is 1% less than and 1% greater than the health trend rates assumed.

				urrent Single althcare Trend		
	1% Decrease		Rate	1	l% Increase	
Proportionate share of the net						
OPEB liability	\$	11,486,907	\$	13,949,733	\$	17,118,167

Changes Since the Prior Actuarial Valuation. The following were changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period:

• The discount rate changed from 3.91 percent as of August 31, 2022 to 4.13 percent as of August 31, 2023, accompanied by revised demographic and economic assumptions based on the TRS experience study

Changes of Benefit Terms Since the Prior Measurement Date. There were no changes in benefit terms since the prior measurement date.

For the year ended June 30, 2024, the District recognized OPEB expense of \$(6,203,932) and revenue of \$(3,598,433) for support provided by the State.

At June 30, 2024, the District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to other post-employment benefits from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources		
Differences between expected and actual actuarial experiences Changes in actuarial assumptions	\$ 631,120 1,904,037	\$ 11,736,058 8,541,792		
Difference between projected and actual investment earnings Changes in proportion and difference between the employer's	6,027	-		
contributions and the proportionate share of contributions Contributions paid to OPEB subsequent to the measurement date	3,228,783 469,768	2,019,132 -		
Total as of fiscal year-end	\$ 6,239,735	\$ 22,296,982		

\$469,768 reported as deferred outflows of resources related to OPEB expense resulting from contributions subsequent to the measurement date will be recognized as a reduction of the OPEB liability for the year ending June 30, 2025. Other amounts reported as deferred outflows and inflows of resources related to the OPEB will be recognized in OPEB expenses as follows:

For the Year	OPEB
Ended June 30,	Expense
2025	\$ (3,675,763)
2026	(3,035,953)
2027	(2,169,761)
2028	(2,705,046)
2029	(2,269,848)
Thereafter	(2,670,644)

I. Medicare Part D - On-behalf Payments

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part D. One of the provisions of Medicare Part D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants. These on-behalf payments of \$398,288, \$332,592 and \$253,720 were recognized for the years ended June 30, 2024, 2023 and 2022, respectively, as equal revenues and expenditures.

J. Employee Health Care Coverage

During the year ended June 30, 2024, employees of the District were covered by a health insurance plan. The District contributed \$473 per month per employee to the plan, and employees, at their option, authorized payroll withholdings to pay contributions or premiums for dependents. All contributions were paid to a licensed insurer. The plan was authorized by Section 21.922, Texas Education Code and was documented by contractual agreement.

K. Commitments and Contingencies

Construction Commitments

The District has entered into various construction contracts for the construction, expansion, and improvement of school facilities, funded by the issuance bonded debt. As of June 30, 2024, the District is committed under construction contracts with a remaining balance of \$12,535,021.

Contingencies

The District participates in a number of federal financial assistance programs. Although the District grant programs have been audited in accordance with the provisions of the Uniform Guidance through June 30, 2024, these programs are subject to financial and compliance audits. The amounts, if any, of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the District expects such amounts, if any, to be immaterial.

In September 2014, the District entered into an agreement to lease property to a company who planned to develop a multi-purpose indoor athletic center (the "facility") to benefit both the District's students and the community at-large. The District has the right to use the facility during the school day, and if necessary, terminate the lease if the property is needed for future instructional purposes or for reasons of financial exigency. The facility opened in December 2015 and expected annual future lease income to the District is as follows:

		Lease
Year Ended June 30,		Income
2026-2030	\$	282,265
2031-2035		352,472
2036-2040		398,790
2041-2045		451,194
2046-2050		510,484
2051-2055		577,566
2056-2060		653,462
2061-2065		739,333
2066		78,587
Total	\$ 4	4,044,153

L. Changes within the Financial Reporting Entity

For the current year, the District reported a change in its financial reporting entity. The District previously reported the Series 2023 Bonds Fund as a nonmajor governmental fund. In the prior year, that classification was based on certain quantitative factors the fund had not exceeded, in addition to management's conclusion that the fund was not significant enough to merit presentation as a major fund for qualitative purposes. However, the quantitative threshold was surpassed in the current year which resulted in the fund being reclassified as a major fund.

The changes within the financial reporting entity described above resulted in adjustments to beginning fund balance as follows:

	6/30/2023	Changes	
	As Previously	Within Financial	6/30/2023
	Reported	Reporting Entity	As Restated
Governmental Funds			
Major Funds:			
General Fund	\$ 30,298,438	\$ -	\$ 30,298,438
Debt Service Fund	19,992,318	=	19,992,318
Series 2023 Bonds Fund	=	(216,175)	(216,175)
Nonmajor funds	17,225,105	216,175	17,441,280
Total governmental funds	\$ 67,515,861	<u> </u>	\$ 67,515,861

M. Significant Forthcoming Standards

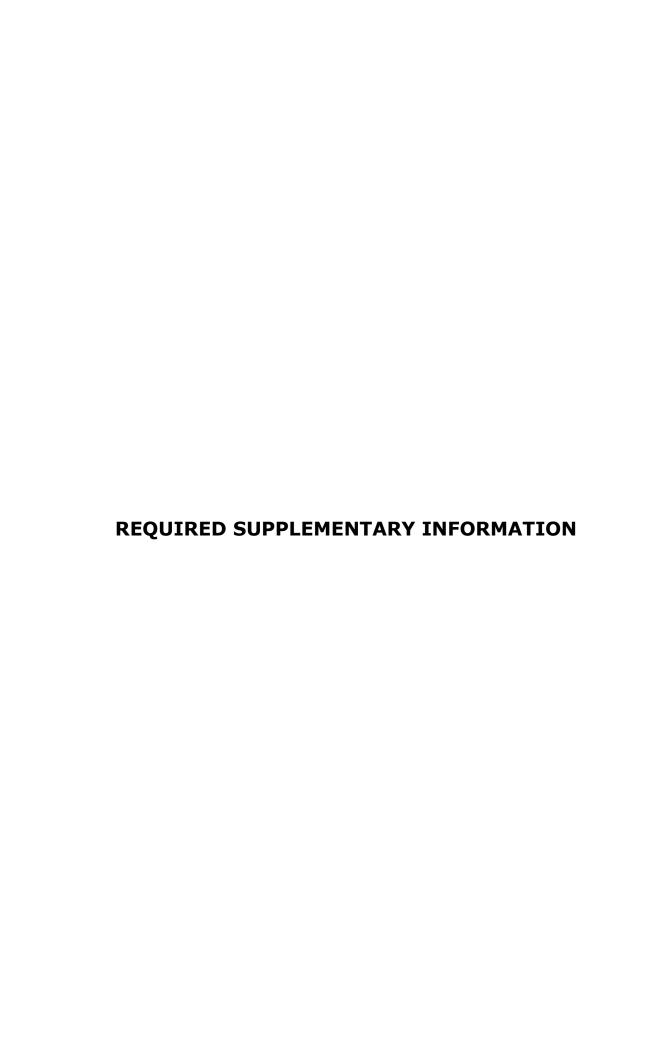

Significant new accounting standards issued by the Governmental Accounting Standards Board (GASB) not yet implemented by the District include the following:

GASB Statement No. 101, Compensated Absences – The objective of this Statement is to better meet the information needs of financial statement users by updating the recognition and measurement guidance for compensated absences. That objective is achieved by aligning the recognition and measurement guidance under a unified model and by amending certain previously required disclosures. This Statement will become effective for reporting periods beginning after December 15, 2024, and the impact has not yet been determined.

GASB Statement No. 102, Certain Risk Disclosures – The objective of this Statement is to provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. The requirements of this Statement are effective for fiscal years beginning after June 15, 2024, and the impact has not yet been determined.

GASB Statement No. 103, Financial Reporting Model Improvements – The objective of this Statement is to improve key components of the financial reporting model to enhance its effectiveness in providing information that is essential for decision making and assessing a government's accountability. This Statement also addresses certain application issues. This Statement will become effective for reporting periods beginning after June 15, 2025, and the impact has not yet been determined.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

FOR THE YEAR ENDED JUNE 30, 2024

Budgetary Information

The Board of Trustees adopts an "appropriated budget" for the General Fund, the Child Nutrition Fund, which is included in the Nonmajor Enterprise Funds, and the Debt Service Fund.

The District is required to present the adopted and final amended budgeted revenue and expenditures for each of these funds. The District compares the final amended budget to actual revenue and expenditures. The General Fund Budget is presented at Exhibit G-1 and the Child Nutrition and the Debt Service Funds are presented at Exhibit J-2 and J-3.

The following procedures are followed in establishing the budgetary data reflected in the basic financial statements:

- 1. Prior to June 20, the District prepares a budget for the next succeeding fiscal year beginning July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. A meeting of the Board is then called for the purpose of adopting the proposed budget. At least 10 days' public notice of the meeting must be given.
- 3. Prior to June 30, the budget is legally enacted through passage of a resolution by the Board. Once a budget is approved, it can only be amended at the function and fund level by approval of a majority of the members of the Board. Amendments are presented to the Board at its regular meetings. Each amendment must have Board approval. As required by law, such amendments made before the fact, are reflected in the official minutes of the Board, and are not made after fiscal year-end. Because the District has a policy of careful budgetary control, several amendments were necessary during the year. However, none of these were significant.
- 4. Each budget is controlled by the budget coordinator at the revenue and expenditure function/object level. Budgeted amounts are as amended by the Board. All budget appropriations lapse at year-end.
- 5. Encumbrances for goods or purchased services are documented by purchase orders or contracts. Under Texas law, appropriations lapse at June 30, and encumbrances outstanding at that time are to be either canceled or appropriately provided for in the subsequent year's budget. The District had outstanding encumbrances of \$552,055 at year-end.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH **GOVERNMENT AUDITING STANDARDS**

Board of Trustees Eanes Independent School District Austin, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States (Government Auditing Standards), the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Eanes Independent School District as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise Eanes Independent School District's basic financial statements, and have issued our report thereon dated October 22, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Eanes Independent School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Eanes Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Eanes Independent School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of Eanes Independent School District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

Patillo, Brown & Hill, L.L.P.

As part of obtaining reasonable assurance about whether Eanes Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Eanes Independent School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Eanes Independent School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH THE UNIFORM GUIDANCE

Board of Trustees Eanes Independent School District Austin, Texas

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited Eanes Independent School District's (the "District") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* that could have a direct and material effect on each of the District's major federal programs for the year ended June 30, 2024. The District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2024.

Basis for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (*Government Auditing Standards*); and the audit requirements of Title 2 *U.S. Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal program. Our audit does not provide a legal determination of the District's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules and provisions of contracts or grant agreements applicable to the District's federal programs.

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the District's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about District's compliance with the requirements of each major federal program as a whole.

In performing an audit in accordance with GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the District's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the District's internal control over compliance relevant to the audit in
 order to design audit procedures that are appropriate in the circumstances and to test and report
 on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose
 of expressing an opinion on the effectiveness of the District's internal control over compliance.
 Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

JUNE 30, 2024

1. GENERAL

The Schedule of Expenditures of Federal Awards presents the activity of all applicable federal award programs of Eanes Independent School District. The District's reporting entity is defined in Note I of the financial statements. Federal awards received directly from federal agencies, as well as federal awards passed through other government agencies, are included on the Schedule of Expenditures of Federal Awards.

2. BASIS OF ACCOUNTING

The Schedule of Expenditures of Federal Awards is presented using the modified accrual basis of accounting. The District's significant account policies, including the modified accrual basis of accounting, are presented in Note 1 of the basic financial statements. The information in the schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some of the amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements.

3. PASS-THROUGH EXPENDITURES

None of the federal programs expended by the District were provided to subrecipients.

4. INDIRECT COSTS

The District did not elect to use a de minimis cost rate as described at 2 CFR 200.414.(f) - Indirect (F&A) costs.

5. RECONCILIATION OF FEDERAL REVENUES

The following is the reconciliation of federal revenues and the Schedule of Expenditures of Federal Awards for the year ended June 30, 2024.
