Course Overview

Middle School | 7 | FCS - *Last Updated on October 28, 2024*

DESCRIPTION

K-12 Content Area | Mission & Philosophy Statement

- Financially literate consumers are able to effectively manage personal budgets to reach economic stability and long-term financial objectives.
- Healthy adults utilize their knowledge of nutrition, along with meal planning, preparation skills, and food safety practices to make lifestyle decisions that promote long-term well-being for themselves and their families.
- Strong communication and conflict resolution skills are essential for establishing and sustaining positive family and professional connections, leading to personal and professional satisfaction.
- Knowledgeable consumers understand their rights and responsibilities, empowering them to navigate the marketplace in a proficient and ethical manner.

Course Description

Family and Consumer Science students learn through a variety of curriculum-based projects and hands-on experiences. Development of basic skills in nutrient, home safety, food preparation, measurement, consumerism, sewing, operating the sewing machine, child development, and finance is integral to student learning. Experiences are designed to assist students in achieving the competence and responsibility needed to become contributing community and family members. In addition, the curriculum aids students in developing personal abilities, confidence, and interests.

Family and Consumer Science grade 7 is a rigorous course designed to teach students independent living skills. Students are taught and expect to recall prior learning on their cooking & baking skills such as measuring, reading recipes, understanding modern day household appliances, and vocabulary. Students are expected to be comfortable within the kitchen and know how to work as a team and complete household tasks. Students are proficient in doing the dishes and independently cooking. Students learn new appliances in the kitchen and the many uses as well as learn knife skills and apply their skills to multiple recipes. Students are expected to recall the parts of the sewing machine, how to thread the machine, and operate the sewing machine. Students will independently complete a moderate sewing project. Students focus on calculating what type of lifestyle they want to live, how to create a budget for it, and what jobs are going to satisfy their lifestyle. Students complete basic living tasks such as comparing prices, how to be an effective consumer, the difference in checking and savings accounts, cleaning up after themselves, safety and sanitation, and other life financial skills.
