September 27, 2024

Dear Citizens and Board Members:

The Annual Comprehensive Financial Report of Walled Lake Consolidated School District (the "School District") for the fiscal year ended June 30, 2024 is hereby submitted. This report was prepared by the business department and contains all activities under the control of the Board of Education. Responsibility for both the accuracy of the information and the completeness and fairness of the presentation, including all disclosures, rests with the School District. To the best of our knowledge and belief, the enclosed information is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the School District as measured by the School District's government-wide financial activity and the activity of its various funds, with all disclosures necessary to enable the reader to gain an understanding of the School District's financial activities.

Reporting Entity and Services

Walled Lake Consolidated School District is an independent reporting entity fully meeting the criteria established by the Governmental Accounting Standards Board. All funds of the School District are included in this report. The School District does not have component units.

The financial section reports separately the government-wide activities, the governmental fund types, and the fiduciary fund type administered by the board.

Annual Comprehensive Financial Report Organization

This Annual Comprehensive Financial Report was prepared to meet the needs of a broad spectrum of financial statement readers and is divided into the following major sections:

Introductory Section

This section introduces the reader to Walled Lake Consolidated School District and to this report. Included are facts about the School District, this transmittal letter, and the School District's organizational chart. This letter of transmittal is designed to complement the management's discussion and analysis and should be read in conjunction with it. The management's discussion and analysis can be found in the financial section of this document.

Financial Section

The independent auditor's report, management's discussion and analysis, government-wide financial statements, fund financial statements, and notes to the financial statements are included in this section. These are the School District's basic financial statements and provide an overview for readers who require less detailed information than is contained in the balance of the report. In addition to the basic financial statements, this section includes required and other supplemental information.

The management of the School District is responsible for the financial information and representations contained in the financial statements and other sections of the annual report. In preparing the financial statements, it is necessary that management make informed estimates and judgments based on currently available information of the effects of certain events and transactions.

The basic financial statements and supplemental information presented in the financial section of this report present fairly and with full disclosure the financial position and results of the financial operation of the funds in conformity with accounting principles generally accepted in the United States of America and demonstrate compliance with finance-related legal and contractual provisions.

The basis of accounting for each fund is consistent with the activities and objectives of the fund as a fiscal and accounting entity.

The required and other supplemental information contain a more detailed analysis of revenue and expenditures that are compared to the 2023-2024 budgets for the General, Special Revenue, and Capital Projects Funds. In addition, there are combining schedules shown by fund type with totals that agree with those reflected in the basic financial statements section.

Statistical Section

Although this section contains substantial financial information, these tables differ from financial statements in that they present some nonaccounting data, compare 10 years of data, and are intended to reflect economic data, financial trends, and the fiscal capabilities of the School District.

About Walled Lake Consolidated School District

The Community

The School District, located in southwestern Oakland County, encompasses more than 55 square miles and includes all or part of nine governmental units: the Cities of Farmington Hills, Novi, Orchard Lake, Walled Lake, and Wixom, the Townships of Commerce, West Bloomfield, and White Lake, and the Village of Wolverine Lake.

Residents may take advantage of many recreational and cultural opportunities. In 45 minutes or less, one can visit the city of Detroit with its fine museums, restaurants, and entertainment. Cranbrook Institute, Greenfield Village, the University of Michigan, Oakland University, Eastern Michigan University, Michigan State University, Wayne State University, and the University of Detroit Mercy are within approximately an hour's drive. More than 40 lakes and several riding stables, golf courses, tennis clubs, and ski areas serve the immediate area.

The Educational Program

The School District has 12 elementary schools (K-5), four middle schools (6-8), three high schools (9-12), an early childhood center, Junior Kindergarten programs at seven of our elementary buildings, an educational services center, a maintenance/transportation building, and an outdoor education center. We currently serve over 12,100 K-12 students that includes approximately 5,600 elementary students, 2,800 middle school students, and 3,700 high school students.

The School District has a comprehensive educational program for students of all ages. This includes both an early intervention preschool program and a Reading Recovery/Intervention program in each of our elementary buildings. In addition to a solid, basic core academic curriculum of language arts, math, science, and social studies, students also have a variety of extended programs such as K-12 fine arts, physical education, and advanced technology programs. World languages and technical education begin at the middle school, as well as extracurricular offerings, including athletics and various clubs. A full range of courses is also available to high school students, including Advanced Placement curriculum and an International Baccalaureate Program. The School District also offers a virtual program for our ninth through twelfth graders which allows them to take a full course load of virtual classes with ongoing support provided by high qualified Walled Lake teachers. Beyond special education service for students pre-K to grade 12, the District also provides an Adult Transition Program for students ranging from 18 to 22 years of age with moderate to severe disabilities. To meet the needs of our families, a fee-based before-and-after-school activities program that is part of our Community Education department offers several opportunities for enrichment to our students.

Business partnerships, job placement, enrichment classes, and assistance to non-English-speaking students are areas of emphasis throughout our K-12 program, as well as our continuing adult education program. The school District's division of continuing education consists of an adult education and recreation/enrichment department directed at meeting the comprehensive needs of the community. During a typical year, programs and services offered might include

some of the following: basic skills (reading/math) improvement, E.L.D. (English language development) classes, classes for preschoolers in grant-funded and tuition-funded programs, GED testing/preparation, sports leagues/tournaments (youth and adult), leisure/hobby programs, informational seminars/classes, swimming (instructional and recreational), trips and tours/special events, summer and winter day camps, youth sports camps, and senior citizen resource referral. These community programs and services start with preschool-age children and continue to senior citizen participation with nearly 20,000 registrations processed each year.

The School District's educational program is built upon a foundation of sound practices designed to promote continuous improvement. The core curriculum of Walled Lake Consolidated School District provides learning experiences in all areas of language arts (phonics, reading, writing, speaking, listening, and literature), mathematics, social studies, science, health, physical education, art, vocal and instrumental music, computer instruction (including preparation for Novel and Cisco certification at the high school level), technology education, family life education, business, and world language instruction. The goal of education is to provide all learners with a solid foundation of skills and knowledge, which is necessary for continued growth and success as students within the school setting and as adults in society. As a result of a sound K-12 education based on well-defined benchmarks and related assessments, a Walled Lake Consolidated School District graduate will be "...a caring, knowledgeable, responsible citizen" as defined in the School District's mission statement. Walled Lake Consolidated School District's parents value and support education. Walled Lake Consolidated School District enjoys the active support and participation of parents in PTA groups, booster clubs, and building- and District-level committees. Parent attendance at parent/teacher conferences is high, as is the level of parent volunteerism for activities and programs. The high level of parent involvement contributes greatly to the overall quality of the School District's programs.

Accomplishments

Initiatives

A District Facility Study, initially performed years ago, was updated during the 2023/2024 school year. In May 2024, the Walled Lake Consolidated School District community approved a \$250 million "Building Opportunity and Ensuring Tomorrow" Bond. The focus of the bonds is on safety and security, technology upgrades, program enhancements and infrastructure improvements. All of these initiatives are intended to offer appropriate spaces for instructional opportunities and allow the District to "right size" based on the recommendations from the 2023-24 District Facility Study Committee. The 2024 bonds are anticipated to be sold in four series which commenced with the first series being sold in June of 2024.

The Board of Education supported this bond based on the beliefs that the bond initiatives would benefit the students and community in the following ways:

- Continue the strong focus on the safety and security of our staff and students
- Offer spaces, programs, and technology that engage students and promote a dynamic, collaborative, and stimulating atmosphere

- Provide improved environmental quality and operational efficiency by continuing to update outdated building systems/finishes
- Align the District footprint with enrollment projections, and provide comparable learning opportunities for all students
- Protect our residential property values by having a strong and solid school system

Projects that are in the initial proposal to be supported by the 2024 Bond include:

- Enhance the safety and security systems in buildings throughout the District
- Update the fiber optic network throughout the District
- Replace and upgrade instructional technology
- Improve internal/external public communications through new digital signs and other similar mechanisms
- Improve the current learning environment with interior upgrades for multiple buildings
- Replace the current Wixom Elementary School on a new site to align with the City of Wixom Master Plan
- Provide for site upgrades at multiple locations to improve safety through lighting, paving, sidewalk replacements etc.
- Continue upgrade of Western High school that commenced with the 2019 bond
- Alignment of 4 middle schools into 3, based on the recommendation from the committee
- Allow for placement of programs and services into new or improved locations to better serve the needs of the students, staff and community

The 2024 Bond is an extension of the commitment by the District, through the support of the Walled Lake Consolidated School Community, to provide facilities that match the opportunities that are reflected in the WLCSD educational offerings. The passage of this and past bond proposals, provide the needed resources to fund the facility initiatives that cannot be funded through the general fund.

In September of 2021, the District implemented a comprehensive and robust Multi-Tiered System of Supports (MTSS) process at the elementary level. This process also included adding an Instructional Specialist at each elementary to coach staff and provide intensive supports to struggling students. In October of 2022, the District implemented a MTSS system for our middle and high schools. This implementation at the secondary level includes Instructional Specialists to support English language arts and math at both the middle and high school level. The commitment to all learners is evidenced by continued allocation of resources to the refinement and adherence to the MTSS process, even as COVID related funds utilized to support some of these initiatives over the last several years will be sunseting early in fiscal year 2024-2025.

BOARD GOALS

The Board of Education has adopted the following goals:

Student Success: Ensure that every student is able to reach his/her potential by focusing on:

- ✓ Academic and personal success
- ✓ Ensuring instructional strategies and practices are research-based and meet the needs of all learners
- ✓ Collaboration and innovation among all members of our school community
- ✓ The needs of all learners, and developing action plans to help support those needs
- ✓ Using data as a means to help drive instruction and planning
- ✓ Supporting best practices, proven interventions, and the professional development of our teachers and administrators

Fiscal Responsibility: Ensure long-term fiscal health of the School District while maximizing dollars available for the classroom and encouraging innovation and the implementation of proven strategies and programs by:

- ✓ Developing budgets that are focused and centered on student achievement goals
- ✓ Continuing efficiency and collaboration efforts

Community Outreach: In partnership with parents and the community, students and staff continually demonstrate they are caring, responsible, and knowledgeable citizens by:

- ✓ Including the community in school and School District events, activities, and efforts
- ✓ Involving parents and the community in decisions that affect and benefit the Walled Lake Consolidated School District
- ✓ Communicating information to the community to build awareness of Walled Lake Consolidated School District
- ✓ Providing opportunities for our community to be involved in the School District
- ✓ Building partnerships with diverse organizations to mutually strengthen the School District and the communities we serve

Positive District Culture: Ensure that students are able to thrive in a culture that is safe and positive for them, for staff, for parents, and for our community by:

- ✓ Creating a culture of safety and social well-being
- ✓ Promoting “no tolerance” standards for bullying, harassment, and other unacceptable behaviors
- ✓ Ensuring that schools and facilities are maintained to the highest degree
- ✓ Expecting students, staff, and the entire school community to demonstrate respect for one another
- ✓ Expecting students, staff, and the entire school community to communicate, model, and reinforce standards of ethical conduct and responsible global citizenship

- ✓ Continuing to ensure our schools are safe learning environments by annually reviewing Safety Plans, collaborating with local law enforcement officials, and cultivating an overall culture of “safety first”

Professional Development

The ongoing educational needs of the staff of the Walled Lake Consolidated School District are an important focus throughout the School District. Most of these needs are addressed now in a “job-embedded” fashion in which workshops, seminars, and training sessions include topics of immediate interest to teachers, administrators, and support staff.

Such sessions are conducted throughout the year and most often provide participants multiple opportunities to return to important topics to build their skills over time. Topics include Business and Human Resource office initiatives and current technology topics, as well as safety issues, cultural awareness, and numerous instructional ideas.

Professional development in the School District may be organized by teacher leaders, by administrators, by members of the curriculum department, or by colleagues within departments for whom the activities are designed. Topics are current and relevant to procedures and practices, based on ongoing staff feedback and are scheduled with an eye to “on-time delivery.” Planning is collaborative between planners and participants. Responsibilities for content, format, and schedules are now widely assumed by many staff members.

The purpose of all professional development, however, remains constant:

- To support teachers and administrators in the implementation of the School District’s curricular and assessment programs
- To support the analysis of student achievement data
- To promote excellent instruction in every classroom
- To ensure that all employees are sufficiently literate in technology
- To provide specialized training for employees, especially in areas such as special education assignments, transportation, food service, etc.

Economic Outlook

Based on the most recent data available, Oakland County’s economy has now recovered from the pandemic recession by most metrics. The number of employed residents (inclusive of those employed outside of Oakland county) recovered to its pre-pandemic level in March of 2023, and exceeded pre-pandemic levels by 1.3 percent in February of 2024. Oakland’s unemployment rate registered 2.9% in February of 2024, .5 percentage points below its average in 2019, and the County’s real gross domestic product in 2022 came in 3.7% higher than in 2019. One key measure remains short of pre-pandemic levels: the count of payroll jobs located in the County was still 1.8% short of a full recovery in the third quarter of 2023. The outlook for the County’s economic performance is projected through 2026 to remain strong with count of payroll jobs expected to grow an average of 1.1%, unemployment to hold steady near 3%, the labor force to be 3.8%

higher than pre-pandemic and for real wage growth to grow at a very modest .5% per year for the next three years while local inflation is projected to remain higher than pre-pandemic levels.

Over the last couple of years, school Districts, including Walled Lake Consolidated School District, have received an unprecedented amount of COVID-related grants and funding. For the first time in many years, additional state revenue was also possible. The dollars received provided the means to cover the wealth of costs incurred as Districts managed changing circumstances and the countless costs surrounding the pandemic. General fund dollars were able to be put aside to assist with ongoing operating expenditures and provide the stability necessary for long-term planning. This has allowed fund balance for many schools, including Walled Lake Consolidated School District, to increase. The strategic plan for the District's fund balance was to invest in personnel evidenced by settled contracts that included competitive wages. It was recognized that this was necessary to create stability in the District but may require adjustments in the future to be sustainable.

The most significant financial challenges facing the District in the coming years are: 1) The sunset of COVID related funding early in 2024-2025; 2) Enrollment projections reflecting a continued decline as a function of lower birth rates; and 3) Human resource talent retention and attraction requiring a competitive wage at a time when the Michigan revenue consensus reports seemed to indicate less resources to support the School State Aid fund. These projections result in the likelihood that Foundation increases will be more modest in the future and appear that they will not keep pace with inflation.

Financial Information

Budget Process

The development of the District's budget is under the supervision and direction of the Superintendent. The budget process typically begins in November of each year. The Assistant Superintendent of Business Services develops a timeline and prepares a preliminary financial forecast as well as detailed budget documents for the Board of Education.

The information is also presented as a budget package to the Superintendent's administrative team, who are asked to provide feedback and suggestions. During the months of March and April, the budget is presented and discussed with departments, buildings and union leadership. Comments and ideas are submitted to the Board of Education for consideration. The Community can also address the Board of Education at any of the Board of Education meetings until the budget is adopted.

Once this process is complete, a preliminary budget is prepared and presented in a study session to the Board of Education for discussion. This study session is typically held in March or April. Information is shared on the District's website and through individual school building newsletters.

The Public Hearing on the budget is typically held in June. As required by State law, the budget for the following fiscal year must be adopted by June 30 of the prior year.

In addition to the annual budget process for the upcoming school year, the Assistant Superintendent of Business Services also prepares long term projections. Each year the District budget document is submitted to the Association of School Business Officials International and meets the requirements of the Meritorious Budget Award.

Accounting Controls

Management is responsible for establishing and maintaining an internal control structure. This structure is designed to ensure that the assets of the School District are protected from loss, theft, or misuse and that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with accounting principles generally accepted in the United States of America. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgetary Controls

The School District maintains budgetary controls to ensure that budgets are in compliance with legal provisions of the State of Michigan Uniform Budgeting and Accounting Act and with the annual appropriation budget adopted by the Board of Education. Formal budgetary integration is employed as a management control device throughout the year for the General Fund, special revenue funds, and capital projects funds. Under the guidelines of the State of Michigan's School Accounting Manual (Bulletin 1022), detailed line-item budget information is provided and appropriate administrators are delegated the responsibility for monitoring and controlling their respective budget allocations. The controls are integrated into the School District's computerized accounting system, which prohibits expenditures exceeding appropriations. An encumbrance system is utilized to measure the uncommitted budget amount available at any given point in time during the year. The budget is amended at least twice during the year to appropriately address variances that occur in enrollment, revenue, and expenditures.

Management believes that the existing system of budgetary and accounting controls provides a reasonable level of assurance that errors or irregularities that could be material to the financial statements are prevented or that they would be detected within a timely manner. As demonstrated by the statements and schedules included in the financial section of this report, the School District continues to meet its responsibility for sound financial management.

Financial Condition at June 30, 2024

Please refer to the management's discussion and analysis section for a summary of the financial condition of the School District at June 30, 2024.

Capital Projects Funding

The capital projects funds are used to account for the financial resources to be used for the acquisition, construction, or major renovation of facilities. These funds are financed by bond issues or the support of the General Fund. Four funds are currently active, the 2020 Bond Fund, the 2022 Bond Fund, the 2024 Bond Fund, and the Sinking Fund.

Federal Funding

As a recipient of federal, state, and county financial assistance, the School District is responsible for ensuring that an adequate internal and administrative control structure is in place to document compliance with applicable laws and regulations related to those programs. Tests are made by the School District's auditors to determine the adequacy of the internal and administrative control structure.

Independent Audit

The State of Michigan statutes require an annual audit by independent certified public accountants. The accounting firm of Plante & Moran, PLLC was appointed by the Walled Lake Consolidated School District Board of Education to perform this service for the 2023-2024 fiscal year. In addition, the Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (the "Uniform Guidance"), requires governmental recipients of federal assistance to have organization-wide financial and compliance audits on an annual basis. Both of these requirements have been met, and the auditor's report on the basic financial statements is included herein.

Fund Balance Policy

Board practice recommends that the annual budget maintain an end-of-year General fund balance that should not fall below six percent (6%) of the preceding year's expenditures.

Fund equity may be used to supplement possible shortfalls in state, federal, and local revenues, used as a reserve for possible emergency expenditures or for other reasons deemed necessary by the board. Emergency expenditures may not be taken from the fund equity unless possible surpluses in the existing school budget have been appraised. Emergency expenditures may be recommended by the superintendent and approved by the board. Fund equity funds may not be transferred to expenditure accounts without board approval.

Other Information

Enrollment

Five-year projections of enrollment are done annually using data from the county, city, and School District. Such information as live births, building permits, cohort survival ratios, and workforce/economic statistics are used in the enrollment projections. Historically, this method has proven to be accurate, within a reasonable variance, for our planning purposes. Enrollment has been declining for several years. Current enrollment, based on full-time-equivalents, is 12,137 students, and enrollment is projected to decline by 273 students to 11,864 for 2024/2025.

Initially, the extended recession had an impact on District enrollment as job losses caused many families to leave Michigan. What we are experiencing now is the impact of declining birth rates. Incoming kindergarten classes are smaller than graduating seniors. Enrollment studies performed lead us to believe that the School District will continue to experience declining enrollment for the next several years, as birth rates have remained low.

Certificate of Excellence

This report has been prepared following the guidelines recommended by the Association of School Business Officials International (ASBO). The ASBO awarded a certificate of excellence in financial reporting to the Walled Lake Consolidated School District for its Annual Comprehensive Financial Report for each of the fiscal years ended June 30, 1994 through June 30, 2023. In order to be awarded a certificate of excellence, the School District must publish an easily readable and efficiently organized Annual Comprehensive Financial Report. This report must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A certificate of excellence is valid for a period of one year only. We believe that our current Annual Comprehensive Financial Report continues to meet the certificate of excellence program's requirements, and we are submitting it to ASBO to determine its eligibility for another certificate.

Meritorious Budget Award

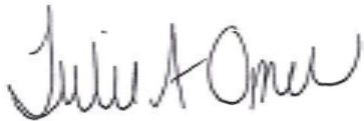

The ASBO has awarded a meritorious budget award to Walled Lake Consolidated School District for its budget documents created for each of the fiscal years ended June 30, 2005 through June 30, 2024. We have submitted our budget document for June 30, 2025 and anticipate receiving the certificate. The program was designed to encourage school districts to achieve a very high standard of excellence in budget presentation. In order to be awarded the meritorious budget award, a school district must meet minimum presentation standards for a school system's annual budget document.

Acknowledgments

The preparation of this report was accomplished through the commitment and dedication of the entire business office staff. We would also like to express our appreciation to other departmental individuals who assisted in the preparation of this report.

The School District is highly committed to a program of excellence. A highly dedicated Board of Education has adopted sound policies that facilitate the continued growth and improvement of the total school program. In addition, there is a wide, all-encompassing array of support provided by parents, students, employees, citizens, civic organizations, and hundreds of volunteers that enables the School District to achieve high goals.

Sincerely,

Independent Auditor's Report

To the Board of Education
Walled Lake Consolidated School District

Report on the Audit of the Financial Statements

Opinions

We have audited the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Walled Lake Consolidated School District (the "School District") as of and for the year ended June 30, 2024 and the related notes to the financial statements, which collectively comprise the School District's basic financial statements, as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the School District as of June 30, 2024 and the respective changes in its financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the School District and to meet our other ethical responsibilities in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for 12 months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with GAAS and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

To the Board of Education
Walled Lake Consolidated School District

In performing an audit in accordance with GAAS and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and other required supplementary information, as identified in the table of contents, be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The supplementary information, as identified in the table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Information

Management is responsible for the other information included in the Annual Comprehensive Financial Report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

To the Board of Education
Walled Lake Consolidated School District

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements or whether the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 27, 2024 on our consideration of the School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

A handwritten signature in black ink that reads "Plante & Moran, PLLC". The signature is written in a cursive, flowing style.

Walled Lake Consolidated School District

Management's Discussion and Analysis

This section of Walled Lake Consolidated School District's (the "School District") annual financial report presents our discussion and analysis of the School District's financial performance during the year ended June 30, 2024. Please read it in conjunction with the School District's financial statements, which immediately follow this section.

Using This Annual Report

This annual report consists of a series of financial statements and notes to those financial statements. These statements are organized so the reader can understand Walled Lake Consolidated School District financially as a whole. The government-wide financial statements provide information about the activities of the whole School District, presenting both an aggregate view of the School District's finances and a longer-term view of those finances. The fund financial statements provide the next level of detail. For governmental activities, these statements tell how services were financed in the short term and what remains for future spending. The fund financial statements look at the School District's operations in more detail than the government-wide financial statements by providing information about the School District's most significant funds, the General Fund, the 2024 Bond Issue Fund, the 2022 Bond Issue Fund, and the 2020 Bond Issue Fund, with all other funds presented in one column as nonmajor funds. The remaining statements, the statements of fiduciary net position and changes in fiduciary net position, present financial information about activities for which the School District acts solely as an agent for the benefit of students and parents. This report is composed of the following elements:

Management's Discussion and Analysis (MD&A) (Required Supplementary Information)

Basic Financial Statements

Government-wide Financial Statements

Fund Financial Statements

Notes to Financial Statements

Required Supplementary Information

Budgetary Comparison Schedule - General Fund

Schedule of the School District's Proportionate Share of the Net Pension Liability

Schedule of Pension Contributions

Statistical Section

Reporting the School District as a Whole - Government-wide Financial Statements

One of the most important questions asked about the School District is, "As a whole, what is the School District's financial condition as a result of the year's activities?" The statement of net position and the statement of activities, which appear first in the School District's financial statements, report information on the School District as a whole and its activities in a way that helps you answer this question. We prepare these statements to include all assets, deferred outflows of resources, liabilities, and deferred inflows of resources using the accrual basis of accounting, which is similar to the accounting used by most private sector companies. All of the current year's revenue and expenses are taken into account, regardless of when cash is received or paid.

Walled Lake Consolidated School District

Management's Discussion and Analysis (Continued)

These two statements report the School District's net position - the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, as reported in the statement of net position. Over time, increases or decreases in the School District's net position, as reported in the statement of activities, are indicators of whether its financial health is improving or deteriorating. The relationship between revenue and expenses is the School District's operating results. However, the School District's goal is to provide services to our students, not to generate profits as commercial entities do. One must consider many other nonfinancial factors, such as the quality of the education provided and the safety of the schools, to assess the overall health of the School District.

The statement of net position and the statement of activities report the governmental activities for the School District, which encompass all of the School District's services, including instruction, support services, community services, athletics, and cafeteria. Property taxes, unrestricted state aid (foundation allowance revenue), and state and federal grants finance most of these activities.

Reporting the School District's Fund Financial Statements

The School District's fund financial statements provide detailed information about the most significant funds, not the School District as a whole. Some funds are required to be established by state law and by bond covenants. However, the School District establishes many other funds to help it control and manage money for particular purposes (the Cafeteria and Enrichment/Prime Time Care funds are examples) or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money (such as bond-funded construction funds used for voter-approved capital projects).

Governmental Funds

Governmental fund reporting focuses on showing how money flows into and out of funds and the balances left at year end that are available for spending. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the operations of the School District and the services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the School District's programs. We describe the relationship (or differences) between governmental activities (reported in the statement of net position and the statement of activities) and governmental funds in a reconciliation.

Fiduciary Funds

The School District has certain fiduciary responsibility for its custodial funds. For these funds, the School District's fiduciary activities are reported in the separate statement of fiduciary net position and statement of changes in fiduciary net position. We exclude these activities from the School District's other financial statements because the School District cannot use these assets to finance its operations. The School District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

Walled Lake Consolidated School District

Management's Discussion and Analysis (Continued)

The School District as a Whole

Recall that the statement of net position provides the perspective of the School District as a whole. The following table provides a summary of the School District's net position as of June 30, 2024 and 2023:

	Governmental Activities	
	2024	2023
	(in millions)	
Assets		
Current and other assets	\$ 235.9	\$ 214.6
Capital assets	406.9	361.3
Total assets	642.8	575.9
Deferred Outflows of Resources	97.4	121.9
Liabilities		
Current liabilities	47.8	45.5
Noncurrent liabilities	417.4	376.6
Net pension liability	271.2	321.5
Net OPEB liability	-	17.7
Total liabilities	736.4	761.3
Deferred Inflows of Resources	97.5	80.7
Net Position (Deficit)		
Net investment in capital assets	121.8	123.9
Restricted	28.6	11.7
Unrestricted	(244.1)	(279.8)
Total net position (deficit)	\$ (93.7)	\$ (144.2)

The above analysis focuses on net position. The change in net position of the School District's governmental activities is discussed below. The School District's net position was \$(93.7) million at June 30, 2024. Net investment in capital assets, totaling \$121.8 million, compares the original cost, less depreciation and amortization of the School District's capital assets, to long-term debt used to finance the acquisition of those assets. Most of the debt will be repaid from voter-approved property taxes collected as the debt service comes due. Restricted net position is reported separately to show legal constraints from debt covenants and enabling legislation that limit the School District's ability to use that net position for day-to-day operations. The remaining amount of net position, \$(244.1) million, was unrestricted.

The \$(244.1) million in unrestricted net position of governmental activities represents the accumulated results of all past years' operations and the impact from adoption of GASB Statement Nos. 68 and 75 (recording the School District's share of the net pension liability and OPEB asset from the state-managed retirement system). Unrestricted net position, when available, would enable the School District to meet working capital and cash flow requirements and to provide for future uncertainties. The operating results of the General Fund and the change in the net pension/OPEB liabilities (assets) will have significant impacts on the change in unrestricted net position (deficit) from year to year.

Walled Lake Consolidated School District

Management's Discussion and Analysis (Continued)

The results of this year's operations for the School District as a whole are reported in the condensed statement of activities below, which shows the changes in net position for the years ended June 30, 2024 and 2023:

	Governmental Activities	
	2024	2023
	(in millions)	
Revenue		
Program revenue:		
Charges for services	\$ 6.8	\$ 7.6
Operating grants	83.6	64.6
General revenue:		
Property taxes	62.8	58.6
State aid not restricted to specific purposes	84.5	80.4
Other	8.5	2.5
Total revenue	246.2	213.7
Expenses		
Instruction	106.8	109.9
Support services	66.0	68.1
Athletics	2.2	2.0
Food services	5.5	4.3
Community services	2.4	2.1
Debt service	12.0	11.9
Depreciation and amortization expense (unallocated)	0.8	0.7
Total expenses	195.7	199.0
Change in Net Position	50.5	14.7
Net Position (Deficit) - Beginning of year	(144.2)	(158.9)
Net Position (Deficit) - End of year	<u>\$ (93.7)</u>	<u>\$ (144.2)</u>

As reported in the statement of activities, the cost of all of our governmental activities this year was \$195.7 million. Certain activities were partially funded from those who benefited from the programs (\$6.8 million) or by other governments and organizations that subsidized certain programs with grants and contributions (\$83.6 million). We paid for the remaining public benefit portion of our governmental activities with \$62.8 million in taxes, \$84.5 million in state foundation allowance, and other revenue (i.e., interest and general entitlements).

The School District experienced an increase in net position of \$50.5 million.

As discussed above, the net cost shows the financial burden that was placed on the State and the School District's taxpayers by each of these functions. Since property taxes for operations and unrestricted state aid constitute the vast majority of district operating revenue sources, the Board of Education and administration must annually evaluate the needs of the School District and balance those needs with state-prescribed available unrestricted resources.

The School District's Funds

As we noted earlier, the School District uses funds to help it control and manage money for particular purposes. Looking at funds helps the reader consider whether the School District is being accountable for the resources taxpayers and others provide to it and may provide more insight into the School District's overall financial health.

As the School District completed this year, the governmental funds reported a combined fund balance of \$185.8 million, which is an increase of \$14.5 million from last year. The primary reasons for the increase are as follows:

In the General Fund, our principal operating fund, fund balance increased by \$9.1 million to \$31.3 million. The School District budgeted an increase of approximately 5.2 million.

Walled Lake Consolidated School District

Management's Discussion and Analysis (Continued)

Fund balance of our special revenue funds increased from \$7.7 million last year to \$8.1 million this year, primarily as a result of the increased revenue generated in the Cafeteria Fund through the Michigan Schools Meal Program. The Michigan Schools Meal Program is a legislative initiative that provides for free breakfast and lunch for all pre-K through grade 12 students. The Cafeteria Fund balance is restricted in use to improve the quality of the program.

Between 2019 and 2022, the School District issued three series of voter-approved bonds totaling \$316 million. The bonds were issued in accordance with state law and are being used for infrastructure needs at every building, allowing for the rebuilding of our oldest elementary building, major reconstruction of one of our high schools, the building of the Early Childhood Center, and the purchase of buses. The 2019 bonds were fully expended in previous fiscal years. The fund balance of the 2020 Bond Issue Fund decreased by \$55.5 million during the year ended June 30, 2024 as the result of ongoing construction projects and has a remaining fund balance of \$9.8 million. The 2022 Bond Issue Fund had fund balance of \$67.1 million at June 30, 2024, an increase of \$3.1 million. The 2024 Bond Issue Fund had fund balance of \$49.7 million. The 2024 bonds were issued in June as the first of a four series of voter-approved bonds totaling \$250 million. The 2024 approved bond program will be used to continue the district's efforts to maintain a modern learning environment for students and for health, safety, security, energy conservation, technology infrastructure upgrades, and other capital projects, as permitted by law.

The other nonmajor governmental funds (excluding the special revenue funds) have a combined fund balance of \$19.8 million, which represents an increase of \$7.7 million. The increase is primarily the result of an accumulation of funds to pay for debt obligations for outstanding bonds.

General Fund Budgetary Highlights

Over the course of the year, the School District revises its budget as it attempts to deal with unexpected changes in revenue and expenditures. State law requires that the budget be amended to ensure that expenditures do not exceed appropriations. The final amendment to the budget was adopted in June 2024. A schedule showing the School District's original and final budget amounts compared with amounts actually paid and received is provided in the required supplementary information of these financial statements.

There were a variety of significant amendments to the 2023-2024 General Fund budget during the year. The two most significant changes resulting in the positive variance for revenue were increases in lump-sum payment from the State to assist with the cost of retirement for district employees and the student count coming in better than expected. The largest expense fluctuations throughout the year are driven by changes in estimates for staffing and associated benefits. These changes have been more significant in the recent years as a result of the workforce becoming more mobile making it more challenging to estimate staffing costs.

Capital Assets and Debt Administration

Capital Assets

As of June 30, 2024, the School District had \$406.9 million invested in a broad range of capital assets, including land, buildings, vehicles, furniture, equipment, and leased assets. This amount represents a net increase (including additions, disposals, depreciation, and amortization) of approximately \$45.6 million, or 12.6 percent, from last year.

	<u>2024</u>	<u>2023</u>
Land	\$ 11,923,678	\$ 11,923,678
Construction in progress	72,184,686	69,842,467
Buildings and improvements	483,341,442	431,565,514
Furniture and equipment	43,546,535	37,899,296
Buses and other vehicles	10,597,153	11,541,442
Lease assets - Equipment	<u>3,609,262</u>	<u>3,575,064</u>
Total capital assets	625,202,756	566,347,461
Less accumulated depreciation and amortization	<u>218,296,790</u>	<u>205,062,949</u>
Total capital assets - Net of accumulated depreciation and amortization	<u>\$ 406,905,966</u>	<u>\$ 361,284,512</u>

Walled Lake Consolidated School District

Management's Discussion and Analysis (Continued)

This year's additions (net of adjustments between classifications) of \$61.2 million included construction in progress, building renovations, furniture, and leased assets. The School District passed a 0.50 mill Building and Site Improvement Fund, or Sinking Fund, during 2004. In November 2022, the community passed the second 10-year renewal of the Sinking Fund. These funds have allowed the School District to proceed with several projects and capital additions. In 2019, the School District was fortunate in having community support to issue \$316 million in voter-approved bonds, as mentioned previously. This same support was witnessed in 2024 when the community passed a \$250 million bond initiative that will provide resources to support the School District's strategic facility plan. We present more detailed information about our capital assets in the notes to the financial statements.

Debt

At the end of this year, the School District had \$354.7 million in bonds outstanding versus \$313.7 million in the previous year.

The School District's general obligation bond rating is AA- from Standard & Poor's and A2 from Moody's Investors Service. The State limits the amount of general obligation debt that schools can issue to 15 percent of the assessed value of all taxable property within the School District's boundaries. If the School District issues qualified debt (i.e., debt backed by the State of Michigan), such obligations are not subject to this debt limit. The School District does not have any outstanding unqualified general obligation debt.

Other obligations include debt premiums, installment purchase agreements, compensated absences, leases payable, and other amounts. We present more detailed information about our long-term liabilities in the notes to the financial statements.

Economic Factors and Next Year's Budgets and Rates

Our elected officials and administration consider many factors when setting the School District's 2024-2025 fiscal year budget. One of the most important factors affecting the budget is our student count. The state foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The 2024-2025 budget was adopted in June 2024 based on an estimate of students who will enroll in September 2024. The estimated count is expected to be 11,864. Approximately 62.0 percent of total General Fund revenue is from the foundation allowance. Under state law, the School District cannot access additional property tax revenue for general operations. As a result, district funding is heavily dependent on the State's ability to fund local school operations. Based on early enrollment data at the start of the 2024 school year, we anticipate that the fall student count will be close to the estimates used in creating the 2024-2025 budget. Once the final student count and related per pupil funding are validated, state law requires the School District to amend the budget if actual district resources are not sufficient to fund original appropriations.

Since the School District's revenue is heavily dependent on state funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenue to fund its appropriation to the School District. The School Aid Act for the 2024-2025 school year had not yet been approved by the Legislature when the School District's initial budget was approved in June. School districts in the State of Michigan must have a budget approved by their Board of Education no later than June 30 of each year. Walled Lake Consolidated School District estimated a \$200 per pupil increase for a total foundation grant of \$9,954 for 2024-2025.

Contacting the School District's Management

This financial report is intended to provide our taxpayers, parents, and investors with a general overview of the School District's finances and to show the School District's accountability for the money it receives. If you have any questions about this report or need additional information, we welcome you to contact 850 Ladd Road, Building D, Walled Lake, MI 48390.

Governmental Funds Reconciliation of the Balance Sheet to the Statement of Net Position

June 30, 2024

Fund Balances Reported in Governmental Funds	\$ 185,785,227
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets and lease assets used in governmental activities are not financial resources and are not reported in the funds:	
Cost of assets	625,202,756
Accumulated depreciation and amortization	<u>(218,296,790)</u>
Net capital assets and lease assets used in governmental activities	406,905,966
Deferred outflows related to charges on bond refundings are not reported in the funds	5,524,837
Bonds payable, including premiums, installment purchase agreements, and lease liabilities, are not due and payable in the current period and are not reported in the funds	(413,223,637)
Accrued interest is not due and payable in the current period and is not reported in the funds	(2,477,882)
Some employee fringe benefits are payable over a long period of years and do not represent a claim on current financial resources; therefore, they are not reported as fund liabilities:	
Employee compensated absences and longevity	(4,180,208)
Net pension liability and related deferred inflows and outflows	(235,436,493)
Net OPEB liability (asset) and related deferred inflows and outflows	(20,331,248)
Revenue in support of pension contributions made subsequent to the measurement date is reported as a deferred inflow of resources in the statement of net position and is not reported in the funds	<u>(16,302,852)</u>
Net Position (Deficit) of Governmental Activities	<u>\$ (93,736,290)</u>

Walled Lake Consolidated School District

Governmental Funds Reconciliation of the Statement of Revenue, Expenditures, and Changes in Fund Balances to the Statement of Activities

Year Ended June 30, 2024

Net Change in Fund Balances Reported in Governmental Funds	\$ 14,535,218
Amounts reported for governmental activities in the statement of activities are different because:	
Governmental funds report capital outlays as expenditures; however, in the statement of activities, these costs are allocated over their estimated useful lives as depreciation and amortization:	
Capitalized capital outlay	61,179,906
Depreciation and amortization expense	(15,512,154)
Net book value of assets disposed of	(46,298)
Revenue in the statement of activities that does not provide current financial resources is not reported as revenue in the funds until it is available	(91,761)
Revenue in support of pension contributions made subsequent to the measurement date	6,135,705
Issuing debt and entering into leases (\$50,368,826 and \$34,198, respectively) provide current financial resources to governmental funds, but increase long-term liabilities in the statement of net position	(50,403,024)
Repayment of bond principal, installment purchase obligations, and lease liabilities (\$6,390,000, \$110,337, and \$917,512, respectively) is an expenditure in the governmental funds but not in the statement of activities (where it reduces long-term debt and lease liabilities); amortization of premium/discounts and inflows/outflows related to bond refundings (\$2,253,778 and (\$306,938), respectively) are not expenses in the governmental funds	9,364,689
Interest expense is recognized in the government-wide statements as it accrues	(245,437)
Some employee costs (pension, OPEB, and compensated absences, including longevity costs, of \$8,683,792, \$16,901,450, and (\$77,003), respectively) do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds	25,508,239
Change in Net Position of Governmental Activities	<u>\$ 50,425,083</u>

Note 1 - Nature of Business

Walled Lake Consolidated School District (the "School District") is a school district in the state of Michigan that provides educational services to students.

Note 2 - Significant Accounting Policies

Accounting and Reporting Principles

The School District follows accounting principles generally accepted in the United States of America (GAAP), as applicable to governmental units. Accounting and financial reporting pronouncements are promulgated by the Governmental Accounting Standards Board (GASB). The following is a summary of the significant accounting policies used by the School District:

Reporting Entity

The School District is governed by an elected seven-member Board of Education. The accompanying financial statements have been prepared in accordance with criteria established by the Governmental Accounting Standards Board for determining the various governmental organizations to be included in the reporting entity. These criteria include significant operational financial relationships that determine which of the governmental organizations are a part of the School District's reporting entity and which organizations are legally separate component units of the School District. Based on the application of the criteria, the School District does not contain any component units.

Report Presentation

Governmental accounting principles require that financial reports include two different perspectives - the government-wide perspective and the fund-based perspective. The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units, as applicable. The government-wide financial statements are presented on the economic resources measurement focus and the full accrual basis of accounting. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. The statements also present a schedule reconciling these amounts to the modified accrual-based presentation found in the fund-based statements.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenue includes: (1) charges to customers or applicants for goods, services, or privileges provided; (2) operating grants and contributions; and (3) capital grants and contributions, including special assessments. Taxes, unrestricted intergovernmental receipts, and other items not properly included among program revenue are reported instead as general revenue.

As a general rule, the effect of interfund activity has been removed from the government-wide financial statements.

Separate financial statements are provided for governmental funds and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds, if any, are reported as separate columns in the fund financial statements.

June 30, 2024

Note 2 - Significant Accounting Policies (Continued)

Fund Accounting

The School District accounts for its various activities in several different funds in order to demonstrate accountability for how it spends certain resources; separate funds allow the School District to show the particular expenditures for which specific revenue is used. The various funds are aggregated into two broad fund types:

Governmental Funds

Governmental funds include all activities that provide general governmental services that are not business-type activities. Governmental funds can include the General Fund, special revenue funds, debt service funds, capital project funds, and permanent funds. The School District reports the following funds as major governmental funds:

- The General Fund is the primary operating fund because it accounts for all financial resources used to provide government services other than those specifically assigned to another fund.
- The 2020 Bond Issue Fund (capital project fund) is used to record bond proceeds or other revenue and disbursements of invoices specifically designated for completing a replacement elementary school; completing a new childhood center facility; additions to existing buildings; remodeling, equipping, and furnishing existing facilities; upgrading technology infrastructure and equipment; preparing, developing, and improving sites at school buildings and other facilities; and purchasing school buses. The fund operates until the purpose for which it was created is accomplished.
- The 2022 Bond Issue Fund (capital project fund) is used to record bond proceeds or other revenue and disbursements of invoices specifically designated for completing a replacement elementary school; completing a new childhood center facility; additions to existing buildings; remodeling, equipping, and furnishing existing facilities; upgrading technology infrastructure and equipment; preparing, developing, and improving sites at school buildings and other facilities; and purchasing school buses. The fund operates until the purpose for which it was created is accomplished.
- The 2024 Bond Issue Fund (capital project fund) is used to record bond proceeds or other revenue and disbursements of invoices specifically designated for completing, equipping, and furnishing a replacement elementary school and a new athletic field building; additions to existing buildings; remodeling, equipping, and furnishing existing facilities; acquiring and installing instructional technology infrastructure and equipment; preparing, developing, and improving sites at school buildings, athletic fields, playgrounds, and other facilities; and purchasing school buses. The fund operates until the purpose for which it was created is accomplished.

Additionally, the School District reports the following nonmajor governmental fund types:

- Special revenue funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes. The School District's special revenue funds include the Cafeteria Fund, the Community Education Fund, the Preschool Fund, the Enrichment/Prime Time Care Fund, and the Student Activities Fund. Any operating deficit generated by these activities is the responsibility of the General Fund.
- The Cafeteria Fund accounts for all moneys generated from the cafeteria operations throughout the various buildings of the School District. Revenue sources for the Cafeteria Fund include the sales to customers and dedicated grants from state and federal sources.

June 30, 2024

Note 2 - Significant Accounting Policies (Continued)

- The Community Education Fund is used to account for all moneys originating from educational programs run by the School District, other than preschool and kindergarten through 12th grade programs. Revenue sources for the Community Education Fund consist of tuition and fees charged to users.
- The Preschool Fund accounts for all moneys originating from the preschool programs run by the School District. Revenue sources for the Preschool Fund consist of tuition charged to users and child care grants from federal sources.
- The Enrichment/Prime Time Care Fund accounts for all moneys originating from the School District's Enrichment and Prime Time Care programs. Revenue sources for the Enrichment/Prime Time Care Fund consist of tuition and fees charged to users and child care grants from federal sources.
- The Student Activities Fund records the transactions of student groups for school and school-related purposes. Revenue sources for the Student Activities Fund include fundraising revenue and donations earned and received by student groups.
- The 2012 and 2022 Sinking Funds (capital project funds) are used to record related tax revenue and the disbursement of invoices specifically designated for approved Sinking Fund projects. The funds operate until the purpose for which they were created is accomplished.
- Debt service funds are used to record tax, interest, and other revenue for payment of interest, principal, and other expenditures on long-term debt. The School District currently has six debt service funds: the 2016 Debt Retirement Fund, the 2019 Debt Retirement Fund, the 2020 Debt Retirement Fund, the 2021 Debt Retirement Fund, the 2022 Debt Retirement Fund, and the 2024 Debt Retirement Fund.

Fiduciary Funds

Fiduciary funds include amounts held in a fiduciary capacity for others. These amounts are not used to operate the School District's programs. The School District maintains the Student Activities Fund to record the transactions of student groups for school and school-related purposes. The funds are segregated and are held for the students.

Interfund Activity

During the course of operations, the School District has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due from/to other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental and internal service funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column.

Furthermore, certain activity occurs during the year involving transfers of resources between funds. In the fund financial statements, these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column.

Basis of Accounting

The governmental funds use the current financial resources measurement focus and the modified accrual basis of accounting. This basis of accounting is intended to better demonstrate accountability for how the School District has spent its resources.

June 30, 2024

Note 2 - Significant Accounting Policies (Continued)

Expenditures are reported when the goods are received or the services are rendered. Capital outlays are reported as expenditures (rather than as capital assets) because they reduce the ability to spend resources in the future; conversely, employee benefit costs that will be funded in the future (such as pension and retiree health care-related costs or sick and vacation pay) are not counted until they come due for payment. In addition, debt service expenditures, claims, and judgments are recorded only when payment is due.

Revenue is not recognized until it is collected or collected soon enough after the end of the year that it is available to pay for obligations outstanding at the end of the year. For this purpose, the School District considers amounts collected within 60 days of year end to be available for recognition. Revenue not meeting this definition is classified as a deferred inflow of resources.

The fiduciary fund uses the economic resources measurement focus and the full accrual basis of accounting. Revenue is recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Specific Balances and Transactions

Cash and Investments

Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired. Investments are stated at fair value, except for investments in MILAF Cash Management funds and MILAF MAX Class funds, which are valued at amortized cost. Pooled investment income from the debt service funds is generally allocated to each fund using a weighted average of balance for the principal.

Inventories and Prepaid Items

Inventories are valued at cost on a first-in, first-out basis. Inventories are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid items in both government-wide and fund financial statements, when applicable. The School District uses the consumption method to report prepaid costs in governmental funds.

Restricted Assets

The following amounts are reported as restricted assets:

- Unspent bond proceeds and related interest of the bonded capital projects funds required to be set aside for construction or other allowable bond purchases
- Unspent property taxes levied held in the debt service funds required to be set aside for future bond principal and interest payments
- Unspent property taxes levied and held in the Sinking Fund required to be set aside for construction or allowable purchases
- Unspent funds required to be set aside for retiree obligations under state OPEB plan

Capital Assets

Capital assets, which include land, buildings, equipment, vehicles, and leased assets (further described in the section below), are reported in the applicable governmental activities column in the government-wide financial statements. Capital assets are defined by the School District as assets with an initial individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition value at the date of donation. Costs of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized.

Note 2 - Significant Accounting Policies (Continued)

Capital assets are depreciated or amortized using the straight-line method over the following useful lives:

	Depreciable/ Amortizable Life - Years
Buildings and improvements	20 to 50
Furniture and other equipment	5 to 10
Buses and other vehicles	5 to 10
Lease assets - Equipment	5

Long-term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bond using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed at the time they are incurred. In the fund financial statements, governmental fund types recognize bond issuances and premiums as other financing sources and bond discounts as other financing uses. The General Fund and debt service funds are generally used to liquidate governmental long-term debt.

Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and/or balance sheet will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to future periods and will not be recognized as an outflow of resources (expense/expenditure) until then.

The School District reports deferred outflows related to deferred pension costs, OPEB costs, and deferred charges related to bond refundings.

In addition to liabilities, the statement of net position and/or balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to future periods and will not be recognized as an inflow of resources (revenue) until that time.

The School District reports deferred inflows related to revenue in support of pension contributions made subsequent to the measurement date and deferred pension and OPEB plan cost reductions.

Net Position

Net position of the School District is classified in three components. Net investment in capital assets consists of capital assets net of accumulated depreciation and is reduced by the current balances of any outstanding borrowings used to finance the purchase or construction of those assets. The restricted component of net position consists of restricted assets reduced by liabilities and deferred inflows of resources related to those assets. Unrestricted net position is the remaining net position that does not meet the definition of invested in capital or restricted.

Net Position Flow Assumption

The School District will sometimes fund outlays for a particular purpose from both restricted and unrestricted resources. In order to calculate the amounts to report as restricted net position and unrestricted net position in the government-wide financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the School District's policy to consider restricted net position to have been depleted before unrestricted net position is applied.

June 30, 2024

Note 2 - Significant Accounting Policies (Continued)

Fund Balance Flow Assumptions

The School District will sometimes fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the School District's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Furthermore, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

Fund Balance Policies

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. The nonspendable fund balance component represents amounts that are not in spendable form or are legally or contractually required to be maintained intact. Restricted fund balance represents amounts that are legally restricted by outside parties, constitutional provisions, or enabling legislation for use for a specific purpose. The School District itself can establish limitations on the use of resources through either a commitment (committed fund balance) or an assignment (assigned fund balance).

The committed fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the School District's highest level of decision-making authority. The Board of Education is the highest level of decision-making authority for the School District that can, by passing a resolution prior to the end of the fiscal year, commit fund balance. Once passed, the limitation imposed by the resolution remains in place until a similar action is taken (the passing of another resolution) to remove or revise the limitation.

Amounts in the assigned fund balance classification are intended to be used by the government for specific purposes but do not meet the criteria to be classified as committed. The School District has, by resolution, authorized the finance director to assign fund balance. The Board of Education may also assign fund balance as it does when appropriating fund balance to cover a gap between estimated revenue and appropriations in the subsequent year's appropriated budget. Unlike commitments, assignments generally exist only temporarily. In other words, an additional action does not normally have to be taken for the removal of an assignment. Conversely, as discussed above, an additional action is essential to either remove or revise a commitment.

On an annual basis, the superintendent recommends and the Board of Education approves a fund balance policy. The fund balance policy prescribes that an end of year fund balance should not fall below 6 percent of the preceding year's expenditures.

Property Tax Revenue

Property taxes are levied on each July 1 for taxes due on September 15; the tax is based on the taxable valuation of property as of the preceding December 31. Tax collections are forwarded to the School District as collected by the assessing municipalities through March 1 of the following year, at which time they are considered delinquent and added to county tax rolls. The School District considers all receivables to be fully collectible; accordingly, no allowance for uncollectible amounts is recorded.

Note 2 - Significant Accounting Policies (Continued)

Grants and Contributions

The School District receives federal, state, and local grants, as well as contributions from individuals and private organizations. Revenue from grants and contributions (including contributions of capital assets) is recognized when all eligibility requirements, including time requirements, are met. Grants and contributions may be restricted for either specific operating purposes or for capital purposes. Amounts that are unrestricted or that are restricted to a specific operating purpose are reported as nonoperating revenue. Amounts restricted to capital acquisitions are reported after nonoperating revenue and expenses.

Pension and Other Postemployment Benefit (OPEB) Plans

For the purpose of measuring the net pension liability and net OPEB liability, deferred outflows of resources and deferred inflows of resources related to each plan, and pension and OPEB expense, information about the fiduciary net position of the Michigan Public School Employees' Retirement System (MPERS) and additions to/deductions from the MPERS fiduciary net position have been determined on the same basis as they are reported by MPERS. MPERS uses the economic resources measurement focus and the full accrual basis of accounting. Contribution revenue is recorded as contributions are due, pursuant to legal requirements. Benefit payments (including refunds of employee contributions) are recognized as expenses when due and payable in accordance with the plan benefit terms. The net pension liability and the net OPEB liability will be liquidated from the funds that report each employee's compensation, generally the General Fund.

Compensated Absences (Vacation and Sick Leave) and Longevity

It is the School District's policy to permit employees to accumulate earned but unused sick and vacation pay benefits. Sick pay is accrued for the amount that the School District will pay upon employment termination; vacation pay is accrued when incurred. The liability for longevity payments is a future benefit that consists of amounts due to eligible employees based on their respective contracts. All of these are reported in the government-wide financial statements. A liability for these amounts is reported in governmental funds only for employee terminations as of year end. Generally, the funds that report each employee's compensation are used to liquidate the obligations.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period. Actual results could differ from those estimates.

Leases

The School District is a lessee for noncancelable leases of technology equipment. The School District recognizes a lease liability and an intangible right-to-use lease asset (lease asset) in the governmental activities column in the government-wide financial statements. The School District recognizes lease assets and liabilities with an initial value of \$5,000 or more.

At the commencement of a lease, the School District initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs. Subsequently, the lease asset is amortized on a straight-line basis over its useful life.

June 30, 2024

Note 2 - Significant Accounting Policies (Continued)

Key estimates and judgments related to leases include how the School District determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The School District uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the School District generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancelable period of the lease. Lease payments included in the measurement of the lease liability are composed of fixed payments and purchase option price that the School District is reasonably certain to exercise.

The School District monitors changes in circumstances that would require a remeasurement of its lease and will remeasure the lease asset and liability if certain changes occur that are expected to significantly affect the amount of the lease liability.

Lease assets are reported with other capital assets, and lease liabilities are reported with long-term debt on the statement of net position.

Upcoming Accounting Pronouncements

In June 2022, the Governmental Accounting Standards Board issued Statement No. 101, *Compensated Absences*, which updates the recognition and measurement guidance for compensated absences under a unified model. This statement requires that liabilities for compensated absences be recognized for leave that has not been used and leave that has been used but not yet paid in cash or settled through noncash means and establishes guidance for measuring a liability for leave that has not been used. It also updates disclosure requirements for compensated absences. The provisions of this statement are effective for the School District's financial statements for the year ending June 30, 2025.

In December 2023, the Government Accounting Standards Board issued Statement No. 102, *Certain Risk Disclosures*, which requires governments to assess whether a concentration or constraint makes the government vulnerable to the risk of a substantial impact. It also requires governments to assess whether an event or events associated with a concentration or constraint that could cause the substantial impact have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date of the financial statements are issued. If certain criteria are met for a concentration or constraint, disclosures are required in the notes to the financial statements. The provisions of this statement are effective for the School District's financial statements for the year ending June 30, 2025.

In April 2024, the Government Accounting Standards Board issued Statement No. 103, *Financial Reporting Model Improvements*, which establishes new accounting and financial reporting requirements, or modifies existing requirements, related to the following: management's discussion and analysis; unusual or infrequent items; presentation of the proprietary fund statement of revenue, expenses, and changes in fund net position; information about major component units in basic financial statements; budgetary comparison information; and financial trends information in the statistical section. The provisions of this statement are effective for the School District's financial statements for the year ending June 30, 2026.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including September 27, 2024, which is the date the financial statements were available to be issued.

June 30, 2024

Note 3 - Stewardship, Compliance, and Accountability

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles and state law for the General Fund, special revenue funds, and capital projects funds, with the exception that capital outlay is budgeted in the function category. All annual appropriations lapse at fiscal year end. The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the function level for the General Fund, the fund level for the Cafeteria Fund, and the sub fund level for other special revenue funds and capital project funds. State law requires the School District to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits districts to amend their budgets during the year. During the year, the budget was amended in a legally permissible manner. The two most significant changes resulting in the positive variance for revenue were increases in lump-sum payment from the State to assist with the cost of retirement for district employees and the student count coming in better than expected. The largest expense fluctuations throughout the year are driven by changes in estimates for staffing and associated benefits. These changes have been more significant in the recent years as a result of the workforce becoming more mobile making it more challenging to estimate staffing costs.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders or contracts) outstanding at year end lapse and do not constitute expenditures or liabilities because the goods or services have not been received as of year end; the commitments will be reappropriated and honored during the subsequent year.

Excess of Expenditures Over Appropriations in Budgeted Funds

The School District did not have significant expenditure budget variances.

Capital Projects and Sinking Fund Compliance

The 2020 Bond Issue Fund, 2022 Bond Issue Fund, and 2024 Bond Issue Fund (capital projects funds) include capital project activities funded with bonds. For these capital projects, the School District has complied with the applicable provisions of §1351a of the Revised School Code. The funds are not yet considered substantially complete, and a subsequent year audit is expected.

The 2012 Sinking Fund records capital project activities funded with Sinking Fund millage. For this fund, authorized prior to March 29, 2017, the School District has complied with the applicable provisions of §1212 of the State of Michigan Revised School Code.

The 2022 Sinking Fund records capital project activities funded with Sinking Fund millage. For this fund, authorized on March 29, 2017 through May 7, 2023, the School District has complied with the applicable provisions of §1212 of the State of Michigan Revised School Code.

Note 4 - Deposits and Investments

State statutes and the School District's investment policy authorize the School District to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The School District is allowed to invest in U.S. Treasury or agency obligations, U.S. government repurchase agreements, bankers' acceptances, certificates of deposit, commercial paper rated prime at the time of purchase that matures no more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The School District's deposits are in accordance with statutory authority.

The School District has designated 10 financial institutions and utilized 3 for the deposit of its funds. The investment policy adopted by the board in accordance with Public Act 196 of 1997 has authorized investment in bonds and securities of the United States government and bank accounts and CDs but not the remainder of state statutory authority, as listed above.

June 30, 2024

Note 4 - Deposits and Investments (Continued)

There are no limitations or restrictions on participant withdrawals for the investment pools that are recorded at amortized cost, except for a 1-day minimum investment period on MILAF Cash Management funds and a 14-day redemption limitation on MILAF MAX Class funds. Redemptions made prior to the applicable 14-day period for the MILAF MAX Class funds are subject to a penalty equal to 15 days' interest on the amount so redeemed.

The School District's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits

Custodial credit risk is the risk that, in the event of a bank failure, the School District's deposits may not be returned to it. The School District's investment policy for custodial credit risk requires that financial institutions be evaluated and only those with an acceptable risk level be used for the School District's deposits. At year end, the School District's deposit balance of \$34,088,367 had bank deposits of \$33,838,367 (checking and savings accounts) that were uninsured and uncollateralized. The School District believes that, due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all deposits.

Custodial Credit Risk of Investments

Custodial credit risk is the risk that, in the event of the failure of the counterparty, the School District will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The School District's policy for custodial credit risk states custodial credit risk will be minimized by limiting investments to the types of securities allowed by state law and by prequalifying the financial institutions, brokers/dealers, intermediaries, and advisors with which the School District will do business using the criteria established in the investment policy. At June 30, 2024, the School District does not have investments with custodial credit risk.

Interest Rate Risk

Interest rate risk is the risk that the value of investments will decrease as a result of a rise in interest rates. The School District's investment policy does not restrict investment maturities, other than commercial paper, which can only be purchased with a 270-day maturity. The School District's policy minimizes interest rate risk by requiring the structuring of the investment portfolio so that securities mature to meet cash requirements for ongoing operations, thereby avoiding the need to sell securities in the open market; investing operating funds primarily in shorter-term securities, liquid asset funds, money market mutual funds, or similar investment pools; and limiting the average maturity in accordance with the School District's cash requirements.

Note 4 - Deposits and Investments (Continued)

Credit Risk

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The School District's investment policy does not further limit its investment choices. As of year end, the credit quality ratings of debt securities (other than the U.S. government) are as follows:

Investment	Carrying Value	Rating	Rating Organization
Primary Government			
Michigan Liquid Asset Fund Cash Management Money Market Fund	\$ 17,624,033	AAAm	S&P
Michigan Liquid Asset Fund MAX Class Money Market	28,628,161	AAAm	S&P
Michigan Cooperative Liquid Assets Securities System	<u>1,016,190</u>	AAAm	S&P
Total	<u>\$ 47,268,384</u>		

Concentration of Credit Risk

The School District places no limit on the amount the School District may invest in any one issuer. The School District's policy minimizes concentration of credit risk by requiring diversification of the investment portfolio so that the impact of potential losses from any one type of security or issuer will be minimized. At June 30, 2024, more than 5 percent of the School District's investments are invested in the following:

	Value	Percentage of Total Investments
U.S. Treasury notes	\$ 71,716,461	60

Foreign Currency Risk

Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value as a result of changes in foreign currency exchange rates. State law and the School District's investment policy prohibit investments in foreign currency.

Note 5 - Fair Value Measurements

The School District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in active markets for identical assets, Level 2 inputs are significant other observable inputs, and Level 3 inputs are significant unobservable inputs. Investments that are measured at fair value using net asset value per share (or its equivalent) as a practical expedient are not classified in the fair value hierarchy.

In instances where inputs used to measure fair value fall into different levels in the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The School District's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

Note 5 - Fair Value Measurements (Continued)

The School District has the following recurring fair value measurements as of June 30, 2024:

- U.S. Treasury debt securities of \$71,716,461 are valued based on Level 2 inputs. The School District estimates the fair value of these investments using other inputs, such as interest rates and yield curves, that are observable at commonly quoted intervals.

Note 6 - Capital Assets

Capital asset activity of the School District's governmental activities was as follows:

	Balance July 1, 2023	Reclassifications	Additions	Disposals	Balance June 30, 2024
Capital assets not being depreciated or amortized:					
Land	\$ 11,923,678	\$ -	\$ -	\$ -	\$ 11,923,678
Construction in progress	69,842,467	(39,313,048)	41,655,267	-	72,184,686
Subtotal	81,766,145	(39,313,048)	41,655,267	-	84,108,364
Capital assets being depreciated or amortized:					
Buildings and improvements	431,565,514	39,186,869	12,944,312	(355,253)	483,341,442
Furniture and equipment	37,899,296	126,179	6,546,129	(1,025,069)	43,546,535
Buses and other vehicles	11,541,442	-	-	(944,289)	10,597,153
Lease assets - Equipment	3,575,064	-	34,198	-	3,609,262
Subtotal	484,581,316	39,313,048	19,524,639	(2,324,611)	541,094,392
Accumulated depreciation and amortization:					
Buildings and improvements	162,412,105	-	11,929,342	(308,955)	174,032,492
Furniture and equipment	33,460,482	-	1,603,180	(1,025,069)	34,038,593
Buses and other vehicles	7,302,599	-	1,066,727	(944,289)	7,425,037
Lease assets - Equipment	1,887,763	-	912,905	-	2,800,668
Subtotal	205,062,949	-	15,512,154	(2,278,313)	218,296,790
Net capital assets being depreciated or amortized	279,518,367	39,313,048	4,012,485	(46,298)	322,797,602
Net governmental activities capital assets	<u>\$ 361,284,512</u>	<u>\$ -</u>	<u>\$ 45,667,752</u>	<u>\$ (46,298)</u>	<u>\$ 406,905,966</u>

Depreciation and amortization expense was charged to activities of the School District as follows:

Governmental activities:	
Instruction	\$ 9,772,657
Support services	4,963,889
Unallocated	775,608
Total governmental activities	<u>\$ 15,512,154</u>

June 30, 2024

Note 6 - Capital Assets (Continued)

Construction Commitments

The School District has active construction projects at year end related to the 2020 Bond Issue Fund and the Sinking Fund. At June 30, 2024, the School District's commitments with contractors are as follows:

	Spent to Date	Remaining Commitment
2020 Bond Issue Fund	\$ 145,054,741	\$ 40,078,143
Sinking Funds	395,465	459,874
Total	<u>\$ 145,450,206</u>	<u>\$ 40,538,017</u>

Note 7 - Interfund Receivables, Payables, and Transfers

The composition of interfund balances is as follows:

Fund Due To	Fund Due From		
	General Fund	Nonmajor Funds	Total
General Fund	\$ -	\$ 219,336	\$ 219,336
Nonmajor funds	3,783,381	500	3,783,881
Fiduciary fund	18,209	-	18,209
Total	<u>\$ 3,801,590</u>	<u>\$ 219,836</u>	<u>\$ 4,021,426</u>

Interfund balances due from the General Fund represent routine deposits received by the General Fund that will be transferred to other funds' investment accounts. Interfund balances due to the General Fund result from a pooled cash arrangement and the time lag between the dates that goods and services are provided for the funds and when the reimbursements between funds are made.

Interfund Transfers

The General Fund transferred \$2,678 to the Cafeteria Fund to transfer grant proceeds to the fund that incurred the expenditure. The Cafeteria Fund transferred \$358,937 to the General Fund to cover indirect costs incurred by the General Fund. The 2016 Debt Retirement Fund transferred \$1,215,499 to the 2022 Debt Retirement Fund to close out the fund.

Note 8 - Unavailable/Unearned Revenue

Governmental funds report unavailable revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also report unearned revenue recognition in connection with resources that have been received but not yet earned.

At June 30, 2024, the various components of unearned and unavailable revenue were as follows:

	Governmental Funds	
	Deferred Inflow - Unavailable	Liability - Unearned
Tuition and fees received in advance	\$ -	\$ 563,854
Grant and categorical aid payment received prior to meeting all eligibility requirements	-	9,074,812
Hold harmless property tax millage overlevied	-	275,201
Total	<u>\$ -</u>	<u>\$ 9,913,867</u>

Note 9 - Line of Credit

Under a line of credit agreement with a bank, the School District has available borrowings of the lesser of \$5,000,000 or 30 percent of the state school aid for the fiscal year ended June 30, 2024. Interest is payable monthly at a rate of (a) the greater of the bank's prime rate or 2.50 percent or (b) 80 percent of SOFR plus 1.80 percent (an effective rate of 6.07 percent at June 30, 2024). Under the line of credit agreement, the School District has pledged no more than 30 percent of the state school aid for the fiscal year ended June 30, 2024 as collateral. There was no outstanding balance on the line of credit at June 30, 2024.

The line of credit agreement contains (1) a provision that, in an event of default, the note shall bear interest at 3 percent above the applicable rate and (2) a provision that, if the entity is unable to make payment or in the event of default, outstanding amounts are due immediately.

Subsequent to year end, on August 29, 2024, the School District renewed the line of credit agreement with an available borrowing limit of \$5,000,000 through August 31, 2025. Interest is payable monthly at a rate of (a) the greater of the bank's prime rate or 2.50 percent or (b) 80 percent of SOFR plus 1.90 percent. The other terms on the amended line of credit remain the same.

Note 10 - Long-term Debt

Long-term debt activity for the year ended June 30, 2024 can be summarized as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due within One Year
Bonds and notes payable:					
Direct borrowings and direct placements - Installment purchase agreements	\$ 225,374	\$ 260,000	\$ (110,337)	\$ 375,037	\$ 103,130
Other debt - General obligation bonds	313,745,000	47,320,000	(6,390,000)	354,675,000	11,005,000
Unamortized bond premiums	56,807,249	2,788,826	(2,253,778)	57,342,297	2,232,089
Total bonds and notes payable	370,777,623	50,368,826	(8,754,115)	412,392,334	13,340,219
Leases (Note 11)	1,714,617	34,198	(917,512)	831,303	598,187
Compensated absences	4,103,205	2,605,646	(2,528,643)	4,180,208	2,528,643
Total governmental activities long-term debt	<u>\$ 376,595,445</u>	<u>\$ 53,008,670</u>	<u>\$ (12,200,270)</u>	<u>\$ 417,403,845</u>	<u>\$ 16,467,049</u>

The School District had deferred outflows of \$5,524,837, net of current year amortization of \$306,938, related to deferred charges on bond refundings at June 30, 2024.

Note 10 - Long-term Debt (Continued)

General Obligation Bonds and Contracts

The School District issues general obligation bonds to provide for the acquisition and construction of major capital facilities. General obligations have been issued for governmental activities. General obligation bonds are direct obligations and pledge the full faith and credit of the School District. The School District's qualified bonds are fully guaranteed by the State of Michigan. The primary source of any required repayment is from the School District's property tax levy; however, the State of Michigan may withhold the School District's state aid funding in order to recover amounts it has paid on behalf of the School District. General obligations outstanding at June 30, 2024 are as follows:

Purpose	Remaining Annual Installments	Interest Rates	Maturing	Outstanding
\$54,420,000 General Obligation (2019 Issuance)	\$775,000 - \$3,710,000	4.0 to 5.0	2049	\$ 54,320,000
\$143,665,000 General Obligation (2020 Issuance)	\$1,9250,00 - \$6,355,000	4.0 to 5.0	2050	142,125,000
\$66,740,000 General Obligation (2021 Refunding)	\$2,805,000 - \$3,700,000	0.6 to 2.68	2043	60,170,000
\$55,490,000 General Obligation (2022 Issuance)	\$500,000 - \$3,155,000	4.0 to 5.0	2049	50,740,000
\$47,320,000 General Obligation (2024 Issuance)	\$300,000 - \$5,700,000	5.0	2054	47,320,000
Total governmental activities				<u>\$ 354,675,000</u>

Compensated Absences

Compensated absences attributable to the governmental activities will be liquidated primarily by the General Fund. The liability for compensated absences reported in the government-wide statements consists of earned but unused accumulated vacation, sick leave, and longevity benefits. A liability for these amounts is reported in governmental funds as it comes due for payment. The liability has been calculated using the vesting method in which leave amounts for both employees who are currently eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.

Installment Purchase Agreements

Installment purchase agreements were issued to fund the purchase of various vehicles. The 2019 installment purchase agreement has a fixed interest rate of 3.55 percent. The 2021 installment purchase agreements have a fixed interest rate of 2.45 percent. The 2024 installment purchase agreement has a fixed interest rate of 5.8 percent. The installment purchase agreements will be repaid in equal annual installments of principal and interest over a five-year period by the General Fund. The vehicles are secured as collateral under the installment purchase agreements. The 2019 loan matured on June 1, 2024. The 2021 loans mature on June 1, 2026 and the 2024 loan matures on November 3, 2028.

The installment purchase agreements contain (1) a provision that, in the event of default, outstanding amounts are to be repaid immediately and (2) a provision that, if the entity is unable to make a payment, outstanding amounts are due immediately.

Other Long-term Liabilities

Compensated absences attributable to the governmental activities and lease liabilities will be liquidated primarily by the General Fund.

Note 10 - Long-term Debt (Continued)

Debt Service Requirements to Maturity

Annual debt service requirements to maturity for the above bonds and note obligations are as follows:

Years Ending June 30	Governmental Activities				
	Direct Borrowings and Direct Placements		Other Debt		Total
	Principal	Interest	Principal	Interest	
2025	\$ 103,130	\$ 17,898	\$ 11,005,000	\$ 15,235,331	\$ 26,361,359
2026	107,208	13,820	12,035,000	15,199,141	27,355,169
2027	51,835	9,553	7,775,000	14,740,874	22,577,262
2028	54,842	6,546	9,000,000	14,494,348	23,555,736
2029	58,022	3,365	9,045,000	14,193,297	23,299,684
2030-2034	-	-	55,110,000	65,545,279	120,655,279
2035-2039	-	-	73,515,000	52,316,982	125,831,982
2040-2044	-	-	82,655,000	34,881,029	117,536,029
2045-2049	-	-	74,775,000	16,299,000	91,074,000
2050-2054	-	-	19,760,000	2,392,500	22,152,500
Total	\$ 375,037	\$ 51,182	\$ 354,675,000	\$ 245,297,781	\$ 600,399,000

Note 11 - Leases

The School District leases technology equipment from various third parties. Payments are generally fixed monthly. Lease activity of the School District is included in Note 6.

Future principal and interest payment requirements related to the School District's lease liabilities at June 30, 2024 are as follows:

Years Ending June 30	Principal	Interest	Total
2025	\$ 598,187	\$ 23,526	\$ 621,713
2026	213,656	3,623	217,279
2027	6,950	946	7,896
2028	7,363	532	7,895
2029	5,147	113	5,260
Total	\$ 831,303	\$ 28,740	\$ 860,043

Note 12 - Restricted Assets

At June 30, 2024, restricted assets are composed of the following:

Description	Governmental Activities
Unspent bond proceeds and related interest	\$ 138,257,360
Unspent Sinking Fund property taxes levied	4,962,864
Unspent debt service property taxes levied	15,235,383
Unspent OPEB funds	4,721,260
Total	\$ 163,176,867

Note 13 - Risk Management

The School District is exposed to various risks of loss related to property loss, torts, errors and omissions, and employee injuries (workers' compensation), as well as medical benefits provided to employees. The School District has purchased commercial insurance for property and general liability claims and participates in the SET SEG risk pool for claims relating to property and general liability. Settled claims relating to the commercial insurance have not exceeded the amount of insurance coverage in any of the past three fiscal years.

The shared-risk pool program in which the School District participates operates as a common risk-sharing management program for school districts in Michigan; member premiums are used to purchase commercial excess insurance coverage and to pay member claims in excess of deductible amounts.

Note 14 - Michigan Public School Employees' Retirement System

Plan Description

The School District participates in the Michigan Public School Employees' Retirement System (the "System"), a statewide, cost-sharing, multiple-employer defined benefit public employee retirement system governed by the State of Michigan that covers substantially all employees of the School District. Certain school district employees also receive defined contribution retirement and health care benefits through the System. The System provides retirement, survivor, and disability benefits to plan members and their beneficiaries. The System also provides postemployment health care benefits to retirees and beneficiaries who elect to receive those benefits.

The System is administered by the Office of Retirement Services (ORS). The Michigan Public School Employees' Retirement System issues a publicly available financial report that includes financial statements and required supplementary information for the pension and postemployment health care plans. That report is available on the web at <http://www.michigan.gov/orsschools>.

Benefits Provided

Benefit provisions of the defined benefit (DB) pension plan and the postemployment health care plan are established by state statute, which may be amended. Public Act 300 of 1980, as amended, establishes eligibility and benefit provisions for the defined benefit pension plan and the postemployment health care plan.

Depending on the plan option selected, member retirement benefits are calculated as final average compensation times years of services times a pension factor ranging from 1.25 percent to 1.50 percent. The requirements to retire range from attaining the age of 46 to 60 with years of service ranging from 5 to 30 years, depending on when the employee became a member. Early retirement is computed in the same manner as a regular pension but is permanently reduced by 0.50 percent for each full and partial month between the pension effective date and the date the member will attain age 60. There is no mandatory retirement age.

Depending on the member's date of hire, MPSERS offers the option of participating in the defined contribution (DC) plan that provides a 50 percent employer match (up to 3 percent of salary) on employee contributions.

Members are eligible for nonduty disability benefits after 10 years of service and for duty-related disability benefits upon hire. Disability retirement benefits are determined in the same manner as retirement benefits but are payable immediately without an actuarial reduction. The disability benefits plus authorized outside earnings are limited to 100 percent of the participant's final average compensation, with an increase of 2 percent each year thereafter.

Benefits may transfer to a beneficiary upon death and are determined in the same manner as retirement benefits but with an actuarial reduction.

Note 14 - Michigan Public School Employees' Retirement System (Continued)

Benefit terms provide for annual cost of living adjustments to each employee's retirement allowance subsequent to the employee's retirement date. The annual adjustment, if applicable, is 3 percent. Some members who do not receive an annual increase are eligible to receive a supplemental payment in those years when investment earnings exceed actuarial assumptions.

MPSERS provides medical, prescription drug, dental, and vision coverage for retirees and beneficiaries. A subsidized portion of the premium is paid by MPSERS, with the balance deducted from the monthly pension of each retiree health care recipient. Depending on the member's date of hire, this subsidized portion ranges from 80 percent to the maximum allowed by the statute.

Contributions

Public Act 300 of 1980, as amended, required the School District to contribute amounts necessary to finance the coverage of pension benefits of active and retired members. Contribution provisions are specified by state statute and may be amended only by action of the state Legislature. Under these provisions, each school district's contribution is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance a portion of the unfunded accrued liability.

Under the OPEB plan, retirees electing this coverage contribute an amount equivalent to the monthly cost for Part B Medicare and 10 percent, or 20 percent for those not Medicare eligible, of the monthly premium amount for the health, dental, and vision coverage at the time of receiving the benefits. The MPSERS board of trustees annually sets the employer contribution rate to fund the benefits. Participating employers are required to contribute at that rate.

Under Public Act 300 of 2012, members were given the choice between continuing the 3 percent contribution to the retiree health care and keeping the premium subsidy benefit described above or choosing not to pay the 3 percent contribution and, instead, opting out of the subsidy benefit and becoming participants in the Personal Healthcare Fund (PHF), a portable tax-deferred fund that can be used to pay health care expenses in retirement. Participants in the PHF are automatically enrolled in a 2 percent employee contribution into their 457 accounts as of their transition date, earning them a 2 percent employer match into a 401(k) account. Members who selected this option stopped paying the 3 percent contribution to retiree health care as of the day before their transition date, and their prior contributions were deposited into their 401(k) accounts.

The School District's contributions are determined based on employee elections. There are multiple different pension and health care benefit options included in the plan available to employees based on date of hire and the elections available at that time. Contribution rates are adjusted annually by the ORS.

The ranges of rates are as follows:

	Pension	OPEB
October 1, 2022 - September 30, 2023	13.75% - 20.16%	7.21% - 8.07%
October 1, 2023 - September 30, 2024	13.90% - 23.03%	7.06% - 8.31%

Depending on the plan selected, member pension contributions range from 0 percent up to 7.0 percent of gross wages. For certain plan members, a 4 percent employer contribution to the defined contribution pension plan is required. In addition, for certain plan members, a 3 percent employer match is provided to the defined contribution pension plan.

The School District's required and actual pension contributions to the plan for the year ended June 30, 2024 were \$35,512,530, which includes the School District's contributions required for those members with a defined contribution benefit. For the year ended June 30, 2024, the School District's required and actual pension contributions include an allocation of \$16,302,852 in revenue received from the State of Michigan and remitted to the System to fund the MPSERS unfunded actuarial accrued liability (UAAL) stabilization rate.

Note 14 - Michigan Public School Employees' Retirement System (Continued)

The School District's required and actual OPEB contributions to the plan for the year ended June 30, 2024 were \$7,340,855, which includes the School District's contributions required for those members with a defined contribution benefit.

Net Pension Liability

At June 30, 2024, the School District reported a liability of \$271,170,856 for its proportionate share of the net pension liability. The net pension liability was measured as of September 30, 2023, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of September 30, 2022, which used update procedures to roll forward the estimated liability to September 30, 2023. The School District's proportion of the net pension liability was based on a projection of its long-term share of contributions to the pension plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2023 and 2022, the School District's proportion was 0.84 and 0.85 percent, respectively, representing a change of 2.00 percent.

Net OPEB Asset

At June 30, 2024, the School District reported an asset of \$(4,721,260) for its proportionate share of the net OPEB asset. The net OPEB asset for fiscal year 2024 was measured as of September 30, 2023, and the total OPEB liability asset used to calculate the net OPEB asset was determined by an actuarial valuation as of September 30, 2022, which used update procedures to roll forward the estimated asset to September 30, 2023. The School District's proportion of the net OPEB asset was based on a projection of its long-term share of contributions to the OPEB plan relative to the projected contributions of all participating reporting units, actuarially determined. At September 30, 2023 and 2022, the School District's proportion was 0.83 and 0.83 percent, respectively, representing a change of 0.10 percent.

Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

For 2024, the School District recognized pension expense of \$25,730,227, inclusive of payments to fund the MPSERS UAAL stabilization rate. At June 30, 2024, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 8,560,037	\$ (415,391)
Changes in assumptions	36,744,885	(21,186,266)
Net difference between projected and actual earnings on pension plan investments	-	(5,549,034)
Changes in proportion and differences between the School District's contributions and proportionate share of contributions	20,790	(13,121,371)
The School District's contributions to the plan subsequent to the measurement date	30,680,713	-
Total	<u>\$ 76,006,425</u>	<u>\$ (40,272,062)</u>

Note 14 - Michigan Public School Employees' Retirement System (Continued)

The \$16,302,852 reported as deferred inflows of resources resulting from the pension portion of state aid payments received pursuant to the UAAL payment will be recognized as state appropriations revenue for the year ending June 30, 2025. Amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Years Ending	Amount
2025	\$ (407,409)
2026	67,965
2027	9,873,769
2028	<u>(4,480,675)</u>
Total	<u>\$ 5,053,650</u>

In addition, the contributions subsequent to the measurement date will be included as a reduction of the net pension liability in the next year.

OPEB Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

For the year ended June 30, 2024, the School District recognized OPEB recovery of \$10,122,010.

At June 30, 2024, the School District reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ -	\$ (35,676,265)
Changes in assumptions	10,510,349	(1,265,645)
Net difference between projected and actual earnings on OPEB plan investments	14,395	-
Changes in proportionate share or difference between amount contributed and proportionate share of contributions	74,440	(3,936,550)
Employer contributions to the plan subsequent to the measurement date	<u>5,226,768</u>	<u>-</u>
Total	<u>\$ 15,825,952</u>	<u>\$ (40,878,460)</u>

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows (note that employer contributions subsequent to the measurement date will reduce the net OPEB liability and, therefore, will not be included in future OPEB expense):

Years Ending	Amount
2025	\$ (10,218,708)
2026	(9,192,369)
2027	(3,897,898)
2028	(3,373,544)
2029	(2,403,334)
Thereafter	<u>(1,193,423)</u>
Total	<u>\$ (30,279,276)</u>

Note 14 - Michigan Public School Employees' Retirement System (Continued)

Actuarial Assumptions

The total pension liability and total OPEB liability as of September 30, 2023 are based on the results of an actuarial valuation as of September 30, 2022 and rolled forward. The total pension liability and OPEB liability were determined using the following actuarial assumptions:

Actuarial cost method		Entry age normal
Investment rate of return - Pension	6.00%	Net of investment expenses based on the groups
Investment rate of return - OPEB	6.00%	Net of investment expenses based on the groups
Salary increases	2.75% - 11.55%	Including wage inflation of 2.75 percent
Health care cost trend rate - OPEB	6.25% - 7.50%	Year 1 graded to 3.5 percent in year 15
Mortality basis		PubT-2010 Male and Female Employee Mortality Tables, scaled 100 percent (retirees: 116 percent for males and 116 percent for females) and adjusted for mortality improvements using projection scale MP-2021 from 2010
Cost of living pension adjustments	3.00%	Annual noncompounded for MIP members

Assumption changes as a result of an experience study for the periods from 2017 through 2022 have been adopted by the System for use in the annual pension and OPEB valuations beginning with the September 30, 2023 valuation.

Significant assumption changes since the prior measurement date, September 30, 2022, for the OPEB plans include a decrease in the health care cost trend rate of 0.25 percentage points for members under 65 and an increase of 1.0 percentage point for member over 65. There were no significant benefit terms changes for the pension or OPEB plans since the prior measurement date of September 30, 2022.

Discount Rate

The discount rate used to measure the total pension and OPEB liability was 6.00 percent as of September 30, 2023 depending on the plan option. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that district contributions will be made at statutorily required rates.

Based on those assumptions, the pension plan's fiduciary net position and the OPEB plan's fiduciary net position were projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan and OPEB plan investments was applied to all periods of projected benefit payments to determine the total pension liability and total OPEB liability.

June 30, 2024

Note 14 - Michigan Public School Employees' Retirement System (Continued)

The long-term expected rate of return on pension plan and OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Real Rate of Return
Domestic equity pools	25.00 %	5.80 %
Private equity pools	16.00	9.60
International equity pools	15.00	6.80
Fixed-income pools	13.00	1.30
Real estate and infrastructure pools	10.00	6.40
Absolute return pools	9.00	4.80
Real return/opportunistic pools	10.00	7.30
Short-term investment pools	2.00	0.30
Total	100.00 %	

Long-term rates of return are net of administrative expense and inflation of 2.7 percent.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the School District, calculated using the discount rate depending on the plan option. The following also reflects what the School District's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1 Percentage Point Decrease (5.00%)	Current Discount Rate (6.00%)	1 Percentage Point Increase (7.00%)
Net pension liability of the School District	\$ 366,351,032	\$ 271,170,856	\$ 191,929,917

Sensitivity of the Net OPEB Asset to Changes in the Discount Rate

The following presents the net OPEB asset of the School District, calculated using the current discount rate. It also reflects what the School District's net OPEB liability (asset) would be if it were calculated using a discount rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	1 Percentage Point Decrease (5.00%)	Current Discount Rate (6.00%)	1 Percentage Point Increase (7.00%)
Net OPEB liability (asset) of the School District	\$ 4,894,530	\$ (4,721,260)	\$ (12,985,087)

Note 14 - Michigan Public School Employees' Retirement System (Continued)

Sensitivity of the Net OPEB Asset to Changes in the Health Care Cost Trend Rate

The following presents the net OPEB asset of the School District, calculated using the current health care cost trend rate. It also reflects what the School District's net OPEB (asset) liability would be if it were calculated using a health care cost trend rate that is 1 percentage point lower or 1 percentage point higher than the current rate:

	<u>1 Percentage Point Decrease</u>	<u>Current Discount Rate</u>	<u>1 Percentage Point Increase</u>
Net OPEB (asset) liability of the School District	\$ (13,005,692)	\$ (4,721,260)	\$ 4,245,210

Pension Plan and OPEB Plan Fiduciary Net Position

Detailed information about the plan's fiduciary net position is available in the separately issued MPSERS financial report.

Payable to the Pension Plan and OPEB Plan

At June 30, 2024, the School District reported a payable of \$7,520,132 and \$1,117,020 for the outstanding amount of contributions to the pension plan and OPEB plan, respectively, required for the year ended June 30, 2024.

Note 15 - Tax Abatements

The School District receives reduced property tax revenue as a result of industrial facilities tax exemptions (PA 198 of 1974) and brownfield redevelopment agreements granted by cities, villages, and townships within the boundaries of the School District. Industrial facility exemptions are intended to promote construction of new industrial facilities or to rehabilitate historical facilities; brownfield redevelopment agreements are intended to reimburse taxpayers that remediate environmental contamination on their properties.

For the fiscal year ended June 30, 2024, the School District's property tax revenue was reduced by approximately \$1,608,000 under these programs.

The School District is reimbursed for lost revenue caused by tax abatements on the operating millage of nonhomestead properties from the State of Michigan under the school aid formula. The School District received approximately \$1,257,000 in reimbursements from the State of Michigan. The School District is not reimbursed for lost revenue from the Sinking Fund or debt service millages.

Budgetary Information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the General Fund and all special revenue funds and capital project funds, with the exception that capital outlay is budgeted in the function category. All annual appropriations lapse at fiscal year end.

The budget document presents information by fund and function. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the individual function level for the General Fund, the fund level for the Cafeteria Fund, and the subfund level for other special revenue funds and capital project funds. State law requires the School District to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits school districts to amend their budgets during the year. During the year, the budgets were amended in a legally permissible manner. For budgeting purposes, capital outlay is classified within the related function and proceeds from the sale of capital assets and transfers are classified within local revenue. During the year, the budget was amended in a legally permissible manner.

There were a variety of significant amendments to the 2023-2024 General Fund budget during the year. The two most significant changes resulting in the positive variance for revenue were increases in lump-sum payment from the State to assist with the cost of retirement for district employees and the student count coming in better than expected. The largest expense fluctuations throughout the year are driven by changes in estimates for staffing and associated benefits. These changes have been more significant in the recent years as a result of the workforce becoming more mobile making it more challenging to estimate staffing costs.

Encumbrances (e.g., purchase orders and contracts) outstanding at year end do not constitute expenditures or liabilities because the goods or services have not been received as of year end; the commitments will be reappropriated and honored during the subsequent year.

Pension Information

Benefit Changes

There were no changes of benefit terms for each of the reported plan years ended September 30.

Changes in Assumptions

There were no significant changes of benefit assumptions for each of the reported plan years ended September 30 except for the following:

- 2023 - The valuation includes the impact of an updated experience study for periods from 2017 to 2022.
- 2022 - The discount rate and investment rate of return used in the September 30, 2021 actuarial valuation decreased by 0.80 percentage points.
- 2019 - The discount rate used in the September 30, 2018 actuarial valuation decreased by 0.25 percentage points.
- 2018 - The discount rate used in the September 30, 2017 actuarial valuation decreased by 0.45 percentage points. The valuation also includes the impact of an updated experience study for periods from 2012 to 2017.
- 2017 - The discount rate used in the September 30, 2016 actuarial valuation decreased by 0.50 percentage points.

OPEB Information

Ultimately, 10 years of data will be presented in both of the OPEB-related schedules. The number of years currently presented represents the number of years since the accounting standard requiring these schedules first became applicable.

Benefit Changes

There were no changes of benefit terms for each of the reported plan years ended September 30.

June 30, 2024

Changes in Assumptions

There were no significant changes of benefit assumptions for each of the reported plan years ended September 30 except for the following:

- 2023 - The health care cost trend rate used in the September 30, 2022 actuarial valuation decreased by 0.25 percentage points for members under 65 and increased by 1.00 percentage point for members over 65. In addition, actual per person health benefit costs were lower than projected. The valuation includes the impact of an updated experience study for periods from 2017 to 2022.
- 2022 - The discount rate and investment rate of return used in the September 30, 2021 actuarial valuation decreased by 0.95 percentage points. This resulted in lower than projected per person health benefit costs to reduce the plan's total OPEB liability by an additional \$1.1 billion in 2022.
- 2021 - The health care cost trend rate used in the September 30, 2020 actuarial valuation increased by 0.75 percentage points for members under 65 and decreased by 1.75 percentage points for members over 65. In addition, actual per person health benefit costs were lower than projected. This reduced the plan's total OPEB liability by \$1.3 billion in 2021.
- 2020 - The health care cost trend rate used in the September 30, 2019 actuarial valuation decreased by 0.50 percentage points and actual per person health benefit costs were lower than projected. This reduced the plan's total OPEB liability by \$1.8 billion in 2020.
- 2019 - The discount rate used in the September 30, 2018 actuarial valuation decreased by 0.20 percentage points. The valuation also includes the impact of an updated experience study for periods from 2012 to 2017. This resulted in lower than projected per person health benefit costs to reduce the plan's total OPEB liability by an additional \$1.4 billion in 2019.
- 2018 - The discount rate used in the September 30, 2017 actuarial valuation decreased by 0.35 percentage points. The valuation also includes the impact of an updated experience study for periods from 2012 to 2017. This resulted in lower than projected per person health benefit costs to reduce the plan's total OPEB liability by \$1.4 billion in 2018.

Statistical Section

Statistical Section

This part of the annual comprehensive financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the School District's overall financial health.

The statistical section is organized into the following main categories:

Financial trends

These schedules contain trend information to help the reader understand how the School District's financial performance and well-being have changed over time.

Revenue capacity

These schedules contain information to help the reader assess the School District's most significant local revenue source, the property tax.

Debt capacity

These schedules present information to help the reader assess the affordability of the School District's current level of outstanding debt and the School District's ability to issue additional debt in the future.

Demographic and economic information

These schedules help the reader understand the environment within which the School District's financial activities take place.

Operating information

These schedules contain service and infrastructure data to help the reader understand how the information in the School District's financial report relates to the services the School District provides and the activities it performs.

Note: Under Michigan law, the revenue base is referred to as "Taxable Value". This amount represents Assessed value (50% of true cash value), limited for each property by the lower of 5% or inflation.

Taxes levied in a particular "tax year" become revenue of the subsequent fiscal year
