Addenda will be available from the Printing Company for purchase. Purchase price must be obtained directly from the Printing Company.

The Bidder or proposer is responsible for obtaining all Addenda prior to submitting a bid or proposal to the district.

The following items modify the plans and specifications and shall become a part of the contract documents.

Bid Questions:

1. We are missing spec sections 019200 & 019300 from Fredrick Douglass Elementary School, Gilbert Cuellar Sr. Elementary School and Macon Elementary School. Please advise.

Response: Sections 019200 & 019300 should be ignored and replaced with the following: Section 022623 Renovation Asbestos Survey and Section 023200 Geotechnical Data, for each volume. Discard the 019200 and 019300 numbers/ sections.

2. We are missing spec sections 233600 from Fredrick Douglass Elementary School, Gilbert Cuellar Sr. Elementary School and Macon Elementary School. Please advise.

Response: Macon and Douglass, do not have air terminal units in their scope, so it was not a part of those 2 projects. For Cuellar it is included in the specifications.

3. Regarding the GILBERT CUELLAR SR. ELEMENTARY SCHOOL – RENOVATION, our commercial roofing company, would like to know if our Fluid Applied Reinforced Roof System would be considered as an alternative for your roof repair. Our system can be applied to the existing substrate as specified in the plans or, if allowable, we can provide a new, seamless, waterproof and FM/UL (up to severe hail) rated roof system with a renewable 20-year warranty directly on the existing roof reducing your cost drastically.

Response: The roof scope is limited to patching any new penetrations / repairs per the MEP scope of work. It is not a new roof system, but also the existing roof is under warranty and the same system (Modified Bituminous) needs to be used to maintain warranty.

4. We are a low voltage company, and we are interested in working with you on this project. Are you currently accepting proposals for the low volt scope?

Response: Separate/ independent standalone bids by subcontractors are not acceptable and will not be considered. Refer to drawings for low volt scope components/ systems and submit under a General Contractor overall bid proposal.

Construction Drawings:

1. For Macon, replace sheet "A1.10 Overall Site Plan New" with the one attached, modified keynote "A01".
2. For Cuellar, replace sheet "A1.00 Overall Site Plan Demo", with new sheet attached, renamed keynote A01 to AD1.
3. For Cuellar, replace sheet "A1.10 Overall Site Plan New", with new sheet attached, added keynote A03 & A04.

Specifications:

1. Replace Table of Contents (00 01 10) for Douglass with attached, Specification Section 233600 was removed from TOC and Manuel, section does not apply to school.

END OF ADDENDUM
