

October 3. 2024 - SISD SHAC Meeting

Reid Kirk – Chairman

Casie Rivas – Co-Chairman

Christy Baca – Secretary

In attendance:

Reid Kirk

Amber Clark

Isabella Wilkerson (student representative)

Jenny Smucker

Nada Krayem

Truman Smucker (student representative)

Aiden Kirk (student representative)

Heath Wester

Casie Rivas

Yolanda Petty

Scott Johnston

Reid calls meeting to order:

Reid opened the meeting and reminded those in attendance of the purpose of SHAC and introduced the student representatives who are on the SHAC to serve 2024-2025.

Community leaders, parents, school staff and student representatives. Public meeting for public attendance should members of the public choose to join us.

Introductions of those in attendance were made.

A few changes to SHAC. Reid mentioned we have previous members of SHAC who were voted to School board and felt conflict to interest, so not on SHAC committee any longer.

Reid brings up the need for a co-chair. Parent representative co-chair.

Motion was made to have Casie Rivas as co-chair. Casie has been voted by this SHAC to represent as co-chair.

Emails within SISD go well w Sherman ISD but may get lost in junk email. Reid addressed that we may need to ck our junk email to see these from him regarding SHAC.

We will as a SHAC meet four times from 12:00-1:00 on the following dates:

Oct 3. 2024

Nov 7. 2024

Feb 6. 2025

April 3. 2025

UPDATE ON WELLNESS PLAN:

Reid reminded the SHAC of the school wellness plan and we are given task to update the school wellness plan. This team has shifted since we last met. We do need to continue looking at our wellness plan in an effort to make recommendation to our SISD School Board by April 2025. To consider an updated wellness plan to be presented as what we propose to be reflective as Sherman ISD's Wellness plan.

CHIEF WESTER UPDATE ON VAPING:

Talking about some things the district has done, is doing and planning to do to try to reduce vaping use on our campuses.

Chief Wester:

- Youth vaping awareness webinar summit for 6-12 grade students and parents' great resource for our community.
- Mr. Johnston has increased faculty presence near facilities to cut down on vaping in high school as well as other campuses.
- Frequency on the detectors is set to detect the vape devices in schools as well as with canine assistance.
- There's grant money that can be used to address businesses selling the vape devices to minors.
- What we are doing seems to be helping

Reid opened the floor for discussion on anything that anyone wanted to discuss for district health plan. What do we need to recommend to the board to get in front of the students to educate them on in relation to student health?

Casie has question about an incident at Piner. Is there something being done about fentanyl?

Chief Wester addressed the question – sometimes students aren't telling nurses about Tylenol or other things they bring in and they distribute pills. The drugs are in our district. Our students need to be educated on the dangers of pills and drugs. Educate our students of the dangers of pills. Discussion was had on pills and dangers of fentanyl and hidden dangers of fentanyl. Casie inserted that as a parent she'd rather know as a parent as well as educate our students about these dangers and risks. Wester did remind members of SHAC we did do the One Pill Kills with the county DA last year. This is something we need to bring to the board to have added to the student education programs.

Reid Kirk we can discuss at November meeting how to get this on the calendar for our district through the school board.

Chief Wester – fifth graders need to hear about the dangers of fentanyl as well. Educating gets the attention of the kids.

We need to understand how important this is and educating our students on the dangers of fentanyl.

Motion to call meeting to adjourn Reid 12:29 pm

Gayle Petty motion to adjourn.

Second Jenny

Meeting adjourned.

Reid reminded committee of November 7 meeting.
