

“One of the crowning moments of almost every teenager in America is high school graduation. The Graduate Gwinnett program is about providing a non-traditional path towards that benchmark. For many of our students, this is the catalyst for a brighter future. Often times it is those that carve their own path that have the greatest impact on their future communities. I am honored to be a small part of these students' journey.”

“Out of all the students that I have ever taught, the Graduate Gwinnett students are the hardest working students that I have come across. They have truly mastered the balance between work, life, and school and it is a pleasure to teach them.”
