How To Access

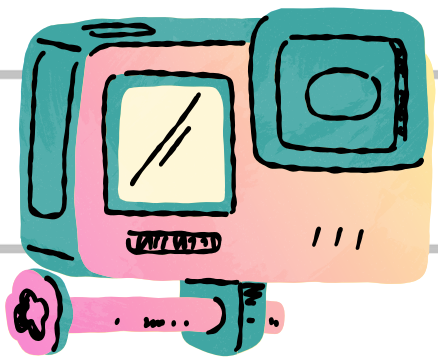

STUDENT RESOURCES

mpschools.org

Select "Students" drop down at the top of the page.

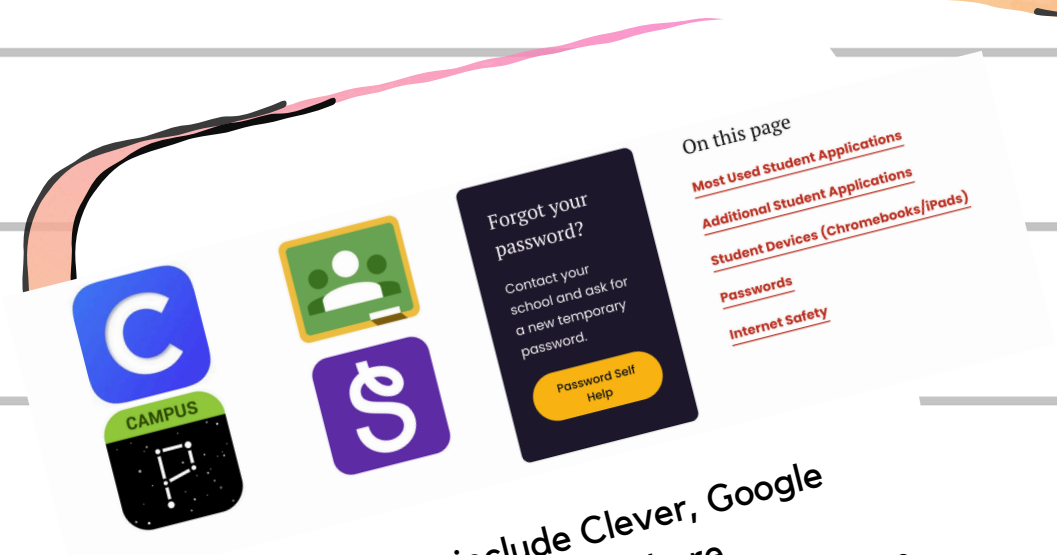

Student Tech Support

Select "Student Tech Support". On this page you will find links to the most used applications, as well as information on passwords and internet safety.

Applications include Clever, Google Classroom (most likely where homework is assigned), Infinite Campus (to check grades), and Seesaw (not used for Middle School)

Once you select the application you want to open, it will navigate you to additional information and login spot for both with a MPS chromebook and without. See Google Classroom example:
