Dorchester School District Two Mission, Vision, Beliefs, and Core Values

Mission

Dorchester School District Two leading the way, every student, every day through relationships, rigor, and relevance.

Vision

Dorchester School District Two desires to be recognized as a "World Class" school district expecting each student to achieve at his/her optimum level in all areas, and providing all members of our district family with an environment that permits them to do their personal best.

<u>Belief</u>s

- We believe that the needs of students will direct every action of the employees of Dorchester School District Two.
- We believe that teaching/instruction will reflect standards-based education and best national practices that promote college and career readiness.
- We believe that all students should have access to personalized learning opportunities which will help them reach their fullest potential.

The foundation of success for our students and our school system is grounded in Core Values that define who we are individually and collectively as Team Dorchester.

| 次次 | STUDENTS CHILDREN COME FIRST |
|-------------|---|
| | PASSION LOVE WHAT YOU DO |
| ķ iņ | ACCOUNTABILITY IT BEGINS WITH ME |
| | INTEGRITY DO WHAT'S RIGHT |
| | COMMUNITY STAND UNITED |
| R | EXCELLENCE BE YOUR BEST |
| Real land | RELATIONSHIPS BUILD A FOUNDATION OF TRUST |
| \$°₹ | DIVERSITY INCLUSIVE OF ALL |
| iiii | LEADERSHIP INSPIRE & EMPOWER |
| | RECOGNITION APPRECIATE & CELEBRATE |

Dorchester School District Two's ten Core Values affirm what we stand for; how we treat one another; what is non-negotiable; and what guiding principles we live by. They focus on what matters most in our school system and provide a framework for a unified sense of purpose for us all.

Required Signature Page

The district strategic plan, or annual update, includes elements required by the Early Childhood Development and Academic Assistance Act of 1993 (Act 135) (S.C. Code Ann. § 59-139-10 et seq. (Supp. 2004)), the Education Accountability Act of 1998 (EAA) (S.C. Code Ann. § 59-18-1300 et seq. (Supp. 2004)), and SBE Regulation 43-261. The signatures of the chairperson of the board of trustees, the superintendent, the principal, and the district strategic planning contact, the district Read to Succeed Leadership Team Lead, and the district Gifted and Talented coordinator are affirmation of active participation of key stakeholders and alignment with Act 135 and EAA requirements.

Assurances for the District Strategic Plans

The assurance pages following this page have been completed and the district superintendent signature below attests that the school/district complies with all applicable assurances requirements including ACT 135 (S.C. Code Ann. § 59-139-10 et seq. (Supp. 2004)); EAA (S.C. Code Ann. § 59-18-1300 et seq. (Supp. 2004)); District and School Planning (SBE Regulation 43-261); Student Health and Fitness Act (S.C. Code Ann. § 59-10-330); Read to Succeed (S.C. Code Ann. § 59-155-180 et seq.); Gifted and Talented (SBE Regulation 43-220); and Proficiency-Based System Plans (SBE Regulation 43-234); and General Grant including Terms and Conditions for SCDE Grant Programs as seen on the following assurance pages.

Assurances for District Strategic Plan

Assurances checked below, along with the signature page signed by the superintendent, attest that the district complies with all applicable regulatory and statutory requirements listed.

| Yes | Academic Assistance, PreK-3 The district makes special efforts to assist children in PreK-3 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation). | |
|-----|--|--|
| Yes | Academic Assistance, Grades 4–12 The district makes special efforts to assist children in grades 4–12 who demonstrate a need for extra or alternative instructional attention (e.g., after-school homework help centers, individual tutoring, and group remediation). | |
| Yes | Parent Involvement The district encourages and assists parents in becoming more involved in their children's education. Some examples of parental involvement initiatives include making special efforts to meet with parents at times more convenient for them; providing parents with their child's individual test results and an interpretation of the results; providing parents with information on the district's curriculum and assessment program; providing frequent, two way communication between home and school; providing parents an opportunity to participate on decision making groups; designating space in schools for parents to access educational resource materials; including parent involvement expectations part of the principal's and superintendent's evaluations; and providing parents with information pertaining to expectations held for them by the school system, such as ensuring attendance and punctuality of their children. | |
| Yes | Staff Development The district provides staff development training for teachers and administrators in the teaching techniques and strategies needed to implemen the district plan for the improvement of student academic performance. The staff development program reflects requirements of Act 135, the EAA, and the National Staff Development Council's revised Standards for Staff Development. | |
| Yes | Technology The district integrates technology into professional development, curriculum development, and classroom instruction to improve teaching and learning. The district will provide a copy of their updated technology plan to the S.C. Department of Education on an annual basis. | |
| Yes | Innovation The district uses innovation funds for innovative activities to improve student learning and accelerate the performance of all students. | |
| Yes | Collaboration The district (regardless of the grades served) collaborates with health and human services agencies (e.g., county health departments, social services departments, mental health departments, First Steps, and the family court system). | |
| Yes | Developmental Screening The district ensures that the young child receives all services necessary for growth and development. Instruments are used to assess physical, social, emotional, linguistic, and cognitive developmental levels. This program normally is appropriate at primary and elementary schools, although screening efforts could take place at any location. | |
| Yes | Half-Day Child Development The district provides half-day child development programs for four-year-olds (some districts fund full-day programs). The programs usually function at primary and elementary schools, although they may be housed at locations with other grade levels or completely separate from schools. | |
| Yes | Developmentally Appropriate Curriculum for PreK–3 The district ensures that the scope and sequence of the curriculum for PreK–3 are appropriate for the maturation levels of students. Instructional practices accommodate individual differences in maturation levels and take into account the student's social and cultural context. | |
| Yes | Parenting and Family Literacy The district provides a four component program that integrates all of the following activities: interactive literacy activities between parents and their children (Interactive Literacy Activities); training for parents regarding how to be the primary teachers for their children and how to be full partners in the education of their children (parenting skills for adults, parent education); parent literacy training that leads to economic self-sufficiency (adult education); and an age-appropriate education to prepare children for success in school and life experiences (early childhood education). Family Literacy is not grade specific, but is generally most appropriate for parents of children at the primary and elementary school levels and below as well as for secondary school students who are parents. Family Literacy program goals are to strengthen parental involvement in the learning process of preschool children ages birth through five years; to promote school readiness of preschool children; to offer parents special opportunities to improve their literacy skills and education; to provide parents a chance to recover from dropping out of school; and to identify potential developmental delays in preschool children by offering developmental screening. | |
| Yes | Recruitment The district makes special and intensive efforts to recruit and give priority to serving those parents or guardians of children, ages birth throug five years, who are considered at-risk of school failure. "At-risk" children are defined as those whose school readiness is jeopardized by any of, but not limited to, the following personal or family situation(s): educational level of parent below high school graduation, poverty, limited English proficiency, significant developmental delays, instability or inadequate basic capacity within the home and/or family, poor health (physical, mental, emotional), and/or child abuse and neglect. | |
| Yes | Coordination of Act 135 Initiatives with Other Federal, State, and District Programs The district ensures as much program effectiveness as possible by developing a district wide/school wide coordinated effort among all programs and funding. Act 135 initiatives are coordinated with programs such as Head Start, First Steps, Title I, and programs for students with disabilities. | |

| Yes | Each school district shall establish and maintain a Coordinated School Health Advisory Council (CSHAC) to include members of the community, school representatives, students, parents, district food service employees, and school board members. The CSHAC will assess, plan, implement, and monitor district and school health policies and programs including the district wellness policy initiated in the 2006–07 school year. Each district, in collaboration with the CSHAC, shall develop, within the district's wellness policy, a school health improvement plan, in compliance with Section 59-10-310, that addresses strategies for improving student nutrition, health, and physical activity. The goals for the school health improvement plan, and progress toward those goals, must be included in the district's strategic plan required pursuant to Section 59-20-60. | |
|---|---|--|
| (S.C. Code A | nd Economic Development Act Assurances for Districts nn. § 59-59-10 et seq.) endent certifies that: | |
| Yes | Each elementary, middle, and high school in the district has implemented the Comprehensive Developmental Guidance and Counseling Program Model. | |
| Yes | All elementary, middle, and high schools in the district have integrated career awareness, exploration, and/or preparation activities into their curricula. | |
| Yes | Each middle and high school in the district has a student-to-guidance personnel ratio of 300:1 or less. (<i>Flexibility Provisos 1.26 and 1A.14 suspends professional staffing ratios for 2017–18 in eligible districts.</i>) | |
| Yes | Each middle and high school in the district employs certified career development facilitators who perform the 13 duties specified in the EEDA legislation. | |
| Yes | All students in grades eight through twelve have developed an individual graduation plan (IGP) that is reviewed by students and their parents/parental designees during annual IGP conferences facilitated by certified guidance counselors. | |
| Yes | All eighth grade students in the district have chosen a career cluster. (Students may change their cluster choice if they desire to do so). | |
| Yes | All tenth grade students in the district have chosen a career major. (Students may change their major if they desire to do so). | |
| Yes | All high schools in the district offer enough courses for all students to complete their chosen majors. (NOTE: To complete a major, students must take four courses for elective credit that are associated with that major). | |
| Yes | Each high school in the district is organized around a minimum of three of the 16 national career clusters. | |
| Yes | Each high school in the district has implemented an evidence-based program model designed to ensure that students identified as being at-risk of dropping out actually graduate from high school with a state diploma. | |
| Yes | Each high school in the district has implemented High Schools That Work or another state-approved comprehensive reform model. | |
| Yes | Each high school in the district offers all students at least one opportunity to participate in an extended or work-based learning activity prior to graduation. | |
| Yes | Each high school in the district offers students opportunities to enroll in courses for which they may receive both high school and college credit. | |
| | nn. § 59-155-180 et seq.) | |
| Yes | District Reading Plan The district has a district reading plan which addresses the components of leadership, student outcomes, professional learning opportunities, instructional and assessment plans, parent and family involvement, and school-community partnerships. | |
| Yes | 4K and 5K Readiness Assessment The district ensures that a state identified readiness assessment for 4K and 5K is administered to all students prior to the 45th day of school. | |
| Yes | Third Grade Retention The district provides support to ensure all students who are not reading on grade level by the end of third grade are provided with an instructional program based upon students' needs as determined by local and state formative and summative assessment data and provides intervening services, including summer reading camps, to reduce the number of students needing retention at the beginning of the 2017–18 school year. | |
| Yes | Reading Coaches The district supports school based reading coaches in every elementary school. | |
| Yes | Interventions The district provides interventions based on data for all students identified. | |
| Yes | Summer Reading Camps The district offers summer reading camps for those students identified. | |
| Gifted and T (SBE Regula Students Ser The district s | ved | |
| Yes | Academically gifted and talented students in elementary school (grades 3–5). | |
| Yes | Academically gifted and talented students in middle school (grades 6–8). | |
| Yes | Academically gifted and talented students in high school (grades 9–12). | |
| Yes | Artistically gifted and talented students in elementary school (grades 3–5). | |
| Yes | Artistically gifted and talented students in middle school (grades 6–8). | |
| Yes | Artistically gifted and talented students in high school (grades 9–12). | |
| i es | Academically gifted and talented students in grades 1 and 2 (optional). | |

| The district pla | and Artistically Gifted and Talented Plan an provides a comprehensive, aligned, and coordinated continuum of services that address the advanced learning needs of academically and ed and talented students. The following components must be included in the planning: | |
|--|---|--|
| Yes | Differentiated curriculum, instruction, and assessments that maximize the potential of the identified students; | |
| Yes | Support services that facilitate student learning and personalized education; | |
| l'es | Programming models that facilitate the delivery of differentiation in curriculum and instruction; | |
| Yes | Classroom ratios that foster positive results; | |
| Yes | Appropriate and sufficient time in instruction to assure that the goals and objectives of the programming are met; and | |
| Yes | Systematic assessment of student progress and programming effectiveness relative to goals. | |
| Curriculum, in | Instruction, and Assessment struction, and assessment that maximize the potential of the identified students and educational programming for academically gifted and talented de these characteristics: | |
| Yes | Content, process, and product standards that exceed the state-adopted standards for all students and that provide challenges at appropriate levels for strengths of individual students; | |
| Yes | Goals and indicators that require students to demonstrate depth and complexity of knowledge, creative and critical thinking, and problem-solving skills; | |
| Yes | Instructional strategies that promote inquiry and accommodate the unique needs of gifted and talented learners; | |
| Yes | Confluent approach that incorporates acceleration and enrichment; | |
| Yes | Opportunities for the critical consumption, use, and creation of information using available technologies; and | |
| Yes | Evaluation of student performance and programming effectiveness. | |
| Programming The district: | g Models and Time | |
| Yes | Abides by the approved programming models (special class, special school, or resource room/pullout) for academic Gifted and Talented services, | |
| Yes | Abides by the approved programming models (in-school, after-school, Saturday programming, summer programming, or approved hybrid) for artistic Gifted and Talented services, and | |
| Yes | Meets or surpasses the minimum programming minutes for the approved model of services. | |
| N/A | Innovative Model (SCDE approved) Any innovative model, outside of those listed above, has the required annual approval from the South Carolina Department of Education. | |
| Staffing Requ The district m | | |
| Yes | Employ teachers who hold a valid teaching certificate in the appropriate grade level(s) or subject area(s) included in the programming. | |
| Yes | Employ Gifted and Talented endorsed teachers or Gifted and Talented certified teachers. (A one year grace period is permitted in order to obtain endorsement for certified teachers teaching a Gifted and Talented course for the first time. The Gifted and Talented endorsement is encouraged for Gifted and Talented artistic teachers.) | |
| Yes | Provide planning times for Gifted and Talented teachers. The standard is 250 minutes a week or the appropriate grade-level equivalent. | |
| Yes | Provide all teachers working with gifted and talented students annual professional development on differentiated curriculum, instructional strategies, social-emotional support, assessments, or other Gifted and Talented student-focused topics. | |
| Yes | Provide training/guidance regarding the characteristics of academic giftedness for teachers and other district staff involved in the identification process. | |
| Yes | Utilize an evaluation placement team to evaluate the Gifted and Talented identification process and to interpret and to evaluate student data in such a way as to insure appropriate student placement. | |
| Communicati | on and Reporting Requirements | |
| Yes | The district provides all parents/guardians with effective, written notice of the gifted and talented education programming, screening/referral procedures, and eligibility requirements. | |
| Yes | If the district utilizes trial placement, local identification, and/or Gifted and Talented removal policies, those are readily accessible. | |
| Yes | The district annually submits Form A Reports signed PDF. | |
| Yes | The district annually submits Form A Reports Excel file. | |
| Yes | The district annually submits Strategic Plan updates on its progress towards meeting the Gifted and Talented Goals. | |
| Provide comm | ents on why any of the Gifted and Talented assurances above are not met : | |
| District Profi (SBE Regulati | ciency-Based System on 43-234) | |
| Yes | The superintendent has approved the district's Proficiency-Based System that is aligned to the local school board policy. • The Proficiency-Based System plan has been evaluated annually by the SCDE and the results have been reported back to the district. | |

| Yes | The district's Proficiency-Based System Plan: • Explains how the needs assessment substantiates the district's Proficiency-Based System; • Describes the subject area course procedures for the high school proficiency-based credits the district will implement; • Proffers a complete syllabus for each course, or the URL(s) where a syllabus may be found and the method in which the course will be taught; | |
|-------------|--|--|
| | Provides documentation that demonstrates each course and all proficiency assessments for direct instruction are aligned to the State adopted subject area academic standards for the current year; Contains a list of the prerequisite courses used for selecting students for each proficiency-based course where prerequisites are required; and | |
| | • Offers an explanation of how the proficiency-based assessments will be standardized across the district if the courses are offered in multiple schools. | |
| Yes | The district has communicated NCAA eligibility requirements and higher education guidelines regarding proficiency-based courses with parents and students. | |
| Yes | Proficiency-based courses meet all relevant state statutes and regulations unless the State Board of Education (SBE) approved the district's waiver request. • Teachers of all proficiency courses hold valid South Carolina certifications and are appropriately certified for the proficiency subjects in which they teach. | |
| | and Terms and Conditions for State Awards t superintendent of Dorchester 2, I certify that this applicant: | |
| Yes | Has the legal authority to apply for state assistance and the institutional, managerial, and financial capability (including funds sufficient to pay the nonstate share of project costs) to ensure proper planning, management, and completion of the project described in this application. | |
| Yes | Will give the South Carolina Department of Education (SCDE) access to and the right to examine all records, books, papers, or documents related to this award and will establish a proper accounting system in accordance with generally accepted accounting principles (GAAP) or agency directives. | |
| Yes | Has an accounting system that includes sufficient internal controls, a clear audit trail, and written cost-allocation procedures as necessary. The financial management systems are capable of distinguishing expenditures that are attributable to this grant from those that are not attributable to this grant. This system is able to identify costs by programmatic year and by budget line item and to differentiate among direct, indirect, an administrative costs. In addition, the applicant will maintain adequate supporting documents for the expenditures and in-kind contributions, regardless of the type of funds, if any, that it makes under this grant. Costs are shown in books or records (e.g., disbursements ledger, journal, payroll register) and are supported by a source document such as a receipt, travel voucher, invoice, bill, or in-kind voucher. | |
| Yes | Will also comply with GAAP as it relates to budgets, budget amendments, and expenditure claim submissions. | |
| Yes | Will approve all expenditures, document receipt of goods and services, and record payments on the applicant's accounting records prior to submission of reimbursement claims to the SCDE for costs related to this grant. | |
| Yes | Will initiate and complete work within the applicable time frame after receipt of approval by the SCDE. | |
| Yes | Will not discriminate against any employee or applicant for employment because of race, color, religion, age, sex, national origin, or disability. The applicant will take affirmative action to ensure that applicants for employment and the employees during the period of their employment are treated without regard to their race, color, religion, age, sex, national origin, or disability. | |
| Yes | Will comply with the Ethics, Government Accountability, and Campaign Reform Act (S.C. Code Ann. § 2-17-10 et seq. and § 8-13-100 et seq. (Supp. 2016)). | |
| Yes | Will comply with the Drug Free Workplace Act (S.C. Code Ann. § 44-107-10 et seq. (Supp. 2016)) if the amount of this award is \$50,000 or more. | |
| Terms and C | Conditions | |
| Yes | Completeness of Proposal All proposals should be complete and carefully worded and must contain all of the information requested by the South Carolina Department of Education (SCDE). If you do not believe a section applies to your proposal, please indicate that fact. | |
| Yes | Non-awards/Termination The SCDE reserves the right to reject any and all applications and to refuse to grant monies under this solicitation. If the SCDE rejects an application, the applicant has a right to request a review of the process consistent with the appeals process presented in the Request for Proposals (RFP). | |
| | After a grant has been awarded, the SCDE may terminate a grant by giving the grantee written notice of termination. In the event of a termination after award, the SCDE shall reimburse the grantee for expenses incurred up to the notification of termination. In addition, this grant may be terminated by the SCDE if the grantee fails to perform as promised in its proposal. Upon the termination of a grant, the grantee shall have the right to a review process. The grantee must notify the SCDE of its request within 30 days of receiving written notice of the termination. | |
| Yes | Reduction in Budgets and Negotiations The SCDE reserves the right to negotiate budgets with potential grantees. The SCDE may, at its sole discretion, determine that a proposed budget is excessive and may negotiate a lower budget with the applicant. The applicant may, at that time, negotiate or withdraw its proposal. In addition, the SCDE may desire to fund a project, but not at the level proposed. In that case, the SCDE shall notify the applicant of the amount that can be funded, and the applicant and the SCDE shall negotiate a modification to the proposal to accommodate the lower budget. All final decisions are that of the SCDE. | |
| Yes | Amendments to Grants Amendments are permitted upon the mutual agreement of the parties and will become effective when specified in writing and signed by both parties. | |
| Yes | Use of Grant Funds Funds awarded are to be expended only for purposes and activities covered by the approved project plan, budget, and budget narrative. | |
| Yes | Submission of Expenditure Reports Claims for reimbursement must be made at least quarterly and must be consistent with calendar quarters (e.g., an expenditure report claim for costs for January 1 through March 30 must be filed by May 15). | |
| | - | |

| Yes | Obligation of Grant Funds Grant funds may not be obligated prior to the effective date or subsequent to the end or termination date of the grant period. No obligations are allowed after the end of the grant period. The final request for expenditure report claims must be submitted no later than thirty (30) days after the end of the grant period. | |
|-----|--|--|
| Yes | Deobligation of Funds After a final expenditure claim has been submitted to the SCDE, the grantee will go through the official deobligation process with the SCDE. | |
| Yes | Documentation The grantee must provide for accurate and timely recording of receipts and expenditures. The grantee's accounting system should distinguist receipts and expenditures attributable to each grant. The grantee must review the memo regarding "Guidelines for Retaining Documentation Support Expenditure Claims," available at http://ed.sc.gov/finance/auditing/manuals-handbooks-and-guidelines/guidelines-for-retaining-documentation-to-support-expenditures/ . | |
| Yes | Travel Costs Travel costs, if allowed under this solicitation, must not exceed limits noted in the United States General Services Administration (www.gsa.gov) regulations for lodging. Meals and incidentals are limited by the state budget proviso, currently not to exceed \$25 per day for in-state travel and \$32 for out-of-state travel (see page 91 of the document at http://www.cg.sc.gov/guidanceandformsforstateagencies/Documents/CGsAPP/9-30-2015/DisbursementReg-9-30-15edit.pdf). Mileage reimbursement must follow the current Office of Comptroller General instructions, which is consistent with the published IRS rates. | |
| Yes | Honoraria Amounts paid in honoraria, if allowed under this grant, must be consistent with SCDE policies. Applicants should check with the program office before budgeting for honoraria. | |
| Yes | Reports The grantee shall submit, as required or instructed by the awarding program office, all reports (programmatic, financial, or evaluation) within the specified period or date and in the prescribed format. An expenditure claim report must be filed by August 15 for all expenditures incurred by June 30 in order to comply with the generally accepted accounting principles (GAAP) and the production of the State's Comprehensive Annual Financial Report. | |
| Yes | Copyright The grantee is free to copyright any books, publications, or other copyrightable materials developed in the course of this grant. However, th SCDE reserves a royalty-free, nonexclusive, and irrevocable license to reproduce, publish, or otherwise use, and to authorize others to use, copyrighted work developed under this grant. | |
| Yes | Certification Regarding Suspension and Debarment By submitting an application, the applicant certifies, to the best of its knowledge and belief, that the | |
| | Applicant and/or any of its principals, subgrantees, or subcontractors are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any state or federal agency; have not, within a three-year period preceding this application, been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) contract or subcontract; violation of federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, or receiving stolen property; and are not presently indicted for, or otherwise criminally or civilly charged by a governmental entity with, commission of any of the offenses enumerated above. Applicant has not, within a three-year period preceding this application, had one or more contracts terminated for default by any public (federal, state, or local) entity. | |
| Yes | Audits Although this Assurances, Terms, and Conditions document is for a state award, federal audit requirements apply as follows: • Entities expending \$750,000 or more in federal awards: Entities that expend \$750,000 or more in federal awards during the fiscal year are required to have an audit performed in accordance with the provisions of 2 CFR Part 200.501, et seq. Except for the provisions for biennial audits provided in 2 CFR Part 200.504 (a) and (b), audits must be performed annually as stated at 2 CFR Part 200.504. A grantee that passes through funds to subrecipients has the responsibility of ensuring that federal awards are used for authorized purposes in compliance with federal program laws, federal and state regulations, and grant agreements. The director of the OMB, who will review this amount every two years, has the option of revising the threshold upward. • Entities expending less than \$750,000 in federal awards: Entities that expend less than \$750,000 in a fiscal year in federal awards are exempt from the audit requirements in 2 CFR Part 200.504. However, such entities are not exempt from other federal requirements (including those to maintain records) concerning federal awards provided to the entity. The entity's records must be available for review or audit by the SCDE and appropriate officials of federal agencies, pass-through entities, and the General Accounting Office (GAO). | |
| Yes | Records The grantee shall retain grant records, including financial records and supporting documentation, for a minimum of six (6) years after the end date of the grant when the final expenditure report claim for reimbursement and all final reports have been submitted, unless informed otherwise or in case of litigation. | |

Stakeholder Involvement for District Strategic Plan

List the name of persons who were involved in the development of the District Strategic Plan. A participant for each numbered position is required.

| | Position | Name | |

District Requested Strategic Plan Waiver

The State Board of Education has the authority to waive regulations pursuant to (SBE Regulation 43-261) (C) District and School Planning which states the following:

Upon request of a district board of trustees or its designee, the State Board of Education may waive any regulation that would impede the implementation of an approved district strategic plan or school renewal plan.

All waivers must be requested in writing, signed by the local superintendent, and approved by the local school board prior to being sent to State Accountability. Use the following link to obtain more information on the waiver process: http://ed.sc.gov/districts-schools/state-accountability/waiver-requests/

2021 SC Report Card Climate Data

Note on missing data: On March 26, 2021, the U.S. Department of Education waived federal accountability requirements and granted flexibility in administering assessments due to COVID-19. The results displayed within this report card should not be compared to those of other years due to the testing limitations as a result of the pandemic. In addition, these results may be incomplete and may not be representative of the make-up of the State, district, or school population.

2022 SC Report Card Climate Data

Executive Summary of Needs Assessment Data Findings

Per SBE Regulation 43-261, the annual needs assessment will provide focus for planning teams to set priorities for the plan. The comprehensive needs assessment must identify targeted areas of discrepancy between the desired performance levels and the current status as indicated by available data. Any discrepancies in the following areas identified by the school and district report cards must be included in the plan: (1) achievement, (2) achievement by subgroups, (3) graduation rates, (4) attendance, (5) discipline, (6) teacher/administrator quality and professional growth, and (7) other priority areas.

Measurable performance goals, written in five-year increments, shall be developed to address the major areas of discrepancy found in the needs assessment in key areas reported in the district and school report cards.

State Report Card for districts and schools data: http://ed.sc.gov/data/report-cards/state-report-cards/

Directions: In the appropriate boxes, use district and school data to identify areas in need of improvement. Required areas to be addressed: Student Achievement, Teacher/Administrator Quality, School Climate, and Gifted and Talented.

Student Achievement

Primary School (K - 2)

Dorchester School District Two provides early childhood programs in all elementary schools beginning with our programs for four-year old children. Several elementary schools serve three-year-old children in Special Education programs. The district has five Parent and Family Engagement Centers which provide resources to assist parents in academic engagement with their child(ren) in literacy and math at home; resources start at 18 months to high school students to include bilingual resources. The Parent and Family Engagement Centers offer story-time and bilingual story time for our younger children. These centers are open to all DD Two families with preschool age children and additionally serve school age children throughout the summer. Teachers may also check out resources to use in their classrooms. Our 4K students are beginning their educational journey with delays in pre-reading skills such as naming of alphabet letters in random order, awareness of letter sounds, beginning sounds and rhyming. Our Fall 2023 myIGDIs preschool assessment data indicates 20% are in Tier 1 for Picture Naming, 8% are in Tier 1 for Rhyming, 15% are in Tier 1 for Sound Identification, and 15% are in Tier 1 for Comprehension (Which One Doesn't Belong?). KRA is used to measure our incoming kindergarteners' school readiness across four domains: Language and Literacy, Mathematics, Social Foundations, and Physical Development and Well Being. The KRA from Fall 2021 indicated 35% of our kindergarteners demonstrated readiness to begin school. Fall 2022 indicated an increase to 41% readiness for kindergarteners in DD2 and continued at 41% in Fall 2023. The Measures of Academic Progress (MAP) was given to Kindergarten - 2nd grade in the Fall of 2023. The percentage of students scoring Average and Above on the Math (MAP) administration includes Kindergarten at 64.1%, 1st grade at 65.6%, and 2nd grade at 54.2%. All K-2 students are assessed on an on-going basis using the Developmental Reading Assessment (DRA2). This formative assessment provides teachers with the data necessary to plan for differentiated learning activities based on their students' strengths and weaknesses. Our most recent End of Year DRA data (2022-2023) indicated the following percentages of students performing on or above grade level expectations: Kindergarten (67.3%), 1st Grade (58.0%), and 2nd grade (56.8%). The Reading MAP was given to Kindergarten -2nd graders in the Fall of 2022. The percentage of students scoring Average and Above includes kindergarten at 65.8%, 1st Grade at 64.1%, and 2nd grade at 53.2%. As a district, we continue to review all available data as we seek to provide our youngest students with the foundational skills needed to be successful in all educational endeavors.

Elementary/Middle School (3 - 8)

2. Overall student performance exceeded the state's percentages for students "Meeting or Exceeding" on SC READY Spring 2023 in English Language Arts. The lowest ELA percentages were in grades 7 (53.8%) and 6 (56.3%) whereas grades 4 (67.0%) and 5 (65.3%) were district strengths. The district wide literacy instructional model and intervention support promotes academic success for all students in grades 3 - 8. Overall, our standard-level data on 2023 SC Ready ELA shows the highest percentage of students in grades 3-8 scoring Low are in the areas of Writing (Standard 7) and standards focusing on Informational Text (Standards 4-6).

Overall student performance exceeded the state's percentages for students "Meeting or Exceeding" on SC READY Spring 2023 in Math. The lowest math percentages were in grade 6 (33.6%) and grade 7 (33.2%) and grade 8 (34.4%). Dorchester School District Two provides comprehensive instructional models for Mathematics centered on Explicit Direct Instruction. In reviewing our District Performance Goals for math, it is clear more than half of our sixth through eighth graders are not Meeting Expectations on 2023 SC Ready Math. Overall, our standard-level data on 2023 SC Ready Math shows the highest percentage of students scoring Low are in the areas of Algebraic Thinking and Operations for Grades 3-5 and Expressions, Equations, and Inequalities for Grades 6-8 (Standard 3). Data from SC Ready SCIENCE Spring 2023 indicated the percentage of students scoring "Met Standards" in grades 4

(53.7%) and 6 (45.6%) exceeded the state averages. Overall, our standard-level data on 2023 SCPASS Science shows the highest percentage of students in grades 4 and 6 showing weakness on Standard 1 and Standard 2. The district administers the Reading and Mathematics Measures of Academic Progress (MAP) three times a year as a universal screener for academic readiness. The Reading MAP was given to 3rd - 8th graders in Fall and Winter 2023-2024. The percentage of students scoring in the 40th percentile or below was 34.4% in Reading and 37.9% in Math. This MAP data supports our SC-Ready data, showing that Math is an area of need. Student growth is another area of need according to district student achievement data. Based on NWEA MAP, 50.9% of students in Math and 54.1% of students in Reading met the projected growth target from fall 2022 to spring 2023. Subgroup performance was also analyzed across all grade levels. Students with disabilities were identified as a low-performing subgroup in several elementary and middle schools. Our district has eleven schools designated as Additional Targeted Support and Improvement (ATSI) for the disabled subgroup. There is also one middle school with the ATSI designation for the African American subgroup. In addition, another middle school is designated as Targeted Support and Improvement (TSI) for both the African American subgroup and the Pupils in Poverty subgroup. As a result, we see a need to refine our instructional procedures and practices and have implemented a systemic MTSS process. We are ensuring our curriculum is being implemented with fidelity in all classes in the affected schools. We are monitoring the affected schools throughout the school year and ensuring the necessary resources are available to all staff.

High School (9 - 12)

3. Our EOCEP data continues to be a focus within the three high schools in Dorchester School District Two. EOCEP data represents the percentage of students who scored a "C" or higher on the assessment. English 2 EOCEP shows a slight increase to 78.4% in 2023. Algebra 1 scores increased from 52.2% in 2022 to 58.4% in 2023. However, math remains an area of need. Biology and U.S. History scores remained constant at 48.7% and 48.7%, respectively, and continue to be an area of need. Despite low scores with end of course exams, Dorchester District Two surpassed the state scores in all areas.

Our goal is to ensure all of our students are college and career ready so they will be able to access viable career opportunities after graduating from Dorchester School District Two. Because of this goal, we continue to use college and career readiness audits in all high schools that monitor plans school administrators and counselors have developed to ensure all students are on track to enter two-year college, four-year college, the workforce, or the military. We evaluate specific data points, such as ACT scores of 20 or higher, SAT scores of 1020 or higher, AP exam scores of 3 or higher, completion of 2 dual enrollment classes with a grade of C or higher, attainment of CTE credentials, Ready to Work certificates with a score of 3 or higher, participation in approved work-based learning related to post-secondary goals, and ASVAB scores of 31 or higher, to determine students' readiness for college or careers. The 2023 SC Report Card data indicated 78.2% of our students are college or career ready, which is a decrease from 81% in 2022. We also saw a slight decrease in our graduation rate from 93.3% to 92.4% in 2023. The percentage of our district's students meeting the ACT College-Ready Benchmark decreased from 14.7% to 12.9%. The average composite score of the SAT, however, increased from 992 to 1003 in the last year. Our students scored lower than the state average in ACT/SAT readiness, which provides us with another area to improve.

Analysis of data for our multilingual (ML) students and learning-disabled students indicates gaps in learning. State website data shows that ML students scored on average 15.3 points lower in EOCEP testing and that students with learning disabilities scored 19.1 points lower. All high schools continue to use ATSI funds to further support the needs of learning-disabled students through additional personnel to address co-teaching and class size reduction. We must develop more strategies to provide academic support to these student subgroups.

Teacher/Administrator Quality

4. Teacher and Administrator quality is best evidenced through the selection of certified administrators, teachers and qualified paraprofessionals employed throughout the district. Personnel actively recruits teachers in state and out of state by attending college recruitment fairs and holding their own recruiting events throughout the year. For 2023-2024 the total number of new hires by Dorchester School District Two is 941 (312 Certified and 629 Classified). A little over 82.6% of the district's teachers returned from the previous school year, and 61% of them hold advanced degrees. Dorchester School District Two currently has 81 National Board-Certified teachers on staff, which is down from 82 the previous year. The decrease is due to teachers electing to leave the district or not pursue renewal of their National Board Certification.

Educational research continues to support the claim that the quality of the teacher is the greatest determiner of student achievement. It also shows that first-year teachers who have the support of a mentor develop better classroom management skills, improve their teaching practice, stay in the teaching profession longer, and maintain their initial enthusiasm longer. Based on that knowledge, Dorchester District Two remains dedicated to providing our Induction teachers with well-equipped mentors to assist and support new teachers as they transition into the teaching profession. The selection of mentors is a critical component to the retention of teachers. When making this selection principals consider teachers who have a minimum of one year on the continuing contract level, who are well versed in the

content and grade level of the mentee and are conversant in the ADEPT process, and who have participated in the Center for Education, Recruitment, Retention, and Advancement (CERRA) SC Mentor certification training program. Principals also look for someone who is approachable, patient, and interested in helping guide new teachers. Information, materials, and support for assigned mentors is provided during annual summer orientation and quarterly mentor training. While serving in the role of mentor, veteran teachers support new teachers by meeting with them formally at least twice a month to conduct coaching conversations and provide learning opportunities for teachers as needed. They assist new teachers to adapt to the school culture and norms as well as guide them with curriculum, teaching strategies, and communication skills. In addition, mentors also observe new teachers and provide feedback, talk with teachers informally for quick support and check-ins, and serve as the go-to person to answer questions and provide advice for any concerns they may have. Currently Dorchester School District Two has 437 trained mentors, up from 368 the prior year. As part of their continued development, CERRA requires that all mentors participate in the SCTS 4.0 Evaluator Training within their first five years of receiving mentor certification. This three-day training is being offered in two formats, three days over the summer or once a week for six weeks after school. Of the 272 mentors that need the training by the summer of 2024, 84 have completed the SCTS 4.0 Evaluator training. A major goal of the district's Induction and Mentoring Program is to provide a high level of support for first year teachers. According to data compiled by CERRA, South Carolina, like many states in our country, faces a tremendous challenge with teacher retention. Over the last three school years, between 6,900 and 8,300 teachers left their classroom position each year. Of the teachers who left their position each year, between 2,400 and 3,100 had less than five years of teaching experience in a South Carolina public school. For the 2022-2023 school year, 102 certified teachers left Dorchester School District Two before completing their sixth year as an educator. Unfortunately, this occurrence is a multi-year trend across the state as teacher departures have been on the rise since 2012-13. Research shows that mentoring and support of new teachers is a major contributor to retaining new teachers in the profession. In addition to providing mentors, Dorchester District Two strives to provide a meaningful Induction program. During summer orientation, Induction teachers are provided basic information about district expectations, expectations for performance as indicated by the Expanded ADEPT 4.0 South Carolina Teaching Standards, an overview of other district programs and strategies to help start the year effectively. Monthly Induction sessions provide training on timely topics such as classroom management, development of a Student Learning Objective, and communicating with parents, as well as takes a closer look at SCTS 4.0 Indicators that teachers often have more difficulty with when teaching. Teachers participating in the Induction program have an opportunity to collaborate and share ideas as well as observe veteran teachers to see how they incorporate teaching strategies and classroom management procedures into their daily lessons and routines. In addition to providing support for year one, the program's sessions help prepare Induction teachers for their formal Expanded ADEPT evaluation.

The Induction and Mentoring Program is monitored by feedback provided through reflective activities from Induction teachers, mentors, and yearly surveys. Additional monitoring occurs through district Induction sessions, interventionists feedback, and a yearly school administration Induction evaluation. The targeted feedback is on Induction professional development sessions, mentoring assistance, evaluation, and school/district support. The Office of Personnel also meets with each Induction teacher to have a candid check-in conversation in which they can share needs and feedback regarding their first year in Dorchester School District Two. Feedback continues to indicate that the Induction Program provides essential support and training for teachers new to the teaching profession and to let them know they are highly appreciated and valued. Feedback supports the need to continue efforts to address the challenges of providing time for the mentor and mentee to collaborate, the Expanded ADEPT evaluation process, and building mentor capacity. The Induction and Mentoring Program provides essential support and training for teachers new to the teaching profession.

Each principal participates in the "Program for Assisting, Developing, and Evaluating Principal Performance (PADEPP). The evaluation cycle is consistent with the school year as defined by law. In addition, new Assistant Principals attend the School Leadership Academy for Assistant Principals (SLAA). The School Leadership Academy for Assistant Principals (SLAA) is designed for first and second-year assistant principals. The transition from the classroom to administration is a difficult one. SLAA will help participants develop and sustain their instructional leadership, management, and leadership skills. In particular, sessions focus on supporting instructional effectiveness, leading adults, understanding state and federal requirements, and building a community of support for your leadership journey. Seasoned assistant principals can attend Building Instructional Capacity (BIC). The Building Instructional Capacity (BIC) cohort model is designed to support principals, assistant principals, instructional coaches, and teacher leaders as they continue to develop as instructional leaders at their schools. The focus of this program is to support instructional leaders and build capacity, and more importantly, to help them reflect on how they build instructional capacity in the teams and schools they serve.

The district provided five designated district-wide professional development days in 2022-2023. During these days, school and district staff focused on best practices that would enable them to meet the learning needs of students and their own professional learning goals. Schools also utilized Professional Learning Communities (PLCs) to conduct ongoing professional development during the school day, early-release days, and after school. This will be a continuing practice for all district schools as it has proven to be a prime catalyst for the advancement of student

achievement. It also promotes collegiality among administration, faculty, and staff. During the 2022-2023 school year, 1017 professional development sessions were held involving 3449 employees (certified and classified) for a total of 93,392.5 hours of professional development.

As we move forward, we will continue to be faced with the teacher shortage that exists across the nation. Areas of great concern are the shortage of secondary certified math and science teachers and special education teachers. Moving into the 2024-2025 school year, Dorchester School District Two continues to look at innovative ways to recruit and retain staff. DD2 has organized a Recruitment and Retention Task Force, the personnel department developed a comprehensive recruitment plan, and the district is extending alternate pathway opportunities through Teach SC, partnering with Carolina CAP, and sponsoring H-1B Visas. The district is currently offering signing bonuses, retention bonuses, discounted after-school childcare for employees, and unencumbered lunch. Teacher pay and support continue to be top factors in the retention of quality educators. A salary study was completed to compare state and regional pay scales to our district. Dorchester School District Two is committed to using the study results to align our teacher pay with regional salaries. The district has recently formed a Recruiting and Retention Task Force dedicated to exploring ways to recruit and retain high-quality staff in Dorchester School District Two. Future incentives may include longevity bonuses and staff raises in accordance with the recently completed salary study. We will also continue and enhance our support for all teachers through mentors, Professional Development Coaches, Professional Learning Communities, and the streamlining of afterschool commitments to maintain a work-life balance. We are committed to teacher and student success and understand retaining high quality educators is an essential component to continuing to be a world-class school district.

School Climate

5. Dorchester School District Two has a positive and healthy school culture and climate throughout the district. The district understands there is a high correlation between a strong positive school culture and academic achievement, interventions, and overall student success. As the foundational building blocks of the district's mission: relationships, rigor, and relevance are interwoven throughout the district's programs and initiatives. It is apparent the focus on student achievement and relationships remains steadfast. As a system, we believe strong relationships and effective collaboration are key ingredients for student success; therefore, we continue to create opportunities for collegial conversations. These opportunities begin at the top and are routinely modeled by our school board's continued facilitation of Board Workshops to discuss, problem-solve, and ultimately resolve challenging issues. This open discussion of critical issues fosters a trusting and positive relationship among the Board, all staff, and the community. Stakeholder feedback continues to be a priority in district and school-based initiatives. Each year, we analyze parent, student, and teacher surveys to review trends and pinpoint areas in which we can enhance within the social and physical environment to improve student and staff morale.

Recent results from the Cognia Stakeholder Feedback Diagnostic, administered in January 2023:

With a 69% completion rate (4832 grades 3-5 and 8973 grades 6-12) from the learners survey, show a welcoming environment (64% Secondary & 65% Elementary), safe environment (78% Secondary & 73% Elementary), and learning environment where teachers ensure students have resources needed to learn (75% Secondary & 73% Elementary) were most common selections. Students also say the adults in their school do their job, love their school, and want learners to make good grades.

With a 23% completion rate (6060 families) from the families, survey indicate they are most satisfied with the safety of their child's school with over 87% agreeing that "Our schools think about children's safety when making decisions." They also are highly satisfied with "The adults in their child's school treat them with respect." Additionally, parents indicate high satisfaction with "The adults in their child's school care about children's wellbeing." Eighty-two percent of parents also agreed that "Our school makes them feel welcomed." The same percent agree that the schools "have high expectations for learning." Results from the family surveys indicate the overall lowest level of satisfaction was in the area of instruction and meeting the needs of individual learners. Only 62% of parents agree that "instruction was changed to meet their child's needs." Though over 82% agreed that the adults have a "high expectation for learning," only 63% agreed that their children "had learning experiences that were unique to their needs." 65% of parents agree that their child's teachers "had activities that taught them about different cultures" and 67% agree that they "had opportunities to share their opinions about their learning activities.

With a 100% completion rate (2109 responses) from the professional staff, surveys indicate that using learner information to make decisions, working closely with all stakeholders, and providing an instructional environment where all learners thrive, were areas of needing improvement. Only 56% of responders noted use learner information to make decisions about distributing resources Only 57% of the responders indicated that they work closely with each other and our stakeholders to support learners, and only 55% of responders felt we provided an instructional environment where all learners thrive.

As we move forward, to address the needs of the whole child, we will continue to build upon Multi-Tiered Systems of Support (MTSS). An area of great concern is the district's ability to build its capacity to address the unique needs of students by leading the way, every student, every day. Moving into the 2024-2025 school year, Dorchester School District Two will continue to expand upon the existing systems to increase student engagement. This will cause some

restructuring of our current academic and non-academic accountability measures. Staff development should align with the practical application and strategies of, but not limited to, MTSS, positive behavioral intervention systems, trauma-informed schools, restorative practices, de-escalation, student voice/choice to create unique learning environments for all stakeholders to thrive and have a sense of belonging within the school community. This will include exploration into innovative ways to optimize the learning experiences, especially within our digital ecosystem, for all students to meet the criteria outlined in the Profile of a SC Graduate.

As an added measure, key stakeholders from each of the departmental divisions which implement student safety procedures and protocols will convene to create standardized practices for student safety. We will remain committed to working collaboratively as Team Dorchester to helps schools meet the needs of the WHOLE CHILD.

Other (such as district priorities)

6. Virtual Learning Options

Due to the Covid-19 pandemic and the immediate school closures in the state, Dorchester School District Two transitioned to a distance learning model in 2020. This transition resulted in the creation of a Virtual Academy for students and families who opted to remain in a virtual setting regardless to the level of disease spread associated with Covid-19. With a Virtual Academy enrollment down from 10,000 students to 700 students in 2021, Dorchester School District Two chose to operate a school-based Virtual Academy where all the students remained attached to teachers from their home school for grades 6-12. Elementary aged students who wish to pursue a virtual learning option for the 2021-2022 school year were served in the Low Country Virtual Program, an intra-district collaborative partnership with the Low Country Education Consortium. Students and families who chose this option remained students of Dorchester School District Two but took virtual classes through the Low Country Virtual Program. During the 2022-2023 school year, as anticipated, we experienced a decrease in the demand for virtual learning. Dorchester School District Two offered a virtual option for students in grades 4 – 12 for the 2022–2023 school year. Virtual offerings in 4th through 8th grades was offered through the Low Country Virtual Program hosted by the Low Country Education Consortium (a tri-county partnership with local school districts including Dorchester School District Two). Virtual offerings in grades nine through twelve were offered through EdOptions Academy.

For the 2023-2024 school year, we anticipate a smaller need for our Virtual Academy. Dorchester School District Two will offer a virtual option for students in grades 6 – 12 for the 2023–2024 school year. Virtual offerings in grades six through twelve will be offered through EdOptions Academy. As a school district, our belief is that these foundational skills are most effectively taught with face-to-face instruction, so our district will not offer Virtual Academy in grades PK-5. The school aged years, Kindergarten through 5th grade, are paramount in building foundational skills in reading, writing, and math as well as skills in peer relationships and social-emotional development.

As we plan for the 2024-2025 school year, we will survey our current Virtual Academy families to determine the possible needs for a virtual option. As numbers steadily decrease, we may offer Virtual options for unique situations only.

7. Student Safety

Dorchester School District Two (DD2) places an emphasis on all aspects of safety and security for students, staff members and visitors to the schools. While physical security such as fencing, door access controls, video surveillance and the like are important aspect of student safety, DD2 also prioritizes the training of our staff in three key areas: Stop the Bleed training, Active Shooter Response, and recognizing the signs and risk factors associated with suicide through Signs Matter training.

These three trainings address both the prevention of incidents as well as the response to incidents that may occur within a school building. Stop the Bleed skills are important aspect of response that will give DD2 staff the ability to adequately respond to emergency incidents that may occur in the building. They provide staff with the ability to take life-saving action in the event that anyone suffers a bodily injury. As of the 2022-2023 school year 61% of the faculty and staff in DD2 have been trained.

Active Shooter Response training provides staff with a variety of options in order to appropriately respond to a threat within the school building. Staff members will be taught strategies to save the lives of their students and their co-workers. As of the 2022-2023 school year 76% of the staff in DD2 have received Active Shooter Response training.

Signs Matter training will provide staff in DD2 with the skills necessary to recognize when children are in crisis situations and may be prone to hurting themselves or others. This training is vital to providing staff with the skills necessary to take a proactive approach to prevent crisis situations. As of the 2022-2023 school year 15% of the staff have been trained.

By developing a staff development plan that encompasses all staff members and provides multiple opportunities for learning, DD2 will be able to offer this training to a much wider audience within the district. Doing so will increase the overall safety of the students in the district.

- 8. ATSI/TSI Designations and Significant Disproportionality
 - analysis, and application of performance data. Data is disaggregated and organized by district performance, school performance, grade level performance, and subgroups of the student population. Our subgroups include, but are not limited to, Race/Ethnicity, Gender, Poverty, Special Education, English Language Learners, and GATE populations. We engage all stakeholders in the analysis and application of performance data to drive district and school goals. The District Strategic Plan is developed based on the analysis of performance data results as well as staff, student, and parent surveys. The District Strategic Plan provides guidance for the development of School Improvement Plans which are tailored to address the areas of need and build upon the strengths of each school community. In keeping with guidelines of Every Student Succeeds Act, our District was initially identified by SCDE as having school improvement designations for targeted support during the 2018-2019 school year. Additional Targeted Support and Improvement (ATSI) schools are defined as schools with one or more subgroups of students performing at or below the 5th percentile. Targeted Support and Improvement (TSI) schools are schools that have one or more subgroup of students performing at or below the 10th percentile of the highest performing priority school in the state. In DSD2 we had two elementary schools and all three high schools that were identified as ATSI schools in 2019, 2020, and 2021. In the 2022-2023 school year, 13 of our 27 schools in Dorchester Two were identified as ATSI due to the Disabled Category (7 Elementary, 3 Middle, 3 High). One Middle School is dually identified ATSI due to the Poverty and Disabled Categories. Two schools have been identified as TSI (1 Elementary, 1 Middle). The TSI elementary school is identified due to the Disabled Category and the Middle School is identified due to the Poverty and Race Categories. Most recently in 2023-2024 we have 13 schools identified. There are 12 ATSI schools and 1 identified as TSI. As a result, we have determined the need to continue providing targeted support for our students with special needs. The current support has focused on areas of Academic Achievement at the elementary level and College or Career Readiness (CCR) at the high school level. There is a clear need to continue our focus on improving in these areas of student achievement.

The Office of Assessment and Accountability supports the District Leadership and Cabinet in the organization,

9. Disproportionate Suspension of Students with Disibilities

Data received from the SCDE/OSES for 2018-2021 identifies Dorchester Two as a District that is Significantly Disproportionate in the area of suspensions and expulsions of students with disabilities for more than 10 days as compared to other subgroups. In 2022-23 we continue to be identified as Significantly Disproportionate. The data for 2022-23 we noted an increase in the percentage of suspension from 2.6% to 4.0% across all disabilities in all schools. Additionally, it was noted that the the number of expulsions for all students increased in 2023. This increase was also mirrored in our special education population. Results of this data analysis led to discussions regarding the potential impact of suspensions/absences on achievement of students with special needs. The committee deemed it reasonable to suspect a correlation between low student performance and unavailability for learning due to extremely disruptive behaviors that often lead to suspension and/or expulsion. As a result, the committee determined the need to develop goals and actions that target behavior regulation and emotional wellness of students in addition to the academic achievement goals. The committee also decided the importance of monitoring the suspensions and performance of all students with IEPs.

10. Digital Learning Environment

In order to improve the use of digital tools in the Dorchester School District Two's Digital Learning Environment (DLE), the Educational Technology department has been restructured and a new Chief Technology Officer (CTO) was hired. The restructuring is achieved by bringing together systems technology, instructional technology and data analytics and assessments under the broad umbrella of Educational Technology Service (ETS). The Digital Ecosystem as an ETS service to the district, manages the Modern Learning Environment for DD2 students. Through this restructuring, we are providing additional training to teachers on how to design engaging courses on the district's Learning Management System (LMS) to promote personalized learning, use of actionable data to inform instruction, collaborative learning, student centered learning, creativity, and the ability for students to take control of their learning and allows them to learn anywhere and at any time. In order to extend learning beyond the classroom, we are also providing parents and guardians with access to their students' digital contents on the LMS. Overall, this restructuring aims to empower teachers with technology skills and foster robust digital learning experiences for all DD2 students.

Gifted and Talented

11. Academically Gifted and Talented

Dorchester School District Two's Gifted and Talented Education (GATE) program is designed to provide differentiated curriculum and instructional experiences that challenge the minds and thinking of our state identified gifted students within the academic disciplines. Moreover, these learning experiences are designed to capitalize on students' intellectual and academic strengths by incorporating the SC Gifted Curriculum Goals with the state's College and Career Ready Standards.

All Dorchester School District Two schools offer specialized services through the state-approved special class model in English Language Arts and math beginning in third grade. These services continue through middle school and into

high school and incorporate history and science courses. Due to the heterogeneity of learning needs and strengths within this population, advanced pathways are also in place beginning in middle school and continue through high school. Therefore, along with GATE classes at the 7th and 8th grade levels, Algebra I Honors, Honors Geometry, and English I Honors are offered to students who meet specific achievement and performance criteria. In order to promote and develop talent that impacts underrepresented populations in gifted education, Dorchester School District Two provides early intervention options that expose kindergarten through fifth grade students to the ways of reasoning and problem solving. Elementary schools select from a variety of talent development options to implement that best fits the needs and capitalizes on the strengths of their teachers and students. Additionally, Dorchester School District Two extends beyond the state's identification guidelines by utilizing "local placement" worksheets in grades 3 through 8. Using academic and intellectual achievement and performance data, these "local placement" worksheets aid and support schools in recognizing more students demonstrating potential across all demographic areas. However, the representation of underrepresented populations among the district's academically gifted population still falls short. The work in providing the uploaded data in the "local placement" worksheets as well as systematizing processes across all elementary and middle schools will continue to be a focus so the gifted population in the district is more reflective of its demographics.

12. Artistically Gifted and Talented

The study of fine arts, within the school proper has the potential to foster a multitude of intellectual and emotional skills. The fine arts as defined as – dance, music, visual art, and theatre arts – are fundamental to students' capacity of knowing and thinking. Through its various opportunities, the fine arts: encourage cultural awareness, develops student social and emotional intelligence, spatial awareness, and enriches society at large. The Dorchester District Two Fine Arts curriculum provides extensive opportunities for students to become artistically literate, well-rounded individuals through rigor and developmentally appropriate activities. The specific skills, techniques, and expectations of each individual fine art are unique to that core area, however the basic tenets remain intact throughout all the fine arts areas. Dorchester School District Two values the arts for the distinct and significant effect they have on out students lives and learning.

In Dorchester School District Two, 423 Artistically Gifted and Talented Students (GT Artistic) are served through our GATEWAY (Gifted and Talented Education with Artistic Youth) program which serves students grades 3-8 and 793 R.H. Rollings Middle School of the Arts (RMSA) grades 6-8. Students are auditioned for these programs using state identified criteria for the Artistically Gifted and Talented each fall semester. Additionally, students grade 9-12 are served through the Advanced Placement program.

This year we are piloting a program for additional students to enter this spring for instrumental music program study. This program will include 150 students (grade 6-8) participating in an intensive music program during the summer months. This program will include band, piano, orchestra, piano, and steel drums with the intention of including additional programs in the future.

Through the development of the gateway program, rubric definition, the addition of a new program, and enhanced communication to parents we have increased the total numbers of students being served in these programs from 1135 in 2019 to approximately 1366 in 2023. (Dependent on total enrollment in new program).

It remains within our district's mission that relationships, rigor, and relevance are interwoven in everything we do for students, daily and in our Gifted and Talented Programs. To this end, one of our district goals remains to increase the baseline scores for students entering these programs by reviewing, monitoring, and increasing the appropriate rigorous criteria used within the audition process by 3% percent yearly over the next five years. Also, by aligning our criterion with the soon to be developed new fine arts standards and providing professional development; higher levels of student achievement will be accomplished by developing new rubrics, which will guide curriculum, instruction, and assessment for each artistic discipline.

| Performance Goal Area: | District Priority |
|---|---|
| Performance Goal: SMART goal must include: WHO will do WHAT, as measured by HOW and WHEN. | The percentage of students in K-8 meeting Fall to Spring Growth targets on NWEA MAP Math will increase at least 3% per year through the end of the 2027-2028 school year. |

| Data Source(s)' | Average Baseline | 2023/24 | 2024/25 | 2025/26 | 2026/27 | 2027/28 |
|------------------------------|---------------------|--|---------|---------|---------|---------|
| NWEA MAP Math (Kindergarten) | 51.46% | Projected Data: 54.46% Actual:60.78% | 57.46% | 60.46% | 63.46% | 66.46% |

GIFTED AND TALENTED REQUIRED TABLES

DIRECTIONS: As a part of the District Strategic Plan, complete the following tables, save as one PDF file, and upload under the tab labeled Gifted and Talented Required Tables. Additionally, attach up to four documents to support the final table. All information should be saved as one PDF file and uploaded. The required tables are as follows:

- A. Gifted and Talented Policies and Practices
- B. Gifted and Talented Scope and Sequence
- C. Gifted and Talented Grades of Academic Service
- D. Gifted and Talented Grades of Artistic Service
- E. Gifted and Talented Screening and Identification Notification

DISTRICT: Dorchester District Two

GIFTED AND TALENTED SCREENING AND IDENTIFICATION NOTIFICATION

Describe the ways in which the district notifies parents and community of its nomination and identification.

- Referral announcements for cognitive abilities screening (English and Spanish) for summer screening. Referral announcements for cognitive abilities screening (English and Spanish) for fall screening. Letters to parents of all 2nd grade students (English and Spanish) explaining how to interpret CogAT and IA results. Letters to parents who met state gifted criteria.

Attach up to four relevant files pertaining to notification to the parents and community on GT identification screening. These may include brochures, parent letters, non-English versions, etc.

Referral Process for Cognitive Abilities Screening

Beginning August 7th through October 16, 2023

- Referrals for cognitive abilities screening are now being accepted via Power School's Parent Portal for 3rd through 8th grade students through October 16, 2023. There will be no referrals accepted after midnight on October 16, 2023. Click here for directions explaining how to access Forms in Parent Portal (Spanish).
- Referred students will be tested at their school in November. The specific testing date and time will be communicated to you by your student's school.
- Results from the cognitive screener will be used in combination with academic achievement and performance data to determine a student's gifted and talented eligibility for the 2024-2025 academic year.
- Families of referred students who participate in the fall's cognitive screening will be notified of their student's cognitive testing results in January 2024.
- Should you want to learn more about what data are used to determine gifted and talented eligibility in SC or read about how state identified students are served in our district, please visit the Dorchester Two website (www.ddtwo.org/gate).
- NOTE: If your student has already been state identified as Gifted & Talented Academically in SC, do *not* refer them.

Proceso de referencia para la evaluación de habilidades cognitivas

Otoño 2023

- Las referencias para la evaluación de habilidades cognitivas se están aceptando ahora a través del Parent Portal de Power School para estudiantes de ^{3º} a 8º grado hasta el 16 de octubre de 2023. No se aceptarán referencias después de la medianoche del 16 de octubre de 2023.
- Los estudiantes referidos serán evaluados en su escuela en noviembre. La fecha y hora específicas de la evaluación le serán comunicadas por la escuela del estudiante.
- Los resultados de la evaluación cognitiva se utilizarán en combinación con los de resultados académicos y la información del rendimiento para determinar la elegibilidad de un estudiante dotado y talentoso para el año académico 2024-2025.
- Las familias de los estudiantes referidos que participen en la evaluación cognitiva del otoño serán notificadas de los resultados de las pruebas cognitivas de sus estudiantes en enero de 2024.
- Si desea obtener más información sobre qué datos se utilizan para determinar la elegibilidad de los dotados y talentosos en Carolina del Sur o leer sobre cómo el distrito Dorchester Dos atiende a los estudiantes identificados por el estado, visite el sitio web del distrito (www.ddtwo.org/gate).
- NOTA: Si su estudiante ya ha sido identificado como Dotado y Talentoso Académicamente en Carolina del Sur, *no* lo vuelva a referir.

Cognitive Screening Request Form for "New to District" Students in Dorchester Two %

This form will be active until Monday, July 10, 2023 when the referral process for cognitive screening for "new to district" students ends at midnight. A "new to district" is defined by a student who is formally registered/enrolled in a Dorchester Two elementary or middle school after January 1, 2023. There will be no requests for cognitive screening accepted after midnight on Monday, July 10, 2023.

If you are a parent/guardian of a "new to district" student in grades 3-8, please complete the requested information on this online form. The Cognitive Abilities Test (CogAT) will be used to assess a student's ability to solve problems and see if the results from this screener meets SC's criteria for identification as an academically gifted and talented learner. This state GT identification allows identified students to be eligible for services in the Gifted & Talented Education (GATE) Program in Dorchester School District Two. The results of this cognitive ability screener will be used in combination with other data to determine a student's state eligibility for GATE for the 2023-2024 academic year.

Parents/Guardians have a choice between two dates at the specific schools on this form to suit their schedules - July 25th at William Reeves Elementary OR July 27th River Oaks Middle School . Times are dictated according to the grade level your student will be in for the 2023-2024 academic year.

Should you want to learn more about what data are used to determine state gifted eligibility or read about how state identified students are served in our district, please visit Dorchester Two's GATE website (www.ddtwo.org/gate).

NOTE: If the referred student has already been identified as Gifted & Talented Academically in SC, do NOT refer the student. Provide documentation showing their identified status to the school. Student will not be scheduled in GATE or Honors courses until these documents are verified by the district office.

NOTE: Students who are NOT formally registered in Dorchester School District Two may not participate in this screening process.

If you want to refer your 3rd – 8th grade student for cognitive abilities testing, please complete the requested information below. All referrals for this screening must be submitted no later than October 16, 2023 at midnight.

Referred students will be screened with a cognitive abilities test (CogAT) at their school in November. Specific dates and times will be communicated to you by your student's school.

South Carolina identifies gifted and talented students according to their cognitive abilities, academic achievement, and/or intellectual/academic performance. The cognitive abilities test measures the ways a student thinks and solves problems.

This screener, in combination with other academic achievement and performance data, will be used to determine if a student meets South Carolina's gifted and talented criteria. If a student meets state criteria, they will be served in our district's Gifted and Talented Education (GATE) program beginning in the 2024-2025 academic year.

Families of referred students participating in this fall's cognitive screening will be notified of their student's results in January 2024 via USPS.

Should you want to learn more about what data are used to identify academically gifted learners in SC or read about how state identified students are served in Dorchester Two, please visit the district website at www.ddtwo.org/gate.

NOTE: If your student has already been state identified as academically gifted and talented in SC do *NOT* refer them.

NOTE: This form will be active until October 16, 2023 when the referral process for cognitive screening ends at midnight. There will be no student referrals for cognitive screening accepted after October 16, 2023.

Who referred the student for testing?*

As the parent/guardian required to complete this referral, please indicate if someone other than yourself referred your student for screening.

January 19, 2024

Dear Family,

Your second grader participated in census testing this past fall with other second grade students across South Carolina. This census testing involved two assessments that measure different ways a student thinks, solves problems, and learns. One of the assessments administered was the Cognitive Abilities Test (CogAT) which measures a student's ability to solve problems with the use of words and without the use of words. The second test given was the Iowa Assessment (IA) which measures a student's academic achievement in reading and math. These two tests serve as data points to help teachers differentiate their classroom instruction for students of differing abilities as well as serve as initial screeners to determine eligibility for a student to be state identified as an academically gifted and talented (GT) learner.

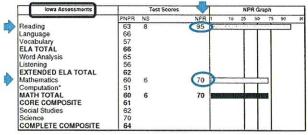

A copy of your student's Individual Student Report (ISR) is attached to this letter. The ISR paired with the information in this correspondence will help inform and guide your continued efforts in supporting the learning and thinking of your student. You are also encouraged to access a video that explains how to interpret the results in the ISR. It can be found on the Dorchester Two website (www.ddtwo.org/gate). Should you want to access additional resources, Riverside Insights, the testing platform for CogAT/IA, offers helpful articles to support families and students (https://riversideinsights.com/citc/dashboard-parent).

Interpreting Your Student's CogAT/IA Results on the ISR

CogAT scores are reported in the box on the left of the ISR. It is important to note that the majority of second grade students score at or around the 50th percentile. In the example below, this student shows cognitive ability in both quantitative and nonverbal reasoning. Typically, these cognitive strengths can manifest and be capitalized upon in science, technology, engineering, and mathematical content areas. The Age Percentile Rank (APR) is the national percentile South Carolina uses to determine GT eligibility in verbal reasoning, quantitative reasoning, nonverbal reasoning or composite areas.

| Test Date: 11/2018 | | | Tes | st Sco | res | | APR Graph |
|--|----|-----|-----|--------|-----|----|--|
| | RS | SAS | APR | AŞ | GPR | GS | 1 10 25 50 75 90 9 |
| Verbal | 36 | 99 | 48 | 5 | 52 | 5 | |
| Quantitative | 29 | 104 | 60 | 6 | 67 | 6 | ESTREE THE PROPERTY |
| Nonverbal | 42 | 117 | 86 | 7 | 88 | 7 | THE RESIDENCE OF STREET, STREE |
| Composite (VQN) | 1 | 108 | 69 | 6 | 71 | 6 | BECKER BOOK STANDARDS TO SEE |
| Ability Profile 6B (N+): Visit www.cogat.com for more | | | | | | | |

The IA scores are reported in the box near the top left of the ISR. Like the CogAT results, these are reported as percentiles and the majority of second graders score at or around the 50^{th} percentile. In the example below, the student shows strengths in both reading and mathematics. Additionally, this student also met SC's gifted and talented criteria for "Dimension B – Academic Achievement" in reading with an NPR of "95." This score partially identifies the student and warrants further screening. More information discussing how SC identifies students for academic giftedness is discussed at the end of this letter

South Carolina's Gifted & Talented Identification Criteria

As it relates to the criteria and processes for determining if a student is identified as gifted and talented in the academics, it is important to understand that the second-grade census testing in which your student participated in last fall is not the only time students are screened for GT state identification. Rather, there are multiple cognitive and achievement assessments used to screen for academic giftedness throughout the year and every year from third through tenth grades. A timeline of these measurements as well as a description of what each one assesses can be found on the Dorchester Two website.

To help you understand the multiple ways SC determines gifted and talented eligibility, a student must score at or above the 96th percentile total or composite score on a state approved and nationally normed reasoning abilities test *OR* the student must qualify in **2 of 3 dimensions** detailed below:

Dimension A: Reasoning Abilities - A score of 93% or higher on a reasoning abilities test (i.e. CogAT) in the verbal, non-verbal, quantitative, or composite sections will partially identify a student. A student receiving a composite or total score of 96% or higher on a cognitive abilities assessment automatically identifies them as academically gifted and talented in SC.

Dimension B: Academic Achievement in Reading or Math – A score of 94% or higher in reading or math on a state approved or nationally-normed academic achievement test can partially identify a student. SC READY, NWEA MAP and Iowa Assessment (IA) in reading or math serve as screeners.

Dimension C: Intellectual/Academic Performance- The SC Performance Tasks Assessment (SC PTA) for 2nd through 5th grade students is administered in spring of each year for students who have partially met state criteria in either Dimension A or Dimension B, but not both. For rising 6th through 10th grade students, a GPA of 3.75 or higher can serve as partial identification but students need to have met criteria in Dimensions A or B.

After reviewing this information and the data presented in your student's ISR, should you have any additional questions, please feel free to contact me. Dorchester Two appreciates your support for your student and our educational programs.

Best Regards, Dr. Gem Massey Gifted & Talented Education 815 SOUTH MAIN STREET SUMMERVILLE, SC 29483 • (843) 873-2901 • FAX (843) 873-4053

19 de enero de 2024

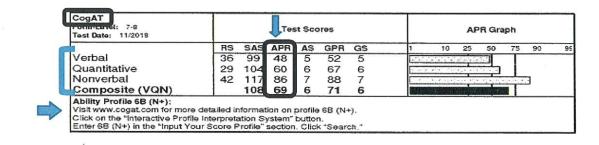

Querida familia,

Su hijo de segundo grado participó en las pruebas del censo el otoño pasado con otros estudiantes de segundo grado en Carolina del Sur. Esta prueba del censo involucró dos evaluaciones que miden diferentes formas en que un estudiante piensa, resuelve problemas y aprende. Una de las evaluaciones administradas fue la Prueba de Habilidades Cognitivas/Cognative Ability Test (CogAT), que mide la capacidad de un estudiante para resolver problemas con el uso de palabras y sin el uso de palabras. La segunda prueba que se aplicó fue la Evaluación de Iowa/Iowa Assesment (IA), que mide el rendimiento académico de un estudiante en lectura y matemáticas. Estas dos pruebas sirven como puntos de datos para ayudar a los maestros a diferenciar su instrucción en el aula para estudiantes de diferentes habilidades, así como también sirven como evaluadores iniciales para determinar la elegibilidad para que un estudiante sea identificado por el estado como un estudiante académicamente dotado y talentoso/Gifted and Talented (GT).

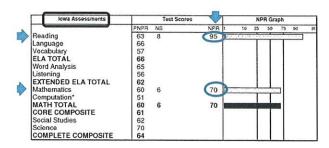

Se adjunta a esta carta una copia del Informe Individual del Estudiante/Individual Student Report (ISR) de su estudiante. El ISR junto con la información de esta correspondencia ayudará a informar y guiar sus esfuerzos continuos para apoyar el aprendizaje y el pensamiento de su estudiante. También te animamos a acceder a un vídeo que explica cómo interpretar los resultados en el ISR. Se puede encontrar en el sitio web de Dorchester Two (www.ddtwo.org/gate). Si desea acceder a recursos adicionales, Riverside Insights, la plataforma de pruebas para CogAT/IA, ofrece artículos útiles para apoyar a las familias y a los estudiantes (https://riversideinsights.com/citc/dashboard-parent).

Interpretación de los resultados de CogAT/IA de su estudiante en el ISR

Las puntuaciones del CogAT se informan en el cuadro de la izquierda del ISR. Es importante tener en cuenta que la mayoría de los estudiantes de segundo grado obtienen puntajes en o alrededor del percentil 50. En el siguiente ejemplo, este estudiante muestra capacidad cognitiva tanto en el razonamiento cuantitativo como en el no verbal. Por lo general, estas fortalezas cognitivas pueden manifestarse y capitalizarse en áreas de contenido de ciencia, tecnología, ingeniería y matemáticas. El Rango de Percentil de Edad/Age Percentile Rank (APR) es el percentil nacional que Carolina del Sur utiliza para determinar la elegibilidad para GT en razonamiento verbal, razonamiento cuantitativo, razonamiento no verbal o áreas compuestas.

Las puntuaciones de IA se informan en el cuadro cerca de la parte superior izquierda del ISR. Al igual que los resultados de CogAT, estos se informan como percentiles y la mayoría de los estudiantes de segundo grado obtienen una puntuación en o alrededor del percentil 50. En el siguiente ejemplo, el estudiante muestra fortalezas tanto en lectura como en matemáticas. Además, este estudiante también cumplió con los criterios de superdotados y talentosos de SC para la "Dimensión B – Logros Académicos" en lectura con un Rango de Percentil Nacional/National Percentile Rank (NPR) de "95". Esta puntuación identifica parcialmente al estudiante y justifica una evaluación adicional. Al final de esta carta se discute más información sobre cómo SC identifica a los estudiantes por superdotación académica.

Criterios de Identificación de Dotados y Talentosos (GT) de Carolina del Sur

En lo que se refiere a los criterios y procesos para determinar si un estudiante es identificado como dotado y talentoso en lo académico, es importante entender que las pruebas del censo de segundo grado en las que participó su estudiante el otoño pasado no es la única vez que los estudiantes son evaluados para la identificación estatal de GT. Más bien, hay múltiples evaluaciones cognitivas y de rendimiento que se utilizan para detectar la superdotación académica a lo largo del año y todos los años desde el tercero hasta el décimo grado. En el sitio web de Dorchester Two se puede encontrar una cronología de estas mediciones, así como una descripción de lo que evalúa cada una.

Para ayudarte a entender las múltiples formas en que SC determina la elegibilidad de los superdotados y talentosos, un estudiante debe obtener una puntuación igual o superior al percentil 96 total o compuesta en una prueba de habilidades de razonamiento aprobada por el estado y normalizada a nivel nacional \boldsymbol{o} el estudiante debe calificar en \boldsymbol{o} de las \boldsymbol{o} dimensiones que se detallan a continuación:

Dimensión A: Habilidades de razonamiento - Una puntuación del 93% o más en una prueba de habilidades de razonamiento (es decir, CogAT) en las secciones verbal, no verbal, cuantitativa o compuesta identificará parcialmente a un estudiante. Un estudiante que recibe un puntaje compuesto o total de 96% o más en una evaluación de habilidades cognitivas lo identifica automáticamente como académicamente dotado y talentoso en SC.

Dimensión B: Rendimiento académico en lectura o matemáticas – Un puntaje de 94% o más en lectura o matemáticas en una prueba de rendimiento académico aprobada por el estado o normalizada a nivel nacional puede identificar parcialmente a un estudiante. SC READY, NWEA MAP y Iowa Assessment (IA) en lectura o matemáticas sirven como evaluadores.

Dimensión C: Rendimiento Intelectual/Académico- La Evaluación de Tareas de Desempeño de SC/The SC Performance Tasks Assessment (SC PTA) para estudiantes de 2º a 5º grado se administra en la primavera de cada año para los estudiantes que han cumplido parcialmente con los criterios estatales en la Dimensión A o la Dimensión B, pero no en ambas. Para los estudiantes de 6º a 10º grado, un GPA de 3.75 o más puede servir como identificación parcial, pero los estudiantes deben haber cumplido con los criterios de las Dimensiones A o B.

Después de revisar esta información y los datos presentados en el Informe Individual del Estudiante (ISR) de su estudiante, si tiene alguna pregunta adicional, no dude en ponerse en contacto conmigo. Dorchester Two agradece su apoyo a su estudiante y a nuestros programas educativos.

Saludos cordials, Dr. Gem Massey Educación para Dotados y Talentosos December 12, 2023

Dear Family,

Your student was recently screened for possible participation in Dorchester School District Two's Gifted & Talented Education (GATE) program as a state identified gifted student. This letter is to inform you that your student's Cognitive Abilities Test (CogAT) results *have met* South Carolina's gifted and talented eligibility criteria. Your student's state identification as "academically gifted and talented" will give them the opportunity to participate in our district's GATE program beginning in the 2024-2025 academic year and will give them access to specialized services through high school. However, if your student is currently enrolled in GATE/Honors classes as a "locally placed" student, they will now be guaranteed services throughout their K-12 educational career in SC.

Our district's GATE program is designed to provide differentiated curriculum and instructional experiences that challenge the minds and thinking of our state identified students within the academic disciplines. Moreover, these learning experiences are designed to capitalize on students' intellectual and academic strengths. All Dorchester School District Two elementary schools offer GATE services through a state-approved special class model in English/Language Arts and math beginning in third grade. These specialized services continue through middle school and high school.

Moreover, it is important to understand how your student was identified so that you can continue to support them throughout their educational career. A copy of your student's SC Student Profile sheet is included in this correspondence and paired with the information below will assist you in understanding how they were identified according to SC's gifted eligibility criteria. It is important to keep a copy of the SC Student Profile because your student's state identified status will be honored in any SC public school district should your family move in the future.

In order for a student to be eligible to receive services for the academically gifted and talented in South Carolina, a student must score at or above the 96^{th} percentile total or composite score on a state-approved and nationally-normed reasoning abilities test \mathbf{OR} the student must qualify in $\mathbf{2}$ of $\mathbf{3}$ dimensions detailed below:

Dimension A: Reasoning Abilities - A score of 93% or higher on a reasoning abilities test (i.e. CogAT) in the verbal, nonverbal, quantitative, or composite sections will partially identify a student. A student receiving a composite or total score of 96% or higher on a cognitive abilities assessment automatically identifies them as academically gifted and talented in SC.

Dimension B: Academic Achievement in Reading or Math – A score of 94% or higher in reading or math on a state approved or nationally-normed academic achievement test can partially identify a student. SC READY, NWEA MAP and IOWA Assessment (IA) in reading or math serve as screeners.

Dimension C: Intellectual/Academic Performance- The SC Performance Tasks Assessment (SC PTA) for 2^{nd} through 5^{th} grade students is administered by the state in spring of each year for students who have partially qualified in either Dimension A or Dimension B, but not both. For rising 6^{th} through 10^{th} grade students, a GPA of 3.75 or higher can serve as partial identification but students need to have also met criteria in Dimensions A or B.

For more information about the services offered to state identified students in the district and resources to support the unique learning needs of this population, visit our district's website. Dorchester School District Two appreciates your continued support for your student and our educational programs. Please feel free to contact me should you have any questions.

Section 2: Plan Information

1. Goals: Briefly describe the goals that the district hopes to achieve through its proficiency- based system.

Dorchester District Two seeks to provide students with multiple pathways to earn Carnegie units towards graduation. We understand that students may not be initially successful when taking a course and may need to retake the course to earn credit. Our goal is to provide opportunities for students within and outside of the regular school day in which to complete these credits. The district plans to utilize blended learning that combines high quality online curriculum with highly qualified teachers providing additional instruction. Students will then be able to earn credits to keep them on grade level and also work towards the four-year graduation goal. Additional program goals include:

- Improve academic support for students who cannot physically attend high school
- Improve academic support for students who are under disciplinary sanction
- Increase scheduling options for students who transfer or have scheduling conflicts
- Increase course options for students
- Provide levels of remediation that offer each student multiple paths to successful high school completion
- Increase graduation rates
- Reduce the number of dropouts
- Increase the use of instructional technology in high schools
- Provide additional instructional resources for teachers
- Increase completion rate for students participating in Initial Credit
- Increase completion rate for students participating in Credit Recovery
- 2. Types of Credit: Indicate the type(s) of proficiency-based system credit from Credit Recovery the guidance document for which the district is seeking approval.

Initial Credit

3. Metrics for Accountability and Success: Provide a description of the process that the district will use to develop and finalize both short- and long-term metrics for how the district will determine whether its proficiency-based system has achieved success on its articulated goals. Also describe how you will integrate these metrics into your district strategic plan.

District and school leaders will collaborate to develop short and long-term metrics to determine success of the proficiency-based system. We will review the student recruitment efforts, student enrollment in blended programs, and student success in the blended programs. Information will help us determine if other opportunities for students should be implemented, such as additional days for Evening School or the need for additional teachers and resources. The utilization of the proficiency-based system is directly linked to the district's strategic plan's focus on graduation rate, math success, achievement of students with special needs, and college/career readiness.

4. Student Participation: Provide a description of how the district will develop strategies and tools to communicate the existence of or encourage student participation in the new proficiency-based system as well as a short statement denoting which school(s) within the district will be included. Furthermore, provide a description of how the district will develop its process to determine which students are eligible to participate in a proficiency-based system course or receive proficiency-based system credit(s).

District and school leaders will collaborate to develop strategies and tools to communicate about the proficiency-based system. All three high schools (Ashley Ridge High School, Fort Dorchester High School, Summerville High School) and RISE Academy (alternative program) will utilize the proficiency-based system for students to complete initial credit and credit recovery using online blended learning. Through our Prevention and Intervention program, students who fail a course are identified for additional interventions using our MTSS matrix. School administrators and counselors meet with students and parents to determine the best pathway for students to earn credits that were previously not earned.

Students may qualify for credit recovery if they failed the course in the previous school year with a final grade of 50-59. Students with other failure types will be required to complete initial credit courses. Student courses may be scheduled to occur during designated daytime class periods, in the Evening School program on Tuesdays and Wednesdays, during Saturday academic overtime sessions, and in the summer remediation program. Due to the easy web-access of the courses, students may also complete assignments from home. The district limits course offerings to courses in the main core subject areas of English, math, science, social studies, and some CTE courses that count toward required graduation credits. Students in initial credit courses must take the state End of Course Exams (EOCEP) or the blended learning/district-based exam. All exams count 20% of the student's final course grade.

5. Individual Student Learning Needs: For each of the proficiency-based credits that the district plans to offer, provide a description of the process that the district will use to develop and finalize strategies to ensure that individual student learning needs are addressed.

The district will provide strategies that ensure individual student learning needs are addressed. Students will complete the proficiency-based credits with a highly qualified classroom teacher that will provide instruction in a blended learning environment. Teachers will be able to teach mini lessons to further student understanding of concepts. Using technology, student learning needs for language translation and text to speech will be addressed. Special education and ML teachers will also provide assistance for students and ensure that IEP and ML accommodations are being provided. Parents and school counselors are added as coaches in the online curriculum so that they receive weekly progress updates for their students.

the process that the district will use to determine what policies and structures may need to be changed to fully implement the proficiency- based system. This may include policies related to grading, reporting, and transcripts, among others.

6. Changes to District Policies: Describe The district firmly believes that ongoing reflection and data analysis is necessary to maintain quality programs. School administrators, counselors, and teachers are trained using the Blended Learning Policies and Procedures Manual that describes all aspects of the plan in detail. We collaborate yearly to determine if any changes are needed and then implement those changes. We have safeguards in place to ensure students meet the academic requirements, teachers submit grade changes, administrators approve changes, and that systems operators update final grades in Power School for transcripts. School counselors keep track of student progress and ensure transcripts are up to date. District staff work with schools to ensure the integrity of the program is ongoing and any concerns are addressed promptly.

7. Community Engagement: Describe the process that the district will use to ensure that community members and stakeholders, including parents, students, and school staff are aware of the opportunities provided by the proficiency-based system. Also describe the process that the district will use to engage these stakeholders in its development.

The district seeks to provide information to stakeholders about our proficiency-based system. Our district superintendent provides updates about the proficiency-based system in the state of the district address to the community. Additional information is shared through school and PTSA groups. Information is also provided by schools to parents, students, and school staff about opportunities for students to utilize the proficiency-based system. Feedback from stakeholders is used to develop, review, and adjust the proficiency-based system throughout each school year.

8. Method for Determining Proficiency: will develop and finalize the methods of determining proficiency for the purposes of awarding credit for the courses offered through the proficiency-based system. The district should also describe how it will make sure that expectations are shared for all students enrolled in the course. Please also articulate whether and how the

Students must demonstrate adequate academic success in the Provide a description of how the district proficiency-based system to receive credit. Based on the state Uniform Grading Scale, students must earn a minimum of 60 in the course to receive credit. Expectations are shared with students and parents by administrators and counselors and via the required application to take the proficiency-based course. The blended learning courses are comprised of graded written assignments, guizzes, assessments, and exams (when required). Audits of the course content are completed by district content area specialists to ensure the blended learning curriculum is aligned to the SC College and Career Ready Standards. Teachers must be highly qualified in the subject area to teach the blended learning course. Students district will develop an appeals process. who are denied entry to a course or completed credit of a course may appeal decisions to the school administrator and to district administrators.

9. Academic Standards: Provide a description of the process that the district will use to ensure that the evaluation of mastery and any accompanying courses provided under the proficiency-based system address learning expectations for which credit is to be awarded.

The district provides online blended learning curriculum to schools and teachers to use for the proficiency-based system. Content area curriculum interventionists complete a stringent review of all courses to ensure alignment with SC College and Career Ready Standards. They also work to ensure the courses meet the meet the level of academic rigor that students receive in traditional classroom instruction. Teachers and students may not the appropriate academic standards and alter, replace, or omit the required curriculum content and graded assignments, thus ensuring academic mastery occurs consistently. A graded student portfolio (print or digital) is kept that includes all written work. Each unit's work must be completed before students take the proctored unit assessment. School and district administrators utilize oversight protocols to ensure that teachers and students are adhering to these high standards.

10. Supports: Describe what type(s) of additional supports the district will consider making available to engender student success and demonstration of content proficiency for credit recovery. *The supports question is required for the Credit Recovery option only.

Students who take credit recovery courses must meet the requirement of having failed the course within the previous school year and with a final grade of 50-59. This ensures that the student has had recent exposure to concepts and success at a higher level than students with lower grades. In credit recovery, students are required to complete a minimum of one graded, written assignment per unit as well as take all guizzes and computer-scored tests. However, they are not required to complete teacher-scored tests and final exams. Students still utilize teacher-guided online blended learning with full academic support, including special education and ML services and accommodations. Students may also utilize technological supports, such as immersive readers for increased reading comprehension. Students may enroll in two credit recovery courses at a time in one program.

Assurances: By checking these boxes

Any courses that will utilize the proficiency-based methods outlined in this and submitting this application, I certify: application have been approved by the SCDE.

> The district will take steps to ensure courses will be taught by teachers with the appropriate credentials.

If students take health, the district will ensure provisions required under Erin's Law are realized.

The district will remain under the 5% cap for students enrolling in full-time virtual programs.

The district has made students and families aware of NCAA regulations around proficiency-based courses/credits.

Introduction to Blended Learning Programs

Dorchester District Two strives to provide quality instruction to all students. Computer Enhanced Instruction (CEI) is an effective online learning opportunity for secondary school students. Use of CEI in conjunction with teacher instruction can provide an effective alternative for motivated students to meet graduation requirements, to resolve scheduling conflicts, and as a homebound option. Digital curriculum enables schools to provide flexible scheduling options for students. Teachers utilizing digital curriculum can provide true differentiated instruction, meeting a wide range of student needs.

Students participating in blended learning environments receive direct instruction from the digital curriculum in addition to face-to-face support from a highly qualified teacher. The blended learning environment may not be suitable for all students. Some students have trouble with time management, need the structure of a classroom, or miss the face-to-face interaction with other students and the instructor. The following are some of the characteristics that students should have to be a successful online learner:

- Discipline to complete projects by deadlines instead of waiting until the end of the semester
- Motivation to read, write, and participate fully in class activities
- Time to devote a minimum of eight (8) hours a week for a one credit course
- Ability to work independently and in teams
- Flexibility in dealing with technology problems
- Self-starter; does not procrastinate
- Ability to learn from the printed work (a majority of material and communication happens through reading and writing.)
- Sets aside specific times on a routine basis to 'participate' in the course
- Asks questions when they do not understand
- Has access to a current computer and the Internet
- Possesses good computer skills
- Manages time effectively

Program Goals

- Improve academic support for students who cannot physically attend high school
- Improve academic support for students who are under disciplinary sanction
- Increase scheduling options for students who transfer or have scheduling conflicts
- Increase course options for students
- Provide levels of remediation that offer each student multiple paths to successful high school completion
- Increase graduation rate
- Reduce the number of dropouts
- Increase the use of instructional technology in high schools
- Provide additional instructional resources for teachers
- Increase completion rate for students participating in Initial Credit
- Increase completion rate for students participating in Credit Recovery

Program Locations

To meet our goals, Dorchester School District Two offers online programs at the high schools (during and after school, Saturdays), the evening school programs, alternative school program, and local residential group homes and treatment facilities.

The Dorchester District Two Evening School Program provides an alternative option for high school students who struggle in the traditional day classroom setting and may be behind in credits, enabling those with qualifying needs an opportunity to complete high school and earn a South Carolina State High School Diploma. Each high school hosts its own evening program Tuesday and Wednesday from 4-7pm. Students must be enrolled in the home high school before beginning the Evening High School Program.

Program Descriptions

Initial Credit (IC)

Initial Credit provides a framework for return to a normal four-year graduation path by remediating students failing more than one course in the past year. Students who fail more than one class, those who traditionally fail to matriculate in 9th, 10th, and 11th grade, are targeted for intervention with this program. Participants may be scheduled for one or two periods in the designated credit recovery labs or scheduled in Evening School labs with a highly qualified teacher. Students with early completion are given the opportunity to recover additional classes and/or take an additional course for initial credit. The Initial Credit option is available through Day School, Evening School and Summer School. All students enrolled in an End-of-Course test subject **MUST** take the South Carolina EOC Exam. These courses include: English 2, Algebra I, Biology, and US History.

Students may also seek Initial Credit through VirtualSC per the VirtualSC enrollment calendar. School counselors are available to help with enrollment and principals will advertise VirtualSC enrollment dates to teachers.

Credit Recovery (CR)

Credit Recovery helps to remediate students who fail a course in the current or previous year with a final grade of **50-59** and return them to a normal four-year graduation path. Students with a course failure will access self-paced study options and complete assignments from school-based labs, home, residential treatment centers, or anywhere there is Internet access. Students **MUST** be scheduled with a certified teacher in the subject area in which they are recovering. The Credit Recovery option is available through Day School, Evening School Program, and Summer School. For transcribing the final grade in a credit recovery course, the following procedures shall be followed:

- 1) The original failing grade will remain on the transcript but will be marked to not count in the GPA calculation if the student recovers the credit successfully.
- 2) A new course starting with the appropriate activity code, grade scale designation, and unit marker will be entered on the student record (i.e., 3024CRCW English 1-CR.) The new credit recovery course will be marked "CR" at the end of the course title in the student information system.
- 3) If a student passes the credit recovery course with a 60 or higher, the passing grade will be transcribed to the numeric grade equivalent to the GPA quality points of the student's cumulative GPA at the time they complete the credit recovery course. For example, if the student's cumulative GPA with the failing course grade included is 2.72, then the quality points applied to the "P" in the credit recovery course will be 2.72 or a grade of 77. If the student's cumulative GPA is an "F," then the grade entered for passing the credit recovery course is the lowest passing grade (60).
- 4) A student wishing to modify his or her GPA shall repeat the full course for credit and not seek a credit recovery solution.

Quarter Recovery (QR)

Quarter Recovery is intended for students with a quarter grade less than 60. Quarter Recovery provides preemptive classroom level remedial support to students before the need for formal credit recovery. Classroom teachers initiate and administer quarter recovery efforts on an individual basis with students completing the assignments before school, during ILT (Individualized Learning Time), and Academic Overtime (Saturdays and after school). Summative assessments are scheduled within a proctored environment. All students will have opportunities for remediation – teachers may design their own student improvement plans in lieu of digital curriculum. The Quarter Recovery option is available at the end of each quarter.

Quarter recovery assignments for Quarters 1-3 must be completed by the end of the following quarter. Fourth quarter recovery for seniors is available for seniors beginning the last day of senior classes until the Wednesday before graduation. Seniors may recover Quarters 1-4.

Upon successful completion, those students enrolled in a digital curriculum will receive a grade of **60** for the recovered quarter.

Classroom Instruction

Classroom teachers have access to the full Apex/Edmentum Learning curriculum - a wealth of video and auditory resources, as well as prescriptive, formative and summative examinations. Apex Learning content, arranged by state standard can be used by inexperienced teachers to supplement classroom curriculum resources.

Homebound and Homebased Education (HB)

Digital curriculum allows schools the opportunity to revolutionize the administration of home-bound and home-based education. Because the content can be delivered virtually, each student may be served by multiple, highly qualified teachers in the subject area. Students will receive work in a timely manner, be able to receive feedback and instruction from specialized teachers and have the support of an on-site academic coach who will visit the home to monitor assessments and provide general guidance. The virtual model will also allow for

quality instruction in home-based situations where finding instructors has proven difficult in the past.

Apex/Edmentum Learning Digital Curriculum Overview

About Apex/Edmentum Learning

Apex/Edmentum Learning digital curriculum provides teachers with standards-based instructional tools to deliver individualized, student-centered direct instruction with integrated diagnostic, formative, and summative assessment. Apex/Edmentum Learning digital curriculum creates active learning experiences that keep students attentive and engaged as they read, watch, listen, inquire, write, discuss, and manipulate. The use of multimedia tutorials provides students with opportunities to explore and understand new concepts, allowing each student to move at his or her own pace. A typical lesson comprises a number of activities including studies, practices, readings, journals, labs, discussions, projects, explorations, reviews, and embedded assessments.

Pathways

Apex/Edmentum Learning digital curriculum offers multiple course pathways to support academic success for all students, from those not prepared for grade-level academic challenges to those capable of accelerating their learning. Instruction is differentiated by placing students into the appropriate pathway. Dorchester School District Two only uses the Core for our Credit Recovery and Initial Credit courses. However, some teachers may pull information from Apex/Edmentum Tutorials, Foundations, or Honors pathways for quarter recovery, unit recovery, or homebound instruction.

Curriculum Information:

For more information about the different pathways, <u>Guide - Pathway Placement</u>

Course Design

Courses are either ½ credit or one credit in length. Courses are divided into units, lessons, and activities. Units break the course into major topics and are subdivided into lessons; each lesson contains activities.

| Apex /Edmentum Learning Activity Types | | | |
|--|--|----------|------------------------|
| Туре | Description | Scoring | Print Component |
| Unit Overview | Introduces the content of the unit | N/A | No |
| Lesson Overview | Includes lesson objectives and key terms | N/A | No |
| Study | Direct instruction that demonstrates course concepts using text, images, multimedia demonstrations, and interactive learning opportunities | N/A | Study Sheet |
| Quiz | Study-level or lesson-level diagnostic assessment | Computer | No |
| Checkup | Free-response activity that is self-assessed | N/A | Yes |
| Practice | Helps students apply and extend learned concepts | Teacher | Yes |
| Discuss | Open-ended prompts that promote online class discussions | Teacher | No |
| Explore | Enrichment activities that often include guided research using external web links | Teacher | Yes |
| Journal | Writing activities that offer opportunities for personal reflection on or analysis of unit concepts, themes, or readings | Teacher | Yes |
| Lab | Students perform hands-on (wet), virtual (dry), or hybrid (both wet and dry) laboratory work. Science courses only | Teacher | Yes |
| Log | Used for recording independent — and usually offline — practice. Music Appreciation and Physical Education only | Teacher | Yes |
| Review | Reviews content and skills to prepare students for comprehensive unit tests or semester exams | N/A | Print and/or Online |
| Computer- Scored Test (CST) | Summative unit-level assessment | Computer | No |
| Teacher- Scored Test (TST) | Summative unit-level assessment | Teacher | Yes |
| Exam | Summative semester-level assessment | Computer | No |
| Final Exam | Summative semester-level assessment | Teacher | Yes |

Course Materials

Some courses require materials such as novels, calculators, or science lab materials

^{*}Half Credit Course

Science Laboratory Experience Requirements

Safety information is available in the Student Resources section of each science course. To complete the hands-on wet labs, students must work under the supervision of the laboratory instructor. Students who do not have access to a supervised laboratory, such as homebound students, may complete a dry lab with administrative approval. Dry labs teach students how to work with experimental data and draw conclusions based on evidence.

Initial Credit:

Students must complete the laboratory work to gain hands-on experience.

Credit Recovery

Students enrolled in credit recovery science courses have already met the laboratory requirements needed.

Laboratory Scheduling

Students enrolled in initial credit science courses will be assigned supervised lab time in order to complete the required lab activities.

Course Settings

Course settings are set by default and must remain as indicated by the chart below.

| Description | Configuration | | |
|--|---|-----|----------|

| Mastery-Based Learning (MBL) students work through course content sequentially, earning at least the stated minimum score on computer-scored assessments. | 60% | 60% | Disabled |
| MBL Attempts is the number of times a student may attempt to master an assessment before being blocked from retaking the assessment and from accessing subsequent course content. | 1 | 1 | n/a |
| Closed Book (CB) allows or prevents students from accessing course content while in an assessment. | Closed-book assessments | | |
| Question Order Randomization (QOR) ensures students will have different assessments than their peers, including different questions on retakes. | Randomize question order | | |
| Answer Review (AR) enables a student to review an assessment after it has been graded. | Allow answer review | | |
| Proctoring prevents students from accessing activities until they have been unlocked by a teacher or mentor. It applies to all computer-scored tests, teacher-scored tests, midterm exams, and final exams. | Proctor summative assessments (CST, TST, Exams) | | |
| Course Review allows or prevents students from accessing courses after the teacher has entered a final grade in the Grade Book. | Do not allow course review | | |

Note: Foreign Language courses do not contain an assessment question bank, thus quiz questions are not randomized. In order to maintain academic integrity, MBL is set at 0% so that students are required to complete the course sequentially, but only have one attempt with computer-scored assessments.

Participation and Eligibility Requirements

The following eligibility requirements apply to all students. Exceptions to the eligibility requirements MUST have the approval of the Director of High Schools. Students are eligible to enroll in blended learning opportunities if the student:

- Is a resident of the District.
- Has parent/legal guardian permission (signed forms) to participate.
- Has administrative and counselor approval.

| Students are eligible to | enroll if the student: | | |
|---|---|--|---|
| Initial Credit | Credit Recovery | Quarter Recovery | Extended Year Seniors Only |
| has failed to matriculate and needs to get back on track to graduate on time. | failed the course during the previous academic school year with a grade of 50-59. | is failing the course at the end of the quarter. | Is failing the course at the end of the year. |
| finished the course earlier with a WF or FA. | Students may only enroll in 2 credit recovery courses at a time per program (i.e. students can be in 2 courses during the day AND 2 coursed during Evening School. | | Students who finished the year with WF and/or FA are not eligible. |
| has unresolved scheduling conflicts. | Students who finished the course with WF and/or FA are not eligible. | | Seniors can recover any quarter when their final yearly grade is 50-59. |
| is unable to physically attend classes. | Student athletes must recover according to the timeline set by the high school league. Principals and Athletic Directors are advised to communicate with SCHSL on matters pertaining to student athletic eligibility and credit recovery. | | |
| For EOC courses, enrollment must occur during the first 10 days of the second semester. | | | |
| For all other courses, enrollment must occur before day 135 | | | |
| Students may only enroll in 2 initial credit courses at a time per program (i.e. students can be in 2 courses during the day AND 2 courses during Evening School. | | | |
| Students must complete all credit recovery work before attempting initial credit coursework in the same content area. | | | |

NCAA Eligibility

Student-athletes who wish to attend an NCAA Division I or II college or university must ensure courses offered using a digital curriculum for original credit **and** credit recovery meet NCAA guidelines.

The National Collegiate Athletic Association (NCAA) has very strict guidelines regarding credit for courses taken online, such as courses offered by Dorchester School District Two. Many online courses ARE NOT APPROVED by the NCAA. Be sure to consult with your high school's athletic director and your school counselor to determine if the online course is approved for credit by the NCAA.

For more information regarding NCAA Eligibility, go to: Best Practices - NCAA

Course Expectations and Completion Criteria

Minimum Student Work Expectations

Students are expected to log between 5-8 hours in each course every week. Courses are to be completed within 90 days of their start date. Students who pass the course have demonstrated proficiency and are therefore exempt from mandated 120 hours of seat time.

INITIAL CREDIT

Students who do not access their course for over ten consecutive school days without prior approval will be recommended for withdrawal from the course and will receive a Withdraw Failing (WF=51). Failure to log required hours and/or complete assignments may result in removal from the course.

With the first day of enrollment in PowerSchool as the baseline, students who withdraw from an initial credit course within 10 days for a one-credit course and 5 days for a half-credit course will do so without penalty. Students who withdraw from the initial credit course after the specified time of 10 days or 5 days respectively, shall be assigned a Withdraw Failing (WF=51), and this grade will be calculated in the student's grade point ratio per District guidelines and the SC Uniform Grading Policy.

For Initial Credit and Credit Recovery, teachers will cascade due dates so that the first scored assignment is due no later than the fifth day of the semester and the last due date is one week before the end of the semester. Teachers may cascade due dates individually for students who enter the course after the fifth day of the semester. Teachers set due dates in order to guide students toward on-time course completion. Students may work ahead of scheduled due dates to accelerate course completion.

Under extreme circumstances, and only upon principal approval, one 30-day extension may be granted. Extension requests must be submitted **before** the course end date.

Student Portfolios

Students must keep a portfolio for each course according to these requirements:

- □ All written work, including Study Sheets must be kept in the portfolio.
- Completed Science lab sheets must be kept in the portfolio.
- □ There will be at least one written assignment per unit.
- □ Students must show completed unit written work before taking the proctored unit assessment.
- □ Teachers will review the portfolio before opening unit assessments and during weekly meetings to track student progress toward course completion.
- □ Students will not be allowed to remove portfolios from the classroom.
- □ Students will receive a maximum of **100** points per semester for their portfolio in the Apex/Edmentum Gradebook. Points will be awarded by the teacher at the end of each semester under Additional Activities.
- Student portfolios are not optional.
- Student portfolios should be stored in the records room of each school clearly labeled as APEX portfolios and the school year.

Final Grades

The Apex/Edmentum Learning Grade Book calculates Unit Averages based upon total points. The Apex/Edmentum Gradebook generates three averages, based on student performance, to give teachers assistance with assigning the Final Grade - Grade to Date, Quality of Work, and Overall Percent. All three averages will be the same when all assigned activities are completed.

Grade to Date: When due dates are set, the Most Accurate average reflects the inclusion of zeros for activities that are due but have not been submitted or scored. Students may improve their Grade to Date percentage by completing overdue activities at no penalty. Zeros for incomplete scored activities will be included in the final grade. Activities that are scored in advance of the due date are ignored. This average most accurately reflects student progress and performance at any given time. [Calculation: points earned on activities due through today divided by points possible for activities due through today]

Quality of Work is a student's average relative to the total points possible for completed activities. This average is based ONLY on performance on completed activities and provides no indication of pacing. Students and teachers may get a false impression of progress if they look only at this average. [Calculation: points earned on activities completed divided by points possible for completed activities]

Overall Percent is a student's average relative to total course points. Because this average is based on the TOTAL points possible for the course, this percentage increases as students complete activities. This average would not be an accurate reflection of student performance until the course is complete or the student has stopped working. **[Calculation: points earned on completed activities divided by points possible for the course]**

Credit Recovery students are not required to take exams provided through Apex/Edmentum Learning. All students enrolled in Initial Credit courses must take exams in accordance with district policy. Students enrolled in EOCEP courses will take the state EOC exam, which counts as the final exam. As long as Apex/Edmentum content has not been removed, the exam provided by Apex/Edmentum can be used. Where course modifications have been made, district-designed exams can be obtained by doing the following:

*Teacher should contact the Apex/Edmentum administrator to let the administrator know which district final exam is needed. High School Interventionists will give copies of the necessary district final exams to the Apex/Edmentum administrator at each high school site.

The information below explains the district grading policy for all initial credit courses.

| 1st Semester Final Grade | 2 nd Semester Final Grade | Year Final Grade |
|--|--|-------------------------------|
| 1st quarter final grade=20% | 3 rd quarter final grade=20% | 1st semester= 40% |
| 2 nd quarter final grade=20% | 4 th quarter final grade=20% | 2 nd semester= 40% |
| Quarter 1 + Quarter 2 Divided by 2=First Semester Grade | Quarter 3 + Quarter 4 Divided by 2= Second Semester Grade | Final Exam= 20% |

Assessments and Proctoring

- Students may work on activities, including quizzes, from any computer with Internet access. Unit assessments, mid-term, final exams, and end of course exams must be proctored in the designated computer lab.
- Teachers should lock all unit tests after each unit is completed.
- Students taking AP exams and SC End of Course exams will take the exams on the same scheduled date and time as their traditional school peers.
- Students who are medically homebound will have assessments proctored by the homebound teacher according to a mutually agreed upon location and schedule.
- No TEST OUT is allowed via the Diagnostic.

Activity Resets

- For Credit Recovery, the student will have one initial chance to meet mastery (60%) on the quiz. Because students have prior exposure to the material, students may choose to take the quiz PRIOR to the study. If mastery is met, a student may move forward with no teacher intervention. If mastery is not met, students will need to show their completed study sheet to their teacher in order to get a second chance (reset). They are allowed to use this study sheet while taking the quiz. If this second attempt at the quiz does not show mastery, after conferencing with their teacher, students will be given a third chance to achieve mastery. STUDENTS WILL HAVE NO MORE THAN THREE TOTAL ATTEMPTS AT MEETING MASTERY ON ANY GIVEN QUIZ. Teachers will permit progress after this third attempt and monitor student progress closely to determine if students need additional help.
- For Initial Credit, the student will have one initial chance to meet mastery (60%) on the quiz. Students participate in the Study before attempting the quiz for the first time. If mastery is met, students move forward with no teacher intervention. If mastery is not met, students will need to show their completed study sheet to their teacher in order to get a second chance (reset). They are allowed to use this study sheet while taking the quiz. If this second attempt at the quiz does not show mastery, after conferencing with their teacher, students will be given a third chance to achieve mastery. STUDENTS WILL HAVE NO MORE THAN THREE TOTAL ATTEMPTS AT MEETING MASTERY ON ANY GIVEN QUIZ. Teachers will permit progress after this third attempt and monitor student progress closely to determine if students need additional help.
- Students will have no more than TWO total attempts at meeting mastery on summative computer-scored assessments. (CST and Exams).

APEX/Edmentum FINAL EXAMS CHART 2022-2023

| | | T |
|----------------|----------------------------|----------------|

| Social Studies | US History | SC EOCEP |
| <u>ial</u> 5 | Government | Apex Final |
| Soci | Economics | Apex Final |
| | Electives | Apex Final |

- ❖ Final exams are given only in Initial Credit courses, not Credit Recovery.
- Please note that final exams are always EXCLUDED in your Apex/Edmentum gradebook. These grades should be entered under Additional Activities by adding the First Semester and Second Semester scores together and doing calculations for total points to be entered.
- ❖ If your course requires a DISTRICT exam, please contact your school's Apex/Edmentum assistant principal to request the paper copy ahead of time. This will be sent from the Professional Development Coaches for the content area.

Instruction

Students are placed in classes with a highly qualified teacher. Students receive direct instruction primarily from the digital curriculum. Teachers facilitate instruction, utilize reporting tools to identify areas of student weakness, and develop instructional interventions including small group and individual direct instruction.

Before Students Arrive

Gather all course materials. Print roster with student usernames and temporary passwords. Cut strips for easy distribution to students.

Due dates for all courses are set initially for a 90-day completion. Adjust dates by cascading in the gradebook, as needed, to coincide with the school calendar and completion expectations.

Ensure students will have access to printer, paper, portfolios, headphones, English course materials, and science lab materials.

Student Orientation

All students are required to participate in student orientation as they enter class. Students must attend one of these sessions or they will not be permitted to continue with the program.

During the orientation, teachers will:

- 1. Introduce themselves to students.
- 2. Explain policies and procedures.
 - a. Student Work/Due dates
 - b. Student portfolio/ Weekly progress checks
 - c. Tutoring/Assessment
 - d. Academic Dishonesty Policy
- 3. Have students complete the success agreement and Academic Honesty Policy.
- 4. If students are working from home computers, show them the System Setup as well as Support contact information.
- 5. Instruct students to watch the Student Guided Tour.
- 6. Share the reset policy and ensure students are comfortable with teacher expectations for course navigation.
- 7. Discuss routines (key words, study sheets, Unit Test Preparation, managing due dates)
- 8. Explain your motivational support system (stoplight colors, wall of fame, announcements)
- 9. Point students to the Appendix where Additional Activities are located.
- 10. Help students sign in and establish their permanent passwords.
- 11. Set-up parents and students as coaches to receive the weekly student progress email.
- 12. Configure the student profile with Spanish language assistance if appropriate.
- 13. Assist students with check out of materials.

Communication

Regular communication between teachers, parents and students creates a support system for students. Teachers are expected to establish and maintain lines of communication to discuss student progress and performance.

Teachers should communicate:

| At the beginning of the course by sending a welcome email to introduce themselves, |
|--|
| share office hours, and important course information. |
| With parents when students are not making progress. |
| If a student does not sign in and access the course in over 3 consecutive school days. |
| With parents when a student does not have required materials for a course. |
| When there is an opportunity to participate in small group instruction sessions, such as |
| tutoring. |
| When student performance is excellent and deserves recognition. |
| During the weekly meeting with each student to review course progress. |
| With periodic announcements posted to the entire class. |
| With any student falling below 60% Quality of Work or Grade to Date in their course. |
| State required course exam dates |
| Final due date reminder for the final exam and all remaining work. |
| By sending a congratulatory email upon course completion. |

Every Sunday, parents, students, and mentors are sent an automated coach email with weekly student progress information from Apex/Edmentum Learning.

Academic Integrity

Teaching with a digital curriculum presents new classroom management challenges. The advent of digital curriculum has enabled new models of classroom instruction that offer a higher degree of individualization to better meet the needs of each student. However, an unintended consequence of this integration of technology is that students may have access to information that provides them with an inappropriate advantage when completing their coursework.

Concerns about academic integrity — such as ensuring that the work a student submits is his or her own and that the final grade awarded to a student is based on that student's completion of the required course material — are not new, nor are such concerns unique to online learning.

The following best practices will help to discourage academic dishonesty:

| Set and communicate clear academic expectations |
|---|
| Prevent unauthorized access to staff accounts |
| Use recommended course settings |
| Proctor and protect assessments |
| Investigate suspected dishonesty |
| Adjust classroom layout to enable teacher view of student screens |
| Require offline student work portfolios |

More information about promoting academic integrity: Best Practices - Academic Integrity

Monitoring Student Progress

In addition to utilizing the Grade Book to monitor student work, the following reports should be used by teachers and students to track student progress. *Note that several of these reports require due dates to be set by the teacher.

Course Activity Scores Report

The Course Activity Scores Report provides teachers, mentors, and students with data for individual student courses, including:

- Due dates / completion dates / scores for all scored activities
- Excel spreadsheets (reveals time spent on each activity)

Student Progress Report

The Student Progress Report provides an overall snapshot of all students in a classroom. Special attention should be paid to the following data on this report:

- Due dates / completion dates / scores for all scored activities*(Course Activity Score Report)
- Activities overdue or not yet scored
- On Schedule percent
- Quality of Work percent
- Days since last access (Available to teachers and mentors)

Student Summary Report

The Student Summary Report for teachers and mentors displays individual student performance for all course enrollments, including total course session time.

Coach Report

Every Sunday, parents, students, and mentors will be sent an automated email with weekly student progress information from Apex/Edmentum Learning.

The coach report includes summary information for each course the student is enrolled in. There is also a link to a Detail Report that includes current and historical information about course access, activities due, and activities completed.

Completing Students

Prior to course completion, the final student conference should be conducted. At this time, the student portfolio for second semester should be assigned a grade and recorded in the Apex/Edmentum Gradebook under "Additional Activities." The portfolio should be maintained and filed for a period of five years. These should be stored in a designated area within each school clearly labeled as Apex/Edmentum portfolios and the school year. Students should not be allowed to leave the Apex/Edmentum classroom with the portfolio. Any other Additional Activities (Initial Credit courses may Final Exams entered in this area) should be assigned the appropriate point values.

When a student completes a course, teachers will perform the following tasks:

- 1. Notify the School Testing Coordinator when a student completes an EOC course for Initial Credit so that EOC testing can be arranged.
- Enter the appropriate points earned for Additional Activities during the final semester.
 For Initial Credit, midterms and exams will be "housed" under Additional Activities.
 EOC scores will be entered as the final exam score for the
 EOCEP courses. Course grades will be calculated according to district grading
 policy.
- 3. Enter a final numeric grade in the Apex/Edmentum Learning Gradebook.
 - Students receive a 60 when credit recovery courses are successfully completed.
 - Students receive the "Apex/Edmentum Overall Percent" when initial credit courses are
 - successfully completed.
 - No final grade is entered in the Apex/Edmentum Learning Gradebook for Quarter
 - Recovery, or Extended Year assignments.
 - No final grade is entered in the Apex/Edmentum Learning Gradebook when students fail in their Credit Recovery efforts.
- 4. Print the Grade Letter, attach to a grade change form and submit to the School-Based Apex/Edmentum Administrator for approval.
- 5. The systems operator will change the grade in PowerSchool. Afterward, check historical grades to verify the grade has been updated.

PowerSchool Procedures and Scheduling

Credit Recovery Sections:

Credit Recovery sections should be set up with the Credit Recovery courses that end in CR. The section id for these sections should be **BELOW 100**.

Example: Algebra 1 Credit Recovery section – 319909CR.1

Initial Credit Sections:

Initial credit sections use the "original" course number, so in order to distinguish them from the regular classes the section number should be **Greater Than or equal to 100.**

Example: Algebra 1 - 411100CW.100

Scheduling Considerations

Sections should be created that provide the most flexibility. Online sections are also scheduled during the same period

as half-credit courses. This allows students who finish their online course at semester end to move to a traditional classroom course if necessary. (This is especially useful for students with multiple sections of online courses in their schedule first semester)

1. Each section will be marked with the appropriate **Instruction Type** as indicated below.

| Course Provider | Instructional Type | |
|---------------------------------|----------------------------------|--|
| Course is provided by VirtualSC | B: VirtualSC teacher information | |
| | must also be included (i.e. | |
| | Certificate # SSN, etc.) | |

- 2. If the student fails to meet mastery in a credit recovery course, no grade is entered in the grade book since a failing grade has already been recorded on the transcript from the original initial credit course.
- 3. If the student fails to meet mastery in an initial credit course, a WF(51) is entered for the final grade in PowerSchool via a grade change form.

Grading Requirements

*Teachers do not put any grades in PowerSchool; teachers use PowerSchool for attendance only.

NOTE: Schools with questions about the course numbers should contact the District Power School facilitator.

<u>District Computer Enhanced Learning Coordinator (DLC)</u>

The District Apex/Edmentum Learning Coordinator oversees policy and staff development and is responsible for the overall implementation of the Apex/Edmentum Learning program.

Specific duties include:

- Recommending specific products, policies and procedures related to student enrollment and completion in all aspects of the Apex/Edmentum Learning program.
- Organizing training and support for all school-based site coordinators and teachers.
- Researching and developing strategies for increasing the effectiveness of the online learning program.
- Assessing and reporting on student enrollment, usage and course completion for the district.
- Serving as the liaison between Apex/Edmentum Learning personnel and district Apex/Edmentum
 - Learning users.
- Serving as the liaison between the district and the schools.

School-Based Administrator (SBA)

The School Administrator is responsible for the implementation of the Apex/Edmentum learning program at their school site.

Specific duties include:

- Collaborating with the school administrative team to create a flexible master schedule with opportunities for student movement.
- Recommending highly qualified teachers to participate in the Apex/Edmentum Learning program.
- Ensuring compliance with guidelines and policies for computer enhanced instruction.
- Collecting and securing all student contracts.
- The system operators at all schools enter grades and comments into Power School following the PowerSchool procedures identified by district policy.
- Verifying that final grades are recorded on student transcripts.
- Staffing the online learning lab.

School Counselors

School Counselors are responsible for recommending students for courses based on their individual graduation plan.

Specific duties include:

- Conferencing with students to determine the best plan of action for participation in online courses.
- Communicating with site coordinator and credit recovery lab instructor to ensure proper student course placement in day and evening programs.
- Ensuring proper student placement and accurate recording of final grades in PowerSchool.

District Professional Development Coach (PDC)

The district based PDC will fill the role as Site Coordinator in the Apex/Edmentum Learning Management System.

Technical duties include:

- Managing all user accounts, enrollments, and classrooms in day and evening programs.
- Serving as the school level expert and trainer in using Apex/Edmentum Learning.
- Serving as the liaison between the lab facilitator and teachers of record as needed.
- Providing teacher training and support for content recovery, whole group instruction, and differentiated instruction.
- Maintaining a clean and accurate records database by working with the lab facilitator in monitoring reports.
- Generating student progress reports for day and evening school programs as directed by the school administration.
- Collaborating with school administration to implement extended year and make up time.

Content duties include:

- Reviewing the digital curriculum course offerings, pathways and activity types.
- Aligning the digital curriculum courses with district course pacing.
- Determining the activities to include for Initial Credit and Credit Recovery programs.
- Designing assessments for online learners.
- Assisting teachers with quarter recovery content decisions as they relate to digital curriculum.

School Test Coordinator (STC)

Specific duties include:

- Verifying that all students enrolled in gateway courses participate in the EOCEP.
- Notifying the District Testing Coordinator when a student requires an EOC to be administered outside the normal testing window.

District Test Coordinator (DTC)

Specific duties include:

Requesting permission to offer an EOC test outside the regular test window.

Credit Recovery/Evening School Instructor

Specific duties include:

- Providing a student-centered learning experience to participants in the Apex/Edmentum Learning program.
- Maintaining Apex/Edmentum Learning Gradebooks.
- Communicating with parents, school counselors, and school administrators regarding student progress.
- Generating student progress reports as directed by the school administration.
- Preparing substitute plans in case of illness, power outage or network outage.
- Communicating with STC regarding student completion of EOC courses.
- Grading teacher-scored activities within 48 hours of completion and ensuring that grades are entered in the Apex/Edmentum Learning Gradebook.

Evening School Administrator

The Evening school administrator is responsible for the implementation of the Apex/Edmentum learning program at their school site.

Specific duties include:

- Collaborating with the day school administrative team and school counselors regarding student attendance.
- Ensuring compliance with guidelines and policies for computer enhanced instruction.
- Collecting and securing all student contracts.
- Communicating with guidance director regarding student individual graduation plans and course placement.

Forms and Contracts

Student Success Agreement Student (Print):_____ Teacher/Mentor: Read each statement and sign as acknowledgement of your responsibilities. I agree to the following: □ I will attend the student orientation on (date). I will abide by the student code of conduct, acceptable use policy and academic honesty policy. If I fail to abide by the school and district policies, I may be removed from the course with penalties. I will log in and complete work for 5-8 hours/week for each course in which I am enrolled. I will complete all assignments in accordance with the scheduled due dates. I understand that the course must be completed no later than (date). I will need to come in about once a week for test proctoring, tutoring, or a science lab. All assessments (unit tests and exams) must be taken in a proctored setting by a designated staffmember. The lab is open for proctored assessments every Tuesday 4:15pm -7:15 pm, Wednesday 4:15 pm -:15 pm during Evening School. When I get stuck on a topic, I will come to the school to get help. If I am enrolled in a science course, I may need to come to school to complete hands-on laboratory activities according to a designated lab schedule. Labs are supervised. I agree to meet each week with each of my teachers either in person, phone or via webinar. If I am not able to keep to my school schedule for more than three days, I will talk to my counselor or come to school and discuss the situation in person so that it can be resolved. I can access my grades in each course daily by using the Student Progress Report. I agree to attend student-teacher conferences to address issues such as overdue assignments, low test scores, or similar academic concerns. In order to earn credit for the course, I must complete all assignments and demonstrate at least 60% proficiency by the course end date. I agree to attend school to take any district and/or state mandated assessments. I understand that if I fail to attain minimum academic standards I will not be eligible to participate in courses in the future. I will return all materials and equipment that belong to the school when my course is complete. П I understand that to withdraw from Initial Credit courses without penalty, I must withdraw by the 5th day of class for one semester courses. Failure to withdraw by the 5th day will result in a WF=51, and this grade will be posted on my transcript. I understand that technology hardware, software, and Internet access are my responsibility. Dorchester School District Two assumes no responsibility for technical support nor will the district be obligated to provide hardware or software to facilitate access to courses off-campus. Student Signature Date Parent Signature Date

Advisement for Student Athletes

The National Collegiate Athletic Association (NCAA) has very strict guidelines regarding credit for courses taken online, such as courses offered by Dorchester School District Two. Many online courses ARE NOT APPROVED by the NCAA. Before enrolling in any online course, be sure to consult with your high school's athletic director and your school counselor to determine if the online course that you are considering is approved for credit by the NCAA.

| Type of Course (See Definitions Below): | | |
| Credit Recovery | | |
| Initial Credit | | |
| Credit recovery refers to a block of instruction that is less the targets specific components or a subset of the standards to admension on the standards to admension on the standards to the sta | ldress deficiencies | necessary for student |

Credit recovery refers to a block of instruction that is less than the entirety of the course. Credit Recovery targets specific components or a subset of the standards to address deficiencies necessary for student proficiency in the overall course. Credit Recovery helps to remediate students who fail a course in the current or previous year with a final grade of 50-59 and ret urn them to a normal four-year graduation path. Students with a course failure will access self-paced study options and complete assignments from school, home, residential treatment centers, or anywhere there is Internet access. Students MUST be scheduled with a certified teacher in the subject area in which they are recovering. The Credit Recovery option is available through Day School, Evening School Program, and Summer School.

For transcribing the final grade in a credit recovery course, the following procedures shall be followed.

- 1. The original failing grade will remain on the transcript as is.
- 2. A new course starting with the appropriate activity code, grades scale designation, and unit marker will be entered on the student record (i.e., 3024CRCW English 1-CR.) The new credit recovery course will be marked "CR" at the end of the course title in the student information system.
- 3. If a student passes the credit recovery course with a 60 or higher, the passing grade is entered as a "P" as the final grade and transcribed to the numerical grade value of "0" as indicated by the addition of the "P" to the grade scale chart. If a student fails the credit recovery course with a grade below a 60, the grade is entered as an "NP" and transcribed to the numerical grade value of "0" as indicated by the addition of "NP" to the grade scale chart. Thus, the credit recovery course does not impact the student's GPA.
- 4. A student wishing to modify his or her GPA shall repeat the full course for credit and not seek a credit recovery solution.

Initial Credit provides a framework for return to a normal four-year graduation path by remediating students failing more than one course in the past year. Students who fail more than one class, those who traditionally fail to matriculate in 9th, 10th, and 11th grade, are targeted for intervention with this program. Participants may be scheduled for one or two periods of credit recovery during the school day or scheduled in Evening School labs with a highly qualified teacher. The Initial Credit option is available through Day School, Evening School and Summer School. All students enrolled in an End-of-Course test subject **MUST** take the South Carolina EOC Exam. These courses include: English 2, Algebra 1, Biology, and US History. Students may also seek Initial Credit through VirtualSC per the state's program. School counselors are available to help with VirtualSC enrollment.
