

Background

Instructional Materials are all materials designed for use by students and teachers as learning resources to help students acquire knowledge, skills, and/or to develop cognitive processes. These materials, used to help students meet state and local learning standards, may be printed or digital, and may include textbooks, technology-based materials, other educational media, and assessments. They may carry different licensing types from open to all rights reserved. Types of instructional materials are defined in [FPS Policy 2020 Course Design, Selection, and Adoption of Instructional Materials](#).

- **Core Instructional Materials** are the primary instructional resource for a given course or content area. (Formal adoption process with Board approval)
- **Supplemental Materials** are used in conjunction with the core instructional materials to extend and support core instruction. (Structured district-level review and approval process)
- **Intervention Materials** support strategic or intensive intervention for students who are at risk of not meeting learning standards. (Structured district-level review and approval process)
- **Temporary Supplemental Materials** are those items used in conjunction with the core instructional materials that are of interest or value for a short period of time and are chosen within district guidelines. (Selected by teaching staff with principal approval)

Procedures for the review, approval, and adoption of instructional materials are outlined in FPS [Procedure 2020P: Course Design, Selection, and Adoption of Instructional Materials](#).

All **technology**, including software, hardware, and online programs/resources, must go through the district technology approval process and be approved prior to use. View the [Technology Approval](#) list online.

Adopted Materials: High School

At the high school level, instructional materials are typically adopted by course. See adopted materials for general education by course below.

Additional Career & Technical Education course materials may be obtained from the CTE Director.

Approved novels/reading list may be obtained from the ELA Program Specialist. (link coming soon)

Core Course Materials				
Content Area	Grade(s)	Course	Adopted Curriculum	Year Adopted
Arts	9-12	History of Classical Music	Understanding Music Past and Present (Clark, Heflin, Kuball and Kramer, Univ of No. GA Press, 2015))	2022
ELA	9-12	Freshman, Sophomore, Junior and Senior English Courses	CommonLit360 (CommonLit)	2024
