To: Citizens of Quitman County

From: Quitman County School Board of Education

Date: October 29, 2024

We, the members of the Quitman County School Board of Education, wish to address recent rumors regarding a potential bond issue for the construction of a new school. We want to assure our community that at no point have we discussed or planned to propose a bond issue. As taxpayers ourselves, we understand the financial strain that would place on the citizens of Quitman County.

We understand the importance of keeping our community informed, especially on matters that affect our schools and children. These rumors have created unnecessary concern, meant to create division, and we want to clarify that our focus remains on current educational needs and initiatives. Our commitment is to be transparent and to keep our community informed about any of our decisions and their implications.

We understand that speculations can arise in any community, especially regarding important issues like education and infrastructure. We value the input and concerns of our community members and will always prioritize open dialogue.

We remain dedicated to enhancing the quality of education in Quitman County and appreciate the support of our residents as we navigate the needs of our schools.

Thank you for your attention to this matter.

Sincerely,

  
Lorenzo Windless, Chairman – District I

Cassandra Autman, Secretary – District II

  
Sandra Jamison, District III

Loria Barfield, District IV

  
Leroy Matthews, District V
