

From: Deputy Superintendent, Operations

Topic: Impact of School Board approved 2023-2024 Marjory Stoneman Douglas High School boundary change on students attending Coral Glades High School on reassignment from J. P. Taravella High School.

Staff Follow-up: Will the boundary for J. P. Taravella High School change when the kids get put back into their home school? I'm aware it has always included Tamarac, but from what I remember when I looked previously, it was changed way very deep into an area it's never been to before. **TN 23-119 (L. Alhadeff)**

Response: If the School Board adopts the boundary change from Marjory Stoneman Douglas High School to Coral Glades High School, none of the students currently reassigned at Coral Glades High School would be sent back to their home schools. School Board Policy 5004.1 allows students on district-awarded reassignments to remain at their reassigned school through the highest grade served at that school. This includes the 274 students attending Coral Glades High School in the 2022/23 school year whose home boundary school is J. P. Taravella High School.

In the 2013/14 school year, the School Board adopted a boundary change from Piper High School to J. P. Taravella High School, encompassing the area between West McNab Road and West Commercial Boulevard, and west of University Drive, that shifted approximately 150 students over a four-year phase-in. There currently is no plan to move any area out of the J. P. Taravella High School boundary as this school is under-enrolled by 772 students as of the 2022/23 school year.
