Important Phone Numbers

Adult, Vocational and Technical Education	760-7400
Area Superintendents*	
-North Area	786-7850
-Central Area	497-1835
-South Area	797-4700
Early Childhood	768-8942
Exceptional Student Education	767-8544
Multi-Cultural Education	765-6901
Pupil Placement	765-6285
Safety Department	765-6300
School Curriculum	765-6366
Student Transportation*	
-North Area	960-2700
-Central Area	928-0267
-South Area	985-5290

*The administrative areas for the schools are shown on the index pages at the beginning of the sections for elementary, middle and high schools. For other phone numbers, consult the white pages of the phone book under "Schools-Public" or call 765-6000.

ITEMS NEEDED FOR REGISTRATION

1) Your child's birth certificate

2) Proof of your home address (rent lease or mortgage deed and a utility bill)

3) New residents to the State of Florida will be required to show proof of a physical exam which has been performed in the past twelve months.

4) A Florida Immunization Shot Form - Students from out of State must bring their immunization record to a county health department or a local doctor and have the information transferred on a Florida form.

5) A last report card and/or any test scores would be helpful.

ABOUT BROWARD COUNTY PUBLIC SCHOOLS:

The goal of the Broward County Public Schools is to provide the best in educational opportunities. Broward County Public Schools is the eighth largest school district in the nation, and the second largest in Florida. The Southern Association of Colleges and Schools (SACS) has accredited every school and every center in the school district - making Broward's public schools the largest fully accredited school district in the United States. Each school or center meets more than 70 rigorous standards set by SACS.

In 1991, over 169,000 students (K-12) and more than 330,000 adults were offered educational programs at 109 elementary schools, 30 middle schools, 22 high schools, 3 area vocational centers, 4 adult centers, 8 exceptional student centers, 3 alternative centers and over 20 community schools. Over 19,000 part time and permanent employees work to make the day-to-day operation of the school district a continued success. The school district is the largest employer in Broward County.

The school district is a county-wide system. Administratively, the system is divided into three areas - north, central and south. An area superintendent is responsible for each area. It is the responsibility of the area superintendents to provide principals, teachers, and students in their area with the necessary leadership to support school based programs which carry out the policies of the School Board. All area superintendents report to the Deputy Superintendent. This structure allows the school district to be more responsive to local community needs.

On the county level, the administrative functions are divided into five divisions: Instruction/Program Services; Personnel, Policies, Government and Community Relations; Training and Development; Business/Support Services; and Facilities, Property Management and Maintenance.

The School Board of Broward County, Florida, is a seven member board with each member serving a four year term. The Superintendent of Schools is appointed by the School Board. The Board meets regularly on the first and third Tuesday of each month at 10:00 am in the Board Room of the Administration Building, 600 Southeast Third Avenue, Fort Lauderdale, Florida. Conference sessions are held on alternate Tuesdays.

Public School Enrollment

Table 1 lists Broward County total public school enrollment from the 1985/85 school year through the 1991/92 school year. Over this period, total enrollment increased by 41,588 students. Most of the increase has resulted from growth in the elementary grades - Kindergarten through 5th grade.

Table 1

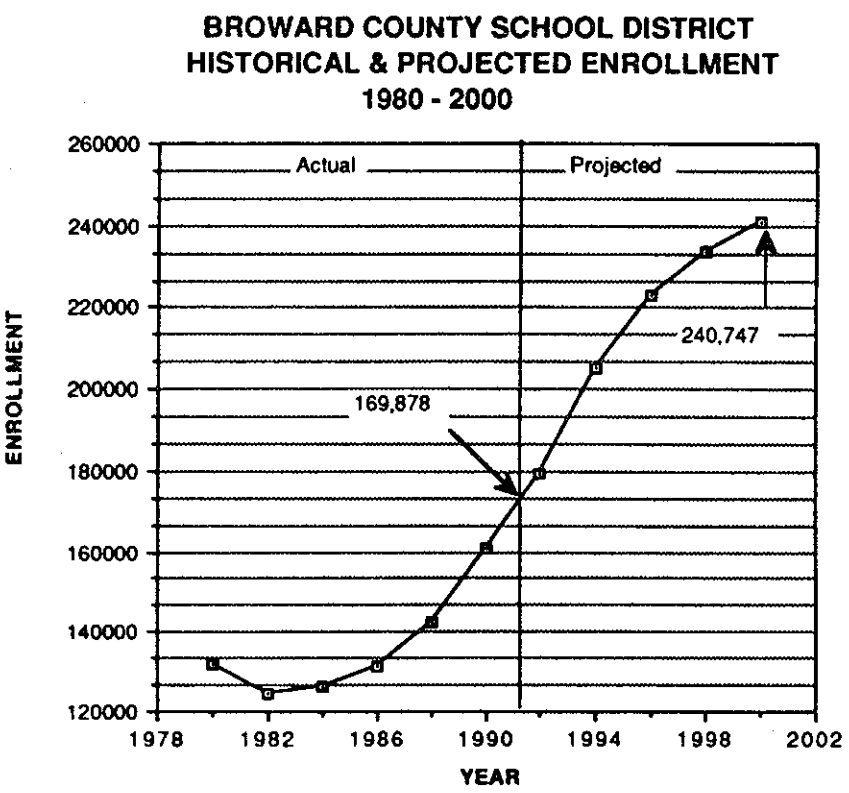

Broward County Public School Enrollment
1985/86 to 1991/92

SCHOOL YEAR	ELEM.	MIDDLE	HIGH	SPECIAL CENTERS	TOTAL
1985/86	56,429	29,857	40,639	1365	128,290
1986/87	60,272	29,177	40,528	1396	131,373
1987/88	65,553	29,403	40,149	1545	136,650
1988/89	70,601	30,134	39,860	1823	142,418
1989/90	76,159	31,577	39,342	2018	149,096
1990/91	84,123	34,524	39,978	2132	160,757
1991/92	89,633	36,135	41,742	2368	169,878

Source: Brow. Co. School Board, Property Mgmt. Dept.

Figure 1 illustrates the historical growth in total public school membership, 1980 - 1990 and projected membership through the year 2000. The estimated total membership in the 1995/96 school year may exceed 215,000 students. Significant growth will continue in the elementary grades over the next five years. Middle and High school growth is projected to increase as the baby boomlet ages.

Figure 1

School Facilities

The Broward County School District is completing a $825 million dollar, five year, capital improvement plan. Under this program, twenty-two new facilities have been constructed and five (5) new facilities are under construction. Moreover, existing educational facilities have been remodeled and renovated, and other facilities are under renovation or are in the design phases. Existing schools have been replaced with new facilities. The capital improvement plan was funded, in part, from a $317 million dollar bond issue passed by voters in June 1987.

Under the program to date, sixteen (16) new elementary schools have been constructed and three (3) additional new elementary schools are scheduled to open in the fall of 1992. Three new middle schools have been opened and a fourth will open in September. In 1990, the County's twenty-second high school opened, Majorie Stoneman Douglas High School. Last spring, the district conducted an Educational Plant Survey, in conjunction with the State Department of Education. This Survey identifies the facility needs through the 1996/97 school year.

Exceptional Student Education

The Exceptional Student Education program provides comprehensive educational programs for all handicapped and gifted students. Exceptional Student programs include services to students certified as Educable Mentally Handicapped, Trainable Mentally Handicapped, Profoundly Mentally Handicapped, Specific Learning Disabled, Emotionally Handicapped, Speech and Language Impaired, Autistic, Deaf, Hard of Hearing, Partially Sighted, Blind, Physically Handicapped, Hospital, Homebound and Gifted. Ranked among the most comprehensive and progressive in the United States, approximately 24,000 students benefit from these programs.

The following recent changes have been implemented in Exceptional Education:

- The Parent Education Network has been training parents of exceptional students.
- Exceptional Student Education staff and parents have jointly developed a Parent Primer which tells parents of exceptional students about their rights and responsibilities.
- Special Education is now provided to all handicapped three and four year old children.
- Family counselors provide services to elementary and middle school emotionally handicapped children and their families.
- A program for underachieving gifted students is being piloted.
- A new center for severely emotionally disturbed children has been built. The program integrates mental health services with education.

Vocational and Technical Education (VTE)
Vocational and Technology Education (VTE) programs cover virtually every career field and include Agribusiness and Natural Resources Education, Business Education, Health Occupations Education, Home Economics Education, Industrial Education, Technology Education, Public Service Education, Marketing and Diversified Education. Over 60 different occupational programs are taught providing training for careers that include nursery worker, bookkeeper, nursing assistant, child care aide, bank teller, travel agent, engineer, auto body technician and corrections officer.

VTE's quality programs are taught by highly trained professionals utilizing state-of-the-art equipment. In addition, more than 67 advisory committees comprised of industry professionals make invaluable curriculum recommendations.

The three full-time centers, Sheridan Vocational Center, Atlantic Vocational Technical Center and McFatter Vocational Technical Center, boast some of the finest training facilities in the state. Vocational programs are also offered in all 22 high schools, 30 middle schools, 25 community schools and off campus sites throughout the county.

Industry Services Training is a specialized VTE program designed to serve local business, industry and government by providing a cost effective means to train employees to meet current and future labor needs.

Adult and Community Education
Adult and Community Education is the largest instructional area of The School Board. Instruction is provided to over 337,388 residents of Broward County, Florida. *Adult Education* covers instruction in basic skills (literacy) English as a second language, high school completion and GED. *Community Education* provides instruction and services which address unique community needs in the areas of crime, growth, youth-at-risk, health, "graying of Florida", and education.

Broward Public Schools offer approximately 939 general adult education classes at its community schools and adult centers. Classes are given free of charge at the community school, 25 adult centers, as well as the 100 off-campus locations. Flexible scheduling provides for day and evening classes at non-traditional settings.

The age range of participants is birth through nineties. Broward County utilizes 21 schools as Community Schools. Thus, enabling maximum utilization of facilities between the hours of 7:00 a.m. and 11:00 p.m. Adult General Education instruction is also available through six (6) comprehensive centers for adults (including three (3) vocational centers). Instruction is also available for adults at off-campus locations throughout Broward County. These sites include malls, shopping centers, housing complexes, congregate living facilities, churches, libraries and community centers. Site selection is based upon the need(s) of the citizens of the community. Instruction for personal improvement and lifelong learning is provided for approximately 250,000 individuals.

Special programs and services are designed to address the unique needs of handicapped adults, minorities, the homeless, Project Independence clients, Eligible Legalized Aliens, parents of adjudicated youth, inmates in correctional facilities, the elderly and senior learners. Extensive cooperative agreements and partnerships with community based organizations/business, industry/churches and governmental agencies exist to insure educational and support services.

Broward County public schools served 68,475 adults in its adult general education program in 1990/91. Of these, 34,657 are functioning at or below the eighth grade level; 2,433 are handicapped; 26,828 have limited proficiency in English, and 33,179 are working toward high school diplomas. Many of the adult basic education classes enjoy the benefits of computer assisted instruction, trained volunteers to provide one-to-one tutoring and innovative programs such as Family Literacy and Workforce Education. Four Thousand Seven Hundred and Eighty-Nine high school students were concurrently enrolled to make up credits for graduation.

Several unique programs in *Adult Education* are:

Workforce Education programs provide general education or English as a second language instruction at an average of 28 worksites per year, serving approximately 500 participants. Worksites include departments of County Government, tourism, industry, North Broward Hospital District, small industries, Department of Transportation and Non-Instructional School Board Employees.

Broward Backpack is Adult Education's approach to serve Broward homeless individuals, families and runaway youth through survival and literacy.

Family Literacy instruction is Adult Education's approach to ensure a better educated family through parenting skill development, parent/child nurturing instruction and adult general education.

Community Education provides:

Comprehensive program offerings at Community Schools promote community, family and parent involvement.

Community Education programs provide special services at Community Schools and satellite locations for 47,000 Pre-K through 12th grade students through after-school supervised care, homework assistance programs and evening enrichment classes.

Several full-service schools models operate through Broward Community Schools, providing a wide range of services with interagency cooperations and shared use of facilities.

Student Services

To meet the challenge of educating students in a modern day, urban society, Broward has developed a comprehensive program of student services. The program includes Broward Advisors for Continuing Education, Career Education, Evaluation and Testing, Family Counseling, Guidance and Counseling, Health Education Services, Jobs Network, Prevention Programs, Psychological Services, School Social Work and Attendance, and Volunteer Services. The departments provide coordination of curriculum and support services to schools so that they may implement programs which assist students, school staff and families of the students.

Student Services plays an integral part in assessing student academic, psychological and social strengths and weaknesses, communication and learning skills, aptitudes and interests. A comprehensive guidance curriculum helps students with career and post-secondary educational planning, with social and personal development and building self-esteem. The health curriculum addresses HIV/AIDS education, nutrition, human sexuality, drug education, gun safety and other aspects of healthy development. Peer counseling and other prevention programs further assist students in achieving their goals. Through joint funding by the Broward County Commission, Student Services provides family counseling at no cost to families in various school sites throughout the district. School volunteers provide additional assistance to teachers and students in all schools.

Student Assistance and Supplemental Programs
The Student Assistance and Supplemental Programs Department provides educational support programs for more than sixty thousand (60,000) educationally and economically disadvantaged children in the Broward County School District. These programs include dropout Prevention, Chapter 1 Basic/Migrant, Performance Improvement Program (PIP), Home Instruction Program for Preschool Youngsters (HIPPY) and Indian Education.

Dropout Prevention

The Dropout Prevention Program is an organized system of instruction and services designed to address the educational and personal needs of identified students whose school success requires specific support and services. Structured support and services are provided to students in the traditional school setting, in alternative schools/centers and in specified HRS facilities. These programs include students who are unmotivated or disinterested, teen parents, disruptive or delinquent students and others who need programs that address substance issues.

Chapter I Basic

Chapter I Basic provides financial assistance through state educational agencies to local educational agencies to meet the special needs of educationally deprived children in school attendance areas with concentrations of children from low income families, as well as children in location institutions for the neglected or delinquent.

Chapter 1 Migrant

The Migrant Education Program is a federally funded compensatory program designed to provide for the unmet needs of the children of migratory workers and fishermen who are enrolled in the public schools within this district.

Performance Improvement Program (PIP)

The Performance Improvement Program is designed to improve achievement and to help students enhance their self-concepts, improve behavior and have a positive attitude toward school.

Home Instruction Program for Preschool Youngsters (HIPPY)

HIPPY is an instructional program for disadvantaged children and their parents. Through weekly contact with a home visitor, parents are provided skills needed to teach their children at home, using structured educational materials.

Indian Education

The Indian Education Program helps low-achieving Indian students overcome academic skills deficiencies.

Magnet and Open Boundary Schools
Magnet schools are centered around a specialized curriculum such as music, science, pre-engineering, performing arts, foreign language or computer/high technology. These schools are designed to attract and motivate students as they encourage voluntary desegregation.

Magnet programs are programs which have a unique course of study and open or extended boundaries. They may be open to students only in a particular area or open to all students in the County. Transportation is provided for students residing more then two miles from the school. The current magnet schools are:

HIGH SCHOOLS

Science/Pre-Engineering Program: Ely High School
This program is a rigorous four year course of study for students who plan to continue their education in the fields of Engineering, Science and Technology. Students participate in state, national and international competitions.

International Studies: Hallandale High School
The four year International Studies program focuses on a study of cultures through language, art, music, economics and political science. Working in cooperation with Florida International University, students attend speakers' series and cultural events and interact with University faculty and students.

Performing Arts: Dillard High School
The Performing Arts Program offers training in dance, voice, instrumental and electronic music and other performing art areas. Students also take coursework in stagecraft and costume design. Performances in the community complement the students' regular performing schedule.

Computer/High Technology: Dillard High School
This program integrates curriculum and technology. Students will explore technological uses of equipment in basic curriculum and in business, drafting, performing arts and other specialized areas.

International Baccalaureate-Boyd Anderson High School
This is a two year course of study leading to examinations for the Baccalaureate diploma. This program is designed to educate the whole person through a rigorous liberal arts curriculum which includes a community service requirement. The pre-International Baccalaureate program offered in grades 9 and 10 will prepare students for the requirements of the International Baccalaureate program.

Medical Science Program: Ely High School
Ely High School's Medical Sciences Program combines exemplary academic preparation with clinical research experiences. The exploration of health careers and issues, in-depth study of a variety of medical science fields, basic student research and student internships are just a few of the features that set this program apart.

MIDDLE SCHOOLS

Performing Arts: Parkway Middle School
The Parkway Performing Arts Program parallels the Dillard Program. The program encompasses a wide variety of music, art, dance and drama offerings. Highly interested and motivated sixth to eighth grade students are invited to interview for the program.

Computer/High Technology: Parkway Middle School
The use of computers and technologically advanced equipment to aid the learner in the educational process is the focus of this program. Allowing students to progress at their own rate and monitor their progress will attract students with diverse educational needs. The role of the teacher as imparter of knowledge will change to that of coach and facilitator.

Both Science/Pre-Engineering and International Studies will be offered in each geographic area: McNicol Middle (south area); Everglades Middle (central area); and Crystal Lake Middle (north area).

Science/Pre-Engineering
The curriculum focuses on a study of the South Florida environment through extensive field and laboratory experience. Guest speakers, high tech equipment and a specialized curriculum are offered.

International Studies
This program develops an understanding of the world through language, art, music, and cultural studies. Spanish and French, as well as Foreign Language Humanities are offered.

ELEMENTARY SCHOOLS

Performing Arts: Walker Elementary, Bethune Elementary , Deerfield Park Elementary, and North Andrews Gardens Elementary
In addition to the students' basic academic education, training in art, music, drama and dance is offered. Kindergarten through fifth grade students are eligible for elementary performing arts programs.

The nationally recognized Nova schools offer varying programs. Students throughout the county may apply for admission.

Exemplary Programs

The district's strategic five-year plan, Focus: 2000, encompasses eight districtwide goals that have been designed to coincide with other state and national education initiatives. The district's goals for 1991-96 have been developed through a participatory process involving school, home and business. Each school and department has developed a one-year plan for addressing district goals. Work is underway to develop school improvement teams at each school that will help address and achieve these goals.

An adopt-a-school program called *Partners in Excellence* has matched 162 schools and 15 programs with 152 different businesses in the community. These partnerships facilitate the achievement of district and community goals.

Computers --Broward County's student to computer ratio ranks first among the 50 largest school districts in the nation with a student-computer ratio of 10:1. The Association of Educational Data Systems has named Broward as one of the top ten school district leaders in computer education in the nation.

Homework Hotline is the district's outreach, a homework assistance program which was established in 1984. More than 100,000 calls have been answered in every curriculum area. Each Wednesday, math related questions are answered on live television through the ITV Homework Hotline, a gameshow style assistance program. There are also 15 walk-in homework centers located throughout the county.

New teaching methods are used in district pilot programs. The Nova Elementary, Middle and High Schools are 4 of only 24 schools accepted into the Coalition of Essential Schools - a nationally recognized program developed by Dr. Theodore Sizer of Brown University. Coalition programs help students learn by strengthening critical thinking skills.

The *Saturday Screening Program* serves Kindergarten students entering public school for the first time. Health screening teams provide parents with diagnostic screen services for children in the area of health and education. Over 6,000 students attend the Saturday Screening Program each year.

A Drug/Alcohol Education and Prevention Program was recognized by the Governor's Commission on Substance Abuse as the most outstanding school based program in Florida. The program was also recognized by the U.S. Office of Education as a model prevention/early intervention program. Every student (K-12) in the school system is exposed to course material through a comprehensive, sequentially developed curriculum. Just Say No and Students Against Driving Drunk (SADD) clubs are established at almost every school. The district "Just Says No" countywide, with a Red Ribbon Week each October.

A *Peer Counseling Program* serves as a model for the U.S. Office of Education, and has been cited as "The Outstanding Preventive Program" by the National Schools Resource Network. This program, which teaches students how to help themselves by helping others, is the largest full-time program in the state and nation.

Innovative Curriculum, an inservice training seminar on a newly developed curriculum about the Holocaust was sponsored for secondary social studies teachers. The curriculum assists staff in teaching this significant part of history. This curriculum is the first of its kind in the nation. The middle school child receives even extra support. A teaming approach to instruction helps students continue to build self esteem while making a positive transition to a broader range of experiences.

Community Support

More than 16,000 parent and other adult volunteers work with students in the school. Every school and area, as well as the district itself, has an advisory council including parents, other citizens, teachers and students. The School Board has established a link with the County Association of High School Student Councils and consults regularly with student leaders.

Volunteers Assisting Students and Teachers (VAST)
Broward County's School Volunteer Program supports school-based volunteer programs in Broward schools. As such, VAST assumes the responsibility for recruiting volunteers from the community-at-large; training volunteers, teachers and school-based volunteers on the district level and providing the structure and materials needed for an organized program. In addition, VAST responds to special needs identified by the schools or district by finding the resources and/or developing specific programs to help meet those needs.

VAST volunteers assist in classrooms, clinics, media centers, school offices, and in physical education, music, art and exceptional education classes. They offer assistance by tutoring, helping with enrichment activities, performing clerical duties and assisting with special school-wide projects. In addition to these core volunteer activities, VAST coordinates and implements the following special school volunteer programs in the schools:

LISTEN TO CHILDREN - extends the effectiveness of the guidance counselor by providing trained volunteers to listen to children who are having interpersonal problems. Co-sponsored with the Mental Health Association, the Listener program focuses on grades 1-5.

MEET THE MASTERS - is an art appreciation program utilizing volunteer presenters. The trained volunteers present two related art prints every six weeks to K-5 classes. The volunteers highlight the artists' backgrounds and lead the students to discover the different styles, techniques and media used by the artists. Meet the Masters is currently being implemented in 30 elementary schools.

SENIOR MENTORS FOR CREATIVE STUDENTS - pairs creative and outstanding senior citizens with creative and talented students who have a similar interest. Mentors and students work together on special enrichment projects. Annually funded by a grant from Chevron USA and the Florida Department of Education, the Senior Mentor Program focuses on grades 2-11.

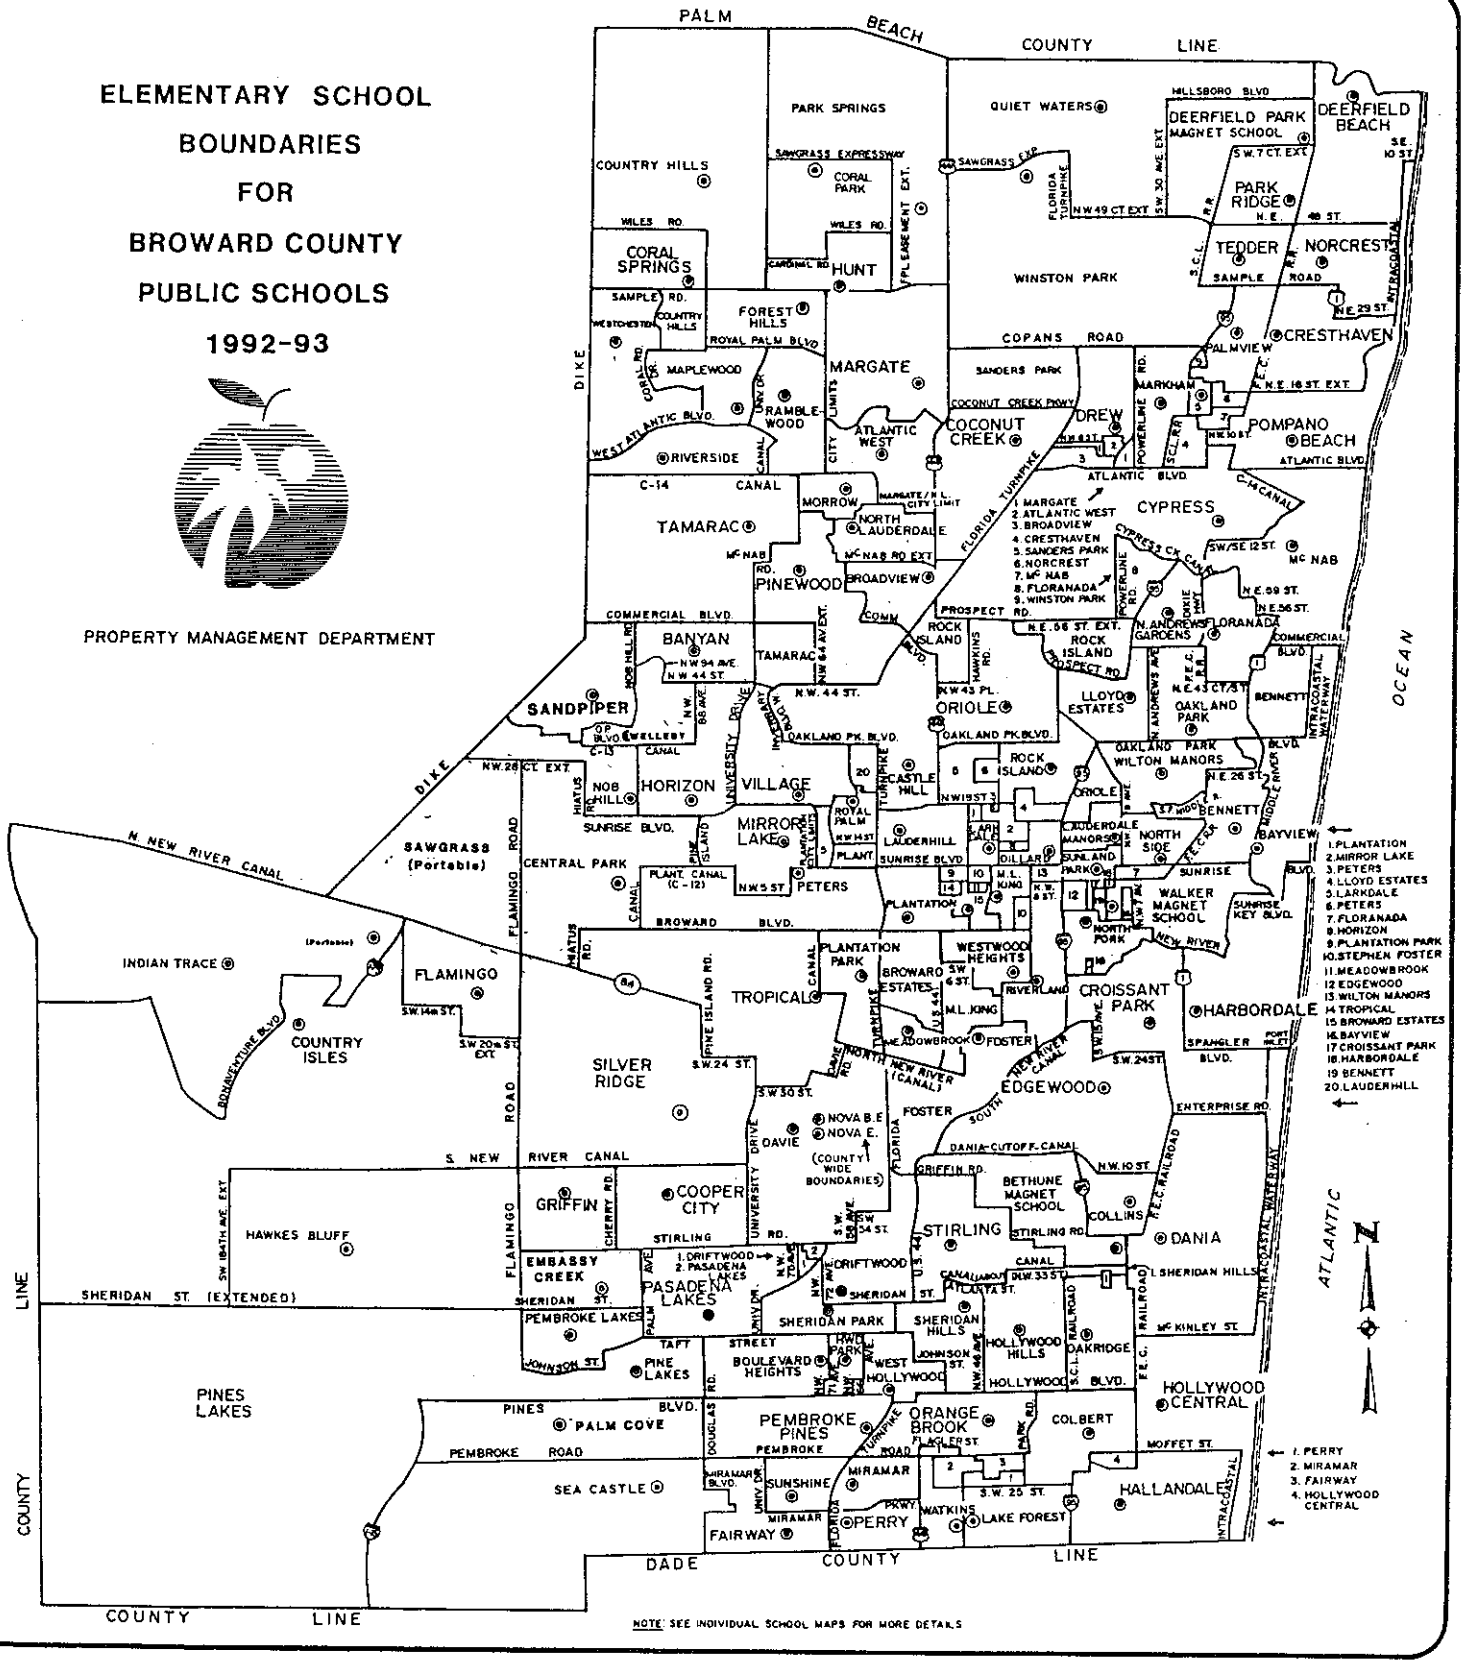

SUPERSTARS - designed for students who need challenge and motivation for solving work and logic problems. This enrichment program is designed to be managed by a school volunteer and supported by administrators and classroom teachers. Originated by the Florida Department of Education. SUPERSTARS focuses on grades 1-5.

CITIZEN INVOLVEMENT - Broward County encourages citizen involvement at the school, area and district level as well as to provide input to county staff and program coordinators in developing curriculum. PTA and PTO also assist at the school and throughout the district.
