March 7, 1991

BOARD AGENDA ITEMS

1. **Elementary Schools**
2. **Middle Schools**
3. **High Schools**

The School Board of Broward County, Florida, will vote on elementary school, middle school and high school boundaries as three separate agenda items. Each item represents a rule and each item has a tenative financial impact statement.

*On all pages where the phrase "tentative financial impact" appears, it shall be synonymous with the term "estimated economic impact".

TO: The School Board of Broward County, Florida

FROM: Virgil L. Morgan
Superintendent of Schools

SUBJECT: 1991/92 School Attendance Area Recommendations

This year, I am proposing eleven boundary recommendations which will require School Board action during the 1990/91 public hearing process. The boundary recommendations, with your approval, will become effective for the 1991/92 school year. The attendance areas for all other schools in the district will remain the same as last year, or will follow previously approved grade phase-in schedules. This memorandum provides a general description of the boundary proposals and the rationale for the recommended changes. The Supporting Documentation section of the boundary document provides detailed projections, maps and area descriptions.

The Boundary Committee reviewed, analyzed and discussed over seventy proposed changes and concerns submitted by advisory representatives, PTA representatives, principals, school staff, community groups, the south area task force, student councils, parents, citizens and elected officals. Written responses will be sent to the organizations and individuals who submitted proposals for review.

The boundary recommendations for the 1991/92 school year address the following objectives:

(1) Establishing the boundaries for a new elementary school;
(2) Reestablishing the boundary and reopening a middle school;
(3) Providing relief for existing and projected overcrowding at ten schools; and
(4) Continuing the district's ongoing commitment to enhance the unitary school system.

The boundary area for Elementary School "A' will be established and the boundary area for Rickards Middle School will be reestablished. Both schools are scheduled to open in August of 1991. These facilities will help relieve existing and potential overcrowding at Deerfield Park, Park Ridge and Winston Park elementary schools, and Lauderdale Lakes, Sunrise and Pompano Beach middle schools. I am also proposing changes which will help reduce the overenrollment in the following facilities: Crystal Lake, Perry and Forest Glen middle schools and Western High School .

The new boundary changes which are proposed, and the continuation of the previously approved changes, build on our recent efforts to promote desegregation in our schools and to adhere to the spirit of the 1987 Court Settlement. Next September, for example, the Science/Pre-Engineering and International Studies Magnet programs at Crystal Lake, Everglades, and McNicol middle schools will be expanded to include grades six through eight. The proposed boundary for Deerfield Park Elementary School will eliminate chronic overenrollment and reduce the projected enrollment at this school, creating space for new magnet students. Similarly, the changes proposed for Crystal Lake Middle School will reduce overcrowding, allowing for growth in the magnet programs.

Elementary Schools: Elementary "A"; Deerfield Park; Winston Park; and Park Ridge: Recommendations E-1 - E-3

Elementary "A" is under construction on west Hillsboro Blvd. between Powerline Rd. and the Florida Turnpike. The proposed attendance area for Elementary School "A" will provide relief for Deerfield Park and Winston Park elementary schools, and Park Ridge Elementary School to some extent. I anticipate that the new school will open as a integregated facility with a contiguous boundary area. I believe that the proposed boundary changes and the growing magnet program will continue to improve the minority percentage at Deerfield Park Elementary School.

The membership at Deerfield Park Elementary School has exceeded the F.I.S.H. capacity of the school for many years, requiring the use of over twenty portables to supplement the existing building. The smaller boundary area proposed for Deerfield Park Elementary School will reduce the membership allowing the portables to be removed. The school population will be better accommodated while major renovations are underway on the site. Most importantly, the reduced enrollment will allow for continued growth in the Performing Arts magnet program. After a slow start, this program has grown to include fifty out-of-boundary students.

The boundary area for Deerfield Park Elementary School would continue to include a contiguous, western, residential area located within three and one half (3.5) miles from the school. This area could potentially add to the number of white students who would attend Deerfield Park Elementary School in the future.

Elementary "A" will also relieve overcrowding at Winston Park Elementary School. Students living in the areas north of the Sawgrass Expressway, between the Florida Turnpike and U.S. 441, who currently attend Winston Park, are proposed for inclusion in the Elementary "A" boundary area.

Under the proposed recommendations, students living in the areas north of S.W. 10th St., between the F.E.C. Railroad and I-95, who currently attend Park Ridge Elementary School would be assigned to Deerfield Park Elementary School. Southwest 10th Street would become the northern boundary for Park Ridge. The current boundary line runs through the Tivioli Development in an arbitrary fashion and the proposed change would assign all of Tivioli to Deerfield Park Elementary. The proposed change would provide some relief to Park Ridge Elementary. Currently, about twenty-nine students, residing north of S.W. 10th St., attend Park Ridge.

Middle Schools: Forest Glen; Crystal Lake; and Deerfield Beach: Recommendations M-1 & M-2

I am proposing an adjustment to the boundary of Forest Glen Middle School which would assign students living east of U.S. 441, north of Hillsboro Blvd., and west of Lyons Rd. to Crystal Lake Middle School. This area of the county has potential for future residential development, and the proposed move will provide some relief to Forest Glen which is over F.I.S.H. capacity. The proposed boundary change for this area would provide a consistent feeder pattern for these students with the students from the surrounding areas to the east and south. The northern Coconut Creek area would attend Elementary "A", Crystal Lake Middle and Ely High.

Crystal Lake Middle is currently 300 students over its F.I.S.H. capacity and Deerfield Beach Middle is underenrolled. Therefore, I recommend that students living in the areas east of the Florida Turnpike and north of S.W. 15th St. extended, who currently attend Crystal Lake, be assigned to Deerfield Beach Middle.

This change will have a positive impact on both middle schools. The enrollment at Crystal Lake Middle will be reduced by approximately 170 students, allowing the school's membership to be consistent with the recommended F.I.S.H capacity and allowing for growth in the magnet programs. As a result of the proposed change, the enrollment at Deerfield Beach Middle School for next year would increase to almost 1000 students.

Middle Schools: **Pompano Beach; Lauderdale Lakes; and Sunrise: Recommendations M-3 - M-5**

Next year the boundary for Rickards Middle School will be reestablished and the school will be reopened in August of 1991. This facility was closed in 1985 due to declining enrollments as the "baby bust" generation moved through middle school. In subsequent years we have experienced a resurgence of growth in the elementary grades as the children of "baby boomers" (the baby boomlet) enter the school system.

The larger membership numbers in the elementary grades create a potential for a growth surge in the middle schools over the next three to five years. Moreover, the increase in our bilingual population has and will continue to impact our educational facilities as new immigrant families locate along the eastern portions of Broward County.

The decision was made to reopen Rickards Middle School in the 1991/92 school year, in anticipation of this growth push into middle school. By the 1993/94 school year the membership projections at Sunrise, Lauderdale Lakes and Pompano Beach middle schools combined will exceed their recommended F.I.S.H capacities by over 900 students. Pompano Beach and Sunrise middle schools are currently and will be undergoing renovations and new construction over the next two years.

Lowering the enrollments at these schools will reduce the need for temporary classroom space to house the students, while renovations and new construction are completed, as well as provide needed space in the future.

My recommendation is to reestablish the former boundary for Rickards Middle School. This boundary provided Rickards with an integrated population (25% black students) in the 1984/85 school year. Reestablishing this boundary will allow Rickards to reopen with an integregated membership in concert with the unitary school system. I am also recommending that the reestablished boundary for Rickards include the area south of Sunrise Blvd.and north of N.E/N.W. 8th St., between the F.E.C. Railroad and N.W. 10th Terrace. This area currently attends Floranada Elementary. Assigning these students to Rickards Middle School will allow them to attend middle school, with the remainder of their classmates. With the proposed boundary area, Rickards Middle School will reopen with a projected 35% minority population.

Middle Schools: Perry; and Pines: Recommendation M-6

In addition to the proposed changes for middle schools just described, I am recommending a change between Perry and Pines middle schools. I propose adjusting Perry's boundary to assign a portion of the students who live east of Douglas Rd. between Miramar Boulevard and Miramar Parkway to Pines Middle School. This area, the northwest part of the Knolls subdivision, was assigned to Sea Castle Elementary last year. The proposed change will reduce the enrollment at Perry Middle by approximately 62 students next year. The change will also allow a consistent feeder pattern for students residing in this area.

High Schools: Western; and Cooper City: Recommendation H-1

Continued residential growth in southwest Broward County will impact our schools in this area. Based upon continued growth in the developing communities, planned residential growth and the large numbers of elementary and middle school students in existing subdivisions such as Shennadoah and Ivanhoe, the potential for growth in the high school population is significant. The projected enrollment at Western High could exceed 2500 students by the 1993/94 school year. The recommended F.I.S.H. capacity for Western is 1764 students.

The State Educational Plant Survey for Broward County, to be conducted in May 1991, will determine the facility needs for the next five years for our district. I believe the survey will designate a new high school for the southwestern area of the county. However, a new high school facility could not realistically be constructed and opened until 1994 or 1995.

To help balance the enrollments at Western and Cooper City high schools, and to relieve the potential overcrowding at Western, I am recommending a boundary change. The area bounded by Griffin Rd. on the north, Hiatus Rd. on the east, Stirling Rd. on the south, and Flamingo Rd. on the west, would be assigned from Western High School to Cooper City High School, beginning with ninth grade and all new students in the 1991/92 school year. One additional grade would be phased-in each year, and all grades from this area would attend Cooper City High School by the 1994/95 school year.

Next year this adjustment would reassign 87 incoming 9th grade students from Western to Cooper City. After four years, Western's projected enrollment would be reduced by 367 students.

GENERAL RECOMMENDATIONS:

In addition to the school boundary changes, which I have proposed and described, I have three other items which address future school usage and related concerns. These are the closing of the Pine Ridge Center and its consolidation with Wingate Oaks, which was approved by the School Board in February 1990; the potential duplication of high school magnet programs in the future; and the formation of a committee to study alternatives for better utilization of some of our facilities.

On February 6, 1990, you approved the consolidation of Pine Ridge and Wingate Oaks in the Wingate Oaks facility for the 1992/93 school year. This recommendation is contingent upon the renovation of Wingate Oaks to accommodate students moving from Pine Ridge. The Pine Ridge Center will be closed. Through the current boundary process, I am notifying you and the public that this facility will be closed, effective in the 1992/93 school year.

Last year, I proposed the duplication of the magnet programs at Ely and Hallandale high schools. I feel that the addition of these programs has merit and could have positive impacts for our students. Therefore, I am proposing that we study the potential duplication of the Engineering, Science and Technical Magnet Program at Hallandale High and the duplication of the International Studies Magnet Program at Ely High for possible implementation in the 1992/93 school year. With your approval, I will instruct the Deputy Superintendent and staff to study this proposal and identify the potential positive and negative impacts. They will solicit input from parents, students, and community representatives. I will review the study results and, if appropriate, bring this to you next year as a recommendation for a boundary change.

Finally, I am recommending that a multidisciplinary committee be established to study and identify alternative strategies for the use of educational facilities which have been impacted by unique growth and development circumstances. An example is the airport expansion project and its impact on Rogers Middle School, Edgewood Elementary School and the Seagull School. The committee would prepare a report by October of 1991. This study would be an important first step in the development of positive and creative alternatives for school facilities utilization.

SUMMARY:

The recommendations, proposed and described for the 1991/92 school year, resulted from a careful, comprehensive study by my staff and the Boundary Committee, as well as consideration and review of input from schools, principals, advisory groups, student and community groups, parents, and elected officals.

The recommended boundary changes, if approved, will facilitate the opening of Elementary "A" as an integregated new school; will reestablish the boundaries for Rickards Middle School and allow this facility to reopen, in 1991/92, as an integregated school; and will relieve overcrowding at ten schools in the district.

The expansion of the magnet programs at Crystal Lake, Everglades and McNicol middle schools, to include the eighth grade, will provide increased opportunities for desegregation. Reduction in the number of existing and projected students at Deerfield Park Elementary School and Crystal Lake Middle School will allow for growth in these magnet programs.

VM/aw

I. SUPPORTING DOCUMENTATION

Recommendations
Area Descriptions
Statistics
Maps of Proposed Changes

The supporting documentation is presented as an explanation and graphic representation of the attendance area changes proposed for the 1991-92 school year. The School Board of Broward County, Florida, will be voting on the maps depicting and describing all schools' attendance areas as contained in Section II of this document, unless otherwise amended by the School Board during the Public Hearing process.

The School Board of Broward County, Florida, will vote on elementary school, middle school, and high school attendance areas as three separate agenda items. Each item has its own financial impact statement.

PROPOSED SCHOOL ATTENDANCE AREA CHANGES:

E-1 Deerfield Park Elementary to Elementary "A";
E-2 Winston Park Elementary to Elementary "A";
E-3 Park Ridge Elementary to Deerfield Park Elementary;

M-1 Forest Glen Middle to Crystal Lake Middle;
M-2 Crystal Lake Middle to Deerfield Beach Middle;
M-3 Pompano Beach Middle to Rickards Middle;
M-4 Lauderdale Lakes Middle to Rickards Middle;
M-5 (A) Sunrise Middle to Rickards Middle;
M-5 (B) Sunrise Middle to Rickards Middle;
M-6 Perry Middle to Pines Middle;

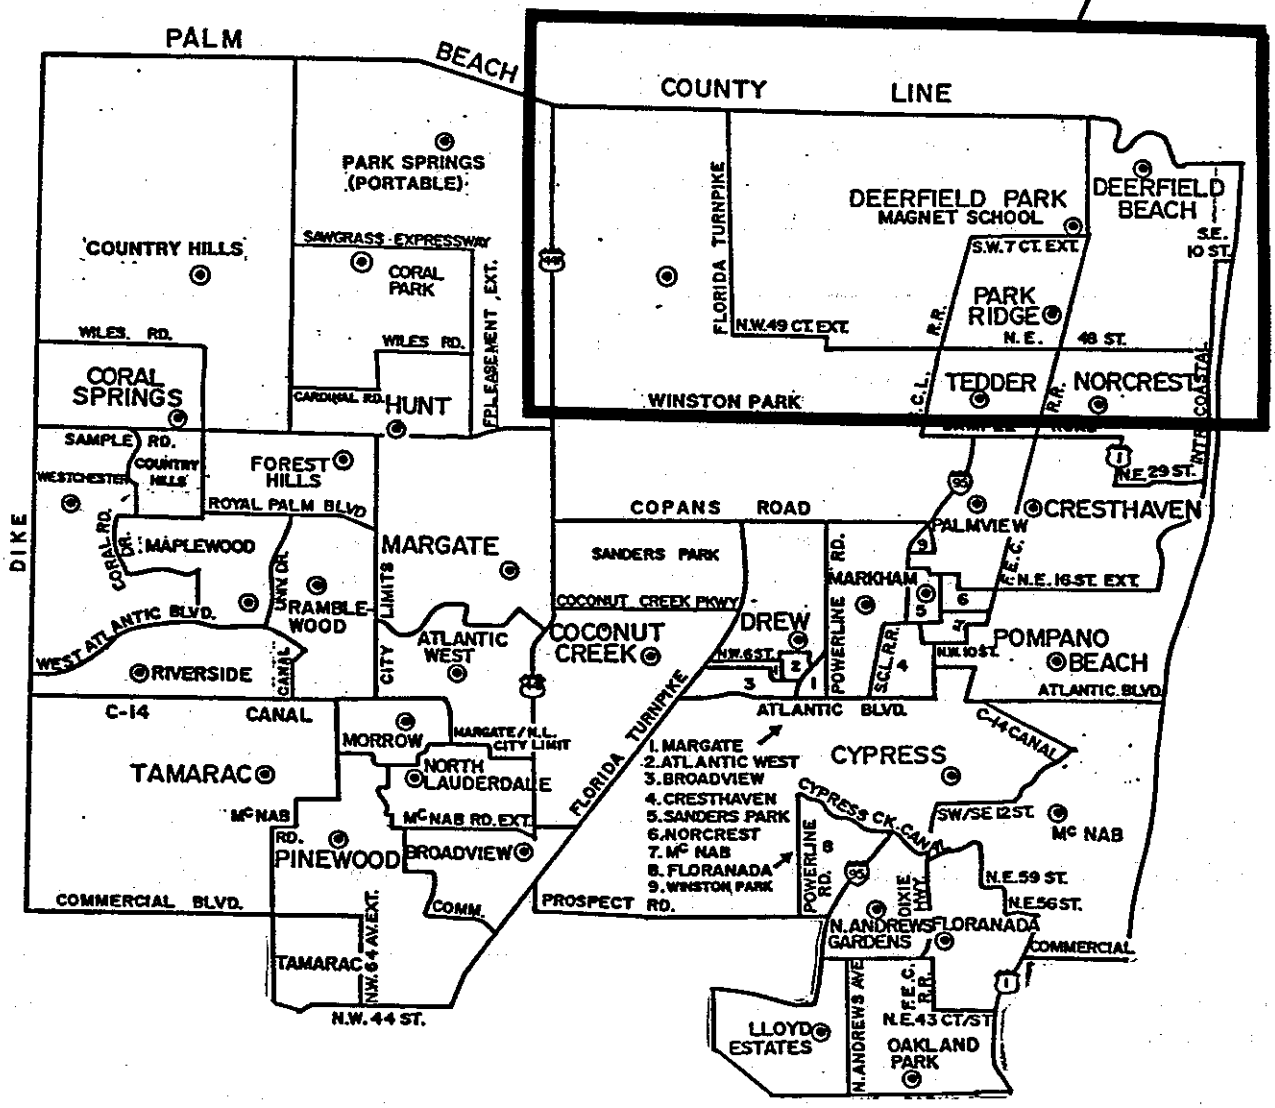

H-1 Western High to Cooper City High.

ELEMENTARY SCHOOLS

RECOMMENDATIONS E-1 THROUGH E-3

CURRENT ELEMENTARY SCHOOL BOUNDARIES

NORTHERN BROWARD

ELEMENTARY SCHOOLS - RECOMMENDATIONS E-1 THROUGH E-3:

RECOMMENDATION E-1:	**Establish the boundaries for Elementary "A', a new school located at 4150 W. Hillsboro Blvd., Deerfield Beach, to open in August 1991. Adjust the boundary of Deerfield Park Elementary to bring students to Elementary "A".**	
Deerfield Park to Elementary "A"	**Description of Area:** Commence at the intersection of the Palm Beach County Line and N.W.1st Terrace; south on N.W.1st Terrace to Hillsboro Blvd; west on Hillsboro Blvd. to S.W. 30th Ave. extended; south on S.W. 30th Ave. extended and S.W. 30th Ave. to N.W. 49th Ct.; west on N.W. 49th Ct. and N.W. 49th Ct. extended to the Florida Turnpike; north on the Florida Turnpike to the Palm Beach County Line; east on the Palm Beach County Line to N.W. 1st Terrace.	**Number of Students** 334

RECOMMENDATION E-2:	**Adjust the boundary of Winston Park Elementary to bring students to Elementary "A".**	
Winston Park to Elementary "A"	**Description of Area:** Commence at the intersection of the Palm Beach County Line and the Florida Turnpike; south on the Florida Turnpike to the Sawgrass Expressway; west on the Sawgrass Expressway to U.S. 441 (State Rd. 7); north on U.S. 441 to the Palm Beach County Line; east on the Palm Beach County Line to The Florida Turnpike.	**Number of Students** 150

RECOMMENDATION E-3:	**Adjust the boundary of Park Ridge Elementary to bring students to Deerfield Park Elementary.**	
Park Ridge to Deerfield Park	**Description of Area:** Commence at the intersection of S.W. 7th Ct. and the F.E.C. Railroad; south on the F.E.C. Railroad to S.W. 10th St.; west on S.W. 10th St. to the S.C.L. Railroad; north on the S.C.L. Railroad to S.W. 7th Ct. extended; east on S.W. 7th Ct. extended to the F.E.C. Railroad.	**Number of Students** 29

II. PROPOSED SCHOOL ATTENDANCE AREAS FOR 1991/92

BOARD AGENDA ITEM #1

Proposed Elementary School Attendance Areas, 1991/92

The School Board will vote on elementary school attendance areas for 1991/92 as a separate agenda item with its own tentative financial impact.

The School Board of Broward County, Florida

TENTATIVE FINANCIAL IMPACT STATEMENT for School Attendance Areas and Admission Policies for All Elementary Schools in the District 1991-92 School Year

SUMMARY OF INTENDED ACTION

It is proposed that:

a. Boundaries be changed to reduce current and projected overcrowding by creating one new elementary school. The following identifies the existing schools from which **some** students will be assigned to the new school boundary area.

1. Deerfield Park Elementary to Elementary "A"

2. Winston Park Elementary to Elementary "A"

b. Boundaries be changed between the following schools to establish NW 10 Street as the northern boundary of Park Ridge: Park Ridge Elementary and Deerfield Park Elementary.

c. Admission requirements for the magnet elementary school programs shall be in accordance with the provisions of School Board Policy 5004.

d. The boundaries and admission policies at all other elementary schools remain the same in 1991-92 as in 1990-91.

PURPOSE OF THE ACTION:

Overcrowding in the northeast section of the county coupled with projected increases at the elementary level will be addressed through the opening of new school "A", moving toward long term stabilization of the boundaries for this area.

The purposes of the proposed boundary recommendations include relieving current and projected overcrowding in identified areas, preparing for future growth, and providing continued quality programs. Other considerations include:

a. The unitary school system and desegregation settlement,
b. Improved utilization of present facilities,
c. Feeder patterns,
d. Safety of students,
e. Transportation, and
f. New construction (planned and recommended).

LEGAL AUTHORITY FOR TAKING ACTION:

The School Board is authorized to take such action under Florida Statutes Section 230.22 (1)(2) and Section 230.23, implementing Florida Statutes Section 230.232, Section 230.23(4)(a), and 230.33, as well as administrative Rule 6A1.43 of the Florida State Board of Education and in accordance with existing School Board Policy 5000. It should be noted that the adoption of a zoning plan is not considered a change in policy by the Board, but appears to fall under the Board definition of a rule in Section 120.52 (15), Florida Statutes.

PLANS FOR IMPLEMENTING THE ACTION:

Approved Board action regarding boundary changes and admission policies would become effective for the 1991-92 school year. Plans for the use of a new facility have been outlined and would be implemented following Board approval. Some personnel from existing schools may be reassigned to the new school. As per Board Policy, the Superintendent will designate a transition team to plan with parents, community, and staff as they move from their current schools to the new school, and from one existing elementary school to another. If for any reason the new school opening is delayed, the Area Superintendent and principals will provide temporary arrangements until students can be moved to the new school site. A planning principal for the new school will be assigned after the second public hearing.

ESTIMATED COST TO THE AGENCY OF THE PROPOSED ACTION INCLUDING ADMINISTRATIVE COSTS:

The costs associated with the establishment of attendance areas for all elementary schools in the District (based on 1990-91 fiscal year funding levels) are estimated at this date to be:

A. BOUNDARY CHANGES

Savings

Annual Operating Costs — None
Transportation Costs — None

Costs

Annual Operating Costs:

	New School "A"		Deerfield Park	Park Ridge	Winston Park
	1990-91 Fiscal Year	1991-92 Fiscal Year	1991-92 Fiscal Year	1991-92 Fiscal Year	1991-92 Fiscal Year
Categorical Funds Required for New Elementary School		$ 96,332			
Utilities		$ 139,354			
Fixed Cost Funding		$ 75,220	$ 19,769		
Purchased Services, Materials, Supplies, and Equipment	$ 20,440				
Extended Calendar (Principal, Office Manager, Bookkeeper, and Additional Staff Time)	$ 26,378	$ 53,982			
TOTALS	$ 46,818	$ 364,888	$ 19,769	-0-	-0-

Transportation (Elementary boundary changes) — None

B. ANNUAL DISTRICTWIDE COSTS FOR 1991-92:

Cost of Transportation Districtwide (1990-91 estimated costs $ 16,225,642; difference $ 4,034,984)	$ 20,260,626*
Cost of Moving/Hook up of Portables Districtwide (1990-91 estimated costs $ 4,000,000; difference $ 1,800,000)	$ 5,800,000**

C. COSTS TO OTHER AGENCIES - ADDITIONAL SAFETY FEATURES

Impact on the City of Deerfield Beach	$ 140,820
Impact on Broward County	$ 73,540
Impact on the State of Florida	$ 78,855

Copies of the proposed attendance areas, as well as the tentative financial impact summary, will be available for inspection on January 24, 1991, in the Office of the Superintendent, 1320 S. W. Fourth Street, Fort Lauderdale, Florida.

Any additional Administrative Costs associated with the preparation of this plan are included in the 1990-91 operating budget. (Printing, preparation of maps and documents.)

* Due to funding arrangements, record keeping procedures, and utilization of buses across school levels and programs, it is not possible to break out accurately specific transportation costs for elementary school students.

** Because specific portable classroom allocations have not been done at this time, it is not possible to accurately break out costs for elementary schools.

ESTIMATE OF THE COST OR THE ECONOMIC BENEFIT TO ALL PERSONS DIRECTLY AFFECTED BY THE PROPOSED ACTION:

The implementation of the proposed action represents no significant financial impact to persons directly affected.

ESTIMATE OF PROPOSED ACTION ON COMPETITION AND THE OPEN MARKET FOR EMPLOYMENT:

The number of instructional and instructional support positions created by the new school and portable school will not result in a significant financial impact because revenue generated by student enrollment (FTE) will follow students.

DATA METHODS USED IN MAKING COST ESTIMATES:

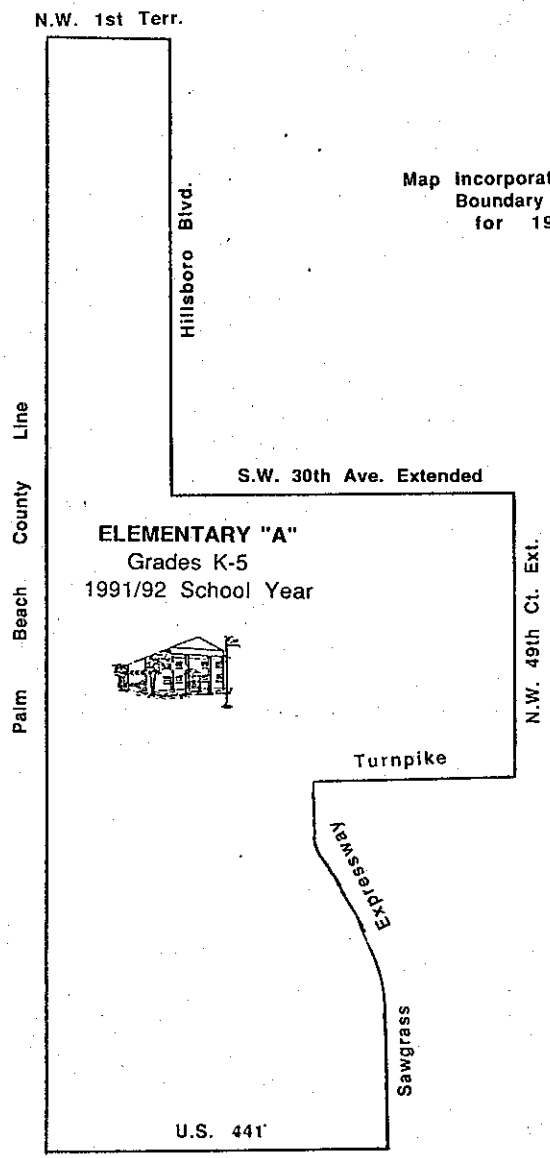

The Departments of Facilities, Property Management, Transportation, Risk Management, Budget, and the Superintendent's Planning Staff provided data necessary to estimate and compare costs, savings, and anticipated annual costs. See Section III of this document for information related to the above statement.

BOARD AGENDA ITEM #2

Proposed Middle School Attendance Areas, 1991/92

The School Board will vote on middle school attendance areas for 1991/92 as a separate agenda item with its own tentative financial impact.

The School Board of Broward County, Florida

TENTATIVE FINANCIAL IMPACT STATEMENT
for School Attendance Areas and Admission Policies for All Middle Schools in the District 1991-92 School Year

SUMMARY OF INTENDED ACTION

It is proposed that:

a. Boundaries be changed between the following middle schools to bring **some** students to Crystal Lake Middle: Forest Glen Middle and Crystal Lake Middle.

b. Boundaries be changed between the following middle schools to bring **some** students to Deerfield Beach Middle: Crystal Lake Middle and Deerfield Beach Middle.

c. Boundaries be changed to reduce current and projected overcrowding by reopening one middle school. The following identifies the existing schools from which **some** students will be assigned to the boundary area for Rickards Middle School.

1.	Pompano Beach Middle	to	Rickards Middle
2.	Lauderdale Lakes Middle	to	Rickards Middle
3.	Sunrise Middle	to	Rickards Middle

d. Boundaries be changed between the following middle schools to bring **some** students to Pines Middle: Perry Middle and Pines Middle.

e. Phase-in plans for magnet program students at Crystal Lake, Everglades, and McNicol be continued. Sixth through eighth grade students may apply for admission to the program in accordance with Policy 5004.

f. Phase-in plans for students at Pines and Pioneer middle schools and Walter C. Young Resource Center be continued.

g. Admission requirements for the magnet middle school programs shall be in accordance with the provisions of School Board Policy 5004.

h. The boundaries and admission policies at all other middle schools remain the same in 1991-92 as in 1990-91.

PURPOSE OF THE ACTION:

Problems of severe overcrowding in the northern and central sections of the county coupled with projected increases at the middle school level can be addressed by boundary adjustments and reopening Rickards Middle School, moving toward long term stabilization of the boundaries for these areas. Magnet programs assist in the voluntary desegregation process.

The purposes of the proposed boundary recommendations include relieving current and projected overcrowding in identified areas, preparing for future growth, and providing continued quality programs. Other considerations include:

a. The unitary school system and desegregation settlement,
b. Improved utilization of present facilities,
c. Feeder patterns,
d. Safety of students,
e. Transportation, and
f. New construction (planned and recommended).

LEGAL AUTHORITY FOR TAKING ACTION:

The School Board is authorized to take such action under Florida Statutes Section 230.22 (1)(2) and Section 230.23, implementing Florida Statutes Section 230.232, Section 230.23(4)(a), and 230.33, as well as administrative Rule 6A1.43 of the Florida State Board of Education and in accordance with existing School Board Policy 5000. It should be noted that the adoption of a zoning plan is not considered a change in policy by the Board, but appears to fall under the Board definition of a rule in Section 120.52 (15), Florida Statutes.

PLANS FOR IMPLEMENTING THE ACTION:

Approved Board action regarding boundary changes and admission policies would become effective for the 1991-92 school year. Plans for the use of Rickards have been outlined and would be implemented following Board approval. Some personnel from existing schools may be reassigned to Rickards. As per Board Policy, the Superintendent will designate a transition team to plan with parents, community, and staff as they move from their current schools to Rickards, and from one existing middle school to another. If for any reason Rickards' opening is delayed, the Area Superintendent and principals will provide temporary arrangements until students can be moved into the school. A planning principal for Rickards will be assigned after the second public hearing.

Area Superintendents and principals in the affected middle schools will work with feeder elementary schools to facilitate student scheduling and transition to sixth grade.

ESTIMATED COST TO THE AGENCY OF THE PROPOSED ACTION INCLUDING ADMINISTRATIVE COSTS:

The costs associated with the establishment of attendance areas for all middle schools in the District (based on 1990-91 fiscal year funding levels) are estimated at this date to be:

A. BOUNDARY CHANGES

Savings

Annual Operating Costs	None
Transportation Costs	None

Costs

Annual Operating Costs

B. ANNUAL DISTRICTWIDE COSTS FOR 1991-92 :

Cost of Transportation Districtwide $ 20,260,626*
(1990-91 estimated costs $ 16,225,642;
difference $ 4,034,984)

Cost of Moving/Hook up of Portables $ 5,800,000**
Districtwide (1990-91 estimated costs
$ 4,000,000; difference $ 1,800,000)

* Due to funding arrangements, record keeping procedures, and utilization of buses across school levels and programs, it is not possible to break out accurately specific transportation costs for middle school students.

** Because specific portable classroom allocations have not been done at this time, accurately break out costs for middle schools.

C. COSTS TO OTHER AGENCIES - ADDITIONAL SAFETY FEATURES

Impact on Broward County	$	4,360
Impact on the State of Florida	$	1,695

Copies of the proposed attendance areas, as well as the tentative financial impact summary, will be available for inspection on January 24, 1991, in the Office of the Superintendent, 1320 S. W. Fourth Street, Fort Lauderdale, Florida.

Any additional Administrative Costs associated with the preparation of this plan are included in the 1990-91 operating budget. (Printing, preparation of maps and documents.)

ESTIMATE OF THE COST OR THE ECONOMIC BENEFIT TO ALL PERSONS DIRECTLY AFFECTED BY THE PROPOSED ACTION:

The implementation of the proposed action represents no significant financial impact to persons directly affected.

ESTIMATE OF PROPOSED ACTION ON COMPETITION AND THE OPEN MARKET FOR EMPLOYMENT:

The number of instructional and instructional support positions created by the reopening of Rickards will not result in a significant financial impact because revenue generated by students enrollment (FTE) will follow students.

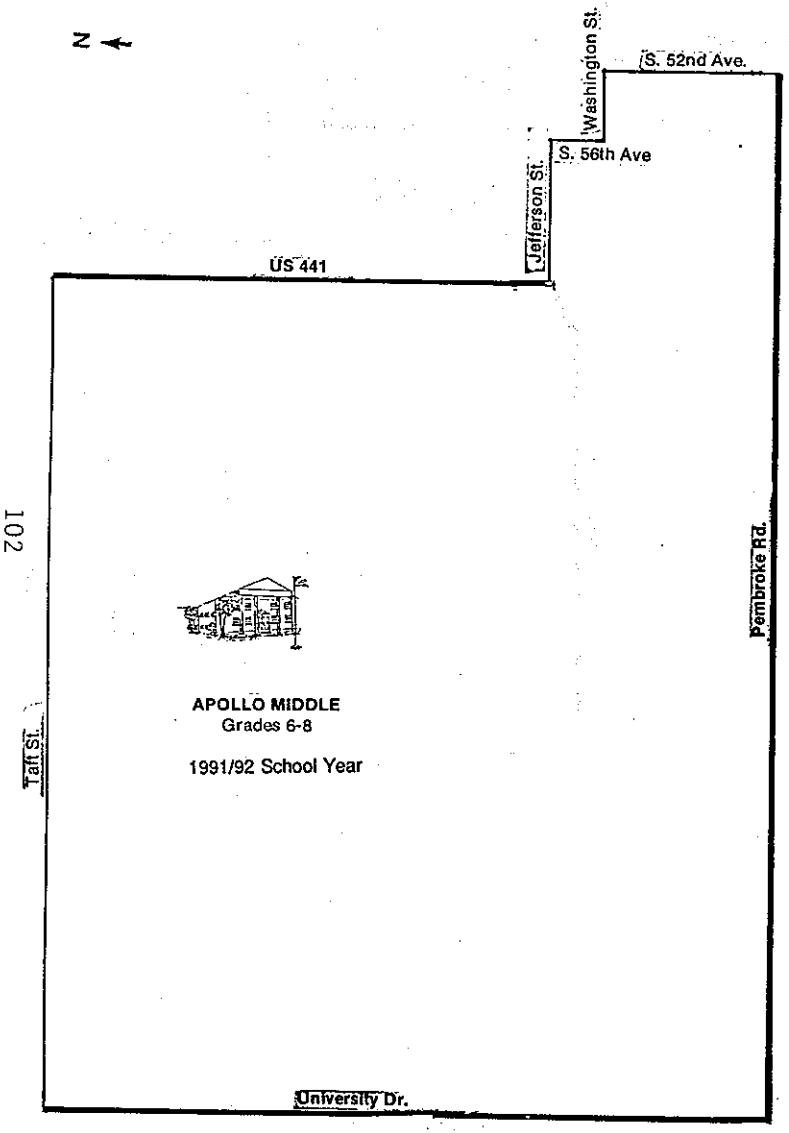

DATA METHODS USED IN MAKING COST ESTIMATES:

The Departments of Facilities, Property Management, Transportation, Risk Management, Budget and the Superintendent's Planning Staff provided data necessary to estimate and compare costs, savings, and anticipated annual costs. See Section III of this document for information related to the above statement.

BOARD AGENDA ITEM #3

Proposed High School Attendance Areas, 1991/92

The School Board will vote on high school attendance areas for 1991/92 as a separate agenda item with its own tentative financial impact.

The School Board of Broward County, Florida

TENTATIVE FINANCIAL IMPACT STATEMENT for School Attendance Areas and Admission Policies for All High Schools in the District 1991-92 School Year

SUMMARY OF INTENDED ACTION

It is proposed that:

a. Boundaries be changed between the following high schools to bring students to Cooper City High School: Western High and Cooper City High.

b. Phase-in plans for magnet program students at the Dillard High Computer and Technology Program be continued. Ninth through eleventh grade students may apply for admission to the program in accordance with Policy 5004.

c. Phase-in plans for students at Coconut Creek, Cooper City, Coral Springs, Stoneman Douglas, Ely, Hollywood Hills, McArthur, Northeast, South Plantation, Taravella, and Western high schools be continued.

d. Admission requirements for the magnet high school programs shall be in accordance with the provisions of School Board Policy 5004.

e. The boundaries and admission policies at all other high schools remain the same in 1991-92 as 1990-91.

PURPOSE OF THE ACTION:

Problems of severe overcrowding in the southwestern section of the county coupled with projected increases at the high school level can be addressed by this boundary change. Magnet programs assist in the voluntary desegregation process.

The purposes of the proposed boundary recommendation include relieving current and projected overcrowding in identified areas, preparing for future growth, and providing continued quality programs. Other considerations include:

a. The unitary school system and desegregation settlement,
b. Improved utilization of present facilities,
c. Feeder patterns,
d. Safety of students,
e. Transportation, and
f. New construction (planned and recommended).

LEGAL AUTHORITY FOR TAKING ACTION:

The School Board is authorized to take such action under Florida Statutes Section 230.22 (1)(2) and Section 230.23, implementing Florida Statutes Section 230.232, Section 230.23(4)(a), and 230.33, as well as administrative Rule 6A1.43 of the Florida State Board of Education and in accordance with existing School Board Policy 5000. It should be noted that the adoption of a zoning plan is not considered a change in policy by the Board, but appears to fall under the Board definition of a rule in Section 120.52 (15), Florida Statutes.

PLANS FOR IMPLEMENTING THE ACTION:

Approved Board action regarding boundary changes and admission policies would become effective for the 1991-92 school year. As per Board Policy, the Superintendent will designate a transition team to plan with parents, community, and staff as they move from one existing high school to another.

ESTIMATED COST TO THE AGENCY OF THE PROPOSED ACTION INCLUDING ADMINISTRATIVE COSTS:

The costs associated with the establishment of attendance areas for all high schools in the District for 1991-92 (based on 1990-91 fiscal year funding levels) are estimated at this date to be:

A. BOUNDARY CHANGES

Savings

Annual Operating Costs	None
Transportation Costs	None

Costs

Annual Operating Costs	None
Transportation Costs	None

B. ANNUAL DISTRICTWIDE COSTS FOR 1991-92 :

Cost of Transportation Districtwide (1990-91 estimated costs $ 16,225,642; difference $ 4,034,984)	$ 20,260,626*
Cost of Moving/Hook up of Portables Districtwide (1990-91 estimated costs $ 4,000,000; difference $ 1,800,000)	$ 5,800,000**

C. COSTS TO OTHER AGENCIES - ADDITIONAL SAFETY FEATURES None

* Due to funding arrangements, record keeping procedures, and utilization of buses across school levels and programs, it is not possible to break out accurately specific transportation costs for high school students.

** Because specific portable classroom allocations have not been done at this time, it is not possible to accurately break out costs for high schools.

Copies of the proposed attendance areas, as well as the tentative financial impact summary, will be available for inspection on January 24, 1991, in the Office of the Superintendent, 1320 S. W. Fourth Street, Fort Lauderdale, Florida.

Any additional Administrative Costs associated with the preparation of this plan are included in the 1990-91 operating budget. (Printing, preparation of maps and documents.)

ESTIMATE OF THE COST OR THE ECONOMIC BENEFIT TO ALL PERSONS DIRECTLY AFFECTED BY THE PROPOSED ACTION:

The implementation of the proposed action represents no significant financial impact to persons directly affected.

ESTIMATE OF PROPOSED ACTION ON COMPETITION AND THE OPEN MARKET FOR EMPLOYMENT:

The number of instructional and instructional support positions created by these changes will not result in a significant financial impact because revenue generated by student enrollment (FTE) will follow students.

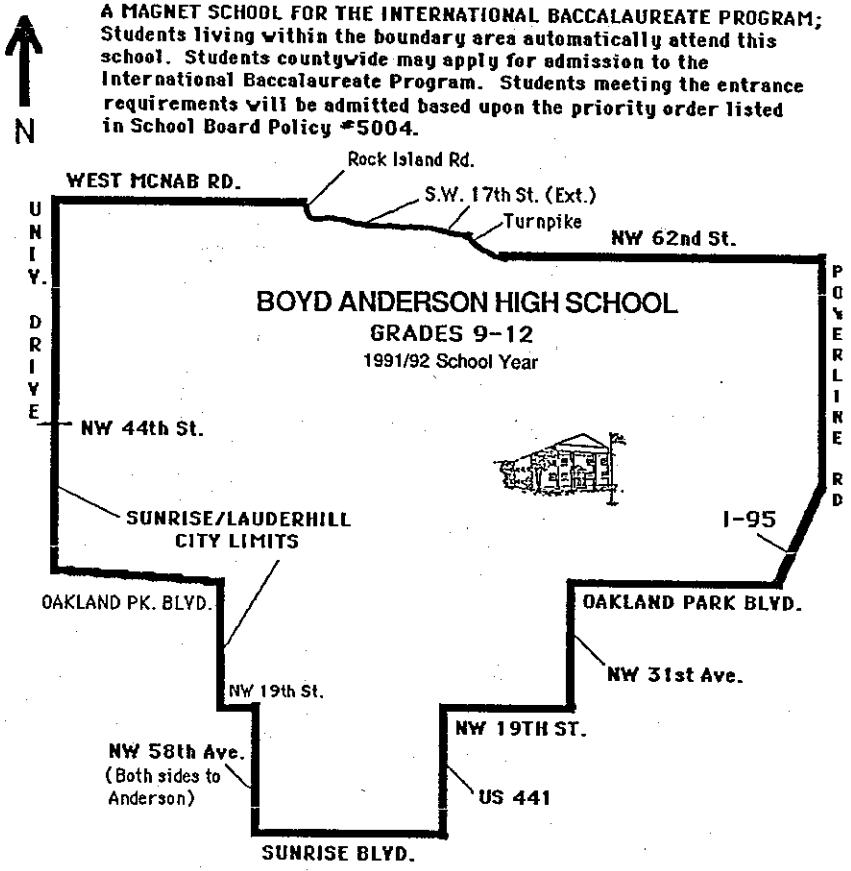

DATA METHODS USED IN MAKING COST ESTIMATES:

The Departments of Facilities, Property Management, Transportation, Risk Management, Budget and the Superintendent's Planning Staff provided data necessary to estimate and compare costs, savings, and anticipated annual costs. See Section III of this document for information related to the above statement.

FROM: Lee A. Stepanchak, Director
Property Management Department

SUBJECT: Estimated Cost of Moving Portable Classrooms During the 1991/92 School Year

To date this year, we have moved, or have moves pending for, 375 District Portables.

This volume of relocations is the highest it has ever been, to my knowledge. The one single most significant factor in the increase has been the requirement to relocate portables on site to accommodate construction needs. In addition, the moves between schools escalated dramatically to over 200 from approximately 75 last year. The reallocation of the Forest Glen Middle School units and the surplus units available because of the opening of Stoneman Douglas High School and Tequesta Trace Middle School are major factors in this increase.

The average cost of moving portables continues to be $10,000 per unit. This figure includes all utility hook-up, sidewalks, piers and generally whatever is needed to put the unit into service.

The Maintenance Department also has the responsibility, under this contract, of hooking up all newly constructed portables and the units that are leased for construction. Over 300 leased portable classrooms have been put into service under this contract. In addition, this year, 54 were constructed and hooked up. The average cost of these hookups per unit is estimated at $8,000.

Equal Opportunity Employer, Using Affirmative Action Guidelines

ADMINISTRATION OFFICES • 1320 SOUTHWEST FOURTH STREET • FORT LAUDERDALE, FLORIDA 33312 • 305/765-6000

We anticipate the next year's growth in student membership will be consistent with what has happened in the recent past. We estimate next year's District membership growth could easily be 7,000 to 9,000 students. With this magnitude of growth, I would anticipate needing 350 to 400 portable classrooms for allocation. We will have approximately 100 available for reallocation from one school to another. Therefore, we may need to construct or lease 250-300 units for our regular program needs.

The requirement for hooking up units that are leased for construction will continue to be required. Using this year's needs as a forecaster for the leased construction units, I would anticipate 300 units needing hook-up services.

The cost estimate for next year is as follows:

	Number	Cost/Unit	Total
District portables to be moved and hooked-up	100	$10,000	$1,000,000
Leased construction portables to be hooked-up	300	$ 8,000	$2,400,000
Constructed units to be hooked-up	300	$ 8,000	$2,400,000
			$5,800,000

The completion of certain construction jobs may release additional district portables for reallocation, however, it is too early to forecast availability.

Subject: Budget Impact of Proposed Boundary Changes on Pupil Transportation

I have examined the changes proposed by the 1990 Boundary Committee for school year 1991-92 and find that the proposals to begin transporting students are generally balanced by proposals to stop transporting students. There would not be a significant reduction or addition to the cost of Pupil Transportation as a result of these proposals.

From: Stan McCall, Director of Operations

Subject: Transportation Budget 1991/92

This memo is in response to your request to divide the transportation budget into three cost centers representing high, middle, and elementary schools. Upon investigating your request, I found it to be impossible to divide the budget and come up with legitimate figures for the following reasons:

1. All buses serve elementary, middle, and high schools.

2. A great number of our buses serve elementary, middle and high school students on the same trip.

3. FTE funding does not differentiate funding, therefore our record keeping does not include this breakdown.

4. Our costs are figured on the entire route of each bus which includes all schools served.

5. Combination loads are used in a great number of our exceptional routes.

If additional information is needed, please contact me.

Tentative Financial Impact - Safety

BOUNDARIES 1991 - 1992

TENTATIVE FINANCIAL IMPACT

RECOMMENDATION: **E-1** Deerfield Park Elementary School to Elementary School "A"

North:	Palm Beach County Line
East:	N.W. 1st Terrace
South:	Hillsboro Boulevard
East:	S.W. 30th Avenue (Extended)/S.W. 30th Avenue/ S.W. 30th Avenue (Extended)
South:	S.W. 49th Court/S.W. 49th Court (Extended)
West:	Florida Turnpike

Students residing over two (2) miles in Recommendation **E-1** - no additional cost to local government.

Students residing under two (2) miles in Recommendation **E-1** attending Elementary School "A" will walk.

In compliance with Florida State Statute 234.021, students residing **east of Powerline Road** less than two (2) miles will be transported pending the completion of the asterisk corrections.

CORRECTIVE ACTIONS REQUESTED	COST
Placement of a school crossing guard at the following locations: (City of Deerfield Beach)	
N.W. 41st Way and Hillsboro Boulevard* (2)	$13,440.00
Powerline Road and S.W. 10th Street* (2)	$13,440.00
Powerline Road and Hillsboro Boulevard* (3)	$20,160.00
Powerline Road and Avenue of the Lakes* (2)	$13,440.00
N.W. 6th Street and N.W. 41st Way (1)	$ 6,720.00
Installation of overhead school zone flashing lights with reduced speed limit on Hillsboro Boulevard east and west of N.W. 41st Way (front of school). (State of Florida)	$10,000.00
Installation of a traffic light with full pedestrian features at N.W. 41st Way and Hillsboro Boulevard. (Broward County)*	$65,000.00
Placement of signs and striping at the following locations: (Broward County)	
N.W. 41st Way at Hillsboro Boulevard	$ 565.00
Avenue of the Lakes at Powerline Road	$ 565.00
N.W. 41st Way and N.W. 6th Street	$ 1,430.00
N.W. 45th Avenue at Hillsboro Boulevard	$ 565.00

Placement of signs and striping at the following locations: (State of Florida)

Hillsboro Boulevard at N.W. 41st Way	$ 865.00
Powerline Road at Avenue of the Lakes	$ 865.00
Powerline Road and Hillsboro Boulevard	$ 2,260.00
Powerline Road and S.W. 10th Street (869)	$ 865.00

Installation of sidewalks at the following locations: (City of Deerfield Beach)

East side of Powerline Road, between S.W. 2nd Court and Hillsboro Boulevard*	$ 8,250.00
South side of Hillsboro Boulevard, between Powerline Road and S.W. 34th Avenue*	$ 5,500.00
East side of N.W. 41st Way, between N.W. 1st Place and N.W. 1st Street	$ 2,750.00
Connect missing sections of sidewalk on the Southeast corner of N.W. 41st Way and N.W. 6th Street	$ 1,700.00
North side of N.W. 6th Street between 4165 and 4177 and between 4161 and 4153	$ 2,500.00
East side of N.W. 45th Avenue between N.W. 1st Place and N.W. 6th Street	$11,000.00
Complete missing sections of the north side of Hillsboro Boulevard between Deer Creek Road and Powerline Road*	$15,000.00
South side of Deer Creek Country Club Boulevard between Deer Creek Road and Hillsboro Boulevard	$10,000.00

Installation of sidewalks at the following locations: (State of Florida)

North side of Hillsboro Boulevard between Powerline Road and the Florida Turnpike*	$42,000.00
South side of Hillsboro Boulevard between the school site and the Florida Turnpike*	$22,000.00

Note: Hillsboro Boulevard, west of Powerline Road is being widened including a new bridge over the Turnpike. Sidewalks noted west of Powerline Road along Hillsboro Boulevard should be included as part of the project.

Installation of pedestrian features on a traffic signal at the following location: (Broward County)

Powerline Road at Avenue of the Lakes (north side)	$ 5,000.00
Tentative Financial Impact/City of Deerfield Beach	$123,900.00
Tentative Financial Impact/Broward County	$ 73,125.00
Tentative Financial Impact/State of Florida	$ 78,855.00

BOUNDARIES 1991 - 1992

TENTATIVE FINANCIAL IMPACT

RECOMMENDATIONS: **E-2** Winston Park Elementary School to Elementary School A

North:	Palm Beach County Line
East:	Turnpike
South:	Sawgrass Expressway
West:	U.S. 441

Students residing over two (2) miles in Recommendation **E-2** - no additional cost to local government.

Students residing under two (2) miles in Recommendation **E-2** attending **Elementary School A** will be transported in compliance with Florida State Statute 234.021 pending the completion of the following corrections:

CORRECTIVE ACTIONS REQUESTED:

(State of Florida)

Completion of the road widening project on Hillsboro Boulevard, (State Road 810), including the installation of a sidewalk on the north and south side of Hillsboro Boulevard. This project also includes a new bridge over the Florida Turnpike, with appropriate pedestrian safety features needed.

Note: This is a preliminary review. Many of the areas west of the Florida Turnpike within two (2) miles of this school are undeveloped and will need to be reviewed as the area develops.

BOUNDARIES 1991 - 1992

TENTATIVE FINANCIAL IMPACT

RECOMMENDATIONS: **E-3** Parkridge Elementary School to Deerfield Park Elementary

North:	S.W. 7th Court (Extended)
East:	FEC Railroad Track
South:	S.W. 10th Street
West:	SCL Railroad Track

Students residing under two (2) miles in Recommendation **E-3** attending **Deerfield Park Elementary School** will walk.

CORRECTIVE ACTIONS REQUESTED:	COST
Placement of school crossing guard at the following location: (Deerfield Beach)	
S.W. 3rd Avenue/S.W. 10th Street	$ 6,720.00
Placement of signs and striping at the following location: (Broward County)	
S.W. 3rd Avenue/S.W. 10th Street	$ 415.00
Installation of sidewalks at the following location: (Deerfield Beach)	
West side of S.W. 3rd Avenue between S.W. 4th Street to just south of S.W. 5th Court	$10,200.00
Tentative Financial Impact City of Deerfield Beach:	$16,920.00
Tentative Financial Impact Broward County:	$ 415.00

C. Policy 5000

6Gx6-5000

ADEQUATE EDUCATIONAL FACILITIES, DESIGNATION OF SCHOOLS AND ATTENDANCE AREAS, DEVELOPMENT OF POSITIVE ALTERNATIVES TO ACCOMMODATE GROWTH, TO KEEP SCHOOLS OPEN, AND TO ELIMINATE AND CONSOLIDATE SCHOOLS

THE SUPERINTENDENT SHALL, NO LATER THAN THE SECOND WEEK IN MARCH, SUBMIT TO THE SCHOOL BOARD RECOMMENDATIONS FOR THE ESTABLISHMENT, ORGANIZATION, AND OPERATION OF EDUCATIONAL FACILITIES. THIS ORGANIZATION OF SCHOOLS, CLASSES AND SERVICES WILL PROVIDE ADEQUATE EDUCATIONAL OPPORTUNITIES FOR ALL CHILDREN IN THE DISTRICT.

AFTER CONSIDERING RECOMMENDATIONS OF THE SUPERINTENDENT, THE SCHOOL BOARD SHALL ADOPT AND PROVIDE FOR THE EXECUTION OF PLANS FOR THE ESTABLISHMENT, ORGANIZATION, AND OPERATION OF THE SCHOOLS OF THE DISTRICT WHICH SHALL INCLUDE:

1. DESIGNATING SCHOOLS AND ATTENDANCE AREAS FOR THE ENSUING SCHOOL YEAR(S).

2. PROVIDING ADEQUATE EDUCATIONAL FACILITIES FOR ALL SCHOOL-AGE CHILDREN IN THE DISTRICT, AS DEFINED IN FLORIDA STATUTE 230.23 (c).

3. PROVIDING STRATEGIES TO ACCOMMODATE GROWTH.

4. PROVIDING POSITIVE ALTERNATIVE STRATEGIES TO BE IMPLEMENTED WITHIN A DESIGNATED TIME FRAME FOR THOSE UNDERENROLLED SCHOOLS TO INCREASE THEIR ENROLLMENT.

5. PROVIDING FOR THE ELIMINATION OF SCHOOL CENTERS AND FOR THE CONSOLIDATION OF SCHOOLS WHENEVER THE NEEDS OF PUPILS CAN BETTER AND MORE ECONOMICALLY BE SERVED.

AUTHORITY: F.S. 230.22 (1) (2)
AUTHORITY: F.S. 230.23 (4) (a) (b) (c)
Policy Adopted: 11/13/69
Policy Readopted: 9/5/74
Policy Amended: 3/7/83; 1/24/85 Amended Policy Approved: 7/7/88

Rules

The procedural guidelines to be used in the implementation of this policy shall include the following components:

Objectives

1. Provide opportunities for equitable instructional services throughout the district.

2. Improvement of instructional services and student learning.

3. Stabilization of school attendance boundaries to the greatest extent possible. A three-to five-year cycle of major boundary changes should be strongly considered.

4. Maintenance of a unitary system. In applying this provision, the racial characteristics of students attending classes at more than one location will be calculated pro rata according to the amount of time spent at each location for the purposes of calculating the racial balance of the respective schools.

5. Impact on communities or racial/ethnic groups that is equitable.

6. Provide the opportunity for public input.

7. Establishment and maintenance of feeder patterns that permit students to move forward together from elementary to middle and middle to senior high schools where possible.

8. Involvement of the affected community in the decisions regarding recommendations for uses of schools no longer needed by the district.

9. Apply guidelines and standards for adequate educational facilities, designate schools and attendance areas, provide positive alternative strategies for accommodating growth and, after due consideration of all factors, eliminate and consolidate schools or construct new schools. Insure that educational facilities in traditionally black areas will be essentially equal to all other educational facilities.

Guidelines for the Establishment of Boundaries and Attendance Areas

1. Boundary changes are appropriate means to maintain equal educational opportunities.

ADEQUATE EDUCATIONAL FACILITIES, DESIGNATION OF SCHOOLS AND ATTENDANCE AREAS, DEVELOPMENT OF POSITIVE ALTERNATIVES TO ACCOMMODATE GROWTH, TO KEEP SCHOOLS OPEN, AND TO ELIMINATE AND CONSOLIDATE SCHOOLS

Objectives - continued

2. Consideration should be given to the racial/ethnic backgrounds of the student population at each school in order to maintain a unitary school system.

3. Where possible, neighborhood elementary schools should be maintained.

4. Visual inspection of affected boundary areas shall be required before proposing any boundary adjustments, school closings, or establishing boundaries for new schools.

5. The assignment of student to or from a particular facility should be considered if it is continually overutilized or underutilized. The standards for closure or construction shall be considered in the application of this guideline.

6. The Area Superintendents, in conjunction with the Educational Planning Center or designated task force, will make recommendations to the Superintendent who, in turn, will make recommendations to the Board.

7. The School Advisory Committee, PTA, PTO, the Biracial Committee and parents will be notified of proposed boundary changes, new school construction, and/or recommended closures, prior to Board action, allowing for full participation of the public. The Biracial Committee shall review all school boundaries and give a written report to the Board.

Standards for School Construction and School Sites

1. In planning new school construction, site acquisitions or disposals, building additions, or the location of portables, the overall financial impact on the District, cost effectiveness, (including capital cost,) transportation requirements and enrollment projections for the affected geographical areas should be carefully considered as relevant factors.

2. Portable buildings should be used as temporary and not permanent facilities.

3. New plant construction should be considered when long-range enrollment projections clearly indicate the need for construction of additional facilities. The guidelines for establishment of boundaries shall be considered in the application of this standard.

4. A long-range plan for site acquisition and disposal must be prepared in conjunction with long-range projections of enrollment.

5. All plant construction and site acquisition and disposal must comply with State Board Rules and Florida Statutes.

Standards for the Closing of Schools

Schools should be considered for closing if they are consistently not educationally effective in relation to other schools in the district, using one or more of the following criteria:

1. The overal financial impact on the District, cost effectiveness, (including capital outlay), transportation requirements and enrollment projections for the affected geographical areas should be carefully considered as relevant factors.

2. The school's student enrollment is one of the lowest in the district and/or the population projections of the school's contiguous attendance area is predicted to continue declining.

3. General condition of the building is poor and/or design is educationally obsolete and exceptionally large amounts of capital outlay are needed to continue the operation of the school.

4. A school will not be considered for closing if doing so would have an inordinately adverse effect on the unitary school concept.

ADEQUATE EDUCATIONAL FACILITIES, DESIGNATION OF SCHOOLS AND ATTENDANCE AREAS, DEVELOPMENT OF POSITIVE ALTERNATIVES TO ACCOMMODATE GROWTH, TO KEEP SCHOOLS OPEN, AND TO ELIMINATE AND CONSOLIDATE SCHOOLS

Objectives - continued

Guidelines for the Development of Positive Alternatives to Keep Schools Open

1. The EPC or designated task force will identify underenrolled schools with the potential to increase their enrollment. Implementation plans will be developed by the Division of Government, Community and Employee Relations.

2. The EPC or designated task force will identify innovative alternatives to allow schools to remain open. Implementation plans will be developed by the Division of Instruction/Program Services.

Guidelines for Implementation

1. The Area Superintendents and the Educational Planning Center, or designated task force, shall submit to the Superintendent a list of:

   a. Schools with recommended boundary changes;

   b. Schools or areas designated for new construction or building additions;

   c. Schools subject to further review with recommendations for implementation of positive alternative strategies;

   d. Schools that will be recommended for closing and/or consolidation;

   e. And any other policy revisions necessary to ensure the implementation of this policy.

2. When recommendations have been made for a school closing or major boundary change, the Area Superintendents and designated staff will meet with the school personnel, School Advisory Committee, PTA, PTO, parents of the students at the affected school(s), The Biracial Committee, local governments and other members of the community, for information on and preparation for the change.

3. When recommendations have been made for strategies to increase enrollment designated personnel will work with the staff and parents of that school to begin design and implementation of the plan to effect the same. The Board shall designate a reasonable time frame for implementation and results at the end of which the school will be reviewed.

4. After final adoption of recommendations by the Board, the Superintendent shall immediately designate personnel to plan with the parents, community and staff of the schools involved to ensure a smooth transition process during implementation of the recommendations.

Guidelines for the Use of Closed Schools

1. The Superintendent shall bring within a reasonable time, recommendations for disposal or alternative uses of schools closed by the Board.

2. If the system has no further need for the facility, the School Board shall act in accordance with Chapter 235.04 (1) Florida Statutes, after receiving recommendations for use from a task force of parents, citizens and the local government of the affected community.

3. "Moth-balling" should be avoided unless it can be clearly shown that there is a potential system need for the facility in the future.

D. Consolidation of Pine Ridge and Wingate Oaks
Agenda Item F-1, February 6, 1990

AGENDA REQUEST FORM
The School Board of Broward County, Florida

Meeting Date	Agenda Item Number
Feb. 6, 1990	F-1

TITLE:

Consolidation of Pine Ridge and Wingate Oaks

REQUESTED ACTION:

It is recommended that the School Board approve the consolidation of Pine Ridge and Wingate Oaks in the Wingate Oaks facility for the 1992-93 school year.

SUMMARY EXPLANATION AND BACKGROUND:

In the north and south areas of the district, profoundly mentally handicapped students are served at Bright Horizons and The Quest. In the central area, a separate facility (initially, East Side and, currently, Pine Ridge) has housed the program for profoundly mentally handicapped students because the Wingate Oaks facility was not large enough to accommodate the profound students. With the completion of the new construction and renovation at Wingate Oaks during the 1991-92 school year, it will finally be possible, beginning with the 1992-93 school year, to have a consistent continuum of services within a center in each area. The consolidation will have a positive program impact.

Consolidation of Pine Ridge and Wingate Oaks
Executive Summary

In 1977 the district began to serve children who were profoundly mentally handicapped (PMH). The program for PMH students was originally housed at East Side while classrooms for PMH students were being built at Wingate Oaks. However, the PMH classrooms were completed at the same time as Wingate Oaks experienced a significant increase in their trainable mentally handicapped population, and a decision was made to use the new classrooms for the expanding trainable population and to move the central area PMH students to Pine Ridge. (Bright Horizons and The Quest had facilities which were adequate to serve the profoundly mentally handicapped students in the north and south areas of the county and those centers became known as multi-handicapped centers rather than "trainable" centers.)

When the five year plan for the bond issue was developed, it included renovations and construction to handle the current population at Wingate Oaks as well as new construction to house the PMH students from Pine Ridge. The facility expansion included in the bond issue is scheduled for completion during the 1991-92 school year and, therefore, the Wingate Oaks facility will be ready to house the Pine Ridge students for the 1992-93 school year.

This long term plan to have a multihandicapped center in each of the three areas will have a positive program impact on students. Research indicates that profoundly handicapped students who use a primitive gestural system for communication improve that communication system when they are consistently exposed to peers who communicate verbally. Some of the profoundly handicapped students at Pine Ridge will benefit from an expanded physical education and art program that will be available at Wingate Oaks. Some PMH students will also benefit from being in a school environment which provides peers who can model skills which can be used in a sheltered workshop setting. As part of the new construction, Wingate Oaks will have a therapy pool similar to those at The Quest and Bright Horizons. PMH students with limited mobility will enjoy physical and recreational benefits from the use of the therapy pool. In summary, the educational environment for PMH students will be enhanced by the availability of a full continuum of programming for mentally handicapped students.

Pine Ridge currently serves approximately 67 students. In June, 12 students will graduate. An additional 17 children will leave the program in 1991-92 and another 26 children in 1992-93. The prekindergarten children which are entering the program are entering at the rate of approximately three to four students per year. Therefore, it is anticipated that the consolidation of the two schools, in addition to being beneficial from a program standpoint, will also be beneficial from an administrative and fiscal standpoint. Duplication of administrative and support staff for a small number of students will not be necessary.

Approval of the consolidation for the 1992-93 school year will enable parents, administrators, teachers, and support staff to plan for a smooth transition.
