Demographics Summary

Fort Worth ISD Community

The city of Fort Worth is one of the fastest-growing cities in the United States of America. Fort Worth ISD serves a diverse student population. Several collective impact groups work collaboratively to support the needs of Fort Worth students and families. In Fort Worth, the school district, community, and individuals come together to listen and learn with the goal of improving student outcomes in every school in every zip code.

The Fort Worth ISD is controlled locally through a Board of Education Trustees elected by voters within each district. Nine Trustees serve as single-member district representatives. All of the Trustees serve four-year terms without pay. The Board of Education conducts the school program in accordance with the state constitution and the standards set by the Texas Education Agency. A policy-making body, the board delegates the day-to-day administration of the schools to the Superintendent and the professional staff.

Major responsibilities of the Board:

- to govern and oversee the management of the school district
- to levy and collect taxes
- to set the policies for the FWISD
- to develop and improve the educational system
- to secure adequate financing
- to select the superintendent of schools
- to foster good community relations

Problem Statements Identifying Student Learning Needs

Problem Statement 1 (Prioritized): Student academic and post-secondary success lags Texas state averages especially for students with disabilities, emergent bilinguals, and African American students. **Root Cause:** Lack of consistent planning and implementation of research-based instructional practices that are aligned to state standards, rigorous, and meet the specific needs of each learner.

District Processes & Programs

District Processes & Programs Summary

Academic Frameworks

The Fort Worth ISD Instructional Framework provides direction for consistent planning and the use of research-based teaching practices to improve student achievement. The Framework seeks to create an optimal learning environment in which we create emotionally, intellectually and physically safe environments. Instruction is culturally responsive, linguistically accommodating based on standards aligned curriculum and instruction that meets the needs of every learner.

The Fort Worth ISD Literacy Framework provides guidance for teaching and learning in the areas of reading and writing. The Framework is grounded in research and the science of teaching reading and writing with students at the core of our foundational literacy work. The Disciplinary Literacy Framework provides guidance for reading, writing, and thinking in the disciplines. It is grounded in research-based disciplinary literacy practices that target the higher-order reading, writing, and thinking skills students need to be college and career ready and citizens who are social critics empowered with the willingness and abilities to take personal, social, political and economic action.

The Fort Worth ISD Dual Language Framework provides guidance for the implementation of Dual Language Education. This Framework is grounded in Dual Language and Biliteracy research, the TEA Implementation Guidance for Dual Language Programs, and the Guiding Principles for Dual Language.

The Fort Worth ISD Mathematics Instructional Framework provides guidance for and coherence to the rigor and process of mathematics unit-by-unit planning, instruction, assessment, intervention, and acceleration throughout the district. Fort Worth ISD mathematics educators will take action on purposeful and intentional shifts in their instructional and assessment routines of practice in order to build student self-efficacy, perseverance, and ensure successful grade level or course-based standards proficiency for all students.

Professional Learning Community

A professional learning community (PLC) is a school or district-wide philosophy that fosters a culture of collaboration, continuous improvement, and shared responsibility for student learning. It is not just a series of meetings, but a fundamental way of operating that permeates all aspects of the educational system. The Fort Worth ISD is committed to the implementation of professional learning communities on all campuses with fidelity to ensure high-quality teacher collaboration.

Theory of Action

If we, . . .

1. establish a common understanding of excellent instruction;
2. continuously engage stakeholders around a shared instructional vision;
3. support educators in implementing a rigorous, high-quality, standards-based curriculum with excellent pedagogy;
4. ensure alignment of policies, systems, resources and practices to the instructional vision.

Then, Fort Worth ISD will be the destination school district where students are engaged, thriving, and succeeding academically.

Problem Statements Identifying District Processes & Programs Needs

Problem Statement 1: Every Fort Worth ISD employee is expected to support teaching and learning for both students and staff. Creating a culture that clearly and pervasively reflects our primary purpose for existing (to educate all students) is an ongoing challenge. **Root Cause:** Lack of district-wide culture and work practices that support all schools and puts student needs above adult convenience.

Reporting a Bullying Incident

Student Report

Bullying, including cyberbullying, is defined in FFI(LEGAL). A student who believes that he or she has experienced bullying, including cyberbullying, or that another student has, or that other students have, experienced bullying is encouraged to report the incident, in accordance with District policy. A student may report an incident of bullying anonymously.

The method(s) for a student to report bullying anonymously will be the following:

- Access the [Friends for Life website](#)¹; or
- Call (817) 469-8477

One can also download the Campus Crime Stoppers and Life (CCS FFL) of Tarrant County app.

Employee Report

An employee will adhere to the requirements of District policy in reporting an alleged bullying incident.

Report Format

The report may be made orally or in writing by completing the Incident Report form. If the report is made orally, the principal or designee will document the allegations in writing and record the date and circumstances of the interview on a form designated by the District, as applicable.

The parent of the alleged victim will be notified of the incident of bullying on or before the third business day after the incident is reported. The alleged bully's parent will be notified within a reasonable amount of time after the incident.

Investigative Procedures

The principal or designee must determine whether the allegations, if proven, would constitute prohibited conduct under FFH. If so, the principal or designee must refer the report for processing under the policies and procedures at FFH. If not, the principal or designee, herein referred to as the investigator, will proceed under this policy following the guidelines below, as appropriate.

General
Considerations

The investigator must maintain confidentiality to the extent possible and as required by law and should advise the complainant that limited disclosure may be necessary to complete a thorough investigation.

If a student desires to be accompanied by a parent or friend during his or her interview, the District will consider the request and determine whether the presence of a parent or friend in the interview will help or hinder the investigation process. If the student's request is granted, the District will adhere to all applicable laws, policies, and associated procedures to protect the privacy of all students involved.

Guidelines

In conducting the investigation, the investigator will:

1. If appropriate, take action to protect the student and to prevent bullying during the investigation. If the District determines that a serious risk to the student's physical safety exists, the principal or designee may contact law enforcement directly. [See GRAA for classes of offenses for which the District is required to contact law enforcement]
2. Secure any evidence.
3. If the investigator did not receive the initial complaint, interview the complainant first, proceeding chronologically through the allegations and advise the complainant that the District does not tolerate bullying. If the complainant is a student, help the student feel secure about presenting allegations of wrongdoing. Ask the names of any witnesses who might confirm the complainant's version of the events. Also ask if the complainant is aware of or able to provide evidence that supports his or her version of the events. Assure the complainant of protection from retaliation.
4. Interview the alleged victim if that person is not also the complainant and explain how the investigation process will work. Advise the alleged victim that the District does not tolerate bullying and help the student feel secure about presenting allegations of wrongdoing. Ask the names of any witnesses who might confirm the alleged victim's version of the events. Also ask if the alleged victim is aware of or able to provide evidence that supports his or her version of the events. Assure the alleged victim of protection from retaliation.
5. Interview the alleged bully and explain how the investigation process will work. The alleged bully will be presented with each allegation and provided an opportunity to respond. Ask the names of any witnesses who might confirm the alleged

6. Interview any witnesses. Help a student witness feel secure and assure him or her of protection from retaliation. Ask the names of any additional witnesses who might have information about the alleged incident(s).
7. Do not divulge information regarding the identity of the alleged victim, alleged bully, complainant, or witnesses unnecessarily when interviewing other witnesses.
8. If necessary, interview the alleged bully, alleged victim, and any witnesses again to address any new information discovered during the course of the investigation.
9. Maintain detailed notes of all interviews. Notes will be read to the person being interviewed to verify details and to ensure accuracy. In addition, the interviewer may audio record the interview with permission of the person being interviewed.
10. Document all efforts made to investigate the alleged bullying. Gather all relevant evidence.

Resolution of the Complaint

The investigator will prepare a written report of the investigation, which will include a determination of whether bullying occurred, and, if so, whether the victim used reasonable self-defense. The investigator will notify the parties to the complaint of the resolution.

Disciplinary Action

If upon completion of the investigation the investigator determines that disciplinary action against a student is warranted, the investigator will proceed with the appropriate course of action, in accordance with the District's Student Code of Conduct.

After an investigation is complete, the principal or designee may report to law enforcement if the principal has reasonable grounds to believe that a student has engaged in harassment using electronic communication or assault.

In accordance with law, a school counselor may not be designated as the person to report to law enforcement because a counselor's duties include serving as an impartial, nonreporting conciliator.

Counseling Options

If the students involved have not yet been notified, the District will notify the victim, the student who engaged in bullying, and any students who witnessed the bullying of available counseling options.

| Notice to Superintendent | Within ten District business days of the completion of an investigation, the principal will submit the Investigation Report and any appropriate materials associated with the investigation to the Superintendent or designee. |
| Notice to Parents | If an incident of bullying is confirmed, the investigator will promptly notify the parents of the victim and of the student who engaged in bullying. The investigator must document that notice was provided to parents on the Investigation Report. |
| Notice of Right to Appeal | A student who is dissatisfied with the outcome of the investigation may appeal through FNG(LOCAL), beginning at the appropriate level. |
| Reporting Child Abuse | In accordance with law, if the District has reason to believe that a child has been or may be abused or neglected, the District must contact a local or state law enforcement agency or Child Protective Services (CPS). [See FFG] |
| Follow-Up | After concluding the investigation, the District should periodically follow up with the complainant or other persons involved in the incident(s), as appropriate. |

As defined by law, a person responsible for the care, custody, or welfare of a child includes school personnel and volunteers and day-care workers.

**Threat Assessment
and Safe and
Supportive Team**

In compliance with law, the Superintendent shall ensure that a multidisciplinary threat assessment and safe and supportive team is established to serve each campus. The Superintendent shall appoint team members. The team shall be responsible for developing and implementing a safe and supportive school program at each campus served by the team and shall support the District in implementing its multi-hazard emergency operations plan.

Training

Each team shall complete training provided by an approved provider on evidence-based threat assessment programs.

Student Reports

Each campus shall establish a clear procedure for a student to report concerning behavior exhibited by another student for assessment by the team or other appropriate District employee.

Employee
Confidentiality

A District employee who reports a potential threat may elect for the employee's identity to remain confidential and not be subject to disclosure under the state's public information law. The employee's identity shall only be revealed when necessary for the team, the District, or law enforcement to investigate the reported threat.

The District shall maintain a record of the identity of a District employee who elects for the employee's identity to remain confidential.

Imminent Threats or
Emergencies

A member of the team or any District employee may act immediately to prevent an imminent threat or respond to an emergency, including contacting law enforcement directly.

Threat Assessment
Process

The District shall develop procedures as recommended by the Texas School Safety Center. In accordance with those procedures, the threat assessment and safe and supportive team shall conduct threat assessments using a process that includes:

1. Identifying individuals, based on referrals, tips, or observations, whose behavior has raised concerns due to threats of violence or exhibition of behavior that is harmful, threatening, or violent.
2. Conducting an individualized assessment based on reasonably available information to determine whether the individual poses a threat of violence or poses a risk of harm to self or others and the level of risk.
3. Implementing appropriate intervention and monitoring strategies, if the team determines an individual poses a threat of harm to self or others. These strategies may include referral of a student for a mental health assessment and escalation procedures as appropriate.

For a student or other individual the team determines poses a serious risk of violence to self or others, the team shall immediately report to the Superintendent, who shall immediately attempt to contact the student's parent or guardian. Additionally, the Superintendent shall coordinate with law enforcement authorities as necessary and take other appropriate action in accordance with the District's multihazard emergency operations plan.

For a student the team identifies as at risk of suicide, the team shall follow the District's suicide prevention program.

For a student the team identifies as having a substance abuse issue, the team shall follow the District's substance abuse program.

For a student whose conduct may constitute a violation of the District's Student Code of Conduct, the team shall make a referral to the campus behavior coordinator or other appropriate administrator to consider disciplinary action.

As appropriate, the team may refer a student:

1. To a local mental health authority or health-care provider for evaluation or treatment; or
2. For a full individualized and initial evaluation for special education services.

The team shall not provide any mental health-care services, except as permitted by law.

Guidance to School
Community

The team shall provide guidance to students and District employees on recognizing harmful, threatening, or violent behavior that may pose a threat to another person, the campus, or the community and methods to report such behavior to the team, including through anonymous reporting.

Reports

The team shall provide reports to the Texas Education Agency as required by law.

Student Code of Conduct

The District's rules of discipline are maintained in the Board-adopted Student Code of Conduct and are established to support an environment conducive to teaching and learning.

Rules of conduct and discipline shall not have the effect of discriminating on the basis of gender, race, color, disability, religion, ethnicity, or national origin.

When approved, the District Student Code of Conduct shall constitute an extension of Board policy. Violation of conduct provisions contained in this document shall result in disciplinary action.

At the beginning of the school year and throughout the school year as necessary, the Student Code of Conduct shall be:

1. Posted and prominently displayed at each campus or made available for review in the principal's office, as required by law; and
2. Made available on the District's website and/or as a hard copy to students, parents, teachers, administrators, and others upon request.

At the beginning of the school year, principals or designees shall give verbal instruction on the District Student Code of Conduct to all students.

Revisions

Revisions to the Student Code of Conduct approved by the Board during the year shall be made available promptly to students and parents, teachers, administrators, and others. Such revisions shall become effective upon distribution.

Acknowledgment

Each student and parent, upon receipt of the District Student Code of Conduct or any revision, shall sign a statement that they have received and read it. A principal shall document any parent's refusal to sign.

Extracurricular Standards of Behavior

With the approval of the principal and the appropriate chief of schools or designee, sponsors and coaches of extracurricular activities may develop and enforce standards of behavior that are higher than the District-developed Student Code of Conduct and may condition membership or participation in the activity on adherence to those standards. Extracurricular standards of behavior may take into consideration conduct that occurs at any time, on or off school property.

A student shall be informed of any extracurricular behavior standards at the beginning of each school year or when the student first begins participation in the activity. A student and his or her parent shall sign and return to the sponsor or coach a statement that they

have read the extracurricular behavior standards and consent to them as a condition of participation in the activity.

Standards of behavior for an extracurricular activity are independent of the Student Code of Conduct. Violations of these standards of behavior that are also violations of the Student Code of Conduct may result in independent disciplinary actions.

A student may be removed from participation in extracurricular activities or may be excluded from school honors for violation of extracurricular standards of behavior for an activity or for violation of the Student Code of Conduct.

Campus Rules and Regulations

Principals and site-based decision-making teams, consistent with District policy, may develop campus rules and regulations as part of a campus student handbook. These rules and regulations shall be approved by the appropriate chief of schools.

The District Student Code of Conduct and campus rules and regulations shall be binding and enforceable upon all students and parents, whether or not they are acknowledged.

“Parent” Defined

Throughout the Student Code of Conduct and discipline policies, the term “parent” includes a parent, legal guardian, or other person having lawful control of the child.

General Discipline Guidelines

A District employee shall adhere to the following general guidelines when imposing discipline:

1. A student shall be disciplined when necessary to improve the student’s behavior, to maintain order, or to protect other students, school employees, or property.
2. A student shall be treated fairly and equitably. Discipline shall be based on an assessment of the circumstances of each case. Factors to consider shall include:
 - a. The seriousness of the offense;
 - b. The student’s age;
 - c. The frequency of misconduct;
 - d. The student’s attitude;
 - e. The potential effect of the misconduct on the school environment;
 - f. Requirements of Chapter 37 of the Education Code; and
 - g. The Student Code of Conduct adopted by the Board.

3. Before a student under 18 is assigned to detention outside regular school hours, notice shall be given to the student's parent to inform him or her of the reason for the detention and permit arrangements for necessary transportation.

**Corporal
Punishment**

The Board prohibits the use of corporal punishment in the District. Students shall not be spanked, paddled, or subjected to other physical force as a means of discipline for violations of the Student Code of Conduct.

Physical Restraint

Within the scope of an employee's duties, a District employee may physically restrain a student if the employee reasonably believes restraint is necessary in order to:

1. Protect a person, including the person using physical restraint, from physical injury;
2. Obtain possession of a weapon or other dangerous object;
3. Remove a student refusing a lawful command of a school employee from a specific location, including a classroom or other school property, in order to restore order or to impose disciplinary measures;
4. Control an irrational student; or
5. Protect property from serious damage.

A District employee may restrain a student with a disability who receives special education services only in accordance with law. [See FOF(LEGAL)]

**Video and Audio
Monitoring**

Video and audio recording equipment shall be used for safety purposes to monitor student behavior with the approval of the Superintendent or chief of operations.

Notice

The District shall post signs notifying students and parents about the District's use of video and audio recording equipment. Students shall not be notified when the equipment is turned on.

Use of Recordings

District staff and law enforcement officials shall review recordings as needed, and evidence of student misconduct shall be documented. A student found to be in violation of the District's Student Code of Conduct shall be subject to appropriate discipline.

Access to
Recordings

Recordings shall remain in the custody of the District and shall be maintained as required by law. A parent of a student who wishes to view a video recording in response to disciplinary action taken against the student may request such access under the procedures set out by law. [See FL(LEGAL)]

Supervision

The schools are not responsible for the supervision of students who arrive at school before the designated time in the morning or who are not involved in a supervised activity and remain after the designated time in the afternoon. The principal shall notify students and parents of the time before and after school when the students are not supervised. This shall not affect the authority of a principal or teacher to discipline students for violations of the Student Code of Conduct before and after school.

Disciplinary Records

Records pertaining to student discipline shall be maintained by teachers and principals in accordance with the requirements of law. Such records shall include date and time of the offense, a descriptive statement of the infraction, and the action taken. These records shall be maintained for at least two years. [See FL]

Reversal of Decisions

Should a decision by a teacher or administrator be reversed by the next administrative level, the individual who alters the decision shall notify in writing all persons affected by the ruling within seven working days.

Criminal Offenses

The District shall report to the proper authority for disposition any suspected violation of any criminal statute as prescribed in the Texas Penal Code or municipal ordinance by any individuals (including students) over whom the District has jurisdiction. Any such reporting by school officials shall be in addition to any disciplinary actions imposed by District or campus officials.

Purpose

The Superintendent or designee shall implement, monitor, and evaluate electronic media resources for instructional and administrative purposes.

Access to the Districts' electronic communications systems which may include computers, software, communication tools (email, chat), access to internal networks (intranet), and access to external networks (internet) is a privilege, not a right. Fort Worth ISD requires that these systems be used in a responsible way, ethically, and in compliance with all legislation and other Fort Worth Independent School District (District) policies. [See Board Policy CQ]

All users shall be required to acknowledge receipt and understanding of all administrative regulations governing the use of the system and shall agree in writing to comply with such regulations and guidelines. Noncompliance with applicable regulations and guidelines may result in suspension or terminations of privileges and other disciplinary action consistent with District Policies. [See Board Policies DH and CQ, and the Student Code of Conduct]

Scope

This policy is applicable to all District stakeholders including full-time, part-time, and temporary employees, contractors, students, and interns. The requirements defined in this policy are applicable to all data, systems, and services owned and/or managed by the District.

Electronic mail transmissions and other use of the electronic communication system by students and employees shall not be considered confidential and may be monitored at any time by designated District staff.

Definitions

- **Shadow IT:** The acquisition and use of information technology systems and/or services within the organization that has not been approved by the IT Department. Oftentimes, the IT Department is not even aware of these solutions being implemented.
- **Malware:** A program that is inserted into a system, usually covertly, with the intent of compromising the confidentiality, integrity, or availability of the victim's data, applications, or operating system, or of otherwise annoying or disrupting the victim.
- **Social engineering:** The "con game"; the art of manipulating end-users into providing confidential or personal information. One example is "phishing," where hackers pretend to be trusted organizations such as banks, company suppliers, IT staff, or mobile carriers to get your personal information such as credit card details or confidential corporate information.
- **Removable media:** Any type of storage device that can be removed from a computer while the system is running. Examples include USB flash/thumb drives, memory cards, CDs/DVDs, external hard drives, or mobile devices used for storage purposes such as smartphones. While there are business purposes for these devices, they are also known to be common sources of malware infections and susceptible to loss or theft, leading to breaches of sensitive information.
- **Service Desk:** The Fort Worth Independent School District internal service desk support team can be reached by phone at (817) 814-4357.

Policy

A. Acceptable Use of Assets

Assets include, but are not limited to, physical equipment, such as desktop computers, servers, printers, laptops, telephones, mobile devices, and removable media (such as USB flash drives), as well as systems and services, such as the organizational network, internet, voicemail, and more. Organizational data is also considered to be an asset. All devices and systems are property of the District and all use must be in accordance with established policies, standards, and guidelines.

1. The District allows limited use of the network, systems, and devices for personal reasons (personal correspondences, online banking, etc.), but personal use must not be abused. Personal use is acceptable provided it is limited to the following considerations:
 - a) It does not have a negative impact on overall productivity.
 - b) It does not cause additional expense to the District.
 - c) It does not compromise the District in any way.
 - d) It does not disrupt the network performance in any way.
 - e) It does not, in any way, contradict any other District policies, standards, and/or guidelines.
2. District assets and systems may not be used for illegal or unlawful purposes, including copyright infringement, obscenity, personal gain, libel, slander, fraud, defamation, plagiarism, intimidation, forgery, impersonation, illegal gambling, soliciting for pyramid schemes, and computer tampering (e.g., spreading computer viruses).
3. Users should not access and/or purchase technology, devices, applications, or services that are not formally authorized and approved by IT. (This circumvention of the IT Department is known as Shadow IT.)
4. IT assets, such as laptops and mobile devices, are intended to be used only by the people to whom they have been issued. If an unauthorized person is using the device, the use should be monitored to ensure that no sensitive data is accessed by the unauthorized party. The person to whom the device was issued is ultimately responsible for any actions performed with the device.

5. Users will protect District IT assets, keeping them physically and logically secured and under the control of the user, including but not limited to:
 - a) Locking down laptops with a locking cable or storing them in a locked drawer or cabinet when leaving them in the office.
 - b) Ensuring the workstation is locked (screen/keyboard) whenever walking away from it.
6. Access to District systems and devices is controlled through individual accounts and passwords. Users are responsible for not sharing the password for that account with others.
7. As applicable, you must comply with the District's record management program, the Texas Open Meetings Act, the Public Information Act, the Family Educational Rights and Privacy Act (FERPA), including retention and confidentiality of student and District records, and campaign laws.

B. Electronic Communication and Internet Use

The use of District communication and internet systems and services (including email, instant messaging, voicemail, forums, social media, and more) is provided to perform regular daily tasks. The use is a privilege, not a right, and therefore must be used with respect, common sense, and in accordance with the following requirements:

1. The email systems and other messaging services used at the District are owned by the District and are therefore its property. This gives the District the right to monitor any and all email traffic passing through its email system. This monitoring may include, but is not limited to, inadvertent reading by IT staff during the normal course of managing the email system, review by the HR and legal team during the email discovery phase of litigation, and observation by management in cases of suspected abuse or employee inefficiency.
2. The District often delivers official communications via email. As a result, employees of the District with email accounts are expected to check their email in a consistent and timely manner so that they are aware of important District announcements and updates, as well as for fulfilling business and role-oriented tasks.
3. Electronic communication and the internet must not be used for illegal or unlawful purposes, including, but not limited to, copyright infringement, obscenity, libel, slander, fraud, defamation, plagiarism, harassment (including offensive and/or insulting content), discrimination, intimidation, forgery, impersonation, illegal gambling, soliciting for illegal pyramid schemes, and computer tampering (e.g., spreading computer viruses).
4. District communication platforms and the internet are not to be used for purposes that could be reasonably expected to strain storage or bandwidth (e.g., emailing large attachments instead of pointing to a location on a shared drive). Individual use of resources will not interfere with others' use of the District email system and services.
5. Users are prohibited from using accounts that do not belong to them and are prohibited from using platforms to impersonate others.
 - a) Users are not to give the impression that they are representing or providing opinions on behalf of the District unless otherwise authorized.
6. Users shall not open message attachments or click on hyperlinks sent from unknown or unsigned sources through any platform (email, instant message, social media, etc.). Attachments/links are the primary source of malware and social engineering and should be treated with utmost caution.
7. The District prohibits the use of email or other messaging platforms for mass unsolicited mailings, chain letters, and competitive commercial activity unless preapproved by the District.

8. Any allegations of misuse should be promptly reported to the Service Desk. If you receive an offensive or suspicious email, do not forward, delete, or reply to the message. Instead, report it directly to Service Desk.
9. Email users are responsible for mailbox management, including organization and cleaning. If a user subscribes to a mailing list, he or she must be aware of how to unsubscribe from the list and is responsible for doing so if their current email address changes.
10. Archival and backup copies of email messages may exist, despite end-user deletion, in compliance with District's Records Retention Policy.
11. Email access will be terminated when the user terminates their association with the District, unless other arrangements are made. The District is under no obligation to store or forward the contents of an individual's email inbox/outbox after the term of their relationship has ceased.
12. Users shall not send sensitive information that is not appropriately protected (encrypted). (Appropriate means of protection include but are not limited to OneDrive or encrypted attachments through email.)
 - a) Users shall take extra precautions when transmitting District, client, and/or other regulated information via electronic communications. Sensitive material should be marked and encrypted appropriately. Keep in mind that all email messages sent outside of the District become the property of the receiver.
13. Users are not permitted to automatically forward emails received by their District account to an external email address or another messaging system.
14. THE DISTRICT ASSUMES NO LIABILITY FOR DIRECT AND/OR INDIRECT DAMAGES ARISING FROM THE USER'S USE OF THE DISTRICT'S EMAIL SYSTEM AND SERVICES. USERS ARE SOLELY RESPONSIBLE FOR THE CONTENT THEY DISSEMINATE. THE DISTRICT IS NOT RESPONSIBLE FOR ANY THIRD-PARTY CLAIM, DEMAND, OR DAMAGE ARISING OUT OF THE DISTRICT'S EMAIL SYSTEMS OR SERVICES.
15. Email users are expected to remember that email sent from the District's email accounts reflects on the District. Email users must comply with normal standards of professional and personal courtesy and conduct.
16. Users shall not attempt to bypass the District's web filter through the use of any technologies or third-party browsers. Attempts to do so violate the acceptable use policy and all of the User's privileges may be revoked as a result of such a violation.

C. Security Unacceptable Uses

The IT Department will manage security policies, network, application, and data access centrally using whatever technology solutions are deemed suitable. Any attempt to contravene or bypass security will be deemed an intrusion attempt and will be subject to disciplinary action. The following restrictions and requirements are enforced at the District to establish and maintain the confidentiality, integrity, and availability of systems and data:

1. Users must not introduce malicious programs into the network or a system (e.g., viruses, worms, Trojan horses, email bombs, etc.).
2. Users must not introduce or contribute to security breaches or disruptions of network communication.

- a) Security breaches include, but are not limited to, accessing data of which the user is not an intended recipient or logging into a system or account that the user is not expressly authorized to access unless these actions are within the scope of regular duties. For the purposes of this section, "disruption" includes, but is not limited to, network sniffing, ping floods, packet spoofing, denial of service, and forged routing information for malicious purposes.
- 3. Port scanning or security scanning is expressly prohibited unless prior authorization is granted in writing by the Chief Information Officer.
- 4. Users must not execute any form of network monitoring that will intercept data not intended for the user's host unless this activity is a part of the users' daily activities.
- 5. Users must not circumvent user authentication or security of any host, network, or account.
- 6. Users must not introduce honeypots, honeynets, or similar technology on the corporate network.
- 7. No servers (i.e., running web or FTP services from user workstations) or devices that actively listen for network traffic are allowed to be put on the corporate network without prior written authorization by the Chief Information Officer.
- 8. Users must not interfere with or deny service to any user (for example, denial of service attack).

D. Ownership and Privacy Issues

The systems are the District's property as well as, for access and security purposes, the information they contain. We respect our users' right to privacy; however, we grant access to our systems for business and educational use. Users must not expect that information contained in these systems is private. The District reserves the right, from time to time, for legal, or otherwise valid reasons, to read, monitor, control, and access user files and messages created, saved, transmitted, or received. In the event of intercepted illegal activity, we will bring them to the attention of the appropriate authority without prior notification to the sender or receiver.

E. Noncompliance

Violations of this policy will be treated like other allegations of wrongdoing at the District and will be investigated per established procedures. Sanctions may include, but are not limited to, one or more of the following:

- 1. Oral and/or written warning
- 2. For Employees: Probation, suspension, or termination of employment
- 3. Discipline in accordance with the Student Code of Conduct
- 4. Legal action per applicable laws and contractual agreements
