SAVVAS EasyBridge

TEACHER LOGIN INSTRUCTIONS

District Name:	Muscle Shoals City School Dist
EasyBridge Plus URL:	https://sso.rumba.pk12ls.com/sso/login?service=https://cat.easybridge.pk12ls.com/ca/dashboard.htm&idpmetadata=https://www.mscs.k12.al.us/
Ways to Access	1. Click the URL above and save it to a favorite link 2. From any Google product such as Gmail, click the waffle icon in the upper right and choose Easy Bridge from the app list 3. Go to the MSCS Website, go to Resources -> Employee Resources, click EasyBridge under Educational Software Links

Dear Teachers:

Your district has implemented an EasyBridge Auto-Rostering solution which means you can now log into EasyBridge and see your updated classes and rosters. Add products to your EasyBridge classes, launch the learning platform from EasyBridge and just like that, you are ready to start assigning content to your EasyBridge classes on the learning platform! EasyBridge classes can be used in Realize, MathXL for School, SuccessMaker, and Classview iLit.

Alternative Rostering Options – Realize Only:

Google Classroom teachers: Can use their new EasyBridge account to quickly access Realize from EasyBridge, link their Google Classroom account to Realize and import their Google Classroom classes into Realize. Be sure to see the Google Classroom section of this document for additional details.

How to use this document:

Cntrl + Click on the names of the sections of this document to go directly to the login and set up instructions.

TEACHER EASYBRIDGE LOGIN PROCESS

SAVVAS EasyBridge

TEACHER EASYBRIDGE LOGIN PROCESS

Log into:

Click Savvas EasyBridge link, you are now in EasyBridge:

EasyBridge (EB) Teachers:
EB auto-rostered accounts are separate from EB manual rostering accounts, and they do not sync with each other. Add Products to classes in EB to sync EB classes and rosters to any of your district's integrated learning platforms. When using EB classes on the learning platforms, **students must log into EB to access the learning platforms**.

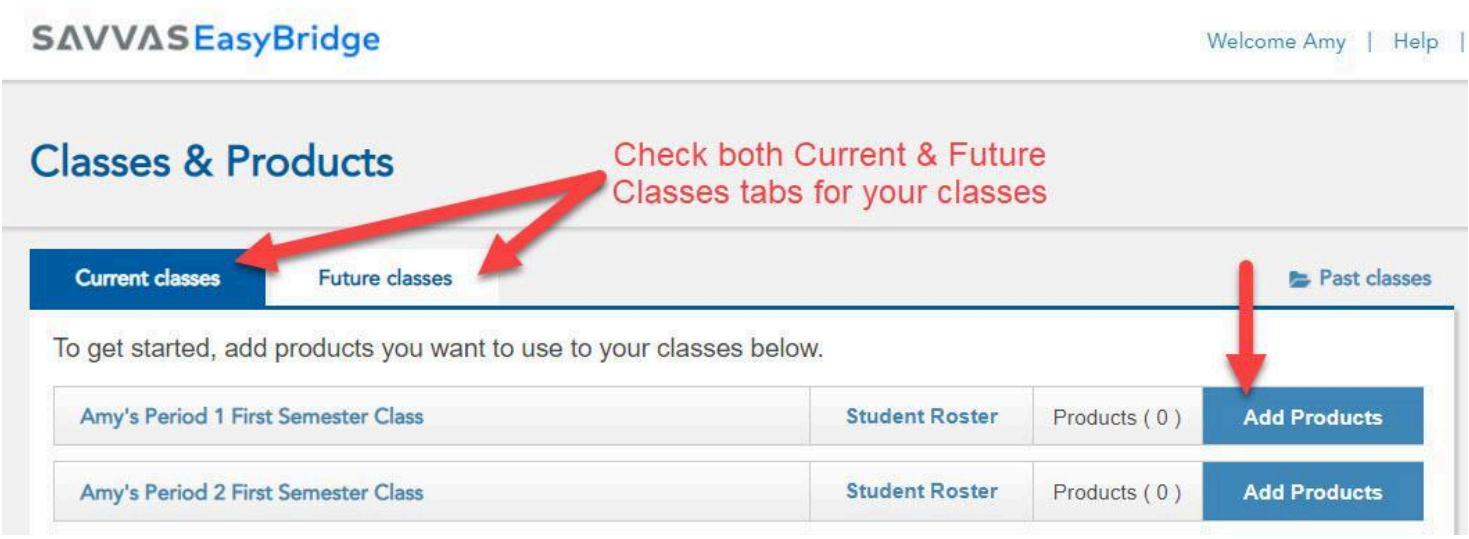

Google Classroom (GC) Teachers:
Will use EB accounts to access Realize from EB but will import GC Classes into Realize. GC teachers do not add REALIZE products to EB Classes. **Students will log into Google Classroom to access Realize and assignments, not EB**. GC teachers using other integrated platforms like MathXL for School, SuccessMaker, and ClassView will add those products to classes in EB. Students will access Realize from GC but will need to log into EB to access assignments and content in MathXL for School, SuccessMaker, and ClassView.

SAVVAS EasyBridge

USING EASYBRIDGE CLASSES IN REALIZE

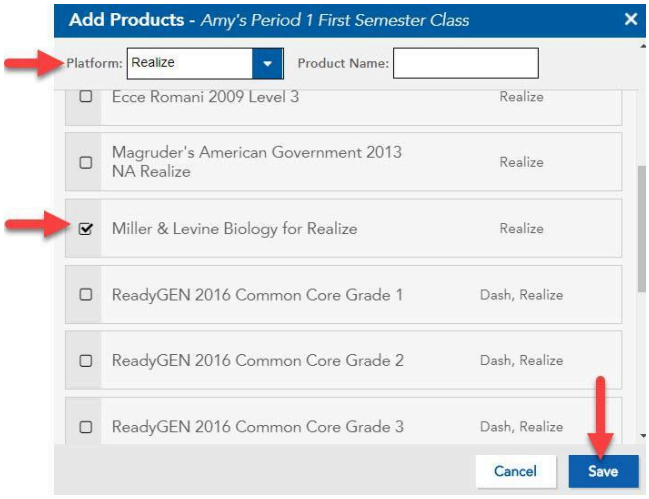

Log into EasyBridge and add a product to a class or classes:

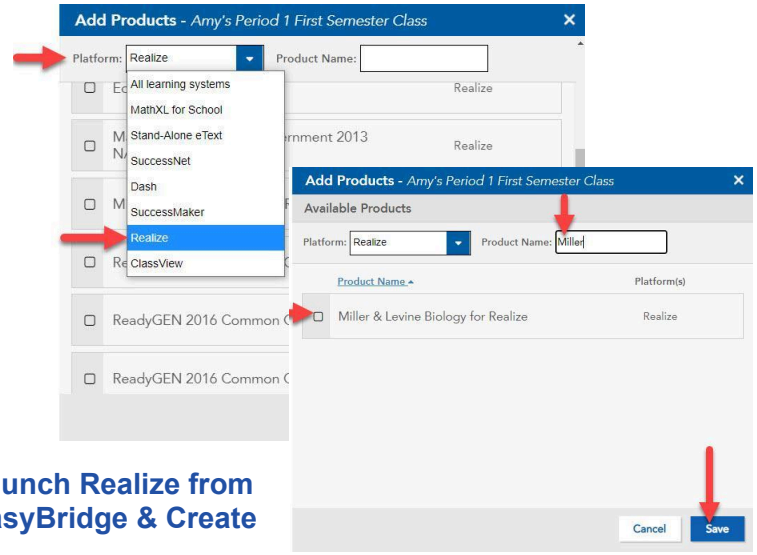

You must add a product to a class in EasyBridge to see that class and roster in Realize

In the Product Picker, find the textbook, check the box, and click Save: (utilize the search by Platform and/or Product Name quick search tools)

Launch Realize from EasyBridge & Create

Assignments

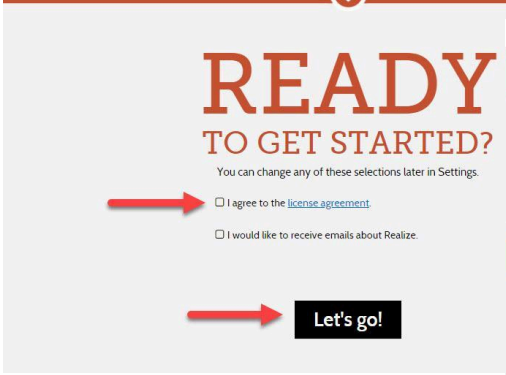

1. **Open Realize by clicking the name of the textbook or the Realize button**

©2020 Savvas Learning Company LLC All Rights Reserved. **Savvas**™ and **Savvas Learning Company**™ are the exclusive trademarks of Savvas Learning Company LLC in the US and in other countries.

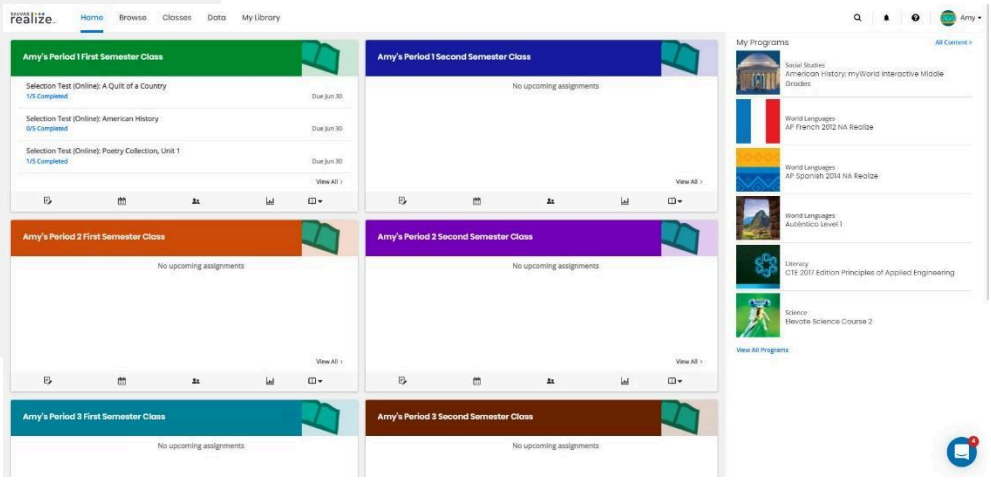

SAVVAS EasyBridge

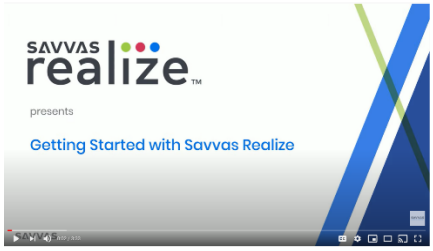

2. The first time Realize is launched from EasyBridge, initialize the account

3. In Realize, click Browse to add assignments or Classes to view EasyBridge classes & rosters

[Get started with Realize (Video)]

STUDENTS MUST LOG INTO EASYBRIDGE AND LAUNCH REALIZE FROM EASYBRIDGE

Realize Resources and **EasyBridge Plus Resources** on **mySavvasTraining.com**

USING GOOGLE CLASSROOM CLASSES IN REALIZE

Google Classroom

1. Log into Google Classroom, create class, & invite students to join:

https://classroom.google.com/

Online Resources: Create Google Classroom Class and Add Students &

Verify Student Joined Google Classroom Class

WHAT GOOGLE CLASSROOM TEACHERS NEED TO KNOW:

USERS WITH MULTIPLE ACCOUNTS IN REALIZE

GC can link to only one EB account in Realize. This account may be a non-federated EB Basic account, or a federated EB Plus or Auto account. If you linked GC to Realize with an EB Basic account and would like to start using an EB Plus or Auto account to open Realize, you will first need to unlink your EB Basic account from your GC account in Realize.

UNLINKING GOOGLE CLASSROOM FROM REALIZE - LOSS OF DATA

Whenever you unlink GC from either an EB Basic or Plus/Auto account, there will be a 100% loss of data. You will start over

©2020 Savvas Learning Company LLC All Rights Reserved. **Savvas**™ and **Savvas Learning Company**™ are the exclusive trademarks of Savvas Learning Company LLC in the US and in other countries.

blank in Realize. Unlinking an account from GC should ONLY be done when absolutely necessary and there is no other course of action for the teacher. Contact support (800)848-9500 to verify unlinking GC from Realize BEFORE unlinking.

GOOGLE CLASSROOM IS SYSTEM OF RECORD FOR THE CLASS ROSTER

Teachers will need to add or drop students from the Google Class in GC. It is best practice to verify the students have completed the join Google Class process before creating assignments for the GC Class in Realize. Roster changes in GC should automatically sync to Realize, if not, use the sync with Google link on the GC class in Realize (Go to Classes).

REALIZE IS THE SYSTEM OF RECORD FOR ASSIGNMENTS

Teachers must be in Realize to create and/or maintain assignments. Teachers should not change assignment names or due dates in GC.

EASYBRIDGE AND GOOGLE CLASSROOM CLASSES DO NOT SYNC ON THE REALIZE PLATFORM

To avoid confusion, teachers should use either GC classes or EB classes in Realize, not both because these classes will not sync with each other in Realize. EB classes in Realize DO NOT sync out to GC.

ONLY STUDENTS IN THE GC CLASS ROSTER IN REALIZE RECEIVE THE ASSIGNMENT

Any student that joins a Google Class after the assignment was created in Realize will need to be manually added to the assignment in Realize.

GOOGLE CLASSROOM SUPPORTS CO-TEACHERS

Co-teachers can be added to a Google Class and this must be done in GC. Teachers **should not invite other teachers to their Google Class as a student.** This may result in role changes in Realize and a loss of data.

HIDING GC and EB CLASSES IN REALIZE

If a Google class is hidden in Realize it will not hide the assignments related to that class from students in GC. Students will receive an error message in GC when they click on assignments from Google classes that were hidden in Realize. Google classes hidden in Realize will not be hidden in Realize for co-teachers of the Google class.

If an EB class is hidden in Realize, that class is hidden from students in EB *unless* the class has had an additional product added (SuccessNet, Classview iLit, or MathXL for School product). Example: Teacher adds both a Realize and MathXL product to a class in EB, then hides the EB class in Realize - students will see the hidden class in EB, but they will only see the MathXL product in EB. If the additional product added to an EB class is SuccessMaker, the class will still be hidden in EB for the student

REALIZE CANNOT SUPPORT MORE THAN 100 USERS IN A CLASS

Adding 100+ users to a Google Class that has been imported into Realize will cause stability issues in Realize resulting in sync errors between GC and Realize.

THE GROUPS FEATURE IN REALIZE IS NOT AVAILABLE IN GOOGLE CLASSROOM CLASSES

It is not possible to create a group of students in a GC Class in Realize.

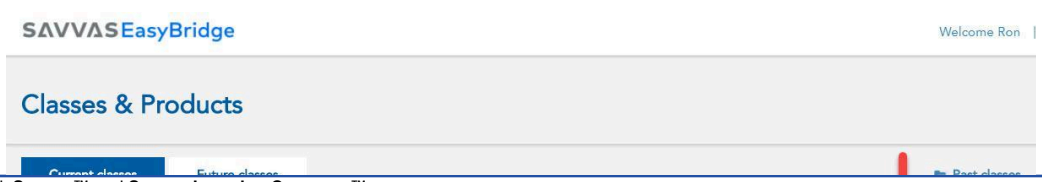

DO NOT ADD SUCCESSMAKER TO GOOGLE CLASSES IN REALIZE

Teachers from a district or school that integrated SuccessMaker with EB Plus/Auto will see the SuccessMaker product in Realize. Do not add SuccessMaker to GC classes in Realize. Only add SuccessMaker to EB Classes in EB and have students access SuccessMaker from EB, not GC. Do not hide EB classes in Realize if SuccessMaker has been added to the class in EB.

USING MATHXL FOR SCHOOL IN EASYBRIDGE:

Log into EasyBridge, add MathXL for School to class(es), select the MathXL for School Course, and launch MathXL for School from EasyBridge:

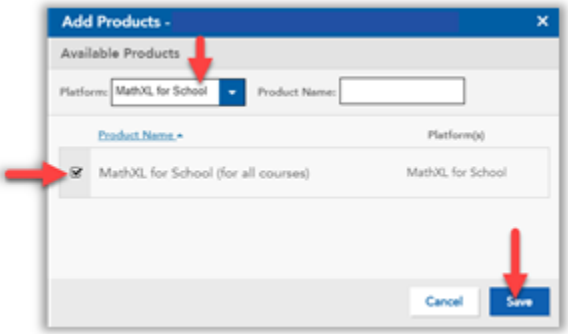

1. **Log into EasyBridge and add MathXL for School to class(es)**

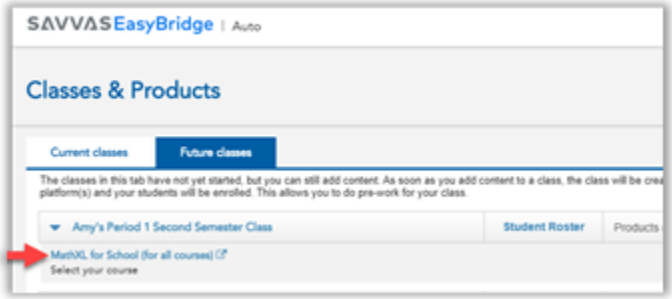

©2020 Savvas Learning Company LLC All Rights Reserved. **Savvas**™ and **Savvas Learning Company**™ are the exclusive trademarks of Savvas Learning Company LLC in the US and in other countries.

SAVVAS EasyBridge

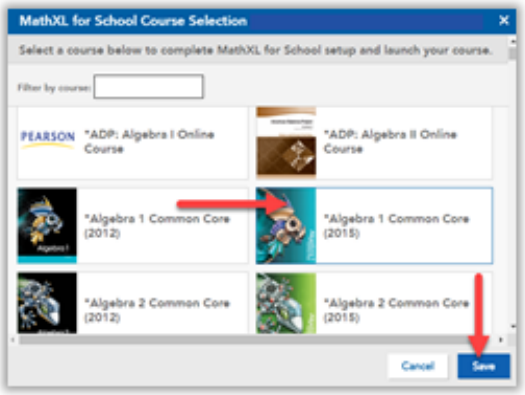

2. Filter to MathXL for School, check the box, and Save

3. Now you must select the MathXL for School Course. Click MathXL for School (for all courses):

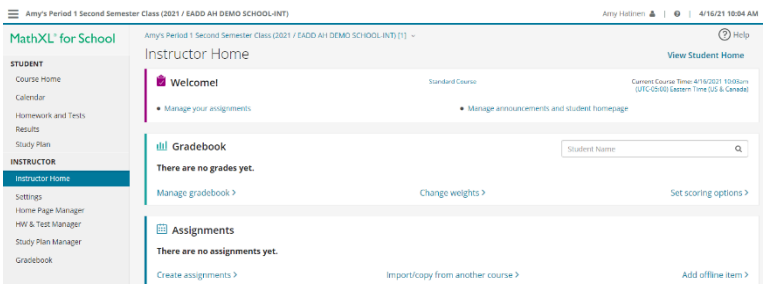

4. Select the course and Save

5. Launch MathXL for School by clicking the MathXL for School (for all courses) link under the class name. Do not use the MathXL for School resources button.

****STUDENTS MUST LOG INTO EASYBRIDGE AND OPEN MATHXL FOR SCHOOL FROM EASYBRIDGE****

Teachers will not see EasyBridge students in MathXL for School until the student launches MathXL from EasyBridge

MathXL for School resources on mySavvasTraining.com
