

Smiley Face Math
Kindergarten, Worksheet V

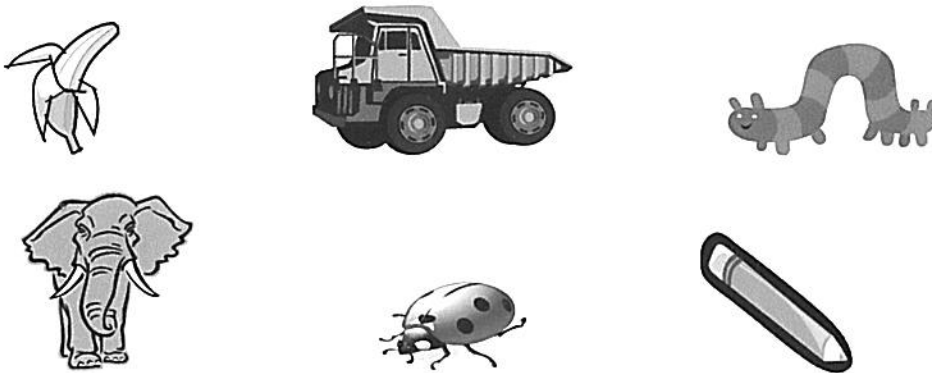

Name: _____

- ☺ ☺ ☺ 1. Circle the pictures of cubes. Tell how you know which shapes are cubes.

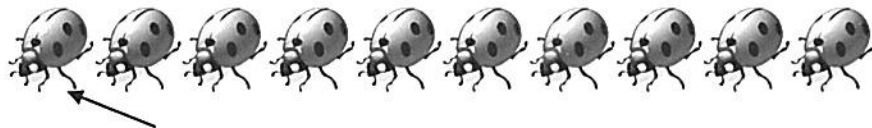

Answer: _____

- ☺ ☺ ☺ 2. Look at the pictures below. Circle the objects that, in real life, are heavier than you. Put an X on the objects that are lighter than you.

- ☺ ☺ ☺ 3. Follow the directions below using the row of ladybugs.

Start on the left. Draw a circle around the second ladybug. Draw a line under the sixth ladybug. Draw a square around the tenth ladybug.

☺☺☺ 4. Look at the groups of shapes sorted below. Explain how these shapes are sorted into these groups.

The image shows three groups of shapes, each enclosed in an oval and accompanied by a label box. The first group on the left contains six circles: three are solid black and three are white. The label box next to it says "These shapes are all _____." The second group on the right contains eight triangles: four are white and four are solid black. The label box next to it says "These shapes are all _____." The third group at the bottom contains eight cylinders: four are white and four are solid black. The label box next to it says "These shapes are all _____."

☺☺ 5. Now re-sort the shapes above a different way by drawing them in the two ovals below. Explain how you knew where to put each shape.

Two large empty ovals are provided for re-sorting the shapes. Below each oval is a label box. The left oval's label box says "These are all _____." The right oval's label box says "These are all _____."
